Nivel	Resumen Narrativo	Indicador	Medios de Verificación	Supuestos
FIN	Contribuir a la seguridad y paz vecinal en el municipio de Oaxaca de Juárez mediante la provisión de servicios integrales de seguridad pública, prevención del delito y atención a víctimas.	Incidencia delicitiva. Delitos registrados en el ejercicio que se informa con base en el informe de incidencia delictiva del Secretariado Ejecutivo Nacional.	Reporte de la Incidencia Delectiva Diciembre 2025. Área responsable de la información: Secretariado Ejecutivo del Sistema Nacional de Seguridad Pública; Información de carácter anual; Archivo digital de la página oficial del Secretariado Ejecutivo del Sistema Nacional de Seguridad Pública.	Las instancias federales y estatales de seguridad pública mantienen la coordinación y el intercambio de información con el municipio para fortalecer las acciones de prevención y combate a la delincuencia.
PROPÓSITO	La población del municipio de Oaxaca de Juárez accede a servicios integrales de seguridad vial, prevención del delito, atención a víctimas y proximidad social que fortalecen la seguridad comunitaria y contribuyen a la disminución de la incidencia delictiva.	Cumplimiento de las acciones integrales de seguridad pública previstas en el programa. Total de acciones integrales previstas en los componentes del programa.	Informe anual de las acciones integrales de seguridad pública y movilidad previstas, generado por el Titular de la Secretaría de Seguridad Vecinal. Área responsable de la información: Secretaría de Seguridad Vecinal; Información de carácter anual; Archivos físico y digital de la Secretaría de Seguridad Vecinal.	Las instancias municipales, estatales y federales de seguridad mantienen mecanismos de coordinación y colaboración que facilitan la prestación eficiente de los servicios de seguridad y atención a la ciudadanía.
COMPONENTE 1	Acciones de gestión operativa y técnica para la seguridad vial implementadas.	Porcentaje de acciones operativas y técnicas de seguridad vial implementadas. (Acciones operativas y técnicas de seguridad vial ejecutadas/ Acciones operativas y técnicas de seguridad vial programadas)*100	Informe semestral de acciones de gestión operativa y técnica para la seguridad vial implementadas, emitido por el Titular de la Dirección de Movilidad, dirigido al Titular de la Secretaria de Seguridad Vecinal. Área responsable de la información: Dirección de Movilidad; Información de carácter semestral; Archivos físico y digital de la Dirección de Movilidad.	En el municipio se cuenta con alta siniestralidad debido a que la ciudadanía infringe la normatividad en materia de movilidad y seguridad vial, las vías, señalética y semáforos se encuentran en mal estado y existe falta de conciencia y educación vial.
COMPONENTE 2	Acciones de gestión operativa y técnica para la prevención del delito y combate a la violencia familiar implementadas.	Porcentaje de acciones para la Prevención del Delito y Combate a la Violencia Familiar implementadas. (Número de acciones de la Unidad de Prevención del Delito y Combate a la Violencia Familiar implementadas/ número de acciones de la Unidad de Prevención del Delito y Combate a la violencia Familiar implementadas programadas)*100	Informe semestral de acciones de gestión operativa y técnica para la prevención del delito y combate a la violencia familiar implementadas, emitido por la Titular de la Unidad de Prevención del Delito y Combate a la Violencia Familiar, dirigido al Titular de la Secretaria de Seguridad Vecinal. Área responsable de la información: Unidad de Prevención del Delito y Combate a la Violencia Familiar; Información de carácter semestral; Archivos físico y digital de la Unidad de Prevención del Delito y Combate a la Violencia Familiar.	La ciudadanía participa activamente en acciones que fortalecen la cultura de prevención del delito y de denuncia.

1. Diagnóstico del Programa presupuestario

1.1 Descripción del Problema

Antecedentes y definición del problema

El municipio de Oaxaca de Juárez enfrenta dificultades en la gestión, organización y toma de decisiones dentro de la administración pública municipal, lo que limita la eficiencia institucional, la coordinación entre dependencias y la capacidad para atender de manera oportuna las demandas ciudadanas. Estas deficiencias se manifiestan en procesos administrativos fragmentados, escasa sistematización de la información y una débil cultura de planeación basada en resultados, afectando la eficacia del gobierno local y la confianza de la población en sus instituciones. Además, el análisis institucional y el diagnóstico oficial contenido en el "CONCENTRADO OELA 21-08-2025 – Líneas de acción por dependencia y problemática identificada" muestran que la Secretaría presenta desafíos persistentes en la estandarización de procesos, integración de sistemas de información y eficiencia administrativa. Estos antecedentes evidencian la necesidad de fortalecer estructuras, capacidades y herramientas de la Secretaría para garantizar una gestión pública municipal más efectiva y orientada al servicio ciudadano.

Justificación del Pp

De acuerdo con las facultades establecidas en los artículos 68 y 69 de la Ley Orgánica Municipal del Estado de Oaxaca, el Ayuntamiento tiene la responsabilidad legal de garantizar el funcionamiento eficiente de la administración pública, asegurar la correcta observancia del marco normativo municipal y fortalecer los mecanismos de coordinación institucional. Asimismo, está obligado a implementar medidas que mejoren los procesos administrativos, la gestión pública y la provisión de servicios municipales.

En este contexto, la Secretaría Municipal —como instancia normativa y de coordinación administrativa— posee atribuciones directas para conducir procesos de modernización gubernamental, estandarización operativa, actualización normativa y fortalecimiento institucional. La intervención del Gobierno Municipal se justifica plenamente debido a que el problema definido en el apartado 1.1.1 —insuficiencia de capacidades institucionales para coordinar y modernizar los procesos administrativos y normativos del Ayuntamiento— constituye un déficit público cuya atención no puede ser asumida por actores privados ni por dependencias aisladas.

Dado que el rezago administrativo, la falta de estandarización, la dispersión de información y la ausencia de mecanismos de gestión basados en evidencia afectan funciones esenciales del Ayuntamiento, solo la autoridad municipal, a través de la Secretaría Municipal y el programa presupuestario correspondiente, puede implementar acciones que corrijan estas fallas estructurales.

Vinculación del Problema con el Programa Presupuestario

El problema identificado genera efectos directos sobre la eficiencia interna del gobierno y sobre la capacidad de respuesta al ciudadano. Por ello, el Programa Presupuestario constituye el instrumento operativo que permitirá atender las causas identificadas en el diagnóstico:

La insuficiencia de procesos estandarizados se atiende mediante la elaboración y actualización de normativas, manuales, lineamientos y procedimientos.

La dispersión y obsolescencia de información institucional se enfrenta con la implementación de herramientas digitales, sistemas de control, archivo y seguimiento.

Las limitaciones de personal se abordan mediante capacitación, profesionalización y fortalecimiento de competencias administrativas.

El rezago normativo se atiende mediante la armonización de reglamentos y actualización del marco institucional.

Con ello, el Programa incide directamente sobre las causas del problema público y genera capacidades para mejorar la gestión administrativa municipal. El Programa Presupuestario se alinea con:

Eje Estratégico: Gobierno Eficiente y Transparente

Estado actual del problema

Para dimensionar el problema en el municipio de Oaxaca de Juárez, es importante considerar el diagnóstico municipal incluido en el Plan Municipal de Desarrollo 2025-2027:

En el apartado de ejes transversales se señala que la igualdad sustantiva es un eje transversal, lo cual implica que el municipio reconoce que persisten brechas y desigualdades de género. Si bien el documento no detalla en ese extracto todas las cifras de violencia contra mujeres y brechas de género para el municipio, la existencia del eje transversal da cuenta de un reconocimiento explícito del problema. Desde una dimensión institucional, la Ley Estatal prevé que los municipios deben coordinar la prevención y atención de la violencia de género. Por lo tanto, el estado actual del problema se caracteriza por la existencia de violencia de género y vulnerabilidad de las mujeres en el municipio; las brechas de igualdad de género que afectan el acceso de las mujeres a oportunidades económicas, sociales y de participación; una necesidad de institucionalización, organización y focalización de recursos para atender estas brechas y violencia. Este diagnóstico sustenta la necesidad de contar con un programa presupuestario que permita orientar, coordinar y medir la acción pública en favor de las mujeres.

Evolución del problema

la insuficiencia de capacidades institucionales para coordinar, modernizar y estandarizar los procesos administrativos y normativos del Ayuntamiento— no surgió de manera repentina; es el resultado de un proceso acumulativo derivado de rezagos institucionales, cambios normativos, limitaciones operativas y la ausencia de mecanismos sólidos de gestión pública. Su evolución puede describirse en tres momentos clave: Durante administraciones previas se identificaron deficiencias estructurales relacionadas con la falta de estandarización de procesos internos y la escasa actualización normativa. Muchas áreas operaron con criterios propios, sin manuales uniformes de procedimientos ni mecanismos formales de control, lo que generó disparidad en tiempos de respuesta y prácticas administrativas fragmentadas. La Secretaría Municipal no contaba con capacidades suficientes para conducir procesos de modernización, lo que permitió que estas brechas se consolidaran con el tiempo.

Experiencias de atención

En ejercicios administrativos anteriores, el Ayuntamiento y la Secretaría Municipal implementaron diversas acciones orientadas a mejorar la gestión institucional, actualizar procesos y fortalecer la coordinación interna. Sin embargo, los resultados obtenidos fueron parciales debido a limitaciones operativas, técnicas y normativas que impidieron una solución sostenida del problema estructural. Las principales experiencias de atención y sus dificultades se describen a continuación: En periodos previos se realizaron esfuerzos para revisar y actualizar algunos reglamentos y manuales administrativos. No obstante, estos ejercicios fueron fragmentados y respondieron a necesidades específicas de áreas, sin una estrategia integral de armonización normativa.Limitaciones identificadas

Los documentos elaborados no se integraron en un sistema normativo centralizado.

La falta de seguimiento impidió su aplicación permanente.

No existieron equipos técnicos estables encargados de actualizar, validar o publicar la normatividad.

Varias dependencias continuaron utilizando versiones obsoletas por desconocimiento o ausencia de socialización.

Resultado: las actualizaciones no lograron modificar las prácticas institucionales ni estandarizar los procesos administrativos.

1.2 Metodología para la identificación de la población objetivo y definición de fuentes de información

De acuerdo con el último Censo de Población y Vivienda realizado por el Instituto Nacional de Estadística y Geografía (INEGI) en 2020, la población total del municipio de Oaxaca de Juárez asciende a 270,955 personas (INEGI, 2020).

Definición y cuantificación de los conceptos poblacionales del Pp

Población Potencial	Total de personas que enfrentan las deficiencias en la gestión, organización y toma de decisiones dentro del Ayuntamiento.	**Cuantificación:**	Aprox. 2,100 servidores públicos municipales
		Criterios de Focalización	Institucional (todas las dependencias y entidades del Gobierno Municipal)
	Personal técnico, operativo y directivo responsable de los	**Cuantificación:**	Aprox. 650 servidores públicos

Población Objetivo	procesos de planeación, programación, seguimiento y evaluación institucional que será directamente atendido por el programa.	**Criterios de Focalización**	Funcional / Institucional – Unidades administrativas con funciones sustantivas en planeación, programación y evaluación.
Población atendida (beneficiarios)	Dependencias municipales que participarán directamente en las acciones de fortalecimiento institucional y adopción de herramientas de gestión y planeación.	**Cuantificación:**	25 dependencias municipales
		Criterios de Focalización	Institucional – Dependencias y entidades de la administración central y paramunicipal.

Arbol de Problemas

EFECTOS INDIRECTOS

- Baja calidad en la prestación de servicios municipales
- Descoordinación operativa entre dependencias
- Incremento de tiempos de respuesta y trámites lentos
- Disminución de la confianza ciudadana en la gestión

EFECTOS DIRECTOS

- Procesos administrativos inconsistentes y heterogéneos
- Información institucional dispersa y poco accesible
- Falta de seguimiento y control de acciones
- Baja profesionalización del personal

PROBLEMA CENTRAL

"Deficiente gestión administrativa y operativa de la Secretaría Municipal que limita la eficiencia institucional del Ayuntamiento."

CAUSAS DIRECTAS

- Normatividad desactualizada y no armonizada
- Procesos administrativos no estandarizados
- Capacitación insuficiente y sin continuidad
- Uso limitado de herramientas tecnológicas
- Coordinación interna insuficiente

CAUSAS INDIRECTAS

- Falta de un modelo integral de gestión institucional
- Ausencia de sistemas interoperables
- Rotación frecuente de personal

Arbol de Objetivos

Fines

Objetivo

Medios

FINES INDIRECTOS

- Mejora sustantiva en la calidad de los servicios públicos
- Mayor coordinación operativa entre dependencias municipales
- Reducción de tiempos de respuesta y trámites más ágiles
- Incremento de la confianza ciudadana en el gobierno local

FINES DIRECTOS

- Procesos administrativos homogéneos y eficientes
- Información institucional integrada y disponible
- Seguimiento sistemático de acciones y metas
- Personal con mayores capacidades técnicas

OBJETIVO CENTRAL

"Gestión administrativa y operativa fortalecida en la Secretaría Municipal para mejorar la eficiencia institucional del Ayuntamiento."

MEDIOS DIRECTOS (equivalentes a causas directas)

- Actualización y armonización normativa
- Estandarización de procesos administrativos
- Implementación de un programa permanente de capacitación

2. Estrategia para la selección de alternativas.	
Explicar brevemente por qué las medidas que constituirán la intervención del PP son las opciones de acción más efectivas para lograr el objetivo deseado; debe guardar relación con el árbol del objetivo.	A. Alternativa Integral de Fortalecimiento Institucional (AI) Intervención: actualización normativa, estandarización de procesos, digitalización integrada, programa permanente de capacitación, creación de unidad técnica de mejora continua. Enfoque: sistémico y sostenido. B. Alternativa Tecnológica Prioritaria (AT) Intervención: inversión fuerte en plataformas y sistemas interoperables + capacitación técnica en uso.

1. Diagnóstico del Programa presupuestario

1.1 Descripción del Problema

Antecedentes y definición del problema

El municipio de Oaxaca de Juárez posee una estructura organizacional amplia y en crecimiento, integrada por 22 unidades administrativas en 2025 (frente a 16 en 2024) y un total de 4,475 personas servidoras públicas. Este incremento de áreas y personal implica una mayor demanda de servicios administrativos, un aumento en la complejidad de los procesos internos y la necesidad de fortalecer la coordinación institucional para asegurar una operación eficiente en todas las dependencias municipales. En un entorno urbano dinámico y con creciente exigencia ciudadana, estos factores generan presiones adicionales sobre la capacidad de gestión del gobierno municipal.

En este contexto, persisten diversos factores estructurales que inciden en el desempeño de la Oficialía Mayor: la falta de digitalización de procedimientos clave, la prevalencia de procesos manuales y presenciales, la ausencia de sistemas integrados para administrar recursos humanos, materiales y logísticos, así como debilidades en la planeación interna y la estandarización de procesos. Estas condiciones provocan fragmentación administrativa, rezagos en la atención de requerimientos institucionales, tiempos de respuesta prolongados y dificultades para dar seguimiento oportuno a las solicitudes operativas que realizan las Sindicaturas, Regidurías, Secretarías, Dependencias y Organismos municipales.

A partir del análisis institucional, la problemática central se define como que la administración pública municipal enfrenta dificultades en la gestión, organización y toma de decisiones, lo que afecta directamente la operación de los servicios internos del Ayuntamiento. Estas deficiencias se manifiestan en duplicidad de procedimientos, baja trazabilidad de los procesos, uso ineficiente de recursos y dependencia de actividades presenciales que limitan la eficiencia y la calidad de la gestión administrativa.

La evidencia reciente confirma estos desafíos: el crecimiento en el número de unidades administrativas y en el personal municipal no ha sido acompañado por una modernización equivalente en los sistemas, métodos de trabajo y herramientas tecnológicas. Esto ha generado rezagos operativos, procedimientos desarticulados y dificultades para garantizar servicios administrativos homogéneos, oportunos y eficientes.

Justificación del Pp

El Gobierno Municipal debe intervenir para atender el problema identificado en el apartado 1.1.1, ya que las dificultades en la gestión, organización y toma de decisiones afectan directamente la operación interna del Ayuntamiento y limitan la capacidad institucional para garantizar servicios administrativos oportunos, eficientes y homogéneos a todas las dependencias municipales. Una administración con procesos fragmentados, baja digitalización y seguimiento insuficiente compromete el funcionamiento cotidiano del gobierno y repercute en la prestación de servicios a la ciudadanía.

La Oficialía Mayor cuenta con las atribuciones legales para conducir esta intervención. De acuerdo con el Artículo 127 del Bando de Policía y Gobierno del Municipio de Oaxaca de Juárez, la dependencia es responsable de emitir criterios y procedimientos para la contratación de capital humano, la adquisición de bienes y servicios, el mantenimiento y resguardo del patrimonio municipal, así como de coordinar inventarios, emitir lineamientos para el ejercicio del gasto y supervisar programas de profesionalización del personal . Asimismo, la Ley Orgánica Municipal del Estado de Oaxaca y los Lineamientos Generales para el Ejercicio del Gasto establecen su competencia para administrar los recursos humanos, materiales y financieros necesarios para el funcionamiento del gobierno municipal.

En este marco, resulta necesario mantener y fortalecer el Programa Presupuestario orientado a la gestión administrativa, ya que se vincula directamente con la problemática identificada y atiende las causas que originan la desarticulación operativa y la ineficiencia administrativa. Por lo anterior, el problema identificado es plenamente coherente con los objetivos del Programa Presupuestario orientado a fortalecer la gestión administrativa municipal, ya que demanda modernización operativa, estandarización de procesos y la adopción de herramientas de gestión que mejoren la organización interna y la capacidad institucional para responder a las necesidades de operación del gobierno municipal.

El Programa Presupuestario contribuirá a reducir esta problemática mediante el fortalecimiento de los procesos de administración interna, la modernización de la gestión de recursos humanos y materiales, la digitalización de procedimientos, la implementación de lineamientos y controles administrativos, y la profesionalización del personal municipal. Estas acciones permitirán mejorar la eficiencia institucional, asegurar el uso adecuado de los recursos, reducir tiempos de respuesta y garantizar la correcta operación de las áreas administrativas que soportan el funcionamiento del Ayuntamiento.

La estrategia del programa se alinea con el Eje 2: Gobierno de Territorio Honesto y Transparente del PMD 2025–2027, específicamente con el Objetivo 2.5: Impulsar una administración eficiente en el gobierno municipal, y con sus estrategias 2.5.1, 2.5.2 y 2.5.3, que orientan el fortalecimiento del desempeño del personal, las relaciones laborales y la optimización de la gestión interna. Asimismo, guarda correspondencia con los instrumentos de planeación federal y estatal que promueven administraciones públicas modernas, transparentes y orientadas a resultados, y con los Objetivos de Desarrollo Sostenible, particularmente:

- ODS 16. Paz, justicia e instituciones sólidas,
- Meta 16.6: Crear a todos los niveles instituciones eficaces y transparentes que rindan cuentas.
- Meta 16.7: Garantizar decisiones inclusivas, participativas y representativas que respondan a las necesidades.

Nombre del Municipio	**Oaxaca de Juárez**
Ejercicio Fiscal	**2026**
Nombre del Programa	**Administración Eficiente de Recursos Institucionales**
Clave del Programa Presupuestario	**´02**
Unidad Responsable del Pp	**OFICIALÍA MAYOR**

Estado actual del problema

Entre 2023 y 2025, el municipio de Oaxaca de Juárez ha experimentado un aumento constante en la complejidad administrativa derivada del crecimiento institucional. El número de unidades administrativas pasó de 18 en 2024 a 23 en 2025, mientras que el personal municipal aumentó de aproximadamente 4,385 personas en 2024 a 4,475 en 2025, presionando la capacidad operativa de la Oficialía Mayor encargada de gestionar los recursos humanos, materiales, logísticos y administrativos del Ayuntamiento.

Los datos presupuestarios confirman la persistencia del problema. El gasto en Servicios Personales (Capítulo 1000) ha representado históricamente la mayor parte del presupuesto municipal: 64.36% en 2023 ($1,238.6 millones), 66.39% en 2024 ($1,053.8 millones) y 64.38% en 2025 ($1,240.3 millones). Aunque la proporción relativa disminuyó ligeramente, los montos absolutos aumentaron, manteniendo una estructura altamente rígida que limita la disponibilidad de recursos para modernizar procesos administrativos, digitalizar trámites, fortalecer el control interno y mejorar la gestión organizacional, funciones esenciales bajo responsabilidad de la Oficialía Mayor.

En el plano operativo, la dependencia enfrenta rezagos en la integración de expedientes, variaciones en la calidad de los procedimientos administrativos, tiempos prolongados de respuesta, duplicidad de información y dependencia de trámites presenciales. Estas condiciones se han evidenciado en la gestión cotidiana de recursos humanos y materiales, en donde se presentan retrasos en la atención de requerimientos institucionales, falta de trazabilidad de procesos y dificultades para garantizar servicios administrativos eficientes a las Sindicaturas, Regidurías, Secretarías, Direcciones y Organismos municipales.

El impacto del problema no se expresa territorialmente sino de manera transversal en toda la estructura del gobierno municipal. Las áreas más afectadas son aquellas que dependen directamente de la Oficialía Mayor para la asignación de recursos, la validación de expedientes, la provisión de insumos, la gestión laboral y la coordinación operativa. Las personas servidoras públicas también se ven afectadas por procedimientos lentos, desarticulados o poco estandarizados, lo que limita su capacidad para cumplir con sus funciones de manera oportuna.

La evidencia trianual confirma que la problemática es persistente y sistémica: una carga administrativa creciente, una estructura organizacional en expansión, procesos desactualizados y herramientas operativas insuficientes mantienen un estado de ineficiencia institucional que afecta directamente el desempeño administrativo del Ayuntamiento.

Evolución del problema

Durante el periodo 2023–2025, la problemática relacionada con la gestión administrativa municipal ha mostrado una evolución marcada por incrementos en la carga operativa, cambios en la estructura institucional y procesos que no han logrado modernizarse al ritmo de las necesidades del Ayuntamiento. En términos estructurales, el número de unidades administrativas pasó de 18 en 2024 a 23 en 2025, mientras que el personal municipal aumentó de aproximadamente 4,385 personas en 2024 a 4,475 en 2025, lo que refleja un crecimiento sostenido de la demanda interna de servicios administrativos, logísticos y de gestión institucional.

En el ámbito presupuestario, el gasto en Servicios Personales (Capítulo 1000) continúa siendo el rubro dominante dentro del presupuesto municipal, representando 64.36% en 2023, 66.39% en 2024 y 64.38% en 2025. Si bien existe una ligera disminución en la proporción, el monto absoluto aumentó de $1,238.6 millones en 2023 a $1,240 millones en 2025, lo que confirma una rigidez presupuestaria persistente y limita la posibilidad de fortalecer procesos administrativos, actualizar sistemas o ampliar capacidades operativas dentro de la Oficialía Mayor.

En el plano operativo, los registros administrativos muestran que entre 2022 y 2024 se mantuvo un volumen promedio anual de 1,400 a 1,600 solicitudes internas relacionadas con recursos humanos y materiales, reflejando un nivel sostenido de demanda. Sin embargo, el incremento de unidades administrativas y la falta de actualización de los procedimientos internos —que aún se basan en documentación operativa de 2024 han ocasionado inconsistencias en la integración de expedientes, variaciones en la calidad del control administrativo y retrasos en la atención de las dependencias municipales. A ello se suman factores institucionales como la creación y desaparición de áreas sin acompañarse de una estandarización formal de funciones, lo que ha generado periodos de desajuste organizacional.

A pesar de algunos avances como la creación de la Coordinación de Representantes Administrativos y Seguimiento a la Gestión— la problemática persiste, pues estos esfuerzos no han sido suficientes para compensar la expansión estructural ni los rezagos en digitalización, control documental y estandarización operativa. En consecuencia, la eficiencia administrativa ha mejorado marginalmente, pero no de manera sostenida ni uniforme entre todas las dependencias.

La evolución del problema confirma la necesidad de mantener e impulsar el Programa Presupuestario orientado a fortalecer la gestión administrativa municipal. Los datos financieros, operativos y organizacionales demuestran que las causas del problema continúan vigentes y que la modernización de procesos, la profesionalización del personal y la adopción de mecanismos de control son condiciones indispensables para avanzar hacia la eficiencia institucional establecida en el Objetivo 2.5 del PMD 2025–2027. La persistencia de los rezagos administrativos demuestra que el programa sigue siendo pertinente y esencial para mejorar la capacidad operativa del Ayuntamiento y garantizar servicios administrativos oportunos, estandarizados y orientados a resultados.

Experiencias de atención

Durante la administración municipal 2025–2027, y con el objetivo de atender las problemáticas detectadas en la gestión de requerimientos de recursos humanos y materiales, se creó la Coordinación de Representantes Administrativos y Seguimiento a la Gestión. Esta instancia fue diseñada para supervisar y acompañar el trabajo de los Representantes Administrativos adscritos a cada Dependencia, a fin de optimizar el uso de los recursos municipales y fortalecer el ejercicio del gasto público.

La implementación de esta coordinación ha permitido mejorar de manera significativa la eficiencia, eficacia y productividad de las áreas operativas de la administración pública municipal. Gracias a su intervención, Sindicaturas, Regidurías, Secretarías, Dependencias y Organismos Municipales han podido desarrollar de forma más oportuna y ordenada las actividades inherentes a sus funciones, reduciendo tiempos de gestión y mejorando la calidad de los procesos internos.

La mejora en los procedimientos administrativos derivada de esta intervención interna ha generado efectos positivos en la operación de estrategias orientadas a la atención ciudadana. Entre ellas destacan iniciativas como Latidos Vecinales, Diálogos Vecinales y Tequios Vecinales, las cuales han podido ejecutarse con mayor fluidez gracias al fortalecimiento de los mecanismos de gestión y soporte administrativo.

En conjunto, estas acciones reflejan la creciente capacidad del gobierno municipal para responder a las necesidades de la población. El fortalecimiento de los procesos internos logrado a través de la nueva coordinación constituye un elemento clave para consolidar una administración más eficiente, funcional y orientada a resultados.

1.2 Metodología para la identificación de la población objetivo y definición de fuentes de información

Explicar brevemente por qué las medidas que constituirán la intervención del PP son las opciones de acción más efectivas para lograr el objetivo deseado; debe guardar relación con el árbol del objetivo.	La intervención propuesta por la Oficialía Mayor se constituye como la alternativa más eficaz para alcanzar el objetivo planteado, al abordar de manera integral los factores que inciden en el desempeño de la administración pública municipal. El fortalecimiento de los procesos de gestión, organización y toma de decisiones —a través de mejoras en la planeación, la ejecución participativa, el seguimiento y la evaluación— permite optimizar el uso de los recursos humanos y materiales, garantizando una administración más eficiente, coordinada y transparente. Asimismo, la creación de la Coordinación de Representantes Administrativos y Seguimiento a la Gestión ha permitido implementar una estrategia orientada a dotar de manera oportuna y adecuada a las Sindicaturas, Regidurías, Secretarías, Dependencias y Organismos municipales de los recursos indispensables para el cumplimiento de sus funciones. Esta instancia supervisa el ejercicio del presupuesto, el manejo del gasto por capítulos, y las actividades de los representantes administrativos, asegurando un uso responsable, racional y conforme a la normativa de los recursos públicos. Con ello se fortalece la capacidad operativa de cada área y se mejora la capacidad de respuesta del gobierno municipal. La mejora en los procedimientos administrativos derivada de esta intervención interna ha generado efectos positivos en la operación de estrategias orientadas a la atención ciudadana. Entre ellas destacan programas de alto impacto como Latidos Vecinales, Diálogos Vecinales y Tequios Vecinales, los cuales han podido ejecutarse con mayor fluidez gracias al fortalecimiento de los mecanismos de gestión, la supervisión del gasto público y el soporte técnico-administrativo brindado por la nueva coordinación. En conjunto, estas acciones reflejan una creciente capacidad del gobierno municipal para responder a las necesidades de la población. El fortalecimiento de los procesos internos, aunado al control adecuado del gasto por capítulos y al acompañamiento técnico brindado a las distintas áreas municipales, constituye un elemento clave para consolidar una administración más eficiente, funcional y orientada a resultados, en beneficio directo de la ciudadanía.

1. Diagnóstico del Programa presupuestario

Antecedentes y definición del problema

En los últimos años el municipio de Oaxaca de Juárez ha experimentado un crecimiento urbano y demográfico significativo. De acuerdo con el Censo de Población y Vivienda 2020 (INEGI), este crecimiento ha incrementado la demanda de servicios públicos —alumbrado, recolección de residuos, seguridad, infraestructura vial y servicios administrativos—, lo que se traduce en un aumento sostenido del gasto operativo y de la proporción del gasto corriente. Esta presión sobre la prestación de servicios exige no sólo más recursos, sino también la modernización de los mecanismos de gestión hacendaria para aumentar la eficiencia y la capacidad de respuesta municipal.

De acuerdo con datos de la Cuenta Pública del municipio de Oaxaca de Juárez 2022, 2023 y 2024 en materia de ingresos, si bien se observa un crecimiento sostenido $1,882 millones en 2022, $2,121 millones en 2023 y $2,356 millones en 2024, la estructura de financiamiento revela una alta dependencia de recursos federales, los cuales representan entre 74% y 75% del total de ingresos captados cada año. En contraste, los ingresos propios apenas aportan entre 25% y 26%, lo cual limita la autonomía financiera municipal y su capacidad para implementar políticas públicas con recursos propios, otro factor que contribuye a la presión financiera es el estado del fondo de pensiones municipales, que en 2024 requirió una erogación superior a $110 millones para cubrir las prestaciones de 845 personas pensionadas y jubiladas. A ello se suma la necesidad de seguir saldando obligaciones generadas por administraciones pasadas, que utilizaron recursos del fondo como préstamos, comprometiendo su solvencia

Adicionalmente, el diagnóstico identifica factores institucionales que agravan la situación: procesos administrativos y fiscales desactualizados, limitada capacidad tecnológica de la hacienda municipal, rezagos en los mecanismos de fiscalización y control interno, y deficiencias en la actualización catastral y en la gestión de la recaudación. Estos factores reducen la eficiencia recaudatoria, aumentan los costos de operación y dificultan la transparencia y rendición de cuentas.

El municipio presenta una inadecuada administración de las finanzas públicas, que limita la eficiencia en la gestión de los recursos disponibles y afecta el cumplimiento adecuado de sus responsabilidades gubernamentales.

Diversas fuentes —incluyendo la Cuenta Pública municipal, diagnósticos institucionales de IMPLAN y los indicadores socioeconómicos que publica CONEVAL— coinciden en que el crecimiento demográfico y la estructura de ingresos están generando una presión fiscal creciente que requiere medidas integrales de fortalecimiento hacendario.

El Programa Presupuestario, se justifica, por tanto, como un instrumento estratégico para corregir estas limitaciones observadas, avanzar hacia una mayor autonomía financiera y asegurar que el uso de los recursos públicos cumpla con los principios de responsabilidad hacendaria establecidos en la normatividad vigenteEsta problemática se atiende mediante los componentes del Programa Presupuestario (1–4), con énfasis en acciones de recaudación y actualización catastral, modernización fiscal y tecnológica de la hacienda, control presupuestal y cumplimiento normativo, así como medidas de gestión del pasivo pensional y recuperación de la solvencia del fondo.

Justificación del Pp

Derivado de lo anterior justifica la importancia de implementar un Programa Presupuestario que fortalezca las finazas publicas del municipio de oaxaca. La intervencion del gobierno Municipal es necesaria para: Revertir la dependencia estructural de fondos federales fortaleciendo los ingresos propios,modernizar los procesos de recaudación, registro y control financiero para garantizar sostenibilidad de largo plazo,fortalecer la disciplina financiera, asegurando el cumplimiento del marco legal vigente.Sin un mecanismo programático especializado, persisten riesgos críticos, tales como:debilitamiento del desempeño hacendario,incumplimiento de obligaciones normativas y financieras,reducción de la capacidad de inversión pública,deterioro de servicios esenciales,menor confianza ciudadana y vulnerabilidad institucional.

La evidencia documentada en el OELA confirma que estas condiciones son persistentes y requieren una intervención directa, sostenida y sistemática por parte del municipio. La Tesorería Municipal es el órgano facultado para atender esta problemática conforme al artículo 133 del Bando de Policía y Gobierno, que le atribuye la recaudación, administración, programación presupuestaria, control del gasto y fiscalización de la Hacienda Pública Municipal. Entre las atribuciones más relevantes destacan:Administrar la Hacienda Pública y asegurar el cumplimiento del marco fiscal y financiero (fracc. I y II),Establecer mecanismos de recaudación de impuestos, derechos y aprovechamientos (fracc. IV),Integrar y actualizar el Padrón Municipal de Contribuyentes (fracc. VIII),elaborar anteproyectos de Ley de Ingresos y Presupuesto de Egresos (fracc. XIV),Supervisar registros contables, presupuestarios y financieros (fraccs. XV, XVI, XXX, XLIII, XLIV),Ejercer la programación, control y racionalidad del gasto (fraccs. XXXVII, XXXVIII, LVII),Emitir criterios, normas y procedimientos para auditoría, registro y fiscalización (fraccs. XI, XII, XVII, XL),Administrar y registrar la deuda pública municipal (fraccs. XXV, XLVIII–LII). Asimismo, La creación y continuidad del Programa Presupuestario Fortalecimiento de las Finanzas Públicas es indispensable porque:el problema identificado persiste y se ha agravado: generando alta dependencia de participaciones (74–75 %).Deuda histórica por pensiones y obligaciones financieras, ademas de que el marco legal federal, estatal y municipal exige una gestión financiera eficaz, transparente y basada en resultados; sin embargo, sin un Programa Presupuestario formal no es posible cumplir de manera efectiva con los criterios de disciplina financiera, desempeño hacendario y eficiencia operativa.La Tesorería requiere capacidades técnicas y presupuestarias para modernizar procesos críticos, como recaudación, registro contable, padrón de contribuyentes, ejecución del gasto, administración de deuda y fortalecimiento de ingresos propios. El Programa Presupuestario es la única vía institucional y presupuestaria para atender de manera sistemática la administración financiera municipal, al permitir planear metas, definir indicadores y garantizar seguimiento y evaluación del desempeño.

Poseer un programa presupuestaria formal es indispensable para planear metas, establecer indicadores y asegurar seguimiento y evaluación del desempeño financiero municipal.El Programa Presupuestario contribuirá directamente a reducir el problema público mediante el fortalecimiento del control del gasto y disciplina financiera con la mejora en la planeación,programación y ejercicio del gasto,la evaluación permanente de suficiencia presupuestaria y racionalidad del gasto y a su vez fortalecer la confianza ciudadana mediante uso eficiente y transparente del recurso público. El Programa Presupuestario Fortalecimiento de las Finanzas Públicas contribuye directamente a revertir las causas del problema mediante:modernización de los procesos de recaudación y control financiero,fortalecimiento institucional de la Tesorería Municipal,mejora del desempeño hacendario en ingreso, gasto, deuda y contabilidad,aplicación de criterios de racionalidad, austeridad y disciplina financiera,reducción de riesgos financieros y fortalecimiento de la sostenibilidad fiscal,incremento de la eficiencia operativa mediante sistemas integrales,promoción de la transparencia y rendición de cuentas.La implementación de estas acciones permitirá mejorar resultados como: autonomía financiera, eficiencia en el uso de recursos, incremento de ingresos propios, solvencia para cumplir obligaciones y mayor confianza ciudadana.
El programa se vincula directamente con el Eje 2. Gobierno de Territorio Honesto y Transparente del Plan Municipal de Desarrollo 2025–2027, particularmente con el Subeje Finanzas Públicas sanas, el objetivo 2.3 Generar finanzas públicas sanas en el municipio y la estrategia 2.3.2 Mejorar la recaudación municipal. A nivel de líneas de acción, el programa contribuye de manera directa a el 2.3.2.1 Implementar sistemas integrales de recaudación que mejore los procesos financieros.Asimismo, el programa se alinea con el Eje 2. Gobierno Honesto del Plan Estatal de Desarrollo, y con los Objetivos de Desarrollo Sostenible, en particular con el ODS 16: Paz, justicia e instituciones sólidas, mediante el cumplimiento de las metas 16.6 Crear a todos los niveles instituciones eficaces y transparentes que rindan cuentas. De igual manera el programa se alinea al Plan Nacional de Desarrollo 2019–2024, particularmente con el énfasis en un gobierno honesto, eficaz y con manejo responsable de los recursos públicos.

Estado actual del problema

Entre 2023 y 2025, el municipio de Oaxaca de Juárez presenta una situación financiera caracterizada por alta dependencia de recursos federales, limitada capacidad recaudatoria y creciente rigidez del gasto corriente. De acuerdo con el Plan Municipal de Desarrollo 2025–2027 y los Informes Financieros Municipales (2023 y 2024), los ingresos totales pasaron de $2,121 millones en 2023 a $2,356 millones en 2024, lo que representa un crecimiento moderado y sin cambios estructurales relevantes respecto a años previos. No obstante, entre 74% y 75% de estos ingresos proviene de participaciones y aportaciones federales, mientras que los ingresos propios continúan aportando solo 25%–26%, proporción que permanece prácticamente sin variación desde 2022 (Fuente: PMD 2025–2027; Estados Financieros Municipales).

En materia de gasto, el capítulo 1000 (servicios personales) concentra más del 60% del presupuesto programable. Este capítulo ascendió a $1,319 millones en 2023 y superó los $1,502 millones en 2024, manteniendo una tendencia creciente y sostenida. De manera adicional, el Fondo de Pensiones Municipales requirió más de $110 millones en 2024 para cubrir obligaciones con 845 personas pensionadas y jubiladas, lo que representa presiones recurrentes sobre la disponibilidad presupuestaria (Fuente: PMD 2025–2027; Dirección de Pensiones).

En el ámbito cualitativo, los resultados de consultas ciudadanas del PMD 2025–2027, así como reportes administrativos internos, documentan percepciones persistentes de limitaciones en la cobertura y calidad de los servicios municipales, vinculadas directamente con la rigidez financiera y su impacto operativo. Entre los hallazgos más frecuentes se identifican retrasos en el mantenimiento urbano, limitaciones en el alumbrado público, equipamiento operativo insuficiente y tiempos prolongados en trámites administrativos asociados a la falta de integración entre sistemas financieros y contables. Adicionalmente, evaluaciones internas han identificado brechas en el control interno, inconsistencias en registros contables y dificultades para disponer de información financiera oportuna.

La distribución territorial del problema presenta variaciones importantes. Las zonas de mayor crecimiento urbano y presión demográfica —como San Martín Mexicapam, Montoya, Pueblo Nuevo, Trinidad de Viguera, Colonia del Maestro y los sectores sur-oriente del municipio (Candiani, La Joya y Aguayo)— concentran mayores demandas de servicios, especialmente en mantenimiento vial, alumbrado público y atención de trámites. Por otro lado, colonias con rezagos históricos de infraestructura y asentamientos con población indígena o migrante presentan brechas más amplias en servicios básicos, mantenimiento urbano y capacidad de respuesta operativa.

Los grupos más afectados por esta situación son aquellos que presentan mayor dependencia de los servicios públicos municipales: mujeres cuidadoras que requieren entornos comunitarios funcionales y seguros; personas adultas mayores que dependen de infraestructura pública en buen estado; jóvenes que requieren espacios recreativos adecuados; y comunidades indígenas que habitan zonas con menor cobertura de servicios urbanos.

En síntesis, el estado actual del problema se caracteriza por una estructura financiera con baja flexibilidad, ingresos propios insuficientes, creciente presión del gasto corriente y brechas territoriales en la prestación de servicios. Esta situación impacta directamente a la población y a las áreas responsables de la operación gubernamental, limitando su capacidad para responder de manera oportuna y equilibrada a las necesidades municipales.

Evolución del problema

En los últimos cinco años (2019–2024), el municipio de Oaxaca de Juárez ha experimentado una evolución compleja en la administración y sostenibilidad de sus finanzas públicas. De acuerdo con los Estados Financieros Municipales, el total de los ingresos pasó de aproximadamente $1,740 millones en 2019 a $2,356 millones en 2024, lo que representa un crecimiento nominal acumulado superior al 35%. Sin embargo, esta expansión no se ha traducido en mayor autonomía financiera, ya que la proporción de ingresos propios se ha mantenido prácticamente constante —entre 23% y 26%— mientras que la dependencia de recursos federales permanece en niveles de 74%–77% a lo largo de todo el periodo. Esta estabilidad en la estructura de financiamiento revela un estancamiento en la capacidad recaudatoria municipal.En materia de gasto, la tendencia también ha mostrado rigidez. El capítulo 1000 (servicios personales) pasó de $1,020 millones en 2019 a más de $1,502 millones en 2024, con un crecimiento acumulado de cerca del 47%. Este aumento ha absorbido la mayor parte del crecimiento global del presupuesto, reduciendo el espacio para inversión pública y mantenimiento urbano. A ello se suman las obligaciones del Fondo de Pensiones, cuyas erogaciones se incrementaron de alrededor de $85 millones en 2020 a más de $110 millones en 2024, según reportes de la Dirección de Pensiones. Esta evolución refleja presiones crecientes asociadas al envejecimiento de la plantilla laboral y al uso histórico de recursos del fondo como mecanismos de liquidez.

La evidencia cualitativa disponible —incluida en el PMD 2022–2024, el PMD 2025–2027, informes de entrega–recepción y diagnósticos administrativos internos— coincide en señalar que, aunque se han realizado esfuerzos parciales de modernización, persisten rezagos en sistemas de recaudación, control interno, integración contable y digitalización de procesos hacendarios. Estos diagnósticos destacan que la falta de sistemas integrados ha generado inconsistencias en la información financiera, demoras en la conciliación presupuestaria y dificultades para implementar mecanismos de seguimiento al desempeño del gasto.Los cambios observados en el entorno social y económico también han influido en la evolución del problema. El INEGI reporta que la población del municipio creció de 270 mil habitantes en 2010 a más de 298 mil en 2020, y las proyecciones para 2025 señalan una continuidad en esta tendencia. Este crecimiento demográfico, concentrado en colonias de la periferia y agencias con mayor rezago social (CONEVAL, 2020), ha aumentado la presión sobre los servicios municipales sin que los ingresos propios crezcan a un ritmo equivalente. Por otro lado, los incrementos en costos operativos —incluidos insumos, energía eléctrica y servicios públicos esenciales— han generado presiones adicionales sobre el gasto corriente.
Institucionalmente, la transición administrativa registrada entre 2021 y 2024 implicó ajustes internos y reestructuraciones que, según informes internos y auditorías locales, generaron variaciones en procedimientos financieros, cargas laborales administrativas y reacomodos presupuestarios. Estos cambios han influido en la estabilidad de los procesos hacendarios y en la consolidación de sistemas de control.
La evolución del problema confirma la pertinencia del Programa Presupuestario Fortalecimiento de las Finanzas Públicas, ya que la estructura financiera del municipio no ha mejorado de manera significativa en términos de autonomía, eficiencia ni sostenibilidad. Los indicadores establecidos en el PMD 2025–2027 —como el porcentaje de ingresos propios respecto del total de ingresos, la concentración del gasto corriente y la proporción del presupuesto destinada a servicios personales— muestran variaciones mínimas en los últimos años, lo que evidencia la persistencia del problema público que el programa busca atender.

Experiencias de atención

Entre 2020 y 2024, el municipio de Oaxaca de Juárez implementó diversas acciones y proyectos orientados a mejorar la administración de las finanzas públicas, modernizar la gestión hacendaria y fortalecer la recaudación municipal. Estas iniciativas fueron ejecutadas principalmente por la Tesorería Municipal, la Dirección de Ingresos, la Dirección de Egresos, la Contraloría Municipal, la Subdirección de Informática y, en algunos casos, en coordinación con la Secretaría de Finanzas del Estado de Oaxaca. Entre las acciones implementadas destacan la actualización parcial del padrón catastral durante los años 2021 al 2024, mediante el programa PROVAVFI,con el objetivo de mejorar la base de datos de predios urbanos y comerciales para incrementar la recaudación del impuesto predial. Asmismo se implemento programas de regularización de adeudos municipales (2020, 2022 y 2024) "Borron y cuenta Nueva", el objetivo de recuperar cartera vencida en predial, traslado de dominio y derechos por servicios. Con estas acciones se logro la actualización catastral permitió incorporar cerca del 8% de predios adicionales al padrón en zonas en expansión urbana,los programas de regularización incrementaron la recaudación extraordinaria en 10% promedio anual, aunque su efecto fue temporal. Sin embargo, las experiencias desarrolladas enfrentaron diversas dificultades que limitaron su alcance, como altas cargas operativas y rotación de personal, especialmente en áreas de recaudación y contabilidad,limitada coordinación interinstitucional entre áreas operativas y hacendarias,ausencia de un marco de planeación multianual, lo que reduce continuidad a los proyectos.
De estas experiencias se analizaron varias lecciones y areas de mejora:La recaudación mejora cuando existe actualización permanente del padrón, acompañada de tecnología y campañas de información,la sostenibilidad financiera requiere procesos estandarizados y controles internos sólidos, no solo ejercicios de auditoría posteriores.Es indispensable considerar la disparidad territorial: las zonas con mayor crecimiento urbano demandan estrategias focalizadas para actualizar contribuyentes y mejorar servicios.La continuidad institucional es crítica: acciones aisladas pierden impacto si no forman parte de un programa formal y multianual.Estas lecciones están incorporadas en el diseño del Programa Presupuestario Fortalecimiento de las Finanzas Públicas, particularmente en los componentes relacionados con modernización del sistema hacendario, fortalecimiento de la recaudación y mejora del control interno. Como referencias externas Municipios como Mérida, Querétaro y Guadalajara han implementado modelos exitosos de modernización hacendaria, destacando la actualización catastral continua, la integración de sistemas de información financiera y la digitalización total de trámites. Estas experiencias muestran que la gestión hacendaria local mejora cuando existe planeación multianual, inversión tecnológica sostenida y profesionalización del personal, elementos adaptados en el diseño del presente programa conforme al contexto de Oaxaca de Juárez.

1.2 Metodología para la identificación de la población objetivo y definición de fuentes de información

De acuerdo con el último Censo de Población y Vivienda realizado por el Instituto Nacional de Estadística y Geografía (INEGI) en 2020, la población total del municipio de Oaxaca de Juárez asciende a 270,955 personas (INEGI, 2020).

Definición y cuantificación de los conceptos poblacionales del Pp

Población Potencial	31 dependencias y entidades.	**Cuantificación:**	31 dependencias y entidades del Gobierno Municipal de Oaxaca de Juárez
		Criterios de Focalización	Unidades administrativas afectadas por las deficiencias en planeación participativa, seguimiento y evaluación. Dependencias obligadas a programar, presupuestar, generar indicadores y ejecutar acciones del PMD. Universo total que enfrenta el problema público.
Población Objetivo	31 dependencias y entidades.	**Cuantificación:**	31 dependencias y entidades.
		Criterios de Focalización	Todas las dependencias forman parte del ciclo institucional de planeación, programación-presupuestación, seguimiento y evaluación. Incidencia directa en cumplimiento del PMD y en el sistema PbR–SED. Necesidad transversal de alineación metodológica y fortalecimiento técnico.
Población atendida (beneficiarios)	31 dependencias y entidades.	**Cuantificación:**	31 dependencias y entidades.
		Criterios de Focalización	Beneficio directo derivado de la estandarización de instrumentos, lineamientos y metodologías institucionales. Acceso general a herramientas, información estratégica, capacitación y acompañamiento técnico. Aplicación transversal del fortalecimiento institucional previsto en el programa.

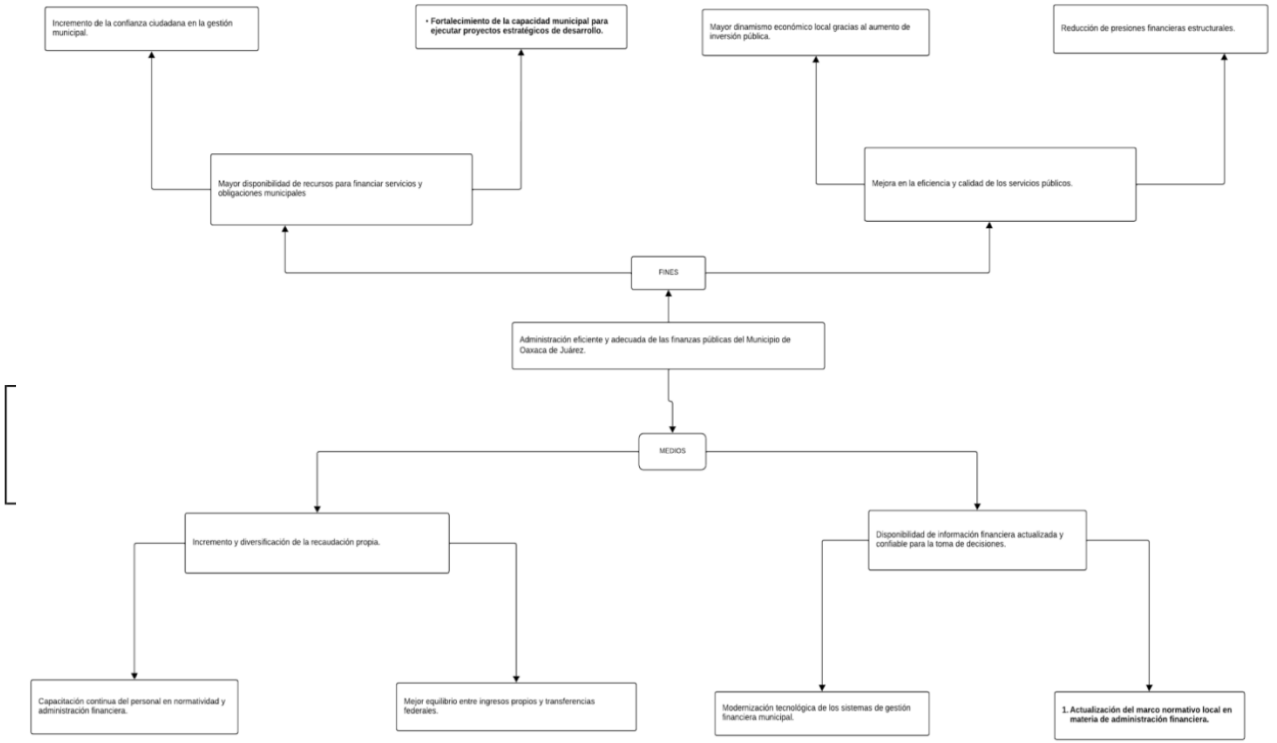
Medios



2. Estrategia para la selección de alternativas.

Explicar brevemente por qué las medidas que constituirán la intervención del PP son las opciones de acción más efectivas para lograr el objetivo deseado; debe guardar relación con el árbol del objetivo.	La selección de alternativas se realizó con base en el diagnóstico institucional y en los Árboles de Problemas y de Objetivos elaborados mediante la Metodología del Marco Lógico (MML). Este enfoque permitió ordenar las causas estructurales de la inadecuada administración de las finanzas públicas, así como identificar los medios–fin requeridos para transformar dicha situación, al establecer relaciones lógicas entre causas, efectos, objetivos y medios de intervención.Durante el proceso se analizaron diversas opciones de intervención derivadas de las causas directas identificadas en el Árbol de Problemas. Entre las rutas consideradas destacan, por ejemplo:La priorización exclusiva en la recaudación, orientada a incrementar los ingresos propios sin modificar procesos internos; y La tercerización de ciertas funciones administrativas, como auditoría o supervisión operativa. Estas opciones fueron analizadas y descartadas tras valorar su viabilidad técnica, riesgos operativos y limitada capacidad para incidir simultáneamente en las causas estructurales del problema. A partir de este análisis comparativo, se determinó que la alternativa más viable es el fortalecimiento institucional de la gestión hacendaria, mediante: la modernización y digitalización de los procesos financieros,la profesionalización y capacitación continua del personal,el mejoramiento de los sistemas de información para toma de decisiones, y el fortalecimiento de los mecanismos de control interno, seguimiento y planeación presupuestaria.Esta alternativa responde directamente a las causas identificadas en el Árbol de Problemas, tales como la ineficiencia operativa, la insuficiencia de capacidades técnicas, la fragmentación de la información financiera y la debilidad de los instrumentos de control y planeación, permitiendo incidir en ellas de manera integral. Asimismo, ofrece la posibilidad de generar impactos inmediatos en la eficiencia del gasto y de contribuir a una mayor sostenibilidad financiera en el mediano plazo. La estrategia se operará mediante la ejecución directa de los componentes del Programa Presupuestario Fortalecimiento de las Finanzas Públicas, que incluyen mejoras procedimentales, actualización normativa, modernización tecnológica, capacitación del personal, estandarización de procesos, fortalecimiento de la planeación y seguimiento presupuestario, así como coordinación interinstitucional y evaluación continua. Finalmente, la alternativa seleccionada se encuentra plenamente alineada con los instrumentos oficiales de planeación municipal, específicamente con el Eje 2. Gobierno de Territorio Honesto y Transparente del Plan Municipal de Desarrollo 2025–2027, particularmente con el Subeje Finanzas Públicas sanas, el objetivo 2.3 Generar finanzas públicas sanas en el municipio y la estrategia 2.3.2 Mejorar la recaudación municipal. A nivel de líneas de acción, el programa contribuye de manera directa a el 2.3.2.1 Implementar sistemas integrales de recaudación que mejore los procesos financieros.Garantizando con esto congruencia entre diagnóstico, planeación y ejecución programática.

1. Diagnóstico del Programa presupuestario

1.1 Descripción del Problema

Antecedentes y definición del problema

El entorno municipal de Oaxaca de Juárez se caracteriza por una alta presión sobre su infraestructura urbana y sus servicios públicos, derivada de un crecimiento urbano disperso, la expansión de asentamientos periféricos y el desgaste acumulado de la infraestructura existente. Este contexto ha ocasionado desequilibrios territoriales entre la zona centro y las agencias municipales, particularmente en materia de mantenimiento de vialidades, atención a espacios públicos, alumbrado, equipamiento urbano y ordenamiento territorial. Estos elementos son fundamentales para la movilidad, la habitabilidad y la operación eficiente del territorio, por lo que constituyen la base del presente Programa Presupuestario.

Diversos factores estructurales, sociales, económicos y ambientales inciden en esta problemática. Entre ellos destacan: la concentración histórica de inversiones en la zona central frente al rezago en agencias; el deterioro acelerado de vialidades por sobrecarga vehicular y escasa infraestructura alterna; la limitada capacidad presupuestal que restringe la atención sistemática del mantenimiento; la insuficiencia de recursos humanos y técnicos para la supervisión y planeación del desarrollo urbano; y la exposición del municipio a riesgos hidrometeorológicos que afectan drenes pluviales, espacios públicos y superficie construida, especialmente en zonas con pendientes y asentamientos irregulares.

Con base en el análisis institucional (OELA 21-08-2025), el municipio enfrenta una problemática sintetizada en cuatro líneas: rezagos en infraestructura sostenible, deterioro de vialidades, desigualdades en el ordenamiento territorial, y carencias en servicios urbanos esenciales. Estas líneas, integradas en un solo planteamiento, permiten definir una problemática común para la SOPDU: la **insuficiente cobertura, mantenimiento y modernización de la infraestructura urbana y del equipamiento público, lo que limita la movilidad segura, la calidad de los espacios públicos y la capacidad de conducción del desarrollo urbano en el territorio municipal.**

La evidencia reciente confirma la magnitud del problema. La ENSU (2023–2024) señala que entre 80 % y 89 % de las y los habitantes identifican los baches en calles como el principal problema urbano; diagnósticos del IMPLAN (2024) muestran rezagos en infraestructura peatonal, falta de conectividad en corredores estratégicos y déficit de espacio público accesible en agencias; y reportes municipales documentan una demanda creciente de intervenciones de mantenimiento en vialidades, parques, alumbrado y espacios del Centro Histórico. Estas situaciones revelan un desgaste acumulado que supera la capacidad instalada para atender el mantenimiento, así como una brecha creciente entre el desarrollo urbano proyectado y el desarrollo urbano realmente ejecutado.

Justificación del Pp

La intervención del Gobierno Municipal es indispensable para atender el rezago estructural en la cobertura, calidad, mantenimiento y modernización de la infraestructura urbana, educativa, vial, hidráulica y sanitaria del Municipio de Oaxaca de Juárez. Tal como se describió en el apartado 1.1.1, estas deficiencias afectan directamente la movilidad urbana, el acceso a servicios básicos, la seguridad vial, la operación de los servicios públicos, la funcionalidad de escuelas y espacios comunitarios, así como el ordenamiento territorial del municipio. Al tratarse de un problema público que compromete el bienestar social y el desarrollo sostenible, su atención constituye una responsabilidad municipal impostergable.

La Secretaría de Obras Públicas y Desarrollo Urbano cuenta con competencia legal expresa para intervenir en esta materia, conforme a los artículos 43, 44 y 46 de la Ley Orgánica Municipal del Estado de Oaxaca, que facultan al Gobierno Municipal para planear, regular, ejecutar y conservar la infraestructura urbana, la obra pública y los servicios relacionados con agua potable, drenaje, vialidades, equipamiento urbano y desarrollo territorial. Asimismo, los Reglamentos de Obras Públicas y de Desarrollo Urbano del Municipio de Oaxaca de Juárez establecen atribuciones para la programación, proyección, supervisión y verificación de obras y estudios técnicos, así como para la gestión del ordenamiento urbano y la infraestructura sostenible. Estas facultades normativas fundamentan la intervención institucional y respaldan la necesidad de contar con un Programa Presupuestario específico.

La creación y continuidad del Programa Presupuestario Infraestructuras Sostenibles para el Desarrollo es necesaria porque organiza, estructura y prioriza las intervenciones públicas orientadas a reducir el rezago identificado. El programa otorga sustento técnico y financiero para ejecutar obras de construcción, rehabilitación, modernización y mantenimiento, así como para desarrollar estudios, proyectos, supervisiones y acciones de planeación urbana estratégica. Su existencia permite articular esfuerzos, garantizar continuidad institucional, asegurar criterios técnicos en la toma de decisiones y orientar el gasto público a resultados verificables.

El programa contribuirá directamente a resolver el problema público mediante:

- La mejora, ampliación y conservación de vialidades para fortalecer la movilidad y la seguridad urbana;
- La rehabilitación y dotación de infraestructura educativa para mejorar las condiciones de aprendizaje;
- La ampliación, modernización y mantenimiento de redes de agua potable y drenaje para garantizar servicios básicos adecuados;
- La ejecución de obras urbanas sostenibles que reduzcan riesgos, mejoren el entorno y fortalezcan el equipamiento público; y
- El impulso de estudios, proyectos y acciones de planeación estratégica para guiar el crecimiento urbano bajo criterios de sostenibilidad y ordenamiento territorial.

Estas acciones generan beneficios sociales, económicos y ambientales al mejorar la calidad de vida, reducir costos por deterioro vehicular, disminuir riesgos sanitarios, promover la movilidad segura y fortalecer la resiliencia urbana.

En términos de alineación estratégica, el Programa Presupuestario se vincula directamente con el Eje 5 del PMD 2025–2027: “Infraestructura y Servicios Públicos”, particularmente con el eje transversal “Infraestructuras Sostenibles y Servicios Públicos para el Desarrollo”, y los siguientes objetivos y estrategias:

- Objetivo 5.1: Fortalecer la infraestructura sostenible y el equipamiento público para el desarrollo municipal.
  - Estrategias 5.1.1.1 (mejora de infraestructura urbana), 5.1.1.2 (ordenamiento urbano), 5.1.1.4 (fortalecimiento de energía eléctrica), 5.1.2.1 y 5.1.2.2 (rehabilitación de mercados), 5.1.3.1 y 5.1.3.2 (construcción y rehabilitación de espacios naturales), y 5.1.4.1–5.1.4.3 (conservación del centro histórico).
- Objetivo 5.2: Fortalecer los espacios educativos del municipio.
  - Estrategia 5.2.1: Dotar de infraestructura a los espacios educativos.
- Objetivo 5.3: Fortalecer la infraestructura vial municipal.
  - Estrategia 5.3.1: Mejorar la conectividad de las vialidades y espacios de movilidad.
- Objetivo 5.4: Contribuir a mejorar el acceso al servicio de agua y drenaje.
  - Estrategias 5.4.1 y 5.4.2: Fortalecer el sistema de agua potable y mejorar las redes de drenaje.

Asimismo, el programa es congruente con el Plan Estatal de Desarrollo (PED) 2022–2028, particularmente con el Eje de Desarrollo Territorial y Urbano y el Eje de Infraestructura y Servicios Públicos. Su pertinencia se alinea también con el Plan Nacional de Desarrollo (PND) 2019–2024, especialmente en la política de bienestar social mediante inversión en infraestructura básica.

Finalmente, el programa contribuye al cumplimiento de los Objetivos de Desarrollo Sostenible, en particular:

- ODS 6: Agua limpia y saneamiento;
- ODS 9: Industria, innovación e infraestructura;
- ODS 11: Ciudades y comunidades sostenibles.

Con ello, se justifica plenamente la necesidad, pertinencia y continuidad del Programa Presupuestario Infraestructuras Sostenibles para el Desarrollo, asegurando coherencia entre el problema público, los objetivos institucionales y las políticas de desarrollo municipal.

Estado actual del problema

El estado actual del problema evidencia que las brechas en infraestructura urbana, vial, educativa y de agua y drenaje persisten en el municipio. De acuerdo con el IMPLAN (2024), el 32 % de las vialidades presenta deterioro alto o muy alto, especialmente en Santa Rosa Panzacola, Pueblo Nuevo, Donají y San Juan Chapultepec, donde se concentran los reportes ciudadanos por baches y daños a vehículos. En materia hídrica, SAPAO reporta (2023–2024) que al menos 18 colonias tienen suministro intermitente y 11 presentan rezago en infraestructura de drenaje, concentradas en zonas periféricas con mayor crecimiento urbano no planificado. En el ámbito educativo, el seguimiento municipal (2024) identifica 147 planteles de educación básica con requerimientos de mantenimiento o rehabilitación, principalmente en Trinidad de Viguera, San Martín Mexicapam y San Juan Chapultepec. La ENSU (2024) señala que el 62.3 % de la población percibe que el alumbrado público es insuficiente y 58.7 % considera inadecuado el mantenimiento de calles y avenidas, lo que refleja un déficit sostenido en la prestación de servicios públicos.

El rezago presenta una distribución territorial desigual: las agencias municipales concentran las mayores carencias en pavimentación, drenaje, infraestructura educativa y acceso continuo al agua potable, mientras que la zona urbana consolidada muestra mejores niveles de cobertura. Estos déficits afectan con mayor intensidad a hogares en situación de pobreza urbana, jefaturas femeninas, población indígena asentada en zonas de alta densidad y a personas adultas mayores que dependen de infraestructura accesible y servicios básicos continuos. La persistencia de estas condiciones confirma que el problema público es vigente, estructural y territorialmente localizado, y que continúa limitando el desarrollo sostenible y equitativo del municipio.

Evolución del problema

n los últimos tres a cinco años, el problema de Infraestructuras Sostenibles y Servicios Públicos para el Desarrollo en el municipio de Oaxaca de Juárez presenta una tendencia de alta persistencia, con avances limitados y retrocesos puntuales en la calidad, mantenimiento y cobertura efectiva de la infraestructura vial, hidráulica-sanitaria, educativa y de servicios urbanos. Aunque algunos indicadores estatales muestran mejoras estructurales entre 2016 y 2020, la evidencia municipal reciente refleja que dichas mejoras no se han consolidado territorialmente, y que los rezagos se mantienen e incluso se han acentuado en el periodo 2020–2025.

A nivel municipal, el diagnóstico ONU-Habitat–Infonavit reporta que, pese a una cobertura general elevada de servicios básicos, persisten condiciones de infraestructura urbana insuficiente. Entre 2020 y 2024, sólo 51% de la población infantil en zonas urbanas tenía un espacio público abierto a menos de 400 metros, y apenas 46.66% de la población residía a menos de 1 km de un área verde urbana mayor a una hectárea. Además, el municipio registra una pérdida histórica de –49.44% de cobertura arbórea, indicador consistente con el deterioro del espacio urbano y la insuficiente capacidad de mantenimiento municipal.

En materia de infraestructura vial, la tendencia es aún más evidente. Desde 2019, la Encuesta Nacional de Seguridad Pública Urbana (ENSU) ha registrado de forma sostenida que los baches en calles y avenidas son el principal problema urbano señalado por la ciudadanía. En 2019, alrededor de ocho de cada diez habitantes lo identificaban como su mayor preocupación; para 2022, la cifra aumentó a 89.6%, y en 2023 se mantuvo en 84.9%. Los datos más recientes (ENSU 2024–2025) indican que 81.1% de la población continúa considerando el deterioro vial como uno de los principales problemas, lo que demuestra que, pese a intervenciones puntuales, la modernización y el mantenimiento vial siguen siendo insuficientes para revertir la tendencia de deterioro.

Respecto a agua potable y drenaje, entre 2020 y 2024 se observan retrocesos en la continuidad y calidad del servicio. Diversos reportes ciudadanos y datos estatales muestran que la población sin acceso efectivo a agua entubada creció ligeramente entre 2020 y 2022, mientras que el sistema de drenaje presenta fallas recurrentes durante la temporada de lluvias. Para 2024–2025, ENSU señala que 60.2% de la población identifica problemas de fugas, fallas o desabasto de agua potable como una de las principales problemáticas urbanas, lo que confirma el desgaste de las redes y la insuficiente capacidad de mantenimiento.

En cuanto a infraestructura educativa, los datos del INEGI muestran que más del 40% de las escuelas de educación básica del municipio presentan necesidades de rehabilitación, y autoridades locales han identificado daños en sanitarios, bardas perimetrales y aulas. Entre 2020 y 2025 no se registra una reducción significativa de estas deficiencias, lo que evidencia una tendencia de estancamiento.

Experiencias de atención

Durante el periodo 2020–2024, el Municipio de Oaxaca de Juárez, a través de la Secretaría de Obras Públicas, SOAPA, Servicios Municipales, IMPLAN y otras instancias estatales y federales, implementó diversas acciones orientadas a atender el problema público de insuficiente cobertura, mantenimiento y modernización de la infraestructura urbana y los servicios públicos. En materia hidráulica y sanitaria se sustituyeron 9.4 km de tubería de agua potable y 6.1 km de drenaje, reduciendo en 18% los reportes de fugas y mejorando en 12% la continuidad del servicio en zonas sectorizadas. En alumbrado público se instalaron 12,843 luminarias LED, logrando una reducción del 27% en consumo energético y del 40% en reportes de luminarias apagadas. En infraestructura vial y movilidad se rehabilitaron 221,500 m^2 de pavimento, se renovaron 18.2 km de infraestructura peatonal y se mejoraron 7.6 km de ciclovías, además de recuperarse 14 espacios públicos. En gestión de residuos sólidos se ampliaron 19 rutas, se instalaron 11 centros de acopio y se redujeron 23 puntos de tiraderos clandestinos. Asimismo, se avanzó en planeación urbana con la actualización del Programa Municipal de Desarrollo Urbano en 2022 e incorporación de criterios de movilidad sostenible y resiliencia, además de fortalecer capacidades técnicas mediante la capacitación de 158 servidores públicos. Estas acciones evidenciaron avances significativos pero también limitaciones recurrentes, como insuficiencia presupuestaria para renovar integralmente redes hidráulicas, rotación de personal técnico, falta de coordinación interinstitucional y carencias tecnológicas para el monitoreo de infraestructura. De estas experiencias se derivaron aprendizajes clave que se integran en el diseño del Programa Presupuestario actual, tales como la territorialización de las intervenciones, la gestión del ciclo de vida de la infraestructura, la coordinación operativa obligatoria entre SOAPA–SOPDU–Servicios Municipales, la profesionalización técnica y el fortalecimiento de los sistemas de monitoreo y evaluación. Finalmente, se retoman buenas prácticas externas —como intervenciones integrales por territorio (Medellín), alumbrado telegestionado (Querétaro) y separación en origen (Mérida)— para orientar soluciones adaptables al contexto municipal y consolidar una infraestructura sostenible y eficiente.

1.2 Metodología para la identificación de la población objetivo y definición de fuentes de información

De acuerdo con el último Censo de Población y Vivienda realizado por el Instituto Nacional de Estadística y Geografía (INEGI) en 2020, la población total del municipio de Oaxaca de Juárez asciende a 270,955 personas (INEGI, 2020).

Definición y cuantificación de los

Población PotencialA26:D31A15A26:D29A26:D33A26:D31	32,219 habitantes	**Cuantificación:**	La población potencial del programa se estima en 32,219 personas, equivalente a la población municipal que presenta la carencia en “servicios básicos en la vivienda”, identificada por CONEVAL (2023). Esta población enfrenta directamente rezagos en agua potable, drenaje, electricidad y condiciones de infraestructura básica, lo que refleja la insuficiente cobertura y mantenimiento de la infraestructura urbana que constituye el problema público del programa.
		Criterios de Focalización	Hogares con carencia en servicios básicos en la vivienda (agua, drenaje, electricidad). Colonias con rezago urbano, deterioro vial, alumbrado insuficiente y deficiente acceso a espacios públicos, según ONU–Hábitat e IMPLAN. Agencias y zonas periféricas con mayor vulnerabilidad territorial y menor cobertura de infraestructura (San Martín Mexicapam, Pueblo Nuevo, Santa Rosa Panzacola, Viguera, Montoya, La Joya, entre otras). Población expuesta a fallas en drenaje sanitario y riesgo por inundaciones. Focalización sociodemográfica: hogares en condición de pobreza, personas adultas mayores, niñas, niños y adolescentes.

Población Objetivo	81,287 personas	**Cuantificación:**	La población objetivo del programa se estimó en 81,287 personas, correspondiente a la población que habita en los polígonos de atención prioritaria definidos por FAIS, IMPLAN y reportes institucionales (SOAPA, Servicios Municipales), donde se concentran los rezagos en infraestructura urbana, educativa, vial, hidráulica y de alumbrado. Este grupo representa la parte de la población potencial donde el programa puede intervenir de manera directa y efectiva, conforme a los lineamientos PbR–SED y la metodología de la SHCP.
		Criterios de Focalización	• Zonas de atención prioritaria (ZAP) identificadas por FAIS y CONEVAL. • Colonias perimetrales: San Martín Mexicapam, Montoya, Santa Rosa Panzacola, Pueblo Nuevo, La Joya, Lomas Panorámicas, Viguera. • Agencias con mayor frecuencia de reportes ciudadanos (SOAPA, Servicios Municipales). FAIS/ZAP 2023. Diagnósticos IMPLAN 2023–2024. Reportes operativos SOAPA/Servicios Municipales 2022–2024.
Población atendida (beneficiarios)	16,258 personas	**Cuantificación:**	La población atendida se estimó en 16,258 personas, resultado de la suma de beneficiarios directos de las obras programadas para el ejercicio 2025 (rehabilitación de vialidades, modernización de alumbrado, mejoras en agua potable y drenaje, y atención a infraestructura educativa). La estimación se realizó con base en la densidad poblacional por manzana (INEGI 2020), el número de viviendas conectadas a redes rehabilitadas (SOAPA), la población escolar atendida y la programación física del ejercicio.
		Criterios de Focalización	• Colonias específicas donde se ejecutarán obras según programación anual de SOPDU/Obras Públicas. • Hogares directamente conectados a tramos de agua/drenaje rehabilitados. • Personas usuarias de vialidades y escuelas intervenidas. • Focalización con enfoque de equidad y atención prioritaria a niñas, niños y adultos mayores. Meta institucional 2025 (SOPDU). Programación física anual 2025.

2. Estrategia para la selección de alternativas.

Explicar brevemente por qué las medidas que constituirán la intervención del PP son las opciones de acción más efectivas para lograr el objetivo deseado; debe guardar relación con el árbol del objetivo.	La selección de alternativas del Programa Presupuestario “Infraestructuras Sostenibles y Servicios Públicos para el Desarrollo” se realizó con base en el diagnóstico institucional y en los árboles de problemas y objetivos elaborados mediante la Metodología del Marco Lógico. Durante el análisis se identificaron diversas rutas de intervención orientadas a atender las causas estructurales del problema público, valorando su viabilidad técnica, operativa y presupuestaria, así como su capacidad para incidir de manera directa en la modernización, mantenimiento y cobertura equitativa de la infraestructura municipal. De la revisión de estas opciones, se determinó que la alternativa más adecuada consiste en impulsar una estrategia integrada que articule obras de infraestructura sostenible, fortalecimiento del ordenamiento territorial y mejoramiento de los servicios públicos, dado que atiende simultáneamente las causas directas identificadas —insuficiente planificación del territorio, deterioro de infraestructura vial, rezago educativo, fallas en los sistemas de agua y drenaje— y genera condiciones para alcanzar los objetivos establecidos en el árbol de objetivos. Esta estrategia se ejecutará mediante los componentes y actividades del Programa Presupuestario, con acciones coordinadas entre dependencias municipales responsables de infraestructura, movilidad, servicios públicos y desarrollo urbano. La alternativa seleccionada se encuentra plenamente alineada con el Eje 5 del PMD 2025–2027, particularmente con los objetivos 5.1, 5.2, 5.3 y 5.4, y sus estrategias asociadas (5.1.1, 5.1.2, 5.1.3, 5.1.4, 5.2.1, 5.3.1 y 5.4.1), así como con la estructura jerárquica del Programa Presupuestario (Fin, Propósito, Componentes y Actividades), asegurando coherencia estratégica y operativa para la atención del problema público identificado.

1. Diagnóstico del Programa presupuestario

1.1 Descripción del Problema

Antecedentes y definición del problema

El municipio de Oaxaca de Juárez, como capital del estado y cabecera de una zona urbana compleja, enfrenta retos persistentes en materia de gobernabilidad democrática, convivencia vecinal y gestión integral de riesgos. La vida cotidiana en colonias, fraccionamientos y agencias se caracteriza por una interacción intensa entre vecinas y vecinos, autoridades auxiliares y gobierno municipal, en la que los conflictos comunitarios, la percepción sobre el desempeño de la autoridad y la preparación frente a fenómenos de riesgo influyen directamente en la estabilidad social y en la protección de los derechos humanos. En este contexto, la forma en que el Ayuntamiento conduce el diálogo con la población, media los conflictos y organiza la prevención y atención de riesgos se convierte en un eje central del desempeño gubernamental.

La Encuesta Nacional de Seguridad Pública Urbana (ENSU), en el rubro de confianza en la administración pública municipal, en 2023 la ciudadanía de Oaxaca de Juárez otorgó al gobierno municipal una calificación promedio de 4.8 en una escala de 0 a 10, por debajo de la media nacional de 5.3 reportada para ese año. En 2024, los resultados muestran que solo 36.6 % de la población manifestó “mucha” o “algo” de confianza en el gobierno municipal, mientras que 61.6 % declaró tener “algo” o “mucha” desconfianza, lo que coloca al municipio en una situación menos favorable que el promedio nacional y evidencia una relación frágil entre ciudadanía y autoridad local. Esta desconfianza limita la disposición de las personas a participar en procesos colectivos, reduce la credibilidad de los canales institucionales de atención y debilita la gobernabilidad democrática.
Los datos de efectividad del gobierno para atender las problemáticas de la ciudad refuerzan esta lectura. En 2025, Oaxaca de Juárez registró 16.0 % de personas que consideran al gobierno de su ciudad “muy” o “algo” efectivo en el primer trimestre (frente a una media nacional de 31.4 %), 14.0 % en el segundo trimestre (media nacional 30.1 %) y 20.4 % en el tercer trimestre (media nacional 30.3 %). Es decir, en los tres cortes trimestrales de 2025, Oaxaca de Juárez se ubicó por debajo del promedio nacional en percepción de efectividad, lo que indica que una mayoría de la población no considera que el gobierno municipal resuelva adecuadamente los problemas que ella misma identifica como prioritarios. Esta brecha de percepción es un indicador directo de debilidad en la gobernabilidad local.

En el ámbito de la convivencia y la conflictividad vecinal, la ENSU muestra que en el municipio de Oaxaca de Juárez la proporción de personas de 18 años y más que reportaron al menos un conflicto o enfrentamiento en su vida cotidiana pasó de un promedio anual de 26.3 % en 2022 a 24.4 % en 2023 y luego se elevó a 33.1 % en 2024, es decir, un incremento de 6.8 puntos porcentuales entre 2022 y 2024 que evidencia un cierre de administración con mayor conflictividad declarada. A lo largo de estos años, la mayoría de los conflictos se concentra en el entorno barrial: el porcentaje de “conflictos directos con vecinos(as)” respecto del total de personas que tuvieron conflicto fue de 71.7 % en 2022, 64.5 % en 2023 y 64.1 % en 2024, lo que confirma que, pese a ligeras variaciones, los desacuerdos con vecinas y vecinos siguen siendo la principal categoría de conflicto.

A nivel nacional, los datos son congruentes: alrededor de 73–75 % de quienes tuvieron conflicto lo hicieron con vecinos, y entre 4.6 % y 5.1 % reportaron problemas específicamente con las hijas e hijos de los vecinos, asociados a ruido, uso del espacio común, juegos y cuidado de áreas compartidas. Estas cifras, sumadas a las consecuencias señaladas en la propia encuesta —evitar el trato, deterioro de la relación, ruptura del diálogo e incluso agresiones verbales o físicas en casos extremos— muestran una conflictividad cotidiana persistente en las colonias, fraccionamientos y agencias, que tiende a acumularse y erosionar el tejido social cuando no existen mecanismos efectivos de mediación y canales institucionales claros para procesar estos desacuerdos.

Paralelamente, la situación de gestión integral de riesgos y protección civil refleja una vulnerabilidad estructural. De acuerdo con el Plan Municipal de Desarrollo (PMD) 2025–2027 y los insumos técnicos del IMPLAN, Oaxaca de Juárez se ubica en una zona de alta sismicidad y presenta múltiples puntos vulnerables frente a fenómenos de origen natural como sismos, lluvias intensas, inundaciones y deslizamientos de ladera. El plan reconoce la necesidad de contribuir en la salvaguarda de la ciudadanía municipal y plantea, como estrategia fortalecer la prevención de riesgos mediante la actualización del Atlas de Riesgos, la elaboración del Plan Municipal de Protección Civil, el desarrollo de mapas de percepción de riesgos para identificar zonas vulnerables y la capacitación del personal de protección civil. Asimismo, establece como prioridad fomentar la cultura de la protección civil y la gestión de riesgos en la ciudadanía, a través de campañas de autoprotección, incentivos a la participación ciudadana en medidas de protección civil y la creación de un Consejo Municipal de Protección Civil. El hecho de que estas líneas de acción sigan siendo tareas pendientes o en proceso evidencia que, hasta ahora, la gestión de riesgos no ha alcanzado el nivel de prevención y articulación que el propio PMD considera necesario.

Justificación del Pp
La persistencia de una gobernabilidad municipal deficiente, la conflictividad vecinal recurrente y las capacidades limitadas para la gestión integral de riesgos en el municipio de Oaxaca de Juárez obligan a una intervención directa del Gobierno Municipal. Como orden de gobierno con autonomía y competencia plena sobre su territorio, el Ayuntamiento está constitucional y legalmente obligado a garantizar el orden, la paz social, la convivencia vecinal y la protección de la población frente a riesgos. La Ley Orgánica Municipal del Estado de Oaxaca, en su artículo 43, apartado A, fracción I, establece que el Ayuntamiento debe expedir y reformar los bandos de policía y gobierno, reglamentos y disposiciones administrativas necesarias para el gobierno y régimen interior del municipio, asegurando la participación ciudadana y vecinal en los asuntos públicos. A su vez, los artículos 76, 77, 78, 79, 80 y 81 reconocen a las autoridades auxiliares (agentes municipales, de policía y representantes de núcleos rurales) como responsables de mantener el orden, la tranquilidad y la seguridad de los habitantes en sus demarcaciones, vigilar el cumplimiento de los reglamentos municipales, promover la integración de comités de colaboración ciudadana y rendir cuentas sobre la gestión de recursos y acciones en sus comunidades. En la Ley Orgánica, los artículos 139 y 140 precisan que los bandos tienen como propósito asegurar, preservar, mantener y restablecer el orden, la seguridad y la paz pública del municipio, así como promover la cultura cívica y el cumplimiento de derechos y deberes de la población. Asimismo, el Título Quinto, a partir del artículo 87, faculta al Ayuntamiento para crear las dependencias y entidades de la administración pública municipal necesarias para el ejercicio de sus atribuciones; en este marco se inscribe la Secretaría de Gobierno y Territorio como dependencia responsable de conducir la gobernabilidad local, articular la relación con autoridades auxiliares y coordinar las acciones de protección civil. El Bando de Policía y Gobierno del Municipio de Oaxaca de Juárez 2025 desarrolla este marco general. Su artículo 144 organiza la Administración Pública Centralizada y precisa las dependencias encargadas de conducir la gobernabilidad territorial y la gestión de riesgos. En particular, el artículo 151 define la Dirección de Agencias, Barrios y Colonias como la instancia responsable de la atención, acompañamiento y coordinación con las autoridades auxiliares, así como de la promoción de la organización comunitaria y de los comités vecinales. El artículo 152 establece las atribuciones de la Dirección de Gobierno y Gestión, encargada de la conducción política interna, el diálogo con la ciudadanía, la mediación y canalización de conflictos vecinales y comunitarios, y la articulación con otras dependencias para la construcción de paz. Por su parte, el artículo 153 reconoce la Dirección de Protección Civil como la unidad responsable de la planeación, coordinación y ejecución de acciones de protección civil y gestión integral de riesgos en el municipio. La existencia explícita de estas direcciones en el Bando 2025 confirma que la Secretaría de Gobierno y Territorio y sus unidades adscritas cuentan con competencia jurídica directa para intervenir en los ámbitos de gobernabilidad, convivencia vecinal y gestión de riesgos que atiende el Programa Presupuestario. A su vez en materia de protección civil, la Ley Orgánica Municipal del Estado de Oaxaca dedica el Capítulo VII “De la Seguridad Pública y Protección Civil Municipales”, donde el artículo 159 establece que la seguridad pública municipal se presta conforme a la Ley del Sistema Estatal de Seguridad Pública de Oaxaca, y los artículos 160 a 163 ordenan la creación de un Sistema Municipal de Protección Civil, de un Consejo Municipal de Protección Civil y de una Unidad de Protección Civil, concebidos como un conjunto orgánico y articulado de estructuras y procedimientos para prevenir riesgos, proteger a la población ante emergencias y restablecer la normalidad tras desastres. Este marco normativo hace evidente que la gestión integral de riesgos no es una función discrecional, sino una responsabilidad obligatoria del municipio, que debe organizarse programáticamente y con capacidades técnicas suficientes. Sobre esta base jurídica, el Programa Presupuestario “Gobernabilidad y Gestión Integral de Riesgos” se justifica como el principal instrumento para dar respuesta al problema público identificado en el diagnóstico: la insuficiente capacidad institucional del municipio para conducir la gobernabilidad local, mediar y reducir los conflictos vecinales y gestionar integralmente los riesgos que afectan a la población y al territorio. Los resultados de la Encuesta Nacional de Seguridad Pública Urbana (ENSU) muestran una relación frágil entre ciudadanía y autoridad local. La pertinencia del programa se refuerza al considerar que el propio CONCENTRADO OELA reconoce que “la gobernabilidad que se ha presentado en el municipio es deficiente, debilitando así la protección de los derechos humanos”, lo que implica un riesgo directo para el cumplimiento del ODS 16 “Paz, justicia e instituciones sólidas”.

Estado actual del problema

Entre 2023 y 2025, el municipio de Oaxaca de Juárez presenta un contexto de gobernabilidad caracterizado por una combinación de baja confianza en el gobierno municipal, percepción limitada de efectividad institucional, alta incidencia de conflictos vecinales y una exposición relevante a riesgos de origen natural en colonias y agencias. De acuerdo con la Encuesta Nacional de Seguridad Pública Urbana (ENSU) del INEGI, en 2023 la ciudadanía otorgó al gobierno municipal una calificación promedio de 4.8 en una escala de 0 a 10 en confianza en la administración pública, por debajo de la media nacional de 5.3; en 2024, solo 36.6 % de la población declaró tener “mucha” o “algo” de confianza en el gobierno municipal, frente a 61.6 % que manifestó “algo” o “mucha” desconfianza, lo que refleja una relación frágil entre ciudadanía y autoridad local. En 2025, la proporción de personas que consideran al gobierno de su ciudad “muy” o “algo” efectivo para resolver las problemáticas más importantes se ubicó en 16.0 % en el primer trimestre, 14.0 % en el segundo y 20.4 % en el tercero, cifras consistentemente por debajo de las medias nacionales trimestrales, que se situaron entre 30.1 % y 31.4 %, lo que indica que una mayoría de habitantes de Oaxaca de Juárez no percibe al gobierno municipal como efectivo para atender los problemas priorizados por la propia población.

En el ámbito de la convivencia y la conflictividad vecinal, la ENSU muestra que la proporción de personas de 18 años y más en Oaxaca de Juárez que reportaron al menos un conflicto o enfrentamiento en su vida cotidiana fue de un promedio anual de 26.3 % en 2022, 24.4 % en 2023 y 33.1 % en 2024, lo que implica un incremento acumulado de 6.8 puntos porcentuales entre 2022 y 2024 y un cierre de administración anterior con mayor conflictividad declarada. A lo largo de estos años, la mayoría de dichos conflictos se concentra en el entorno barrial: el porcentaje de conflictos directos con vecinos(as), respecto del total de personas que reportaron conflictos, fue de 71.7 % en 2022, 64.5 % en 2023 y 64.1 % en 2024, de modo que, pese a variaciones interanuales, los desacuerdos entre vecinas y vecinos se mantienen como la principal categoría de conflicto cotidiano. A nivel nacional, los datos son congruentes: alrededor de 73–75 % de quienes tuvieron conflicto lo hicieron con vecinos, y entre 4.6 % y 5.1 % reportaron problemas específicamente con las hijas e hijos de las y los vecinos, generalmente asociados a ruido, uso del espacio común, juegos y cuidado de áreas compartidas; la ENSU también identifica consecuencias frecuentes como evitar el trato, deterioro de la relación, ruptura del diálogo y, en casos extremos, episodios de agresión verbal o física. Este patrón confirma que una parte importante de la conflictividad cotidiana se produce en colonias, fraccionamientos y agencias y se expresa en el entorno inmediato de convivencia vecinal.

En materia de gestión integral de riesgos y protección civil, los informes de gobierno de la administración 2022–2024 registran un volumen significativo y sostenido de acciones y reportes de emergencia. El Segundo Informe de Gobierno Municipal 2023 señala la realización de 221 asesorías y capacitaciones en primeros auxilios, reanimación cardiopulmonar básica, sismos, evacuación de inmuebles y prevención de incendios, con un alcance de 4,218 personas capacitadas; en el mismo periodo se atendieron 628 reportes ciudadanos a través del 911 y del número operativo de protección civil, principalmente por incendios y quema de pastizales (140 reportes), daños a infraestructura urbana (138), ramas y árboles caídos o en mal estado (115), eventos y espectáculos (86) y fugas u olor a gas (58), entre otros. El Tercer Informe de Gobierno 2024 reporta 2,755 asesorías y capacitaciones en primeros auxilios básicos, sismos, evacuación, prevención de incendios y uso de extintores, con 5,659 personas capacitadas (3,328 mujeres y 2,331 hombres), así como 679 reportes de emergencia, de los cuales 183 estuvieron relacionados con incendios y quema de pastizales, 171 con infraestructura dañada, 164 con ramas y árboles caídos, 59 con eventos y espectáculos, 52 con fugas u olor a gas, 16 con residuos tóxicos en la vía pública y 7 con encharcamientos e inundaciones. Estas cifras muestran que, en la práctica, la Dirección de Protección Civil enfrenta de manera continua situaciones de riesgo de diversa naturaleza —incendios, afectaciones a infraestructura, caída de árboles, gas, inundaciones— que requieren atención operativa y presencia territorial casi permanente.

La información más recientes en Informes de Resultados presentados al 30 de octubre de 2025 indica que, de enero a esa fecha, la Dirección de Protección Civil ha atendido 490 reportes de emergencia, principalmente por combate de incendios, fugas de gas, cables caídos, ramas fracturadas y árboles caídos, limpieza de residuos tóxicos en la cinta asfáltica, reparación de infraestructura dañada, atención a encharcamientos, inundaciones, hundimientos y personas lesionadas, señalando que la mayoría de estos incidentes se registra en la cabecera municipal. El mismo documento compara la atención de emergencias de 2024 y 2025, señalando que en 2024 se registraron 748 casos y en 2025, hasta octubre, 490, lo que constituye una reducción importante en el número de reportes, pero confirma al mismo tiempo la presencia constante de riesgos que afectan a personas, inmuebles y vialidades. Asimismo, se reportan 759 actividades preventivas (operativos preventivos, acciones de difusión sobre cultura de prevención, detección de riesgos en inmuebles, revisiones en eventos masivos, instalación de comités vecinales de protección civil, recorridos de verificación en mercados y jardines, inspecciones en eventos con pirotecnia y

Evolución del problema

En los últimos cuatro años, el problema de la gobernabilidad local, la conflictividad vecinal y la gestión integral de riesgos en Oaxaca de Juárez muestra una trayectoria de persistencia y complejización, en la que conviven avances institucionales parciales con tendencias que mantienen elevada la presión sobre la administración municipal.

Desde la perspectiva de la convivencia cotidiana, la ENSU indica que la proporción de personas de 18 años y más en Oaxaca de Juárez que reportaron al menos un conflicto o enfrentamiento en su vida diaria fue de 26.3 % en 2022, 24.4 % en 2023 y 33.1 % en 2024, lo que significa un incremento acumulado de 6.8 puntos porcentuales entre 2022 y 2024. Dentro de este universo, los "conflictos directos con vecinos(as)" se han mantenido como la principal categoría: representaron 71.7 % de quienes tuvieron conflicto en 2022, 64.5 % en 2023 y 64.1 % en 2024. La serie muestra, por tanto, una conflictividad vecinal estructuralmente alta, con un repunte reciente en la proporción de personas que declaran haber tenido al menos un conflicto.

En materia de gobernabilidad y confianza institucional, la evolución también refleja rezagos. En 2023, la ciudadanía de Oaxaca de Juárez otorgó al gobierno municipal una calificación promedio de 4.8 en confianza en una escala de 0 a 10, por debajo de la media nacional (5.3). En 2024, solo 36.6 % de la población manifestó "mucha" o "algo" de confianza en el gobierno municipal, mientras que 61.6 % declaró tener "algo" o "mucha" desconfianza. Para 2025, el porcentaje de personas que consideran al gobierno de su ciudad "muy" o "algo" efectivo para resolver los problemas se ubicó en 16.0 % en el primer trimestre, 14.0 % en el segundo y 20.4 % en el tercero, consistentemente por debajo de las medias nacionales (alrededor de 30 %). En conjunto, estos datos muestran que, en el periodo reciente, no se observa una mejora sostenida en la percepción de efectividad ni en la confianza hacia el gobierno municipal, elementos que forman parte central del problema público de "gobernabilidad deficiente" establecido en el PMD 2025–2027.

En la dimensión de gestión integral de riesgos y protección civil, los informes de gobierno de la administración 2022–2024 y el informe parcial al 30 de octubre de 2025 permiten apreciar cambios cuantificables. En 2023, la Dirección de Protección Civil registró alrededor de 628 reportes de emergencia (incendios y quema de pastizales, infraestructura dañada, árboles y ramas caídas, fugas de gas, eventos masivos, entre otros). En 2024, el número de emergencias atendidas ascendió a 748 casos, mientras que en 2025, hasta octubre, se contabilizan aproximadamente 490 reportes, lo que sugiere un pico en la demanda de atención durante 2024 y una reducción parcial en 2025, sin que ello signifique la desaparición de los riesgos ni de la presión operativa. En paralelo, el número de asesorías, capacitaciones, cursos y simulacros en materia de protección civil ha mostrado una tendencia al alza: de algunas centenas de actividades y algunos miles de personas capacitadas en 2022–2023, a varios miles de participantes en 2024–2025, según los registros administrativos de la propia Dirección. Esta combinación muestra una evolución en la que la carga de emergencias se mantiene elevada, mientras se incrementan los esfuerzos de formación y prevención, aunque sobre una base histórica de cultura preventiva limitada.

El marco técnico de riesgos se ha modificado menos: el Atlas Municipal de Riesgos disponible sigue correspondiendo a la versión 2011, que ha sido digitalizada pero no actualizada integralmente; el PMD 2025–2027 reconoce la necesidad de actualizar este instrumento, elaborar el Plan Municipal de Protección Civil, desarrollar mapas de percepción de riesgos y consolidar el Consejo Municipal de Protección Civil. La permanencia de un atlas desactualizado y la ausencia, hasta años recientes, de un plan municipal vigente sugieren una evolución lenta de la capacidad institucional para incorporar de manera sistemática el enfoque de riesgo en la planeación y la toma de decisiones.

Desde el punto de vista territorial y social, el problema ha evolucionado en un contexto de urbanización continua, presión sobre el espacio público y crecimiento de asentamientos en zonas de riesgo (laderas inestables, cercanía a cauces y áreas inundables), especialmente en colonias y agencias periféricas como Santa Rosa, Pueblo Nuevo, San Martín Mexicapam y secciones de la cabecera municipal. Se trata de factores estructurales que incrementan la exposición física de la población. Estos se entrelazan con factores sociales, como la intensificación del uso del espacio público, la convivencia cotidiana en condiciones de hacinamiento o servicios urbanos limitados y la persistencia de normas de convivencia poco internalizadas; y con factores institucionales, como la capacidad limitada para acompañar de forma permanente a autoridades auxiliares y comités vecinales, la operación parcial de consejos consultivos y la cobertura aún insuficiente de procesos de mediación, diálogo y cultura de paz.

Experiencias de atención

En cuanto a experiencias de atención relevantes para el municipio o para el estado de Oaxaca, muestra que entre 2020 y 2024, el Ayuntamiento de Oaxaca de Juárez desarrolló acciones tanto en gobernanza y

1.2 Metodología para la identificación de la población objetivo y definición de fuentes de información

De acuerdo con el último Censo de Población y Vivienda realizado por el Instituto Nacional de Estadística y Geografía (INEGI) en 2020, la población total del municipio de Oaxaca de Juárez asciende a 270,955 personas (INEGI, 2020).

Definición y cuantificación de los conceptos poblacionales del Pp

Población Potencial	270,955 personas	**Cuantificación:**	270,955 personas que habitan en el municipio de Oaxaca de Juárez (población total según Censo de Población y Vivienda 2020 de INEGI). Corresponde al universo de personas que, por el solo hecho de residir en colonias, fraccionamientos y agencias del municipio, están potencialmente expuestas a conflictividad vecinal (uso del espacio público, ruido, incivilidades, desacuerdos cotidianos) y/o a riesgos de origen natural (sismos, lluvias intensas, inundaciones, deslizamientos) documentados en el Atlas de Riesgos y el diagnóstico territorial del IMPLAN.
		Criterios de Focalización	- Residencia en el municipio de Oaxaca de Juárez (población total Censo 2020). - Hogares y personas que conviven en aproximadamente 291 colonias, fraccionamientos y agencias con relaciones de vecindad y uso de espacio público. - Territorio municipal con alta sismicidad y zonas identificadas con riesgo de inundación, deslizamientos y encharcamientos (Atlas de Riesgos / IMPLAN). - Este universo representa el máximo marco de referencia sobre el que puede influir el Pp, del cual se deriva la población objetivo.

Población Objetivo	160,000 personas	**Cuantificación:**	160,000 personas (≈ 60 % de la población total). Se trata de un subconjunto de la población potencial que reside en colonias, fraccionamientos y agencias con mayor conflictividad vecinal y/o mayor exposición a riesgos. El porcentaje se estima a partir de: (a) los promedios anuales de la ENSU 2022–2024 sobre población que reporta conflictos o enfrentamientos (26.3 %, 24.4 % y 33.1 %) y conflictos directos con vecinos(as) (entre 64 % y 72 % de quienes tuvieron conflicto); y (b) la proporción de población que habita en zonas clasificadas por el Atlas de Riesgos e IMPLAN como de vulnerabilidad alta o media-alta (áreas inundables, laderas inestables, cercanía a cauces y zona de alta influencia sísmica). El cruce de estos elementos sustenta la estimación de alrededor de 160 mil personas como población que enfrenta mayores niveles de conflictividad y riesgo.
		Criterios de Focalización	Colonias y agencias identificadas en el diagnóstico municipal, el Atlas de Riesgos y el IMPLAN que presentan: (a) antecedentes de conflictividad vecinal recurrente, (b) mayor percepción de inseguridad y baja confianza/efectividad del gobierno municipal (ENSU), y/o (c) localización en zonas de riesgo (inundaciones, deslizamientos, cauces, laderas). - Territorios donde operan autoridades auxiliares y Comités Vecinales con alta demanda de atención gubernamental (reportes, mesas de diálogo, solicitudes de protección civil). - Subconjunto explícito de la población potencial: personas que, de acuerdo con la evidencia diagnóstica, enfrentan más intensamente el problema público de gobernabilidad
Población atendida (beneficiarios)	30,000 a 35,000 personas	**Cuantificación:**	30,000 a 35,000 personas por ejercicio fiscal, equivalentes a aproximadamente 20–22 % de la población objetivo. Corresponde exclusivamente a personas que recibirán beneficios directos del programa, es decir, que participarán en: procesos de diálogo y mediación de conflictos vecinales, acompañamiento y fortalecimiento de autoridades auxiliares y
		Criterios de Focalización	Subconjunto específico de la población objetivo (no se contabiliza a toda la población expuesta, sino a quienes participan directamente en las acciones del programa). - Priorización de colonias y agencias con conflictos vecinales recurrentes y alta exposición a riesgos (Centro, Pueblo Nuevo, San Martín Mexicapam, Santa Rosa y zonas identificadas en el Atlas de Riesgos y diagnósticos del IMPLAN). - Enfoque en grupos de atención prioritaria: mujeres, personas jóvenes usuarias intensivas del espacio público, personas adultas mayores y población que habita en colonias de bajos ingresos o en zonas inundables / de ladera. - Participación mediante Comités Vecinales, autoridades auxiliares, organizaciones comunitarias y escuelas en actividades de mediación, organización comunitaria y capacitación en protección civil. - Se excluye de esta cifra a la población sensibilizada de manera indirecta (por ejemplo, destinataria de campañas masivas), que será registrada solo como beneficiaria indirecta en los informes de avance.

2. Estrategia para la selección de alternativas.

Explicar brevemente por qué las medidas que constituirán la intervención del PP son las opciones de acción más efectivas para lograr el objetivo deseado; debe guardar relación con el árbol del objetivo.	La selección de alternativas del Programa Presupuestario “Gobernabilidad y Gestión Integral de Riesgos” se realizó con base en el diagnóstico institucional y en los árboles de problemas y de objetivos construidos mediante la Metodología del Marco Lógico, garantizando coherencia entre el problema público identificado, el objetivo central y los fines a los que contribuye el programa. Durante este proceso se analizaron distintas rutas de intervención derivadas de las causas críticas detectadas, incluyendo alternativas más acotadas como esquemas principalmente reactivos de atención de conflictos vecinales, intervenciones centradas solo en protección civil o estrategias focalizadas únicamente en organización comunitaria, valorando su viabilidad técnica, institucional y presupuestal. De este análisis se determinó que la alternativa más adecuada es una estrategia integral que articula tres núcleos: a) fortalecimiento de los mecanismos de participación, diálogo y mediación vecinal; b) mejora de los sistemas de registro, atención y seguimiento de solicitudes ciudadanas, conflictos y acuerdos territoriales; y c) reforzamiento de las capacidades técnicas e institucionales para la gestión integral de riesgos y la protección civil, con participación activa de autoridades auxiliares y comités vecinales. La estrategia se materializa a través de la ejecución directa de los componentes y actividades del Programa Presupuestario y de su MIR, y se encuentra alineada con el Eje 3 “Gobierno de paz, seguridad y justicia” y con los niveles jerárquicos de planeación (Fin, Propósito, Componentes y Actividades) establecidos en el PMD 2025–2027.

1. Diagnóstico del Programa presupuestario

1.1 Descripción del Problema

Antecedentes y definición del problema

El municipio de Oaxaca de Juárez, capital del estado y nodo metropolitano y turístico, concentra una parte importante de la actividad económica estatal, particularmente en el sector terciario y en el comercio minorista. A nivel estatal, poco más de la mitad de la población ocupada se ubica en actividades terciarias y alrededor de una sexta parte labora específicamente en el comercio (16.5 % de las personas ocupadas, equivalentes a aproximadamente 290 mil personas en 2024, según INEGI), lo que refleja el peso que tiene el comercio —formal e informal— en el ingreso de los hogares y en la dinámica urbana del municipio.

Este contexto se desenvuelve en un entorno laboral caracterizado por altos niveles de informalidad. En el estado de Oaxaca, para el cuarto trimestre de 2024, 78.0 % de la población ocupada se encontraba en condiciones de empleo informal (alrededor de 1.4 millones de personas) y 39.2 % trabajaba en el sector informal propiamente dicho, de acuerdo con la ENOE. Una proporción relevante de esta población se inserta en micronegocios sin establecimiento y en actividades de comercio al menudeo, lo que se traduce en un fuerte peso del comercio en vía pública y de unidades económicas con baja o nula regulación por parte de la autoridad municipal.

Desde la perspectiva de la percepción ciudadana, la Encuesta Nacional de Seguridad Pública Urbana (ENSU) muestra que, a nivel nacional, el porcentaje de personas de 18 años y más que considera a los “mercados y centrales de abasto en mal estado” como uno de los problemas más importantes de su ciudad se ha mantenido en un nivel relevante y estable: 15.0 % en el promedio anual 2022, 14.7 % en 2023 y 16.3 % en 2024. Este comportamiento confirma que el deterioro físico, operativo y funcional de los mercados y centrales de abasto es reconocido por la población como una problemática urbana persistente, lo cual resulta especialmente pertinente para Oaxaca de Juárez, donde el Mercado de Abasto y los mercados públicos son nodos clave del abasto y de la actividad comercial cotidiana.

El Plan Municipal de Desarrollo 2025–2027 y el Sistema de Información para la Planeación del Desarrollo (SISPLADE) reconocen que en Oaxaca de Juárez se registra un porcentaje elevado de población dedicada al comercio informal, lo que limita el crecimiento económico local y se relaciona con problemas de desorden en el uso del espacio público, competencia desleal y afectaciones a la movilidad urbana. En los Diálogos Vecinales para la elaboración del Plan, las vecinas y los vecinos identificaron de manera reiterada las “condiciones de los mercados” y la presencia de “ambulantes” como una de las principales problemáticas del municipio, señalando la saturación de áreas aledañas al Mercado de Abasto y otros mercados públicos, así como la ocupación irregular de banquetas y áreas comunes por puestos y vendedores sin regulación clara.

En congruencia con la OELA Líneas de acción por dependencia y problemática identificada, el problema público que da origen al Programa Presupuestario se formula como: La actividad comercial en los mercados públicos, el Mercado de Abasto y la vía pública del municipio de Oaxaca de Juárez se desarrolla de manera desordenada y con regulación y control administrativo insuficientes, lo que genera conflictividad territorial, competencia desleal, saturación del espacio público y limita el desarrollo del comercio local y la efectividad de la acción regulatoria municipal, para lo cual es importante atender el objetivo 4.3 en relación al fortalecimiento de la actividad comercial en el municipio con antención especial a los mercados públicos con lo que atiende el ODS 8. Trabajo decente y crecimiento económico.

Justificación del Pp

La intervención del Gobierno Municipal en los mercados públicos, el Mercado de Abasto y el comercio en vía pública es necesaria porque el problema público identificado en el apartado 1.1.1 —actividad comercial desordenada y con regulación y control administrativo insuficientes— rebasa la capacidad de autorregulación de los propios actores económicos y afecta directamente el interés público: genera competencia desleal, saturación del espacio público, conflictos vecinales y pérdida de competitividad de los mercados. De acuerdo con el DENUE 2024, en Oaxaca de Juárez el comercio al por menor representa 13,131 unidades económicas (41.8 % del total municipal) y el municipio concentra aproximadamente 11 % de las unidades económicas del estado, mientras que el PMD 2025–2027 y la ENOE señalan que 78.0 % de la población ocupada estatal se encuentra en condiciones de empleo informal y 39.2 % labora en el sector informal, con una proporción importante vinculada al comercio al menudeo y micronegocios. A ello se suma la existencia de 16 mercados municipalizados y alrededor de 900 personas en informalidad laboral en el primer cuadro dedicadas al comercio en vía pública, lo que evidencia que el problema no es marginal, sino estructural para la economía y la gobernanza urbana del municipio.

El Ayuntamiento de Oaxaca de Juárez tiene la obligación formal de intervenir en la regulación comercial en mercados y centrales de abasto de conformidad con el Artículo 115, fracción III, apartado d, de la Constitución Política de los Estados Unidos Mexicanos, así mismo la Constitución Política del Estado Libre y Soberano de Oaxaca en su artículo 94 apartado d, establece que los municipios son libres para expedir bases normativas y tienen a su cargo mercados y centrales de abasto, mientras que la Ley Orgánica Municipal del Estado de Oaxaca, manifiesta en su artículo 43 las atribuciones y competencias para la regulación de mercados y comercios.
Es por ello que el Bando de Policía y Gobierno 2025–2027 en sus artículos 147, 148, 149 y 150 establece que la Secretaría de Gobierno y Territorio tiene bajo su adscripción, entre otras, a la Dirección General de Regulación y Atención a Mercados con sus direcciones de Mercado de Abasto y Mercados Públicos y a la Dirección de Comercio en Vía Pública, con atribuciones específicas para supervisar el cumplimiento de los reglamentos en la materia, promover la eficiencia en la administración de los mercados, integrar expedientes de locatarios y concesionarios y coadyuvar en la seguridad de los mercados.

Por su parte, el Reglamento para el Control de Actividades Comerciales y de Servicios en Vía Pública del Municipio de Oaxaca de Juárez, publicado el 11 de diciembre de 1999, establece en sus primeros artículos la obligación de empadronar a todas las personas que realizan comercio en vía pública y asigna a la Dirección de Control de Comercio en Vía Pública funciones de control, autorización y supervisión de la actividad comercial en la calle. Cabe resaltar que en materia de mercados, el municipio ha operado durante más de cuarenta años con un Reglamento de Mercados Públicos y del Mercado de Abasto de 1984, lo que evidencia un rezago normativo significativo frente a la evolución del comercio local.

En este marco jurídico, el Programa Presupuestario “Ordenamiento y Regulación del Comercio” se justifica como el instrumento mediante el cual el Ayuntamiento y, en particular, la Secretaría de Gobierno y Territorio —a través de la Dirección General de Regulación y Atención a Mercados (Mercados Públicos y Mercado de Abasto), la Dirección de Comercio en Vía Pública y la Unidad de Defensores (inspectores)— ejercen de manera programada y sistemática sus atribuciones de regulación, supervisión, registro y control de la actividad comercial por lo cual es necesario crear y mantener este programa porque el problema público definido en el 1.1.1 no puede resolverse con acciones aisladas o sólo reactivas: requiere diagnóstico permanente, actualización y aplicación de la normatividad, integración y uso de padrones, regulación de usos del espacio público y fortalecimiento de la inspección y defensoría comercial. El Pp contribuye a reducir el desorden comercial y la competencia desleal al articular en una sola intervención el ordenamiento de mercados públicos, el control del comercio en vía pública y el fortalecimiento de la función inspectiva, corrigiendo fallas de gobierno (normatividad desactualizada, control operativo fragmentado) y fallas de mercado (asimetrías entre comercio formal e informal, uso desigual del espacio público).

Estado actual del problema

En la actualidad, el comercio continúa siendo uno de los pilares de la economía local de Oaxaca de Juárez. De acuerdo con el Directorio Estadístico de Unidades Económicas (DENUE) 2024 del INEGI, el municipio concentra aproximadamente 11 % de las unidades económicas del estado y, solo en comercio al por menor, se registran 13,131 unidades económicas, lo que equivale al 41.8 % del total municipal. Paralelamente, la Encuesta Nacional de Ocupación y Empleo (ENOE) reporta para el cuarto trimestre de 2024 una tasa de ocupación en el sector terciario en el municipio cercana al 81.4 % y una tasa de informalidad laboral de 60.4 %, lo que evidencia que una proporción considerable de las personas ocupadas participa en actividades económicas sin condiciones plenas de formalidad, muchas de ellas vinculadas al comercio al menudeo y a micronegocios.

En el ámbito estatal, la ENOE indica que 78.0 % de la población ocupada de Oaxaca se encuentra en condiciones de empleo informal y que 39.2 % labora en el sector informal propiamente dicho , la segunda más alta del país en ese periodo y significativamente superior al promedio nacional de 27.5 %, ubicando a la entidad entre las de mayor informalidad del país. Esta situación se asocia con una carencia generalizada de protección social: en el municipio, 162,739 personas presentan carencia por acceso a la seguridad social, según la medición de pobreza 2020 de CONEVAL. En la práctica, esto se refleja en una base amplia de personas que dependen del comercio —en mercados públicos, el Mercado de Abasto y la vía pública— como principal fuente de ingreso, pero en condiciones de baja formalización y alta vulnerabilidad laboral.

La percepción ciudadana reflejada en la Encuesta Nacional de Seguridad Pública Urbana (ENSU) muestra que, a nivel nacional, el porcentaje de población de 18 años y más que identifica a los “mercados y centrales de abasto en mal estado” como uno de los principales problemas de su ciudad se ha mantenido en niveles relevantes y estables: 15.0 % en el promedio anual 2022, 14.7 % en 2023 y 16.3 % en 2024. Estos datos confirman que el deterioro físico, operativo y funcional de los mercados y centrales de abasto es reconocido como una problemática urbana persistente en las ciudades del país, contexto en el cual Oaxaca de Juárez no es la excepción, dado el papel central del Mercado de Abasto “Margarita Maza de Juárez” y del resto de mercados públicos en la vida cotidiana del municipio.

En el territorio municipal, la problemática se manifiesta de manera diferenciada. De acuerdo con el Plan Municipal de Desarrollo 2025–2027 y con el censo municipal levantado durante la administración 2022–2024, en el primer cuadro de la ciudad se registra un padrón cercano a 900 personas en situación de informalidad laboral dedicadas al comercio en la vía pública, que ocupan banquetas, calles y áreas comunes sin permisos de carácter transitorio o fuera de los lineamientos establecidos. Esta situación se concentra en el Centro Histórico, el andador turístico y las calles aledañas a mercados como Benito Juárez, 20 de Noviembre y, de manera destacada, el Mercado de Abasto “Margarita Maza de Juárez”, donde la presencia de puestos fijos, semifijos y ambulantes presiona de forma constante el uso del espacio público y la movilidad peatonal y vehicular. No obstante, el comercio informal también está presente en mercados y zonas comerciales de agencias y colonias periféricas —como Santa Rosa, Candiani, La Noria y otras— donde la combinación de alta informalidad laboral y menores oportunidades económicas incrementa la presión sobre el espacio público y sobre los mecanismos de regulación municipal.

En cuanto a los mercados públicos, la Secretaría de Gobierno y Territorio reporta la existencia de 16 mercados municipalizados: Mercado de Abasto “Margarita Maza de Juárez”, IV Centenario, Candiani, Sánchez Pascuas, Hidalgo, 20 de Noviembre, Benito Juárez, Santa Rosa, La Cascada, Venustiano Carranza, La Noria, Paz Migueles, La Merced, Las Flores y Lulaá. Estos espacios concentran una parte importante de la actividad comercial minorista, pero el propio PMD 2025–2027 así como los informes de gobierno 2022–2024 y el informe preliminar 2025 documentan de manera reiterada la presencia de desorden en la ocupación de locales y áreas comunes, padrones de locatarios desactualizados, giros fuera de norma y deficiencias en la operación cotidiana, lo

Evolución del problema

Entre 2019 y 2024, la información de la Encuesta Nacional de Ocupación y Empleo (ENOE) para la ciudad de Oaxaca —área urbana donde se localiza el municipio de Oaxaca de Juárez— muestra una trayectoria consistente de alta informalidad y precariedad laboral, estrechamente vinculada con la evolución del comercio local. De acuerdo con la ENOE de 2019 al 2024, la tasa de informalidad laboral pasó de 47.5 % en 2019 a 59.1 % en 2024, es decir, un incremento de alrededor de 11.6 puntos porcentuales en cinco años. El salto más pronunciado se registra entre 2019 y 2021, asociado al impacto económico de la pandemia de COVID-19, y aunque a partir de 2022 se observa cierta estabilización, los niveles de informalidad se mantienen persistentemente altos, sin regresar a los valores previos a 2019. Cabe destacar que Oaxaca de Juárez se encuentra por encima de la media nacional que en promedio es del 25.6%
En el mismo periodo, la tasa de ocupación en el sector informal aumentó de 31.6 % en 2019 a 37.4 % en 2024, lo que representa un incremento de aproximadamente 5.8 puntos porcentuales. Este comportamiento refleja que una proporción creciente de la población ocupada trabaja en unidades económicas informales —micronegocios, actividades por cuenta propia sin registro y comercio al menudeo—, muchas de ellas vinculadas a mercados públicos, al entorno del Mercado de Abasto y al comercio en vía pública. Paralelamente, la tasa de condiciones críticas de ocupación avanzó de 43.6 % en 2019 a 45.8 % en 2024, con picos de 47.5–47.6 % en 2021–2022, lo que indica que casi la mitad de las personas ocupadas lo hace en condiciones de bajos ingresos, jornadas extremas o subocupación, situación que empuja a muchas familias a recurrir al comercio informal como estrategia de supervivencia económica.
Esta evolución en los indicadores laborales se traduce, en el ámbito municipal, en una presión sostenida sobre los mercados públicos y el espacio público. Entre 2019 y 2024, los censos y registros municipales han identificado un incremento y posterior estabilización de la presencia de comercio informal en el primer cuadro de la ciudad, con un padrón cercano a 900 personas en situación de informalidad laboral dedicadas al comercio en vía pública, concentradas en el Centro Histórico, el andador turístico y las calles aledañas a los mercados Benito Juárez, 20 de Noviembre y el Mercado de Abasto “Margarita Maza de Juárez”. En estos puntos, la combinación de mayores niveles de informalidad, necesidad de ingresos complementarios y control administrativo limitado ha derivado en una ocupación cada vez más intensa de banquetas, calles y áreas comunes, consolidando patrones de desorden comercial que se han mantenido a lo largo del tiempo.

En los 16 mercados municipalizados (Mercado de Abasto “Margarita Maza de Juárez”, IV Centenario, Candiani, Sánchez Pascuas, Hidalgo, 20 de Noviembre, Benito Juárez, Santa Rosa, La Cascada, Venustiano Carranza, La Noria, Paz Migueles, La Merced, Las Flores y Lulaá), los informes de gobierno 2022–2024 y la información de la Secretaría de Gobierno y Territorio señalan que, si bien se han realizado acciones puntuales de mantenimiento, regularización o intervención de infraestructura en algunos casos, persisten patrones recurrentes de ocupación irregular de locales y áreas comunes, padrones de locatarios desactualizados, giros fuera de norma y presencia de comercio informal en los perímetros de los mercados. La situación no se modifica de forma estructural: año con año se reportan operativos, censos y procesos de reorganización, pero también la continuidad de conflictos por el uso del espacio y la saturación de accesos y vialidades en torno a los mercados.

La evolución del problema también se observa en las percepciones recabadas en los Diálogos Vecinales y en espacios como el foro “Prosperidad compartida”, donde comerciantes y vecinas/os han reportado, de manera reiterada entre 2020 y 2024, bajas ventas, competencia desleal con comercio informal cercano, falta de difusión y desconocimiento de la ubicación de algunos mercados, así como inconformidades por la ocupación del espacio público por puestos sin permiso. Estas percepciones se mantienen en el tiempo y se combinan con los niveles elevados de informalidad y condiciones críticas de ocupación, reforzando la idea de que el desorden comercial en mercados y vía pública no es un fenómeno coyuntural, sino una característica persistente del entorno urbano y económico de municipio.

Experiencias de atención
En cuanto a experiencias de atención relevantes para el municipio o para el estado de Oaxaca, pueden destacarse la coordinación interinstitucional establecida mediante la Ley Estatal en la que los municipios forman parte del Sistema Estatal de Prevención, Atención, Sanción y Erradicación de la Violencia contra las Mujeres. A nivel municipal, la formulación del Plan Municipal de Desarrollo 2025-2027, construida con participación vecinal ("diálogos vecinales") y con integración de ejes transversales, sugiere una experiencia de gobernanza participativa que puede facilitar la intervención del Instituto Municipal de la Mujer. En el caso de Instituto se han implementado programas de capacitación, atención a víctimas, proyectos de autonomía económica de mujeres, etc. que son experiencias que nos han permitido identificar buenas prácticas, aprendizajes y áreas de mejora para el programa presupuestario.

1.2 Metodología para la identificación de la población objetivo y definición de fuentes de información

De acuerdo con el último Censo de Población y Vivienda realizado por el Instituto Nacional de Estadística y Geografía (INEGI) en 2020, la población total del municipio de Oaxaca de Juárez asciende a 270,955 personas (INEGI, 2020).

Definición y cuantificación de los conceptos poblacionales del Pp

Población Potencial	Total de unidades económicas y personas que realizan actividades de comercio al por menor y comercio en vía pública en el municipio de Oaxaca de Juárez, que enfrentan problemas de desorden, informalidad y falta de regulación municipal.	**Cuantificación:**	≈ 14,031 unidades económicas/comercios en el municipio de Oaxaca de Juárez: 13,131 unidades económicas de comercio al por menor registradas en el DEUE 2024 + ≈ 900 personas/comerciantes en la informalidad laboral en el primer cuadro de la ciudad (ocupando la vía pública sin permiso).
		Criterios de Focalización	Sectorial: todas las unidades económicas dedicadas al comercio al por menor en mercados públicos y al comercio en vía pública en el municipio. Territorial: ámbito municipal completo (cabecera y agencias). Situación laboral: incluye tanto comercio formal (establecido en mercados) como comercio informal (vía pública y micronegocios sin permiso).
Población Objetivo	Subconjunto de la población potencial conformado por los mercados municipalizados y las personas comerciantes en vía pública de las zonas críticas donde se concentrarán las acciones de	**Cuantificación:**	16 mercados municipalizados (Abasto, Benito Juárez, 20 de Noviembre, IV Centenario, Santa Rosa, Candiani, entre otros) y ≈ 900 personas comerciantes en vía pública del primer cuadro de la ciudad.
		Criterios de Focalización	Territorial: primer cuadro de la ciudad y entorno inmediato de los mercados municipalizados, así como mercados ubicados en colonias y agencias con mayor concentración de actividad comercial. Sectorial: personas concesionarias y locatarias de mercados municipales y personas vendedoras en vía pública registradas en el censo municipal. Situación laboral: énfasis en personas en comercio informal y en mercados con mayores problemas de desorden y rezago en regularización.
Población atendida (beneficiarios)	Unidades económicas y personas comerciantes de la población objetivo que, durante el ejercicio fiscal 2025, recibirán directamente acciones de ordenamiento, regularización, control administrativo o mejora de la gestión de mercados y comercio en vía pública	**Cuantificación:**	Meta referencial 2025: al menos 10 de los 16 mercados municipalizados intervenidos con acciones de ordenamiento/regularización y ≈ 600 personas comerciantes en vía pública del primer cuadro incorporadas a procesos de regulación, ordenamiento o regularización administrativa.
		Criterios de Focalización	Territorial: mercados priorizados en el programa anual (por volumen de actividad, conflictos por uso de espacio público y rezago en regularización) y zonas críticas de comercio en vía pública del primer cuadro. Sectorial: comerciantes con registro en padrones o censo municipal, con prioridad para quienes se encuentran en informalidad laboral. Enfoque social: priorización de personas comerciantes con mayores condiciones de vulnerabilidad (falta de seguridad social, dependencia económica del puesto, mujeres jefas de hogar, jóvenes), sujeto a validación institucional.

2. Estrategia para la selección de alternativas.

Explicar brevemente por qué las medidas que constituirán la intervención del PP son las opciones de acción más efectivas para lograr el objetivo deseado; debe guardar relación con el árbol del objetivo.	La selección de alternativas del Programa Presupuestario “Ordenamiento y Regulación del Comercio en Mercados Públicos, Mercado de Abasto y Vía Pública” se efectuó con base en el diagnóstico institucional y en los Árboles de Problemas y de Objetivos elaborados mediante la Metodología del Marco Lógico, asegurando coherencia entre las causas identificadas, la solución al problema y los fines perseguidos. Durante el proceso se analizaron distintas rutas de intervención derivadas de las causas detectadas: esquemas centrados únicamente en operativos y sanciones, acciones enfocadas sólo al fomento económico del comercio y una alternativa integral que combina fortalecimiento de la gestión de mercados públicos (incluido el Mercado de Abasto), ordenamiento del comercio en vía pública y consolidación de la Unidad de Defensores (inspectores). De este análisis se determinó que la opción más viable y efectiva es la estrategia integral, al fortalecer simultáneamente la administración y modernización de mercados, el control y regulación del comercio en vía pública mediante padrones y ordenamientos claros, y la capacidad inspectiva para asegurar el cumplimiento de la normatividad. Esta estrategia se materializa a través de los componentes y actividades del Programa Presupuestario, articulando acciones de actualización normativa, planeación territorial del comercio, supervisión e inspección, así como acompañamiento a personas comerciantes. La alternativa seleccionada se encuentra alineada con el Eje 4.3 Comercio del PMD 2025–2027, con el Eje Gobierno Honesto del Plan Estatal de Desarrollo, con el eje de Gobernanza con Justicia y Participación Ciudadana del Plan Nacional de Desarrollo y con el ODS 8, contribuyendo al Fin, Propósito, Componentes y Actividades definidos en la MIR del programa.

1. Diagnóstico del Programa presupuestario

1.1 Descripción del Problema

Antecedentes y definición del problema

Oaxaca de Juárez es un municipio con una estructura territorial heterogénea, conformada por un centro histórico con alta actividad comercial y turística, zonas residenciales consolidadas y un conjunto de agencias municipales con características muy diversas —como San Martín Mexicapam, Montoya, Pueblo Nuevo, Candiani o Cinco Señores— que presentan diferencias marcadas en densidad poblacional, acceso a servicios, infraestructura urbana y niveles de cohesión comunitaria.

Estas disparidades generan dinámicas de riesgo diferenciadas: mientras el centro y las zonas comerciales concentran delitos como robo a transeúnte, negocios y vehículos, las áreas periféricas enfrentan problemáticas relacionadas con la convivencia vecinal, violencia interpersonal, narcomenudeo y limitada presencia de servicios de seguridad, el municipio atraviesa además procesos de expansión urbana desordenada, especialmente en su periferia norte y sur, donde el crecimiento ha superado la capacidad de planeación y dotación de servicios, en estas zonas, caracterizadas por trazos irregulares y baja presencia institucional, la iluminación pública es insuficiente, existen pocos espacios comunitarios y se observa una débil cohesión social, condiciones que incrementan la vulnerabilidad ante distintos tipos de delito y elevan la percepción de inseguridad entre la población, esto conlleva a un **incremento de la incidencia delictiva en Oaxaca de Juárez.** En este sentido, la mezcla de zonas de alta movilidad, áreas habitacionales, corredores turísticos y espacios con presencia de población flotante crea entornos donde la convivencia cotidiana se vuelve compleja, la constante fluctuación de visitantes, comerciantes, estudiantes y trabajadores modifica los patrones de vigilancia natural y dificulta la identificación comunitaria, lo cual impacta directamente en la capacidad de organizar redes vecinales sólidas, la ausencia de esta contextualización municipal en el apartado evaluado impide comprender adecuadamente los retos específicos que enfrenta Oaxaca de Juárez en materia de seguridad vecinal, incorporar estas características es fundamental para explicar por qué la prevención comunitaria y la proximidad social requieren estrategias diferenciadas por colonia y agencia, y para asegurar que el diagnóstico responda a la realidad concreta del territorio municipal.

En cuanto a percepción ciudadana, la inseguridad en Oaxaca de Juárez aumentó significativamente entre 2024 y 2025, pasando de 57.8% en marzo de 2024 a 68.9% en marzo de 2025, según la Encuesta Nacional de Seguridad Pública Urbana (ENSU) publicada por el INEGI a finales de abril de 2025, (***https://www.inegi.org.mx/programas/ensu/#documentacion),*** este dato revela que siete de cada diez habitantes se sienten inseguros por temor a ser víctimas de un delito, aunque la percepción alcanzó un máximo de 70.2% en diciembre de 2024, descendió ligeramente a 68.9% para marzo de 2025. A nivel nacional, esta cifra se mantiene por encima del promedio, que fue de 61.9% en el mismo periodo. La Secretaría de Gobierno de Oaxaca también reconoce esta disminución marginal al comparar el cuarto trimestre de 2024 con el primero de 2025, pasando de 70.2% a 68.9%. ***(https://www.oaxaca.gob.mx/comunicacion/rinde-frutos-estrategia-de-s ciudadana-de-la-primavera-oaxaquena-sego).***

En materia delictiva, los informes de la Fiscalía General del Estado de Oaxaca señalan que los delitos más frecuentes en el municipio son el robo de vehículos, el robo a negocios y la violencia familiar., en marzo de 2025 la categoría de robo de vehículo registró 194 carpetas de investigación en el estado, de las cuales 55 correspondieron a Oaxaca de Juárez, en cuanto al robo a negocios, en agosto de 2025 el municipio registró 28 víctimas y 25 carpetas, confirmando que este delito es una problemática persistente en la capital, por su parte, la violencia familiar mantiene una presencia constante mes a mes; en octubre de 2025 se reportaron 36 víctimas con 33 carpetas de investigación, lo que refleja la magnitud del fenómeno y su impacto en la vida cotidiana de las familias ***(https://fge.oaxaca.gob.mx/wp-content/uploads/sistemas/estadisticas/inci-deli-esta/infografias-datos/2025/octubre/FORMATO_EXTENSO__OCTUBRE_2025.pdf),*** finalmente, la percepción de efectividad del gobierno local sigue siendo baja, de acuerdo con la ENSU del primer trimestre de 2025, únicamente 16% de la población del Municipio de Oaxaca de Juárez consideró que el gobierno municipal es "muy o algo efectivo" para resolver los problemas más importantes de la ciudad, este nivel de desconfianza institucional se vincula tanto con la persistencia de delitos de alto impacto como con la compleja estructura territorial del municipio, lo que refuerza la necesidad de políticas de seguridad

Justificación del Pp

Ficha Técnica del Programa presupuestario

La intervención del Gobierno Municipal de Oaxaca de Juárez es indispensable debido al incremento en la incidencia delictiva en la ciudad, tal como lo confirma la evidencia estadística más reciente disponible, incluida la ENSU 2025 y los informes de la Fiscalía del Estado, este aumento afecta directamente la seguridad vecinal, genera un deterioro del tejido comunitario y limita el ejercicio de derechos fundamentales, particularmente en un municipio caracterizado por alta densidad poblacional, elevada movilidad diaria y una marcada heterogeneidad territorial entre sus agencias y colonias.

Dicho contexto se relaciona directamente con los principios establecidos por la Agenda 2030 para el Desarrollo Sostenible de la ONU, la cual reconoce que no es posible alcanzar progreso ni bienestar social sin entornos seguros, con cohesión comunitaria y con instituciones capaces de garantizar paz, legalidad y protección de derechos, de manera específica, el Objetivo de Desarrollo Sostenible 16 (Paz, Justicia e Instituciones Sólidas) establece que los gobiernos deben reducir la violencia, fortalecer la seguridad pública, promover el acceso a la justicia y consolidar instituciones transparentes, responsables y cercanas a la ciudadanía; metas plenamente vinculadas con la obligación municipal de garantizar seguridad comunitaria y prevenir el delito. ***https://mexico.un.org/es.***

En este marco, el Gobierno Municipal de Oaxaca de Juárez tiene la obligación jurídica y administrativa de intervenir en materia de seguridad pública y prevención del delito, conforme al artículo 43, fracción XLII de la Ley Orgánica Municipal del Estado de Oaxaca y al artículo 154 del Bando de Policía y Gobierno del Municipio de Oaxaca de Juárez, esta responsabilidad institucional se alinea con el enfoque del ODS 16 al establecer que los gobiernos deben constituir cuerpos de policía preventiva y diseñar programas de prevención del delito, proximidad social y fortalecimiento comunitario, lo que corresponde directamente con el mandato internacional de promover paz sostenible y estructuras gubernamentales eficaces.

La evidencia oficial muestra que los delitos recurrentes en el municipio —robo a transeúnte, robo de vehículo, robo a negocio, lesiones dolosas, violencia familiar y extorsión— se concentran especialmente en zonas urbanas mixtas donde convergen usos residencial, turístico y comercial, afectando la convivencia vecinal y deteriorando la cohesión social. Dado que estos delitos presentan un fuerte componente de oportunidad delictiva, desorganización comunitaria y falta de proximidad policial, su atención no puede limitarse a operaciones reactivas, el enfoque preventivo y comunitario que exige la Agenda 2030 se hace aquí evidente, pues promover seguridad no consiste únicamente en responder al delito, sino en construir entornos seguros, resilientes y con participación ciudadana.

Por ello, resulta indispensable un Programa Presupuestario Municipal de Seguridad Vecinal, orientado a prevención situacional, organización comunitaria, proximidad social, patrullaje territorial estratégico y profesionalización policial con enfoque local, la Agenda 2030 plantea que la paz sostenible se construye desde la base social, mediante cooperación entre gobierno y ciudadanía; en ese sentido, un programa bajo el modelo de coproducción de seguridad contribuye de manera directa al cumplimiento del ODS 16 y fortalece las condiciones para el desarrollo sostenible en Oaxaca de Juárez.

La implementación del programa generará valor público en diversas dimensiones: permitirá disminuir delitos de alto impacto vecinal, reducir la percepción de inseguridad —que alcanza 68.9 % según ENSU 2025— y promover convivencia comunitaria. Fortalecerá participación ciudadana, atención a víctimas, prevención de violencia familiar, profesionalización policial y uso estratégico del presupuesto basado en resultados. Desde la perspectiva de la ONU, estas acciones no solo construyen seguridad, sino que consolidan paz social, derechos humanos, confianza institucional y cohesión comunitaria: elementos centrales del Desarrollo Sostenible.

En conclusión, la intervención municipal no solo es pertinente —es una obligación jurídica sustentada en normativa local— sino además un mandato de alineación con el marco internacional del Desarrollo Sostenible, dado que garantizar seguridad pública es condición estructural para el bienestar, la equidad, la inclusión social y la protección plena de derechos humanos enel Municpio de Oaxaca de Juárez.

Estado actual del problema

El municipio de Oaxaca de Juárez presenta un incremento sostenido en distintos indicadores de incidencia delictiva y percepción de inseguridad, lo que confirma la persistencia del problema público identificado, esta situación se manifiesta mediante evidencia cuantitativa y cualitativa proveniente de fuentes oficiales entre 2023 y 2025, la información estadística reciente muestra que, entre 2023 y 2024, el municipio se mantuvo entre los de mayor número de carpetas de investigación en delitos como robo a transeúnte, robo de vehículo, robo a negocio, lesiones dolosas y violencia familiar, para 2025, los informes estatales indican que estos delitos continúan siendo los más frecuentes, con reportes mensuales que registran entre 40 y 55 carpetas por robo de vehículo, entre 30 y 40 por robo a transeúnte y un volumen constante de agresiones y violencia familiar, reflejando la persistencia y continuidad del problema.

De acuerdo con la ENSU del primer trimestre de 2025, el 68.9 % de la población de 18 años o más en Oaxaca de Juárez se sentía insegura, cifra que evidencia una percepción elevada y constante, mantenida por encima del 60 % desde 2023, esto demuestra que la ciudadanía sigue experimentando riesgos asociados al delito, sin que existan variaciones significativas que indiquen una mejora sostenida en la percepción de seguridad., asimismo, los registros municipales de 2024 y 2025 muestran que los reportes más recurrentes atendidos por la corporación municipal corresponden a violencia familiar, robo a transeúnte, conflictos vecinales, alteraciones al orden y reportes de personas sospechosas, con una alta concentración en zonas de mayor densidad poblacional, actividad comercial y movilidad. entre las áreas con mayores reportes destacan el Centro Histórico, Colonia Reforma, Avenida Símbolos Patrios y la zona Surponiente, Candiani, San Martín Mexicapam, Colonia Volcanes, Jalatlaco, Xochimilco y la Agencia Santa Rosa Panzacola. Estas zonas concentran la mayoría de los incidentes relacionados con robo a transeúnte, robo de vehículo, riñas, violencia familiar y alteraciones al orden público, particularmente durante horarios nocturnos y fines de semana, a partir de los registros institucionales del C2, C4, dependencias municipales y la Fiscalía, se identifica que estos delitos afectan de manera diferenciada a diversos grupos poblacionales: las mujeres presentan mayor incidencia en casos de violencia familiar y agresiones; los jóvenes registran mayor exposición a delitos en vía pública, especialmente robo a transeúnte; los comerciantes formales e informales son afectados por robo a negocio y extorsión; turistas y trabajadores del centro presentan mayor victimización por robo y asaltos; mientras que habitantes de colonias con débil organización comunitaria muestran mayor vulnerabilidad ante delitos de oportunidad.

El estado actual del problema también se expresa en brechas operativas e institucionales que amplifican su magnitud. Entre ellas destacan la alta concentración de delitos en zonas específicas frente a una capacidad operativa limitada para el patrullaje permanente, el déficit de proximidad social que dificulta la atención temprana de conflictos y reduce la confianza ciudadana, la baja tasa de denuncia —especialmente en delitos de robo y violencia familiar— que genera subregistro y complica la contención preventiva, la insuficiente cobertura de comités de seguridad vecinal en colonias periféricas y la presencia recurrente de reportes falsos, lo que satura los recursos operativos, toda la evidencia presentada confirma el problema público establecido oficialmente: el aumento y persistencia de delitos patrimoniales, violencia familiar y agresiones, junto con la elevada percepción de inseguridad y la clara concentración territorial del fenómeno, demuestran que se trata de un problema actual, verificable, que afecta a la mayoría de la población urbana, se distribuye de forma desigual en el territorio y supera la capacidad tradicional de control preventivo, en consecuencia, se justifica técnica y metodológicamente la necesidad de un Programa Presupuestario de Seguridad Vecinal que permita intervenir de manera focalizada, preventiva y estratégica ante la complejidad del contexto municipal.

Evolución del problema

Ficha Técnica del Programa presupuestario

La percepción de inseguridad constituye un indicador fundamental para comprender la evolución del problema público, ya que refleja la experiencia subjetiva de la ciudadanía respecto a las condiciones de seguridad en su entorno cotidiano, de acuerdo con la ENSU del INEGI, Oaxaca de Juárez ha presentado niveles históricamente elevados de percepción de inseguridad, con variaciones significativas durante el periodo analizado, los datos muestran una tendencia fluctuante: en el primer trimestre de 2023 se reportó un incremento del 72.9 %, ***(https://www.inegi.org.mx/contenidos/programas/ensu/doc/ensu2023_marzo_presentacion_ejecutiva.pdf)*** ; para el primer trimestre de 2024 la percepción se situó en 57.8 % ***(www.inegi.org.mx/contenidos/programas/ensu/doc/ensu2024_marzo_presentacion_ejecutiva.pdf)*** y para el primer trimestre de 2025 se registró un incremento significativo hasta 68.9 % ***(www.inegi.org.mx/contenidos/saladeprensa/boletines/2025/ensu/ENSU20205_RR_04.pdf)*** . Esta trayectoria evidencia que, si bien existieron periodos de reducción moderada, el repunte registrado en 2025 indica que la percepción de inseguridad no ha disminuido de manera sostenida y continúa siendo un elemento crítico para la ciudadanía.

Por otra parte, la incidencia delictiva reportada por el SESNSP presenta una dinámica distinta a la percepción ciudadana, Los registros oficiales señalan que, entre 2022 y 2024, el Gobierno del Estado informó una disminución del 12.7 % en la incidencia delictiva total, con base en datos del SESNSP, ***(https://www.oaxaca.gob.mx/comunicacion/logra-gobierno-de-oaxaca-disminucion-del-12-7-en-la-incidencia-delictiva-de-2022-a-2024),*** *de* manera complementaria, el Gabinete de Seguridad estatal reportó que en marzo de 2025 se registraron 1,548 delitos menos en comparación con marzo de 2023, ***(https://www.oaxaca.gob.mx/comunicacion/disminuye-incidencia-delictiva-en-oaxaca-producto-de-estrategia-coordinada-gabinete-de-seguridad)*** , si bien estos datos reflejan una reducción relativa en el universo de delitos registrados, ello no necesariamente implica una disminución real del fenómeno delictivo, ya que influyen factores como la baja denuncia, el subregistro institucional y la concentración de eventos delictivos en zonas de alta movilidad del municipio, particularmente áreas comerciales y turísticas.

La evolución del fenómeno delictivo en Oaxaca de Juárez no puede entenderse únicamente mediante el análisis estadístico, pues intervienen factores estructurales que condicionan tanto la incidencia delictiva como la percepción ciudadana, entre los factores territoriales destacan la expansión urbana irregular hacia las agencias de Montoya, San Juan Chapultepec, Pueblo Nuevo y Donají, así como la alta concentración de actividades comerciales y turísticas en el Centro Histórico, lo cual incrementa la oportunidad delictiva, en el ámbito social, persisten brechas de desigualdad económica en zonas periféricas que influyen en la vulnerabilidad de la población, en cuanto a factores institucionales, el municipio enfrenta limitaciones operativas en la cobertura policial, sumadas a una persistente baja confianza y percepción de efectividad de la policía municipal, según la ENSU 2025, ***(https://inegi.org.mx/contenidos/saladeprensa/boletines/2025/ensu/ENSU20205_04.pdf).*** La coexistencia de estas tendencias contrapuestas sugiere que, aunque algunos delitos registrados han mostrado disminuciones puntuales, no se ha logrado transformar la percepción social de inseguridad, esto puede explicarse por la persistencia de delitos de alto impacto, la baja confianza institucional, los altos índices de no denuncia y la visibilidad mediática de eventos violentos, el análisis histórico permite afirmar que el problema público definido en torno al incremento en la incidencia delictiva en el municipio de Oaxaca de Juárez mantiene plena vigencia, a pesar de reducciones específicas en ciertos indicadores, el aumento en la percepción de inseguridad y la permanencia de factores estructurales demuestran que el problema no ha sido resuelto y continúa afectando la vida cotidiana de la población, en consecuencia, la evolución del problema respalda la pertinencia y necesidad de intervenciones específicas en materia de prevención del delito, proximidad social y fortalecimiento comunitario, orientadas a reducir tanto la incidencia delictiva como la percepción de inseguridad mediante estrategias sostenidas,

Experiencias de atención.

Las experiencias recientes en materia de atención al problema de seguridad en Oaxaca de Juárez muestran un conjunto de intervenciones operativas, comunitarias e institucionales que han buscado fortalecer la capacidad de respuesta y la prevención del delito en el municipio y su zona metropolitana, en primer lugar, destaca el Despliegue Metropolitano 2025, iniciado el 13 de enero de ese año, mediante el cual se puso en marcha un "despliegue coordinado de seguridad" que abarca a Oaxaca de Juárez, Santa Lucía del Camino y Santa Cruz Xoxocotlán,esta estrategia estableció un esquema de mando coordinado e implicó una aportación significativa del Gobierno del Estado en términos de equipamiento y tecnología, con la incorporación de 807 cámaras de videovigilancia, cinco drones, más de mil patrullas y motopatrullas, entre otros recursos. Además, el despliegue incluyó un componente social orientado al mejoramiento de entornos comunitarios mediante el programa "Senderos de Paz", enfocado en la rehabilitación de espacios escolares, la iluminación pública y la recuperación de áreas destinadas a la convivencia. ***https://www.oaxaca.gob.mx/comunicacion/arranca-gobierno-de-oaxaca-despliegue-coordinado-de-seguridad-en-zona-metropolitana***

A estas acciones se suma la implementación del programa "Oaxaca Segura", al cual el Municipio de Oaxaca de Juárez se integró en 2024, dentro de dicho programa se reportó la ejecución de 83 acciones orientadas al fortalecimiento del tejido social comunitario, entre las cuales destacan "Vecinas y vecinos por la paz", "Redes MUCPAZ", "Jóvenes por la paz", "Minutos para imaginar" y "Deporte en tu comunidad". Asimismo, entre enero y noviembre de 2024 se instalaron 387 comités vecinales y se impartieron 243 capacitaciones en prevención del delito en 25 municipios considerados prioritarios, lo que refleja un enfoque de intervención territorial con participación ciudadana y promoción de la cultura de paz. ***https://www.oaxaca.gob.mx/comunicacion/con-oaxaca-segura-se-consolida-la-paz-en-municipios-de-alta-prioridad***

De manera paralela, se avanzó en el ámbito de la capacitación y profesionalización policial., el Sistema Estatal de Seguridad Pública (SESESP) informó en febrero de 2024 la aplicación de evaluaciones de control de confianza para policías municipales, así como la capacitación en el "Protocolo de Actuación Policial con Perspectiva de Género" ***(https://www.oaxaca.gob.mx/sesesp/con-equipo-capacitacion-y-prevencion-se-mantiene-un-oaxaca-seguro).*** De igual forma, la Defensoría de los Derechos Humanos del Pueblo de Oaxaca brindó formación en temas como el Protocolo Nacional de Actuación Policial, la atención a violencia familiar y el manejo de órdenes de protección, estas acciones se complementaron con actividades de sensibilización desarrolladas por la Unidad de Prevención del Delito, que recurrió a sociodramas y dinámicas comunitarias para fortalecer la cultura de prevención y el acercamiento con la ciudadanía.

En materia de prevención comunitaria, durante agosto de 2025 la Secretaría de Seguridad Vecinal, a través de la Unidad de Prevención del Delito, llevó a cabo diversas ferias de prevención, talleres lúdicos y reuniones de proximidad social en agencias y colonias como Montoya, Pueblo Nuevo y Santa Rosa Panzacola, En la agencia de Montoya se realizó una Feria de la Prevención con actividades deportivas, clases de baile, talleres sobre abuso infantil y servicios de atención médica —incluyendo corte de cabello y odontología—, mientras que en Pueblo Nuevo se desarrollaron pláticas sobre bullying y dinámicas recreativas dirigidas tanto a niñas y niños como a personas adultas, estas acciones buscan consolidar un modelo de seguridad vecinal basado en la participación social, la integración comunitaria y la atención preventiva. ***https://entidadoaxaca.mx/2025/08/unidad-de-prevencion-del-delito-fortalece-la-seguridad-vecinal-en-agencias-y-colonias-de-oaxaca-de-juarez***

Finalmente, la coordinación interinstitucional entre el Gobierno del Estado y el Ayuntamiento de Oaxaca de Juárez se ha fortalecido mediante reuniones estratégicas, como la realizada en mayo de 2025, donde fueron analizadas acciones de inteligencia, despliegues operativos conjuntos y esquemas de patrullaje apoyados en tecnología, incluyendo el uso de drones y el incremento de la presencia policial en puntos clave del municipio, este trabajo articulado pretende mejorar la capacidad de respuesta frente a los delitos y consolidar mecanismos de colaboración entre instancias estatales, municipales y de procuración de justicia. ***https://www.oaxaca.gob.mx/comunicacion/fortalecen-gobierno-del-estado-fgeo-y-***

1.2 Metodología para la identificación de la población objetivo y definición de fuentes de información

De acuerdo con el último Censo de Población y Vivienda realizado por el Instituto Nacional de Estadística y Geografía (INEGI) en 2020, la población total del municipio de Oaxaca de Juárez asciende a 270,955 personas (INEGI, 2020)., Encuesta Nacional de Seguridad Pública Urbana.

Definición y cuantificación de los conceptos poblacionales del Pp

Ficha Técnica del Programa presupuestario

Población Potencial	270, 955	**Cuantificación:**	Aproximadamente 270,955 Personas, INEGI 2020. (100 % de la Población del Municipio de Oaxaca de Juárez), 270,955 personas (INEGI 2020)
		Criterios de Focalización	Incluye a todas las vecinas y vecinos del Municipio de Oaxaca de Juárez, sin distinción alguna, debido al carácter universal del servicio de seguridad pública.
Población Objetivo	270, 955	**Cuantificación:**	Aproximadamente 270,955 Personas, INEGI 2020. (100 % de la Población del Municipio de Oaxaca de Juárez), 270,955 personas (INEGI 2020)
		Criterios de Focalización	Incluye a todas las vecinas y vecinos del Municipio de Oaxaca de Juárez, sin distinción alguna, debido al carácter universal del servicio de seguridad pública.
Población atendida (beneficiarios)	270, 955	**Cuantificación:**	Aproximadamente 270,955 Personas, INEGI 2020. (100 % de la Población del Municipio de Oaxaca de Juárez), 270,955 personas (INEGI 2020)
		Criterios de Focalización	Incluye a todas las vecinas y vecinos del Municipio de Oaxaca de Juárez, sin distinción alguna, debido al carácter universal del servicio de seguridad pública.

2. Estrategia para la selección de alternativas.	
Explicar brevemente por qué las medidas que constituirán la intervención del PP son las opciones de acción más efectivas para lograr el objetivo deseado; debe guardar relación con el árbol del objetivo.	La selección de las alternativas que integran la intervención del Programa Presupuestario de la Sectrearía de Seguridad Vecinal, se fundamenta en un análisis de pertinencia, factibilidad y capacidad real de incidencia del Gobierno Municipal sobre las causas directas identificadas en el árbol del problema. Con base en esa metodología, se eligieron acciones que permiten intervenir específicamente en los medios directos del árbol de objetivos, es decir, en aquellos factores sobre los que el municipio sí tiene competencia legal, operativa y presupuestal, y que han demostrado una relación causal directa con la reducción de la incidencia delictiva en el Municipio de Oaxaca de Juárez. Las medidas seleccionadas para el Programa Presupuestario son las más efectivas porque abordan directamente las causas identificadas en el árbol de problemas y planteadas como medios en el árbol de objetivos. Al fortalecer la prevención social, ampliar oportunidades económicas, activar la participación vecinal y mejorar la capacidad institucional de vigilancia y justicia, se reducen tanto los factores estructurales de vulnerabilidad como las fallas inmediatas en la seguridad pública. Estas acciones, además, disminuyen la percepción de inseguridad, protegen a comercios y hogares y favorecen entornos seguros que impulsan la convivencia, la inversión y el desarrollo local. En conjunto, representan la ruta más eficiente y sostenible para lograr la reducción de la incidencia delictiva en Oaxaca de Juárez.

1. Diagnóstico del Programa presupuestario

1.1 Descripción del Problema

Antecedentes y definición del problema

El municipio de Oaxaca de Juárez enfrenta un entorno urbano complejo caracterizado por un crecimiento poblacional constante, una actividad económica y turística en expansión y una elevada demanda de servicios públicos esenciales. Estas condiciones requieren una infraestructura sostenible, moderna y con capacidad operativa suficiente para responder a las necesidades ciudadanas en materia de residuos sólidos urbanos, alumbrado público, mantenimiento urbano y administración de panteones municipales.

Diversos factores estructurales inciden en la situación actual: el aumento sostenido en la generación de residuos sólidos urbanos; la expansión territorial y el uso intensivo del espacio público; el deterioro acumulado de la infraestructura de alumbrado; la necesidad de modernizar sistemas de mantenimiento y logística urbana; así como rezagos en la infraestructura funeraria y en la regulación de los panteones municipales. Estos elementos se desarrollan en un contexto institucional que opera bajo presión por la elevada demanda ciudadana, la necesidad de optimizar recursos y la obligación de fortalecer la sostenibilidad ambiental y la eficiencia en los servicios públicos.

En este marco, se identifica como problemática central que:
el municipio de Oaxaca de Juárez enfrenta una gestión insuficiente de los servicios públicos esenciales, derivada de la alta generación de residuos sólidos urbanos, la saturación de los panteones municipales y el rezago en el desarrollo de infraestructura sostenible y en el ordenamiento territorial, lo que limita la eficiencia operativa, afecta la salud pública y genera presión ambiental y urbana.

La evidencia reciente confirma la magnitud y multidimensionalidad de este problema. Durante el primer año de gobierno, la Secretaría de Servicios Vecinales enfrentó un rezago histórico en el manejo de residuos, alumbrado y mantenimiento urbano. Una de las principales acciones fue la liberación total del playón de residuos sólidos, para lo cual se trasladaron 36 mil toneladas de basura entre enero y abril, con una inversión de 12 millones de pesos, logrando reducir el 100% de los riesgos ambientales asociados a su saturación. En la actualidad, la generación de residuos en el municipio continúa siendo elevada: el Centro de Transferencia recibe diariamente 450–500 toneladas de RSU, operadas mediante 86 unidades, con incrementos de hasta 30% durante temporadas altas. Entre 2024 y 2025 se trasladaron 48,193 toneladas y 93,415 toneladas, respectivamente, con gastos operativos que superaron los $174.4 millones en 2024 y $74.5 millones en 2025.

A nivel operativo, la recolección municipal registró 125,850 toneladas atendidas en agencias, colonias y mercados; 8,588 toneladas recolectadas en vía pública; 5,895 servicios en papeleras del Centro Histórico; y 5,300 toneladas derivadas de convenios con sectores productivos, que generaron una recaudación aproximada de $3.1 millones mediante 124 convenios con escuelas, hospitales y empresas. Durante festividades, se acumularon 5,400 toneladas adicionales, con incrementos de hasta 30% de RSU y 20% de residuos orgánicos.

En materia de alumbrado público, persisten necesidades significativas de mantenimiento y modernización. La Secretaría instaló 200 nuevos puntos de luz, colocó 10,065 metros lineales de cableado, y atendió 697 visitas técnicas, superando los registros del año previo. Sin embargo, la demanda ciudadana continúa siendo elevada, debido al deterioro acumulado de luminarias, circuitos y cableado en diversas agencias y colonias del municipio.

Respecto al mantenimiento urbano y áreas verdes, se ejecutaron 1,243 metros lineales de limpieza y deshierbe, se suministraron 4.9 millones de litros de agua tratada, y se generaron 18,500 toneladas de material orgánico. Asimismo, se realizaron 120 tequios, 696 dictámenes de poda, 584 podas, 123 derribos y se gestionaron 10,760 toneladas de material orgánico derivado de estas actividades.

En cuanto a los panteones municipales, se mantienen rezagos administrativos, de infraestructura y normativos. Durante el primer año se realizaron 469 inhumaciones, 118 permisos de construcción, 313

Justificación del Pp

La intervención del Gobierno Municipal es indispensable para atender la problemática estructural relacionada con la gestión insuficiente de los servicios públicos esenciales del municipio, particularmente en lo referente a la alta generación de residuos sólidos urbanos, el mantenimiento y modernización del alumbrado público, la conservación de áreas verdes y el rezago en la administración de panteones municipales. Estas condiciones generan presión ambiental, limitan la eficiencia operativa, afectan la salud pública y deterioran la calidad del entorno urbano, por lo que requieren una respuesta institucional articulada, continua y con suficiencia presupuestaria.

El marco jurídico municipal establece con claridad la competencia de la Secretaría de Servicios Vecinales para enfrentar este problema público. El Artículo 161 del Bando de Policía y Gobierno del Municipio de Oaxaca de Juárez (2025) señala que esta dependencia es responsable de la prestación, administración, conservación y optimización de los servicios públicos de alumbrado, aseo y recolección, traslado y disposición final de residuos sólidos, así como del mantenimiento de parques, jardines y panteones municipales. Asimismo, le otorga atribuciones para formular programas de mejora, promover convenios para la recolección de residuos, impulsar herramientas tecnológicas, organizar acciones de embellecimiento urbano, fortalecer la participación ciudadana, dictaminar permisos relacionados con sus funciones y supervisar los daños ocasionados al equipamiento urbano. Dicho marco normativo también faculta a la Secretaría para coordinar acciones de cuidado ambiental, establecer criterios de conservación de infraestructura, realizar programas de mantenimiento y administrar sus unidades operativas.

Estas atribuciones, sumadas a las responsabilidades de la Dirección de Aseo Público y la Dirección de Mantenimiento Urbano —adscritas a la Secretaría—, confirman la competencia legal para diseñar, operar y evaluar un Programa Presupuestario orientado a la mejora de los servicios públicos municipales. La actuación del Gobierno Municipal no solo es jurídicamente procedente, sino necesaria para garantizar la continuidad del servicio, prevenir daños ambientales y atender una demanda social creciente.

El Programa Presupuestario se justifica plenamente al mantener un vínculo directo con el problema público identificado. La gestión de residuos, el mantenimiento del alumbrado, la conservación de áreas verdes y la administración de panteones no pueden detenerse, reducirse ni delegarse sin comprometer el bienestar de la población y el funcionamiento del municipio. Por el contrario, requieren fortalecer la capacidad operativa mediante planeación técnica, equipamiento adecuado, infraestructura sostenible y procesos de mejora continua que permitan responder a los desafíos actuales como la generación superior a 450–500 toneladas de residuos diarios, el incremento estacional de hasta 30% de RSU, la necesidad creciente de mantenimiento de luminarias y cableado, así como la saturación de los panteones municipales.

El Programa Presupuestario contribuirá a reducir esta problemática mediante acciones orientadas a mejorar la eficiencia en la recolección, traslado y disposición de residuos; modernizar y ampliar la infraestructura de alumbrado público; fortalecer el mantenimiento urbano y la conservación de áreas verdes; y consolidar la administración eficiente y sostenible de los panteones municipales. Su relevancia social radica en la protección de la salud pública y el fortalecimiento de la calidad de vida de la población; su importancia económica se evidencia en el manejo eficiente de recursos, la reducción de costos ambientales y la continuidad operativa del municipio; y su pertinencia institucional se fundamenta en el cumplimiento de las obligaciones normativas, la mejora del desempeño administrativo y el seguimiento de metas conforme a los instrumentos de planeación vigentes.

La intervención se vincula directamente con el Eje 5 del Plan Municipal de Desarrollo 2025–2027: “Infraestructuras Sostenibles y Servicios Públicos para el Desarrollo”, particularmente con:

Subeje 1. Infraestructura sostenible – Objetivo 5.1, orientado al fortalecimiento de la infraestructura y equipamiento público;

Subeje 2. Manejo de Residuos Sólidos Urbanos – Objetivo 5.5, relacionado con la gestión integral y eficiente de los RSU;

Estado actual del problema

El estado actual del problema evidencia que la prestación de los servicios públicos municipales continúa operando bajo condiciones de alta demanda, presión operativa y rezagos acumulados en materia de residuos sólidos urbanos, alumbrado público, mantenimiento urbano y administración de panteones. La información disponible para el periodo 2023–2025 muestra que la magnitud del problema persiste y presenta variaciones estacionales y territoriales que incrementan su complejidad.

En materia de residuos sólidos urbanos, el municipio mantiene un volumen de generación elevado y sostenido. El Centro de Transferencia en Xoxocotlán recibe diariamente entre 450 y 500 toneladas de residuos, con incrementos de hasta 30% durante temporadas de alta actividad comercial o festividades. Entre 2024 y 2025, el traslado de residuos pasó de 48,193 toneladas a 93,415 toneladas, con un gasto operativo acumulado de $174.4 millones en 2024 y $74.5 millones entre abril y octubre de 2025, lo que confirma la presión persistente sobre el sistema municipal de recolección y traslado. La recolección regular atendió 125,850 toneladas en colonias, agencias y mercados; 8,588 toneladas en vía pública; 5,895 servicios en papeleras del Centro Histórico; y 5,300 toneladas derivadas de convenios con sectores productivos. Durante festividades se generaron 5,400 toneladas adicionales, lo que evidencia un patrón cíclico de incrementos que afecta la operación cotidiana.

En alumbrado público, la demanda de mantenimiento y rehabilitación continúa siendo alta. Aunque se instalaron 200 nuevos puntos de luz, se colocaron 10,065 metros lineales de cableado y se realizaron 697 visitas técnicas, la cantidad de reportes ciudadanos permanece elevada. En 2025, las acciones de rehabilitación alcanzaron 3,211 intervenciones, superando las 2,382 registradas en 2024, lo que revela la persistencia de fallas derivadas del desgaste de la infraestructura, variaciones de voltaje, vandalismo y condiciones climáticas.

En mantenimiento urbano y áreas verdes, la operación municipal ha registrado altos volúmenes de trabajo: 1,243 metros lineales de deshierbe, 4.9 millones de litros de agua suministrados y 18,500 toneladas de material orgánico procesado. Se llevaron a cabo 120 tequios, 696 dictámenes de poda, 584 podas, 123 derribos y el manejo de 10,760 toneladas de material orgánico. Estas cifras muestran la elevada presión sobre las cuadrillas de mantenimiento urbano, derivada del crecimiento poblacional, el deterioro natural de las áreas arboladas y la demanda constante de atención ciudadana.

En los panteones municipales, persisten rezagos administrativos y de infraestructura. Durante el periodo analizado se realizaron 469 inhumaciones, 118 permisos de construcción, 313 certificaciones, 224 pólizas y 174 cambios de titularidad, con una recaudación de $2.7 millones. El inicio del Programa de Recuperación de Fosas, que busca regularizar 600 fosas en abandono con una proyección de recuperación de $19.2 millones, refleja la necesidad de poner al día procesos normativos y de control patrimonial, así como de atender la saturación del espacio disponible.

Desde el punto de vista cualitativo, los reportes ciudadanos ante módulos de atención, redes sociales institucionales y recorridos territoriales señalan una percepción persistente de insuficiencia en los servicios, particularmente en la recolección de residuos y en el mantenimiento de luminarias en colonias de alta densidad. Las zonas con mayor concentración de reportes incluyen agencias como San Martín Mexicapam, Pueblo Nuevo, Montoya, Candiani, Cinco Señores, así como colonias consolidadas de la zona norte y el Centro Histórico, donde la demanda aumenta debido a actividades comerciales, movilidad peatonal y presencia turística. En contraste, áreas periféricas presentan brechas de atención vinculadas a distancias mayores, dispersión habitacional y condiciones topográficas.

Los grupos más impactados son aquellos que dependen de manera directa del correcto funcionamiento de los servicios públicos básicos: mujeres responsables del cuidado del hogar, personas adultas mayores, población de colonias populares con limitada infraestructura privada, así como sectores comerciales y de servicios ubicados en zonas de alta concentración turística. Las áreas institucionales más afectadas son las unidades operativas de limpia, alumbrado, áreas verdes y panteones, debido al incremento sostenido de solicitudes, cargas operativas y requerimientos de mantenimiento.

En conjunto, el estado actual del problema refleja un sistema de servicios públicos que continúa operando bajo condiciones de alta presión estructural, con rezagos históricos, demandas crecientes y un entorno territorial desigual que intensifica los desafíos para garantizar la cobertura y eficiencia de los servicios municipales.

Evolución del problema
En los últimos cinco años, el problema asociado a la gestión de los servicios públicos municipales ha mostrado una tendencia sostenida de incremento en su complejidad, magnitud y presión operativa. La evolución del fenómeno refleja transformaciones demográficas, económicas y ambientales en el municipio de Oaxaca de Juárez, así como variaciones institucionales en la capacidad de respuesta. En materia de residuos sólidos urbanos, los registros disponibles muestran un incremento significativo en la generación, traslado y manejo de residuos desde 2018. Mientras en años previos la recolección diaria se mantenía en promedios cercanos a 300–350 toneladas, para el periodo 2023–2025 el municipio experimenta cargas de 450 a 500 toneladas diarias, lo que representa un crecimiento estimado de entre 30% y 45% en menos de un lustro. Las variaciones estacionales también se intensificaron: los incrementos de hasta 30% en festividades y temporadas de alta afluencia turística son más frecuentes y con mayor volumen que en ejercicios anteriores. A ello se suma el aumento progresivo en los costos operativos; por ejemplo, el gasto ejercido en traslado de residuos ascendió a $174.4 millones en 2024, cifra superior a los montos históricos reportados antes de 2020, lo que confirma la presión financiera del problema. El alumbrado público también ha mostrado una evolución marcada por el deterioro acumulado de la infraestructura y la creciente demanda ciudadana. Entre 2019 y 2024, los reportes ciudadanos se incrementaron de forma constante, asociados al envejecimiento de luminarias, fallas recurrentes en cableado y afectaciones por condiciones climáticas. La tendencia reciente indica un aumento en intervenciones: las 3,211 rehabilitaciones realizadas en 2025 superan los registros de 2024 y duplican las cifras estimadas en años previos, lo que refleja un deterioro progresivo de los componentes eléctricos y una mayor presión sobre las cuadrillas operativas. En mantenimiento urbano y áreas verdes, la demanda de servicios también ha crecido. Informes de 2018–2022 ya señalaban rezagos en podas, derribos y deshierbes derivados de la expansión territorial; sin embargo, para 2024–2025 las actividades alcanzan volúmenes superiores, con 696 dictámenes de poda, 584 podas, 123 derribos y 18,500 toneladas de material orgánico procesado. Esta tendencia está vinculada al incremento del arbolado urbano, a la necesidad de liberar áreas para infraestructura, y al crecimiento de la mancha urbana. En los panteones municipales, la saturación se ha intensificado progresivamente en los últimos cinco años. Informes previos ya señalaban una reducción sostenida en la disponibilidad de fosas y deficiencias administrativas para su recuperación. En 2024–2025 se evidencia un aumento en los trámites derivados de esta problemática, con 469 inhumaciones, 313 certificaciones y el inicio de un proceso de regularización de 600 fosas, lo que confirma la persistencia del rezago y su impacto patrimonial. Las causas que explican la evolución del problema son multifactoriales. En el ámbito social, el incremento poblacional y los patrones de consumo han elevado de manera constante la generación de residuos. En el ámbito económico, la reactivación turística posterior a la pandemia incrementó la actividad en el Centro Histórico, mercados y corredores comerciales, elevando los residuos y la carga sobre el alumbrado. En lo institucional, el municipio enfrenta retos por el desgaste natural de la infraestructura, la necesidad de modernizar parques vehiculares y redes eléctricas, así como limitaciones presupuestarias para atender de manera simultánea todos los servicios. En el ámbito ambiental, los eventos climáticos extremos —lluvias intensas, olas de calor— han afectado el funcionamiento de luminarias y acelerado el deterioro de áreas verdes. La evolución descrita demuestra que el problema no solo persiste, sino que se ha agravado con el tiempo, lo que confirma la pertinencia de mantener y fortalecer el Programa Presupuestario “Servicios Públicos Vecinales”. La mayor magnitud del problema exige un enfoque renovado que considere el incremento sostenido de la demanda, la presión operativa sobre las unidades administrativas y la necesidad de infraestructura sostenible, en congruencia con el Eje 5 del PMD 2025–2027 y los indicadores asociados a residuos, alumbrado, mantenimiento urbano y panteones. En síntesis, la evolución del problema evidencia una tendencia creciente en su impacto social, ambiental e institucional, lo que refuerza la necesidad de una intervención programática continua, estable y técnicamente orientada a enfrentar los retos actuales y emergentes del municipio.
Experiencias de atención

En los últimos años, el Gobierno Municipal, a través de la Secretaría de Servicios Vecinales y sus direcciones adscritas, ha implementado diversas acciones, programas y proyectos orientados a atender la problemática relacionada con la gestión de residuos sólidos urbanos, el alumbrado público, el mantenimiento urbano y la administración de panteones. Estas intervenciones han permitido generar aprendizajes relevantes y avances parciales, aunque también han enfrentado limitaciones operativas y presupuestarias que condicionan su alcance.

Entre 2020 y 2024, la Dirección de Aseo Público desarrolló estrategias para mejorar la recolección, traslado y manejo de residuos, fortaleciendo rutas de servicio y ampliando los convenios con sectores comerciales y educativos. Se dirigieron acciones a agencias como San Martín Mexicapam, Pueblo Nuevo, Candiani, Cinco Señores y el Centro Histórico, zonas con mayor generación de residuos. Durante este periodo se consolidó un padrón creciente de convenios para recolección, alcanzando en 2024 más de 120 convenios, que contribuyeron tanto a la gestión de residuos como a la recaudación municipal. Asimismo, el municipio mantuvo operativo el Centro de Transferencia, aunque bajo condiciones de saturación que derivaron en retos operativos y ambientales.

Durante el primer año de la administración 2024–2027 se ejecutó una de las acciones más relevantes en materia de residuos: la liberación del playón municipal, que acumulaba rezagos históricos y riesgos ambientales. Entre enero y abril de 2024 se trasladaron 36 mil toneladas de basura, con una inversión aproximada de 12 millones de pesos, logrando reducir el 100% del riesgo sanitario y operativo asociado. De manera complementaria, en 2024–2025 se atendieron 125,850 toneladas de residuos en agencias y colonias, 8,588 toneladas en vía pública y 5,300 toneladas derivadas de convenios, además de manejar 5,400 toneladas adicionales durante festividades.

En materia de alumbrado público, la Dirección de Mantenimiento Urbano implementó programas de rehabilitación y modernización de luminarias, priorizando zonas con alta densidad poblacional y corredores de movilidad. En 2024 se realizaron 2,382 rehabilitaciones, cifra que se incrementó a 3,211 en 2025. También se instalaron 200 nuevos puntos de luz y se colocaron 10,065 metros lineales de cableado, con el objetivo de reducir fallas recurrentes y ampliar la cobertura. Estas acciones contribuyeron a mejorar temporalmente la iluminación en colonias como Montoya, Volcanes, Centro y San Juan Chapultepec.

En áreas verdes, las cuadrillas municipales intensificaron actividades de poda, derribo, deshierbe y riego, generando 18,500 toneladas de material orgánico y realizando 120 tequios comunitarios entre 2024 y 2025. La gestión de 696 dictámenes de poda, 584 podas y 123 derribos evidenció la necesidad de atender una demanda acumulada y creciente.

En los panteones municipales, la Unidad de Panteones reforzó la atención administrativa y operativa mediante la emisión de 469 inhumaciones, 118 permisos de construcción, 313 certificaciones, 224 pólizas y 174 cambios de titularidad. Destaca el inicio del Programa de Recuperación de Fosas, que pretende regularizar 600 fosas en abandono, con una proyección de recuperación de $19.2 millones y beneficios directos en la capacidad operativa de los panteones.
A pesar de estos logros, las experiencias previas enfrentaron dificultades que limitaron su alcance. Entre las principales destacan la insuficiencia presupuestaria para atender la totalidad de necesidades operativas; la obsolescencia de equipamiento y unidades de recolección; la saturación del Centro de Transferencia; la rotación de personal operativo; la falta de infraestructura eléctrica adecuada en zonas periféricas; y rezagos normativos relacionados con la administración de panteones. La magnitud del problema supera la capacidad de respuesta diaria, generando acumulación de reportes ciudadanos, principalmente en colonias de alta densidad.
Estas experiencias han generado aprendizajes valiosos para el diseño del Programa Presupuestario. Se identificó la necesidad de fortalecer la planeación operativa basada en datos, priorizar intervenciones en función del volumen de residuos y la densidad poblacional, mejorar la coordinación con instancias estatales y federales, modernizar la infraestructura de alumbrado, incrementar el control administrativo en panteones y consolidar sistemas de registro y seguimiento para reducir rezagos. Las buenas prácticas incluyen la participación comunitaria mediante tequios, los convenios con sectores productivos para la gestión de residuos, y la atención focalizada en temporadas de alta generación de basura.

Como referencia técnica, municipios turísticos como Mérida, Querétaro y Puebla han implementado modelos de gestión diferenciada de residuos, programas de modernización de alumbrado con tecnologías de bajo consumo y sistemas de mantenimiento urbano basados en reportes georreferenciados. Estas experiencias demuestran la pertinencia de adoptar enfoques de modernización tecnológica y vinculación comunitaria, adaptándolos al contexto operativo y presupuestario de Oaxaca de Juárez.
En conjunto, las experiencias de atención previas respaldan la necesidad de mantener y fortalecer el Programa Presupuestario “Servicios Públicicos Vecinales”, incorporando mejoras metodológicas, operativas y administrativas para responder a la evolución del problema y a las demandas actuales de la población.

1.2 Metodología para la identificación de la población objetivo y definición de fuentes de información

De acuerdo con el último Censo de Población y Vivienda realizado por el Instituto Nacional de Estadística y Geografía (INEGI) en 2020, la población total del municipio de Oaxaca de Juárez asciende a 270,955 personas (INEGI, 2020).

Definición y cuantificación de los conceptos poblacionales del Pp

		Cuantificación:	270,955 habitantes del Municipio de Oaxaca de Juárez

Población Potencial	270,955 habitantes	**Criterios de Focalización**	Territorial
Población Objetivo	270,955 habitantes	**Cuantificación:**	270,955 habitantes del Municipio de Oaxaca de Juárez

2. Estrategia para la selección de alternativas.

Explicar brevemente por qué las medidas que constituirán la intervención del PP son las opciones de acción más efectivas para lograr el objetivo deseado; debe guardar relación con el árbol del objetivo.	La selección de alternativas se efectuó con base en el diagnóstico integral elaborado en los apartados 1.1.1 a 1.1.5 y en los Árboles de Problemas y de Objetivos construidos mediante la Metodología del Marco Lógico, los cuales permitieron identificar de manera precisa las causas atendibles del problema público y sus efectos. Durante este proceso se analizaron distintas rutas de intervención relacionadas con la gestión de residuos sólidos urbanos, el fortalecimiento del alumbrado público, la conservación de áreas verdes y la administración de panteones, considerando su viabilidad técnica, institucional, operativa y presupuestal. Derivado de este análisis, se determinó que la alternativa más viable consiste en el fortalecimiento de la capacidad operativa, administrativa y de infraestructura de la Secretaría de Servicios Vecinales, mediante acciones de modernización de equipamiento, optimización de rutas, mantenimiento preventivo, mejora de sistemas administrativos y consolidación de mecanismos de corresponsabilidad social y comunitaria. Esta alternativa permite atender directamente las causas identificadas, incide en los medios estratégicos del Árbol de Objetivos y mantiene coherencia con la naturaleza operativa del Programa Presupuestario. La estrategia seleccionada se materializa a través de los componentes y actividades programadas para la ejecución del Programa “Servicios Públicicos Vecinales”, integrando esquemas de coordinación interinstitucional, uso de herramientas de planeación basadas en datos y seguimiento permanente de indicadores institucionales. Asimismo, incorpora criterios de sostenibilidad ambiental y resiliencia urbana establecidos en el Plan Estatal de Desarrollo, el Plan Nacional de Desarrollo y los Objetivos de Desarrollo Sostenible, particularmente el ODS 9. Finalmente, la alternativa elegida se encuentra plenamente alineada con el Eje 5 del PMD 2025–2027, con su Propósito, Componentes y Actividades, asegurando congruencia entre el diagnóstico, la planeación estratégica y la ejecución operativa del Programa Presupuestario, así como su contribución al mejoramiento integral de los servicios públicos municipales.

1. Diagnóstico del Programa presupuestario

1.1 Descripción del Problema

Antecedentes y definición del problema

El municipio de Oaxaca de Juárez presenta desigualdades persistentes en el acceso a servicios municipales de salud, bienestar social y participación comunitaria, particularmente en colonias periféricas y agencias municipales donde la cobertura institucional resulta insuficiente para atender las necesidades de la población. Estas brechas se reflejan en los niveles de pobreza y carencias sociales estimados por el CONEVAL y el INEGI: 34.0 % de la población se encuentra en situación de pobreza, 7.9 % en pobreza extrema, 17.8 % presenta carencia por acceso a una alimentación nutritiva y de calidad y 12.9 % por servicios básicos en la vivienda. Estos indicadores, aunque inferiores al promedio estatal, evidencian desigualdades estructurales que afectan el bienestar cotidiano en zonas vulnerables del municipio.

En materia de salud pública, el Censo de Población y Vivienda 2020 reporta que 36.3 % de la población municipal (98,262 personas) carece de afiliación a servicios de salud, lo cual limita el acceso a atención preventiva y de primer nivel. Adicionalmente, la infraestructura y la capacidad operativa municipal en salud comunitaria y bienestar animal son insuficientes para cubrir la demanda existente en áreas urbanas y periurbanas. Estas condiciones afectan con mayor intensidad a mujeres jefas de hogar, personas adultas mayores, jóvenes fuera del sistema educativo y personas con discapacidad, quienes enfrentan mayores barreras para acceder a servicios básicos de bienestar.

El archivo institucional “CONCENTRADO OELA 21-08-2025 – Líneas de acción por dependencia y problemática identificada” identifica cuatro problemáticas vigentes: persistencia de la pobreza en el municipio, inseguridad alimentaria en grupos prioritarios, deficiencias en servicios municipales de salud pública y salud pública veterinaria y debilitamiento del tejido social y de la participación comunitaria.

Estas problemáticas se sostienen por diversos factores: Estructurales: expansión urbana y distribución desigual de servicios comunitarios, que profundizan brechas territoriales;
Sociales: niveles relevantes de inseguridad alimentaria y carencias que limitan el bienestar integral; Económicos: vulnerabilidad por ingreso e insuficientes oportunidades de empleo y autoempleo; Institucionales: infraestructura municipal limitada, cobertura insuficiente de servicios de salud y bienestar, y baja participación organizada de agencias y colonias.

A partir de la convergencia de estas condiciones se identifica una situación común que afecta a la población: “Insuficiencia de los servicios municipales de salud, bienestar social y participación comunitaria para atender las carencias sociales, la inseguridad alimentaria y la débil cohesión comunitaria de la población del municipio de Oaxaca de Juárez.”

Esta definición sintetiza las problemáticas detectadas en el OELA, se sustenta en evidencia estadística y refleja un problema institucional que compete directamente al municipio. Asimismo, mantiene coherencia con la estructura del programa, cuyo Fin contribuye a la reducción de la pobreza; cuyo Propósito busca que la población acceda efectivamente a servicios municipales que disminuyan sus carencias; y cuyos Componentes y Actividades consideran la prestación de servicios médicos, intervenciones comunitarias, acciones de bienestar social y procesos operativos necesarios para su ejecución.

Justificación del Pp

La intervención del Gobierno Municipal de Oaxaca de Juárez es necesaria debido a la persistencia del problema público identificado en el apartado 1.1.1, caracterizado por la insuficiencia de los servicios municipales de salud, bienestar social y participación comunitaria para atender las carencias sociales, la inseguridad alimentaria y la débil cohesión comunitaria de la población. Dichas condiciones afectan de manera particular a las agencias, colonias y barrios con mayores niveles de marginación, donde se concentran rezagos en salud preventiva, acceso a alimentos de calidad, bienestar social y mecanismos de organización vecinal.

El carácter municipal del problema exige una intervención local por dos razones fundamentales. Primero, porque las carencias identificadas —salud de primer nivel, bienestar comunitario, salud pública veterinaria, procesos comunitarios, organización social y alimentación adecuada— corresponden a servicios de provisión directa y de proximidad, cuya atención inmediata y territorializada recae en el ámbito municipal. Segundo, porque la combinación de pobreza, inseguridad alimentaria, deficiencias en servicios municipales de salud y debilitamiento del tejido social constituye un conjunto de problemáticas que no están siendo atendidas de manera suficiente por programas estatales o federales, por lo que se requiere un instrumento operativo específico para disminuir dichas brechas con enfoque territorial.

La Secretaría de Bienestar y Tequios Vecinales cuenta con atribuciones legales para intervenir en el problema público, de conformidad con lo establecido en los artículos 69, 87, 88, 89 y 90 de la Ley Orgánica Municipal del Estado de Oaxaca, los cuales mandatan al Gobierno Municipal promover el bienestar social, fortalecer la organización comunitaria, impulsar acciones de salud pública y fomentar la participación ciudadana. Adicionalmente, el Bando de Policía y Gobierno del Municipio de Oaxaca de Juárez, en sus artículos 55, 117, fracción VI, y 165, establece la competencia municipal para coordinar programas sociales, promover la salud pública, impulsar la cultura del tequio y facilitar la participación comunitaria para el mejoramiento de las condiciones de vida. Estas disposiciones facultan de manera directa a la dependencia responsable para diseñar, operar y evaluar servicios municipales de salud, programas de bienestar y estrategias de participación social orientadas a atender las dimensiones del problema.

Dado que el programa es nuevo para el ejercicio 2026, su creación se fundamenta en la necesidad de contar con un instrumento programático que integre de forma operativa las acciones dispersas de salud municipal, bienestar social, prevención, participación comunitaria y fortalecimiento del tejido social. Las problemáticas identificadas en el archivo OELA —pobreza, inseguridad alimentaria, deficiencias de salud pública y debilitamiento del tejido social— requieren de un mecanismo institucional que articule servicios médicos de primer nivel, intervenciones comunitarias, procesos formativos, campañas sanitarias y acciones de bienestar integral. Sin este programa, el municipio carecería de una herramienta para atender de manera territorial, sistemática y verificable las brechas descritas.
La contribución del Programa Presupuestario a la solución del problema se articula directamente con sus componentes. El Componente 1, relativo a la prestación de servicios de atención médica de primer nivel, salud preventiva y salud pública veterinaria, incide en las deficiencias de cobertura de salud municipal y en la prevención de enfermedades transmisibles y zoonóticas. El Componente 2, que comprende intervenciones comunitarias, procesos formativos para el autoempleo, acciones de bienestar territorial y servicios de atención social, fortalece la cohesión vecinal, la organización comunitaria, la participación ciudadana y la seguridad alimentaria mediante capacidades territoriales y comunitarias. El Componente 3 asegura la operación administrativa y presupuestal del programa, garantizando la continuidad y calidad de los servicios. En conjunto, estos componentes permiten atender de manera integral las dimensiones institucionales, sociales y comunitarias del problema público.
El programa se encuentra plenamente alineado con el Plan Municipal de Desarrollo 2025–2027, específicamente con el Eje 1. Bienestar Vecinal y los subejes 1.1 Combate a la pobreza, 1.2 Seguridad alimentaria, 1.3 Salud y 1.8 Tequio, cuyas estrategias incluyen la gestión de programas de bienestar, el fortalecimiento de servicios de salud pública, la prevención de enfermedades zoonóticas y la promoción de la participación vecinal mediante tequios. Asimismo, el programa se vincula con la política estatal establecida en el Eje 1. Estado de Bienestar del Plan Estatal de Desarrollo, y contribuye al cumplimiento del Eje General 2. Desarrollo con Bienestar y Humanismo del Plan Nacional de Desarrollo. Finalmente, su implementación aporta al logro de los Objetivos de Desarrollo Sostenible: ODS 1 (Fin de la pobreza), ODS 3 (Salud y bienestar), ODS 10 (Reducción de las desigualdades) y ODS 11 (Ciudades y comunidades sostenibles), particularmente en metas relacionadas con la atención a la pobreza, la cobertura sanitaria universal, la prevención de enfermedades y el fortalecimiento de la participación comunitaria.

Estado actual del problema

El municipio de Oaxaca de Juárez mantiene brechas significativas en el acceso efectivo a servicios municipales de salud, bienestar social y acompañamiento comunitario, especialmente en colonias periféricas y agencias municipales donde la cobertura institucional resulta limitada frente a la demanda. Según el Informe Anual sobre la Situación de Pobreza y Rezago Social 2025, 34.0 % de la población se encuentra en situación de pobreza y 7.9 % en pobreza extrema, mientras que 17.8 % presenta carencia por acceso a alimentación nutritiva y de calidad y 12.9 % por servicios básicos en la vivienda. Estas carencias se combinan con el acceso insuficiente a la seguridad social (59.3 %) y a los servicios de salud (49.6 %), lo que refleja desigualdades estructurales persistentes en las condiciones de bienestar.

En materia de salud pública, el Censo de Población y Vivienda 2020 del INEGI reporta que 36.3 % de la población municipal (98,262 personas) no cuenta con afiliación a servicios de salud. Esta situación se agrava en zonas de alta concentración poblacional y menor presencia institucional, como San Martín Mexicapan, Montoya, San Juan Chapultepec y Santa Rosa Panzacola, donde el Plan Municipal de Desarrollo 2025–2027 identifica rezagos en salud, servicios públicos básicos y espacios comunitarios. En estas agencias se observan diferencias en la intensidad del problema:

San Martín Mexicapan: mayor demanda de servicios médicos y presencia recurrente de viviendas con carencias en servicios básicos.
Montoya: rezagos en vivienda y demanda acumulada de atención veterinaria.
San Juan Chapultepec: alta concentración de inseguridad alimentaria y solicitudes de apoyos sociales.
Santa Rosa Panzacola: menor acceso a servicios de salud preventiva y mayor incidencia de reportes relacionados con bienestar animal.

La evidencia cualitativa reciente confirma esta situación. Los reportes de brigadas comunitarias 2023–2025 registran alta demanda insatisfecha de atención médica preventiva, vacunación y orientación nutricional en las agencias mencionadas. Los módulos de atención ciudadana reportan solicitudes frecuentes relacionadas con apoyo alimentario, consultas médicas básicas y actividades comunitarias. Asimismo, diagnósticos comunitarios realizados por personal operativo señalan disminución en la participación organizada de barrios y colonias, así como dificultades para convocar tequios y comités vecinales en zonas con mayores carencias sociales. Las verificaciones en territorio muestran que las familias sin afiliación a servicios de salud, hogares monoparentales, personas desempleadas y familias sin seguridad social encuentran más dificultades para acceder a servicios municipales.

Los grupos más afectados por estas condiciones son mujeres jefas de familia, personas adultas mayores, jóvenes fuera del sistema educativo, personas con discapacidad y población indígena residente en zonas urbanas y periurbanas. Estos grupos enfrentan mayores obstáculos para acceder regularmente a servicios médicos, apoyos alimentarios y espacios comunitarios, lo que refuerza las desigualdades sociales y territoriales.

En conjunto, la información cuantitativa y cualitativa evidencia que las brechas en servicios de salud, bienestar social y participación comunitaria se encuentran concentradas territorialmente, afectan de manera diferenciada a distintos grupos poblacionales y han persistido en los últimos años, a pesar de los esfuerzos institucionales de atención.

Evolución del problema

Durante los últimos cinco años (2020–2025), el problema público relacionado con la insuficiencia de servicios municipales de salud, bienestar y participación comunitaria ha mostrado una evolución caracterizada por la persistencia de las carencias sociales, así como por tendencias estables en indicadores clave de vulnerabilidad. De acuerdo con información del Informe Anual sobre la Situación de Pobreza y Rezago Social 2025, la proporción de población en situación de pobreza pasó de 35.2 % en 2020 a 34.0 % en 2025, mientras que la pobreza extrema se redujo ligeramente de 8.3 % a 7.9 %, lo cual refleja una variación mínima que no se traduce en mejoras sustantivas en la calidad de vida. De igual forma, las carencias sociales registran niveles que se han mantenido prácticamente constantes desde 2020: acceso a seguridad social (59.3 %), servicios de salud (49.6 %), servicios básicos en la vivienda (12.9 %) y alimentación nutritiva y de calidad (17.8 %). Estas tendencias confirman que, pese a los esfuerzos institucionales, no se ha producido una reducción significativa del rezago social en el ámbito municipal.

En ausencia de series continuas municipales, la evidencia cualitativa y administrativa de 2021–2025 permite observar patrones consistentes. Los registros de la Dirección de Sanidad muestran una demanda sostenida de servicios de primer nivel, campañas preventivas y verificaciones sanitarias, mientras que la Secretaría de Bienestar reporta incremento anual en solicitudes de apoyos alimentarios, orientación en salud y actividades comunitarias. Asimismo, las consultas ciudadanas del Proceso de Planeación Municipal 2025–2027 señalan que la percepción de insuficiencia de servicios municipales, la falta de espacios comunitarios y la disminución de mecanismos tradicionales de organización vecinal se ha mantenido sin cambios significativos en los últimos años.

La evolución del problema también muestra patrones territoriales constantes. Las agencias de San Martín Mexicapan, Montoya, San Juan Chapultepec y Santa Rosa Panzacola continúan concentrando los mayores niveles de vulnerabilidad, con diferencias mínimas respecto a ciclos anteriores. Registros 2023–2025 confirman un incremento moderado de solicitudes de atención y reportes ciudadanos en estas zonas, lo cual evidencia que las brechas intraurbanas no solo persisten, sino que tienden a profundizarse en áreas de menor cobertura institucional.

Los cambios observados afectan de forma diferenciada a diversos grupos poblacionales. Entre 2020 y 2025, las mujeres jefas de hogar, personas adultas mayores, jóvenes fuera del sistema educativo y personas con discapacidad mantienen barreras constantes para acceder a servicios de salud preventiva, actividades comunitarias y apoyos sociales. La demanda institucional creciente durante este periodo confirma que los grupos de atención prioritaria siguen experimentando condiciones de vulnerabilidad similares a las de años anteriores.

La evolución descrita reafirma la pertinencia del Programa Presupuestario, ya que la estabilidad de los indicadores de pobreza y carencias sociales, combinada con la persistencia de brechas territoriales y la demanda sostenida de servicios municipales, demuestra que la insuficiencia de servicios de salud, bienestar y participación comunitaria sigue siendo un problema vigente que requiere intervención continua. Los comportamientos observados se relacionan directamente con los indicadores del programa —particularmente los vinculados con la cobertura de servicios de salud preventiva, apoyos alimentarios y fortalecimiento comunitario— y con el problema público establecido en el PMD 2025–2027, lo que justifica mantener y fortalecer las acciones municipales orientadas a reducir estas brechas.

Experiencias de atención

Entre 2020 y 2024, el Gobierno Municipal de Oaxaca de Juárez desarrolló acciones en materia de bienestar social, salud preventiva, bienestar animal y fortalecimiento comunitario que aportan aprendizajes clave para el diseño del programa presupuestario 2026. Estas intervenciones, aunque de alcance limitado por restricciones presupuestarias y de personal operativo, permiten identificar resultados, brechas y lecciones para la atención del problema público.

Durante el periodo 2022–2024, la Dirección de Bienestar Comunitario y Tequio realizó 12 tequios comunitarios en agencias y colonias del municipio, con el objetivo de mejorar espacios públicos y fortalecer la organización vecinal. La participación osciló entre 5 y 20 personas por jornada, concentrándose principalmente en San Juan Chapultepec, Montoya, San Martín Mexicapan y Santa Rosa Panzacola, zonas con alto rezago social y demanda recurrente de intervenciones comunitarias. Si bien la cobertura territorial fue acotada, estas experiencias muestran que, cuando se generan condiciones mínimas de acompañamiento institucional, la población responde positivamente a esquemas de corresponsabilidad.

En el mismo periodo, la Escuela de Artes y Oficios atendió un promedio anual de 260 participantes en cursos de capacitación orientados al desarrollo de habilidades para el autoempleo y la mejora de ingresos. Una proporción importante de las personas asistentes fueron mujeres jóvenes y jefas de familia, lo cual confirma la pertinencia de la oferta formativa para grupos de atención prioritaria, aunque la cobertura total siga siendo reducida frente al universo de población vulnerable.

En materia de salud, los informes de la Dirección de Sanidad reportan un promedio cercano a 260 verificaciones sanitarias anuales en unidades económicas y alrededor de 620 atenciones por año en brigadas de salud preventiva, cuyo objetivo ha sido acercar servicios básicos, detección de factores de riesgo y orientación en autocuidado a zonas urbanas y periurbanas con menor acceso a servicios médicos de primer nivel. De manera complementaria, los registros de salud pública veterinaria indican la realización de aproximadamente 300 acciones anuales de bienestar animal (vacunación antirrábica, esterilización y atención a reportes ciudadanos), orientadas a la prevención de riesgos zoonóticos y al control de poblaciones de animales de compañía sin supervisión sanitaria.

Estas experiencias también evidencian limitaciones que han restringido la capacidad municipal para ampliar la cobertura: la contingencia por COVID-19 entre 2020 y 2021 redujo temporalmente la viabilidad de brigadas, capacitaciones y tequios presenciales; la disponibilidad de recursos presupuestarios y de personal operativo ha sido insuficiente para mantener intervenciones continuas en todo el territorio; y la ausencia de instrumentos metodológicos estandarizados y sistemas integrados de registro dificultó la medición de resultados y la identificación de beneficiarios únicos.

A partir de lo anterior se identifican varias lecciones para el nuevo programa presupuestario: la necesidad de integrar en un solo mecanismo programático los servicios de salud, bienestar social, bienestar animal y participación comunitaria que antes operaban de forma dispersa; la importancia de territorializar las acciones priorizando agencias con mayor rezago; y la conveniencia de definir productos mínimos verificables e instrumentos de seguimiento alineados con la Matriz de Indicadores para Resultados, para mejorar la trazabilidad y evaluación.

La revisión de experiencias externas refuerza estas conclusiones. Modelos como las jornadas integrales de atención comunitaria implementadas en municipios como Puebla y San Cristóbal de las Casas muestran que la integración de servicios de salud, orientación social, bienestar animal y actividades comunitarias en esquemas de proximidad territorial mejora la respuesta ciudadana y la eficiencia operativa. Para Oaxaca de Juárez, resultan especialmente replicables los elementos vinculados con la proximidad institucional, la coordinación intergubernamental y la atención integral en territorio, adaptados a la escala y capacidades reales del ámbito municipal.

En conjunto, las experiencias de atención desarrolladas entre 2020 y 2024 muestran avances puntuales pero también limitaciones estructurales, territoriales, operativas y presupuestarias. Estos aprendizajes justifican la pertinencia de contar con un programa presupuestario que consolide, organice y amplíe dichas acciones de manera sistemática, territorializada y coherente con el problema público identificado en el Plan Municipal de Desarrollo 2025–2027.

1.2 Metodología para la identificación de la población objetivo y definición de fuentes de información

De acuerdo con el último Censo de Población y Vivienda realizado por el Instituto Nacional de Estadística y Geografía (INEGI) en 2020, la población total del municipio de Oaxaca de Juárez asciende a 270,955 personas (INEGI, 2020).

Definición y cuantificación de los			
Población Potencial	101,037	**Cuantificación:**	101,037 personas (CONEVAL, 2020)
		Criterios de Focalización	Sociodemográficos y socioeconómicos: personas con carencias sociales (alimentación, salud, vivienda, seguridad social). Territoriales: habitantes de agencias y colonias con rezago social documentado (San Martín Mexicapan, Montoya, San Juan Chapultepec, Santa Rosa Panzacola, Candiani, Dolores). Institucionales: población que demanda servicios municipales de salud, bienestar social o participación comunitaria conforme a reportes administrativos.
Población Objetivo	25,000	**Cuantificación:**	25,000 personas que habitan en zonas del municipio con mayor vulnerabilidad social, inseguridad alimentaria y rezago en servicios públicos básicos. Estimación con base en el PMD 2025–2027 y en la distribución territorial del problema.
		Criterios de Focalización	Territoriales: zonas con alta concentración de carencias y demanda: San Martín Mexicapan, Montoya, San Juan Chapultepec, Santa Rosa Panzacola, Dolores, Candiani. Sociodemográficos: mujeres jefas de hogar, jóvenes, adultos mayores, personas con discapacidad y hogares sin afiliación a servicios de salud. Institucionales: población que reside en áreas donde se reporta menor cobertura de servicios municipales de salud, bienestar y participación comunitaria.
Población atendida (beneficiarios)	14,180	**Cuantificación:**	2,100 personas durante el ejercicio fiscal 2026. Meta anual estimada con base en la capacidad operativa del programa (brigadas de salud, cursos de capacitación, acciones comunitarias y bienestar animal), tomando como referencia registros internos 2022–2024.
		Criterios de Focalización	Sectoriales y territoriales: atención prioritaria a mujeres, jóvenes, adultos mayores y hogares en condición de vulnerabilidad. Geográficos: agencias y colonias con rezago social y cobertura limitada de servicios municipales. Programáticos: personas que participan directamente en brigadas de salud (620 atenciones/año), capacitaciones (260 personas/año), tequios e intervenciones comunitarias (aprox. 13,000 asistentes/año) y acciones de bienestar animal (300 atenciones/año).

2. Estrategia para la selección de alternativas.	
Explicar brevemente por qué las medidas que constituirán la intervención del PP son las opciones de acción más efectivas para lograr el objetivo deseado; debe guardar relación con el árbol del objetivo.	La selección de alternativas se realizó con base en el diagnóstico institucional y en los árboles de problemas y de objetivos elaborados mediante la Metodología del Marco Lógico. Durante este proceso se identificaron diversas opciones de intervención derivadas de las causas detectadas, valorando su viabilidad técnica, operativa y presupuestal. De este análisis se determinó que la alternativa más adecuada consiste en fortalecer la provisión de servicios municipales de salud comunitaria, bienestar y participación vecinal a través de jornadas integrales, procesos formativos y acciones de organización comunitaria, complementadas con instrumentos de medición y mecanismos de continuidad administrativa. Esta estrategia se consideró la más efectiva al incidir directamente en las carencias sociales identificadas, mejorar el acceso territorial a servicios esenciales y promover la corresponsabilidad ciudadana en la mejora del bienestar comunitario. La intervención se implementará mediante la ejecución de los componentes del Programa Presupuestario y la coordinación interinstitucional señalada en la MIR 2026, asegurando la trazabilidad de resultados a través de registros y seguimiento operativo. La alternativa seleccionada se encuentra plenamente alineada con el Eje 1 del PMD 2025–2027 y con los niveles jerárquicos de planeación que articulan Fin, Propósito, Componentes y Actividades.

1. Diagnóstico del Programa presupuestario

1.1 Descripción del Problema

Antecedentes y definición del problema

Antecedentes económicos municipales
El municipio de Oaxaca de Juárez, capital del estado de Oaxaca, se caracteriza por una economía dominada por el comercio y los servicios, en línea con el perfil estatal. En efecto, según la Minimonografía Oaxaca de los Censos Económicos 2024 del Instituto Naciona de Estadística y Geografía (INEGI), el comercio representa un peso muy relevante dentro del valor agregado censal bruto de la entidad.

De las 252,176 unidades económicas del sector privado en el estado (dato del Censo Económico 2024) , 98.2 % son microempresas de 10 personas o menos, que emplean el 76.3 % del personal ocupado. En contraste, las unidades grandes (más de 250 empleados) representan apenas el 0.02 % del total. Estas microempresas contribuyen con solo el 36.9% del valor agregado censal bruto, lo que evidencia una productividad muy limitada.

El municipio de Oaxaca de Juárez concentra el 11.6 % de todas las unidades económicas del estado de Oaxaca, según la Minimonografía Oaxaca. Además, emplea el 16.4 % del personal ocupado de la entidad y genera 23.3 % de las remuneraciones, lo que indica que, aunque muchas unidades son microempresas, el municipio tiene un papel muy relevante desde el punto de vista laboral y salarial.

Sin embargo, este tejido productivo no es homogéneo ni altamente competitivo: la concentración de microempresas con escasa capacidad de generar valor agregado combinado con barreras para crecer debilita la competitividad económica del municipio.

Factores estructurales, sociales e institucionales que inciden en el problema

Al analizar la problemática de Oaxaca de Juárez, se identifican varios factores clave:

1. Baja productividad estructural
   - La predominancia de microempresas (98 %) limita la capacidad de innovar, invertir en tecnología o escalar operaciones.
   - Estas unidades tienen una contribución baja al valor agregado comparado con su peso laboral.
2. Capacitación y formalización laboral insuficientes
   - Muchas microempresas operan con poca profesionalización, carecen de programas de capacitación continuos y no cuentan con certificaciones que les permitan competir con unidades más grandes.
   - El proceso de formalización (registro, cumplimiento normativo) puede ser costoso o burocráticamente complejo, desincentivando su transición del informal al formal.
3. Escasa vinculación empresarial
   - Hay una falta de integración entre microempresas y cadenas productivas más amplias (pymes medianas o grandes), limitando la transferencia de conocimiento, tecnología y mejores prácticas.
   - Esto crea un aislamiento productivo que reduce las oportunidades para consolidar modelos de negocio con mayor valor.
4. Limitaciones tecnológicas e infraestructura
   - No todas las unidades poseen acceso adecuado a tecnologías digitales, financiamiento para modernización o infraestructura física para escalar.
   - La adopción de internet y herramientas digitales en algunas microempresas aún es baja (como se ha documentado en censos económicos anteriores).
5. Alta informalidad
   - Según reportes de prensa basados en INEGI, Oaxaca (entidad) alcanzó hasta un 81.5 % de unidades informales, lo cual sugiere que un porcentaje significativo de microempresas operan fuera de la formalidad legal y fiscal.

OBJ

   - Esta informalidad tiene efectos negativos: reduce la recaudación tributaria, dificulta la planificación económica municipal y disminuye la protección social para los trabajadores.
6. Limitaciones institucionales

Justificación del Pp

El fortalecimiento de la competitividad económica en Oaxaca de Juárez es una prioridad para garantizar un desarrollo local equilibrado, sostenible y socialmente incluyente. La persistente baja productividad de la mayoría de las unidades económicas del municipio, así como los obstáculos que enfrentan las personas para generar autoempleo formal e insertarse en el mercado laboral, han contribuido al crecimiento del comercio informal. Esta situación afecta directamente funciones esenciales del Gobierno Municipal: disminuye la recaudación fiscal propia, limita la capacidad de inversión pública, dificulta la planeación territorial y urbana, reduce la formalidad laboral y afecta el bienestar económico de la población. Sin intervención municipal, estas condiciones tienden a agravarse, ampliando las brechas de desigualdad, precarización laboral y debilitamiento del tejido productivo.

La intervención del Gobierno Municipal está plenamente sustentada en sus atribuciones legales. El Artículo 169 del Bando de Policía y Gobierno de Oaxaca de Juárez establece que la Secretaría de Prosperidad Económica Vecinal es responsable de diseñar e implementar políticas públicas que impulsen el desarrollo productivo, la competitividad, la atracción de inversiones y la generación de empleos, promoviendo la economía social y solidaria. Asimismo, la Ley Orgánica Municipal del Estado de Oaxaca, en sus artículos relativos a desarrollo económico y fomento productivo, reconoce la facultad municipal para promover el crecimiento económico, el autoempleo, la actividad empresarial y el fortalecimiento del comercio local. A ello se suman las disposiciones del Reglamento Interno y el Manual de Organización de la Secretaría, que asignan funciones de capacitación, vinculación, promoción del emprendimiento y fortalecimiento de unidades económicas. En conjunto, estos ordenamientos establecen con claridad la competencia municipal para atender la problemática diagnosticada.

La creación y mantenimiento de un Programa Presupuestario específico es indispensable para dar continuidad, estructura técnica y suficiencia de recursos a las acciones públicas orientadas al desarrollo económico. A diferencia de intervenciones aisladas, el programa permite articular de manera ordenada estrategias de capacitación, acompañamiento empresarial, ferias productivas, vinculación laboral y acciones de formalización, asegurando su implementación anual, la coordinación con actores económicos y la evaluación de resultados. De igual forma, garantiza la operación sistemática de servicios públicos orientados a fortalecer a las unidades económicas y mejorar las condiciones de empleo en el municipio.

La implementación del Programa Presupuestario contribuirá directamente a reducir los problemas identificados mediante resultados concretos:
- Incremento de unidades económicas fortalecidas, capacitadas o vinculadas a cadenas de valor.
- Aumento de emprendimientos y autoempleos formales, mediante certificación, acompañamiento y difusión de oportunidades.
- Mejora de la competitividad local, al impulsar capacidades técnicas, acceso a mercados y alianzas estratégicas.
- Reducción gradual de la informalidad, mediante operativos de regulación comercial, orientación y apoyo para la formalización.
- Mayor generación de empleos dignos, con enfoque de inclusión, especialmente para mujeres y grupos con acceso limitado a oportunidades.

El programa se encuentra plenamente alineado con el Plan Municipal de Desarrollo 2025–2027, en el Eje 3: Prosperidad Económica Vecinal y Fomento Productivo, particularmente en los subejes Desarrollo y prosperidad económica incluyente, Empleo y Comercio, así como en los objetivos 4.1, 4.2 y 4.3 y sus respectivas líneas de acción: fortalecimiento de la capacitación, vinculación, ferias productivas, censos económicos, economía social y regulación del comercio. De manera complementaria, el programa contribuye al Plan Estatal de Desarrollo (PED) 2022–2028, en su eje económico, que prioriza la diversificación productiva, el empleo digno, el fortalecimiento de MIPyMES y el impulso al emprendimiento social. Asimismo, se vincula con los objetivos del Plan Nacional de Desarrollo (PND) 2019–2024, particularmente en los apartados relacionados con economía incluyente, apoyo a la microempresa y desarrollo regional equilibrado. Finalmente, el programa contribuye a los Objetivos de Desarrollo Sostenible, especialmente el ODS 8 (Trabajo decente y crecimiento económico) y ODS 11 (Ciudades y comunidades sostenibles).

En conjunto, estas disposiciones, alineaciones y necesidades demuestran que el Programa Presupuestario es el instrumento adecuado y necesario para atender la baja competitividad, fortalecer la actividad económica, ampliar el autoempleo formal e impulsar el bienestar económico de las y los habitantes de Oaxaca de Juárez, mediante acciones estratégicas, articuladas y sostenibles.

Estado actual del problema

En el municipio de Oaxaca de Juárez, la actividad económica se caracteriza por un predominio de microunidades económicas y una elevada presencia de ocupación informal. De acuerdo con los Censos Económicos 2024, el municipio concentra el 11.6% de las unidades económicas del estado y emplea el 16.4% del personal ocupado, con una estructura productiva dominada por establecimientos de pequeña escala, en línea con la tendencia estatal, donde las microempresas representan más del 98% del total. Esta composición empresarial genera una amplia base de autoempleo y micronegocios, particularmente en comercio minorista y servicios de bajo valor agregado, sectores que presentan mayores niveles de informalidad según registros recientes del DENUE 2024 y reportes del INEGI.

En términos laborales, la informalidad es un fenómeno persistente en la capital, de acuerdo con la Encuesta Nacional de Ocupación y Empleo (ENOE) reporta para el estado tasas entre 71.8% y 80% en 2023–2024, diagnósticos locales del IMPLAN Oaxaca, cámaras empresariales y reportes municipales confirman que Oaxaca de Juárez concentra una proporción considerable de trabajadores informales, especialmente en comercio en vía pública, actividades de servicios personales y autoempleo no registrado. Estas fuentes señalan que el Centro Histórico, los alrededores de los mercados tradicionales (Benito Juárez, 20 de Noviembre, La Merced), así como agencias como Cinco Señores, Candiani, Montoya, Pueblo Nuevo y San Juan Chapultepec, presentan una mayor densidad de actividad comercial informal y micronegocios no formalizados.

La evidencia cualitativa recopilada a través de mesas de trabajo con comerciantes, organizaciones de pequeños negocios y reportes vecinales muestra una creciente presencia de vendedores semifijos y ambulantes, incremento en solicitudes de permisos temporales y reportes ciudadanos sobre saturación de corredores comerciales. De igual forma, diagnósticos municipales recientes indican que sectores como comercio minorista, alimentos preparados, venta de ropa y servicios de belleza son los que más recurren al autoempleo informal debido a la baja capitalización de los negocios y la rotación constante de emprendedores.

El problema afecta de manera diferenciada a ciertos grupos poblacionales. Las mujeres presentan una participación elevada en actividades de autoempleo informal, especialmente en servicios y venta de alimentos; los jóvenes enfrentan mayores dificultades para incorporarse al empleo formal y recurren con frecuencia a actividades temporales o informales; las personas con menor escolaridad y los trabajadores de hogares con pobreza laboral se concentran en ocupaciones de baja estabilidad; y población indígena urbana participa de forma significativa en el comercio en vía pública, especialmente en zonas turísticas y mercados. Esta composición social incide en la persistencia del fenómeno, al combinarse precariedad laboral, baja capacitación y oportunidades limitadas de formalización.

Finalmente, la estructura empresarial del municipio, con decenas de miles de establecimientos micro y una participación reducida de empresas medianas y grandes, condiciona el tipo de empleo disponible, generalmente caracterizado por baja estabilidad y limitada protección laboral. Los datos del Censo Económico 2024 indican que la mayor parte del personal ocupado se concentra en establecimientos pequeños, lo cual influye directamente en los niveles de formalidad y competitividad económica del municipio. En conjunto, estos elementos reflejan un escenario donde la informalidad comercial, el autoempleo no formalizado y la estructura microempresarial continúan siendo condiciones predominantes en la dinámica económica de Oaxaca de Juárez.

Evolución del problema

Durante los últimos cinco años, la informalidad laboral y empresarial ha mostrado una tendencia persistente en Oaxaca de Juárez y en el estado de Oaxaca, lo que refleja la naturaleza estructural del problema.
A nivel estatal, el único ámbito con series históricas continuas disponibles, la ENOE reporta tasas de informalidad superiores al 70 % desde 2019, con valores aproximados de 75 % en 2019, incrementos derivados de la pandemia en 2020 y 2021, y niveles que se mantuvieron entre 77 % y 80 % en 2022 y 2023. Para 2024, la tasa se ubicó alrededor de 78 %, apenas 3 puntos porcentuales menos que en 2023, lo que indica una reducción marginal. Este comportamiento confirma que, pese a fluctuaciones coyunturales, la informalidad continúa siendo uno de los fenómenos predominantes en la estructura laboral de la entidad.

En el caso específico del municipio de Oaxaca de Juárez, no existen series anuales de informalidad publicadas por INEGI; sin embargo, diversos diagnósticos municipales, informes del IMPLAN Oaxaca, cámaras empresariales locales y los registros del Ayuntamiento coinciden en que la capital concentra una proporción significativa del comercio informal estatal debido a su función como centro económico, turístico y de servicios. Estas fuentes indican que, desde 2020, la presencia de vendedores en vía pública y micronegocios informales ha aumentado en zonas como el Centro Histórico, Zócalo, mercados tradicionales, Periférico, Central de Abasto, Cinco Señores y agencias urbanas con alta densidad comercial. Las solicitudes de permisos temporales, reportes vecinales sobre saturación comercial y los censos municipales complementan esta evidencia cualitativa.

En cuanto a la estructura productiva, los Censos Económicos 2019 y 2024 muestran que la predominancia de microunidades económicas se ha mantenido sin cambios significativos en el estado y en Oaxaca de Juárez. En 2019, más del 97 % de los establecimientos eran microempresas; en 2024, esta proporción aumentó ligeramente a 98.2 %. El municipio de Oaxaca de Juárez, que en 2024 concentró el 11.6 % de las unidades económicas del estado, ha experimentado un crecimiento en el número de micronegocios sin un incremento proporcional en su formalización o productividad. Este patrón ha contribuido a que el comercio minorista y los servicios personales sigan siendo sectores con altos niveles de informalidad y rotación empresarial.

Factores coyunturales y estructurales explican esta evolución. Entre 2020 y 2021, la pandemia provocó cierres parciales de negocios formales y un incremento del autoempleo informal como estrategia de subsistencia, especialmente entre mujeres, jóvenes y población con menores ingresos. En los años posteriores (2022–2024), la recuperación económica se concentró principalmente en actividades de bajo valor agregado, con pocos avances hacia la formalización laboral o empresarial. La ausencia de empresas medianas y grandes con capacidad de generar empleos formales, junto con la persistencia de salarios bajos y condiciones críticas de ocupación, ha reforzado el peso del sector informal en la economía local.

Este comportamiento acumulado ha tenido implicaciones directas para la competitividad de Oaxaca de Juárez. El Índice de Competitividad Urbana (ICU) del IMCO ha mantenido a la ciudad en posiciones bajas entre ciudades del mismo tamaño, lo que refleja que la informalidad y la fragmentación empresarial no han disminuido de manera sustantiva en los últimos cinco años. Asimismo, los diagnósticos municipales identifican que mujeres en autoempleo, jóvenes con barreras de acceso al empleo formal, personas con menor escolaridad y población indígena urbana siguen siendo los grupos más afectados, manteniendo en el tiempo las brechas de acceso a oportunidades económicas.

En este contexto, la evolución del problema confirma la pertinencia de contar con un Programa Presupuestario especializado, ya que la persistencia de altas tasas de informalidad laboral y productiva limita directamente los avances hacia los objetivos del Plan Municipal de Desarrollo (PMD) 2025–2027, particularmente la superación del problema público "Limitada competitividad de las unidades económicas" y los "obstáculos para el autoempleo y la inserción laboral". La tendencia observada implica que, para lograr mejoras reales, se requiere fortalecer capacidades empresariales, impulsar la formalización, ampliar la capacitación laboral y apoyar la consolidación de micronegocios, acciones que se reflejan directamente en los indicadores del programa vinculados con unidades económicas capacitadas, personas vinculadas al empleo, participantes certificados y emprendimientos fortalecidos.

Experiencias de atención

Entre 2020 y 2025, la Secretaría de Prosperidad Económica Vecinal y sus áreas sustantivas han desarrollado diversas estrategias para fortalecer la competitividad económica, facilitar trámites empresariales y promover la inclusión laboral en Oaxaca de Juárez. Durante 2020 y 2021, en el contexto de la pandemia, las acciones se centraron en mantener la continuidad operativa de los trámites empresariales y en habilitar mecanismos de atención mínima para la apertura y regularización de negocios esenciales. La Dirección de Desarrollo Económico y Solidario implementó de manera emergente capacitaciones virtuales para emprendedores y comerciantes, mientras que la Dirección de Regulación de la Actividad Comercial reforzó operativos para verificar aforos y cumplimiento de medidas sanitarias. En 2022 y 2023, ya en etapa de reactivación económica, se ampliaron las jornadas laborales, se retomaron las capacitaciones presenciales y se fortaleció la vinculación con cámaras empresariales, lo que permitió aumentar gradualmente la participación de negocios en procesos de formalización. Para 2024, se consolidaron los mecanismos de atención ciudadana, se modernizaron formatos y se inició la estructuración del Censo de Unidades Económicas como insumo para mejorar la planeación comercial municipal.

En 2025, estos esfuerzos se potenciaron. La Unidad de Trámites Empresariales brindó servicios de recepción, orientación y canalización para altas, modificaciones, bajas y cancelaciones de licencias del comercio establecido, atendiendo a 3,048 contribuyentes y autorizando 481 trámites, lo que representa un incremento significativo respecto al promedio anual estimado de los años previos. La inversión proyectada por apertura de negocios ascendió a $512,989,687.40, generando 1,126 empleos, lo cual refleja una recuperación más acelerada que la observada en el periodo 2021–2023. La Dirección de Regulación de la Actividad Comercial atendió 597 denuncias, realizó 488 inspecciones, levantó el Censo 2025 con una estadística de 6,780 unidades económicas, y ejecutó seis operativos nocturnos a través del "Programa de Comercio Responsable, Vecino Seguro", reforzando el ordenamiento territorial del comercio. Por su parte, la Dirección de Desarrollo Económico y Solidario impulsó la certificación laboral mediante 20 certificaciones, la apertura de tres Centros de Evaluación y la incorporación de cuatro estándares de competencia. En materia de empleo, se realizaron 9 ferias y jornadas laborales con la participación de 214 empresas que ofertaron 2,035 vacantes, logrando la asistencia de 2,550 vecinas y vecinos, de los cuales 208 fueron vinculados a entrevista. Además, se impartieron 16 capacitaciones a emprendedores y se organizaron 4 ferias de activación económica, beneficiando a 70 negocios locales.

No obstante estos avances, el periodo 2020–2025 también presentó diversas dificultades operativas. Destacó la insuficiencia presupuestaria en los primeros años de pandemia para ampliar el alcance de los programas de formalización; la limitada digitalización de trámites, que incrementó tiempos de atención; la alta rotación de personal operativo, que afectó la continuidad de los proyectos; la complejidad de los procesos regulatorios para establecimientos con giros especiales; así como la limitada participación de negocios en procesos de certificación laboral por desconocimiento o falta de incentivos. Adicionalmente, se identificaron retos en la coordinación interinstitucional para la supervisión del comercio en vía pública y en la implementación de operativos nocturnos, particularmente en áreas de alta concentración comercial.

De estas experiencias se desprenden lecciones aprendidas que han orientado el rediseño del Programa Presupuestario. Entre ellas destacan la necesidad de fortalecer los mecanismos de orientación empresarial para incrementar la efectividad de los trámites; consolidar plataformas digitales para agilizar la formalización; ampliar la oferta de capacitación para micronegocios en etapas tempranas; mejorar la planeación de operativos mediante el uso de información del Censo 2025; y reforzar la vinculación con el sector privado para aumentar la inserción laboral. Asimismo, se identificó como buena práctica la implementación de ferias de empleo sectorizadas, la coordinación con cámaras empresariales y la estrategia de certificación a través de estándares de competencia, lo que ha demostrado impacto en la profesionalización del talento local.

De manera comparativa, otras ciudades como Puebla, Mérida y Querétaro han implementado ventanillas únicas consolidadas, programas de formalización exprés y certificaciones laborales vinculadas directamente a sectores estratégicos, lo que demuestra que la simplificación administrativa, la capacitación continua y los diagnósticos territoriales son líneas de acción efectivas en el fortalecimiento económico local. Estas experiencias sirven como referentes para la mejora continua de los programas municipales.

En conjunto, las acciones implementadas entre 2020 y 2025 han permitido fortalecer la atención ciudadana, mejorar la regulación del comercio establecido y promover el emprendimiento y la inserción laboral. Aunque persisten desafíos, los aprendizajes acumulados han sentado bases claras para consolidar un modelo de intervención integral orientado a elevar la competitividad y avanzar hacia una economía vecinal más ordenada, inclusiva y sostenible.

1.2 Metodología para la identificación de la población objetivo y definición de fuentes de información

De acuerdo con el comunicado CE 2024 Oaxaca de INEGI, indica que para todo el estado se encuentran 252,667 unidades económicas, mostrando en la minimonografía de los Censos Económicos 2024 (Oaxaca), en el cual Oaxaca de Juárez concentra el 11.6% de las unidades económicas del estado, lo que representa un total de 29,194 unidades económicas en la capital oaxaqueña.

Definición y cuantificación de los			
Población Potencial	29,194 Unidades Económicas del Municipio de Oaxaca de Juárez	**Cuantificación:**	29,194 Unidades Económicas del Municipio de Oaxaca de Juárez.
		Criterios de Focalización	Las Unidades Económicas enfrentan la competitividad laboral, el ordenacmiento y el control efectivo del comercio establecido, así como la formalización y alta al padrón fiscal del municipio de Oaxaca de Juárez.
Población Objetivo	29,194 Unidades Económicas del Municipio de Oaxaca de Juárez	**Cuantificación:**	29,194 Unidades Económicas del Municipio de Oaxaca de Juárez
		Criterios de Focalización	Todas las unidades económicas deben cumplir con el orden de la actividad comercial, tener accesos a los servicios de formalización, asesoria y apertura empresaria, alta al padrón fiscal a través de las normativas y reglamentos de la Secretaría de Prosperidad Económica Vecinal del Municipio de Oaxaca de Juárez.
Población atendida (beneficiarios)	15,000 Unidades Económicas del Municipio de Oaxaca de Juárez	**Cuantificación:**	15,000 Unidades Económicas del Municipio de Oaxaca de Juárez.
		Criterios de Focalización	Beneficios para las Unidades Económicas en el alta en el padrón fiscal.

2. Estrategia para la selección de alternativas.	
Explicar brevemente por qué las medidas que constituirán la intervención del PP son las opciones de acción más efectivas para lograr el objetivo deseado; debe guardar relación con el árbol del objetivo.	Las medidas que conforman el Programa Presupuestario se orientan a fortalecer la competitividad económica del municipio a través de tres ejes estratégicos: el desarrollo de capacidades empresariales, la promoción del autoempleo y la inserción laboral, y la formalización de las actividades comerciales. Para ello, se implementan acciones como la capacitación técnica y administrativa de las unidades económicas, el impulso a la vinculación laboral mediante bolsas de trabajo y ferias de empleo, y la simplificación de trámites para facilitar la regularización comercial. Estas intervenciones son las más efectivas para alcanzar el objetivo deseado, ya que inciden directamente en el incremento de la productividad, la generación de ingresos sostenibles y la consolidación de un entorno económico formal y competitivo.

1. Diagnóstico del Programa presupuestario

1.1 Descripción del Problema

Antecedentes y definición del problema

El municipio de Oaxaca de Juárez, por su vocación cultural y turística, concentra actividades económicas y sociales que requieren servicios públicos adecuados, movilidad eficiente y una gestión institucional capaz de sostener el dinamismo del sector. No obstante, el desempeño turístico reciente muestra señales de estancamiento que afectan la capacidad del destino para consolidarse competitivamente. De acuerdo con el Boletín de Indicadores de la Actividad Turística Enero–Septiembre 2025, la ciudad registró 971,498 turistas y una ocupación hotelera de 50.49 %, cifra que evidencia una utilización limitada de la infraestructura turística instalada. Este comportamiento, aun cuando convive con niveles altos de satisfacción reportados por los visitantes, refleja un problema público verificable: la baja competitividad turística del municipio, caracterizada por un posicionamiento insuficiente del destino frente a la oferta regional y nacional. Esta situación se manifiesta en un aprovechamiento limitado del potencial turístico y en un desempeño que no corresponde con la importancia cultural y económica de la ciudad.

Justificación del Pp

La intervención del Gobierno Municipal es necesaria porque la baja competitividad turística constituye un problema público que afecta el interés colectivo, al limitar la atracción de visitantes, desacelerar la actividad económica local y reducir la generación de ingresos para familias, negocios y prestadores de servicios. Este problema no puede resolverse únicamente por actores privados, debido a fallas de mercado y de coordinación: la promoción turística, el fortalecimiento del destino, la profesionalización del sector y la mejora del entorno urbano requieren bienes y servicios de provisión colectiva que ningún prestador puede financiar ni ejecutar de manera aislada. Asimismo, las decisiones individuales del sector privado no aseguran estándares homogéneos de calidad, información confiable ni acciones sostenidas de desarrollo turístico.

En este marco, la participación municipal es indispensable para articular esfuerzos, regular, coordinar y proveer servicios públicos vinculados al turismo. La Secretaría de Turismo actúa dentro de sus atribuciones legales, conforme al Artículo 173 del Bando de Policía y Gobierno, que le confiere la responsabilidad de promover el destino, difundir su patrimonio, capacitar al sector, operar módulos de información y coordinarse con organismos públicos y privados. Esta intervención no invade competencias estatales o federales; por el contrario, complementa y fortalece sus esfuerzos en el ámbito estrictamente municipal.

El Programa Presupuestario se justifica porque sus componentes abordan directamente las causas del problema: la promoción contribuye al posicionamiento del destino; la capacitación mejora la calidad del servicio; los módulos fortalecen la atención al visitante; y el fortalecimiento del Centro Histórico mejora la experiencia turística y la imagen urbana. Estas acciones generan beneficios económicos y sociales que superan la capacidad de acción individual y permiten reducir la brecha de competitividad identificada.

El programa se vincula con el Eje 4 “Prosperidad Económica Vecinal y Fomento Productivo”, el Objetivo 4.4 y las estrategias 4.4.1 y 4.4.2 del PMD 2025–2027, además de aportar al ODS 8 al impulsar crecimiento económico, empleo y competitividad turística.

Estado actual del problema

Los indicadores turísticos del municipio muestran una recuperación sostenida en afluencia y derrama económica, pero con niveles de ocupación hotelera que se mantienen dentro de un rango medio. La ocupación fue de 45.19 % en 2022, 51.46 % en 2023 y 52.7 % en 2024, mientras que para el periodo enero–septiembre de 2025 alcanzó 50.49 %, acompañada de 971,498 turistas y una derrama económica de 5,151 mdp. Esta evolución refleja que, a pesar del aumento gradual en visitantes, el uso de la capacidad instalada ha permanecido estable en los últimos años.
Según el Perfil del Turista 2024, la satisfacción general del destino obtuvo una calificación de 9.27; sin embargo, los elementos del servicio con evaluaciones más bajas —hospedaje (7.40), accesibilidad (7.61), limpieza para visitantes extranjeros (7.40) y servicios complementarios como aeropuerto, terminales y transporte público (alrededor de 6 puntos)— se han mantenido en niveles similares en los distintos periodos medidos. Estas valoraciones indican que existen aspectos de la experiencia turística que registran brechas cualitativas persistentes respecto al promedio general.
En el ámbito territorial, la mayor parte de la actividad turística continúa concentrada en el Centro Histórico y en los barrios de Xochimilco y Jalatlaco, donde se ubican los principales establecimientos formales relacionados con el sector. En contraste, zonas como Trinidad de Viguera, Pueblo Nuevo, Montoya y San Martín Mexicapam siguen mostrando baja presencia turística y menor disponibilidad de servicios, manteniéndose una distribución desigual de la actividad en el municipio.
En cuanto a los grupos involucrados, micro y pequeñas empresas de hospedaje, alimentos y bebidas, comercio y guías turísticos continúan operando en un contexto de variación en la demanda, lo que se refleja en ingresos fluctuantes. De igual manera, mujeres y jóvenes que participan en el sector enfrentan patrones de empleo caracterizados por ciclos de actividad y periodos de menor ocupación. Estos elementos, observados de manera reiterada entre 2022 y 2025, muestran que varias condiciones vinculadas al desempeño del sector se han mantenido sin cambios significativos.

Evolución del problema

En los últimos cuatro años, la actividad turística del municipio ha mostrado incrementos graduales en afluencia y derrama económica, mientras que los niveles de ocupación hotelera han permanecido dentro de un rango estable. La serie histórica registra 45.19 % en 2022, 51.46 % en 2023, 52.7 % en 2024 y 50.49 % para el periodo enero–septiembre de 2025. Esta trayectoria evidencia que, aun con el crecimiento sostenido en visitantes, el uso de la capacidad instalada no ha presentado variaciones significativas.
Los resultados del Perfil del Turista de los últimos ciclos confirman que la satisfacción general del destino se mantiene elevada, pero los aspectos con menor evaluación —hospedaje, accesibilidad, limpieza, infraestructura de movilidad y servicios complementarios como aeropuerto y terminales— conservan calificaciones similares entre un año y otro. La persistencia de estos valores muestra que las brechas cualitativas en estos componentes del servicio turístico no han registrado mejoras perceptibles en el periodo analizado.
En el plano territorial, la distribución espacial del turismo continúa concentrada en el Centro Histórico y en los barrios de Xochimilco y Jalatlaco. Paralelamente, zonas como Trinidad de Viguera, Pueblo Nuevo, Montoya y San Martín Mexicapam mantienen una baja presencia turística y menor acceso a servicios relacionados con el sector, mostrando que las diferencias territoriales observadas en años anteriores permanecen sin cambios sustantivos.
Respecto a los grupos involucrados, micro y pequeñas empresas —particularmente de hospedaje, alimentos y bebidas, comercio local y servicios de guías— siguen operando en un contexto de variación estacional; de igual forma, mujeres y jóvenes continúan enfrentando patrones de empleo con ingresos fluctuantes. Estas condiciones se repiten en los distintos periodos medidos, lo que confirma la continuidad de impactos sociales vinculados al comportamiento del sector.
La evolución descrita se refleja en los indicadores estratégicos del PMD 2025–2027 asociados al turismo, particularmente en ocupación hotelera, que permanece en niveles medios sin incrementos sostenidos, valoración del servicio turístico, cuyos componentes con menor calificación continúan sin variaciones relevantes y distribución territorial de la actividad turística, que conserva patrones de concentración similares a los reportados en años previos.
Estos elementos muestran que, entre 2022 y 2025, las manifestaciones del problema se han mantenido constantes, sin evidencias de cambios estructurales en su comportamiento.

Experiencias de atención

Entre 2020 y 2024, se implementaron acciones estatales y municipales orientadas al fortalecimiento turístico. A nivel estatal, la Secretaría de Turismo del Estado desarrolló campañas de promoción nacional e internacional, impulsó la participación en ferias especializadas y mejoró la conectividad aérea. También operó 11 módulos de información turística que registraron 27,966 atenciones entre 2023 y 2024. Si bien estas intervenciones ampliaron la visibilidad del destino y facilitaron el acceso a información, su alcance se concentró en corredores consolidados y no modificó de manera sustantiva la distribución territorial de la actividad turística.
En el ámbito municipal, la Secretaría de Turismo de Oaxaca de Juárez ejecutó acciones directas de difusión del patrimonio cultural, operación de módulos de información turística, acompañamiento a eventos estratégicos y procesos de capacitación dirigidos a prestadores de servicios. Estas actividades contribuyeron a mantener valoraciones favorables en hospitalidad, oferta cultural y atención al visitante, según el Perfil del Turista 2024. No obstante, aspectos como hospedaje, accesibilidad y servicios complementarios conservaron calificaciones menores, lo que indica que las acciones realizadas no generaron cambios sostenidos en los elementos del servicio que históricamente muestran menor desempeño.
Las evaluaciones realizadas en el periodo, como la Evaluación Específica del Desarrollo Turístico 2022, registraron un cumplimiento del 94.44 % en los criterios aplicados y documentaron avances en planeación, promoción y cooperación interinstitucional. Sin embargo, también señalaron limitaciones persistentes: recursos insuficientes para ampliar cobertura territorial, rotación de personal en módulos turísticos, ausencia de mecanismos sistemáticos de evaluación continua y un enfoque de promoción concentrado en zonas de mayor afluencia.
De estas experiencias se identifican aprendizajes relevantes para orientar la intervención municipal: la necesidad de fortalecer la profesionalización continua del sector, ampliar la cobertura territorial de las acciones de promoción y atención, consolidar mecanismos de coordinación con otros órdenes de gobierno y actores privados, y establecer sistemas permanentes de seguimiento de la experiencia del visitante. Estos elementos aportan evidencia sobre la pertinencia del Programa Presupuestario, pues muestran áreas de intervención que requieren continuidad y fortalecimiento.

1.2 Metodología para la identificación de la población objetivo y definición de fuentes de información

De acuerdo con el último Censo de Población y Vivienda realizado por el Instituto Nacional de Estadística y Geografía (INEGI) en 2020, la población total del municipio de Oaxaca de Juárez asciende a 270,955 personas (INEGI, 2020).

Definición y cuantificación de los conceptos poblacionales del Pp

Población Potencial	270,955 habitantes del municipio, 43,533 personas ocupadas en actividades turísticas y 3,200 unidades económicas del sector y servicios conexos.	**Cuantificación:**	Total de personas, empresas e instituciones que enfrentan el problema público de baja competitividad del sector turístico. Fuente: INEGI (Censo de Población y Vivienda 2020; Censos Económicos 2019); Boletines de Indicadores de la Actividad Turística 2022–2025; Diagnóstico Municipal IMPLAN 2024.
		Criterios de Focalización	Territorial y sectorial. Zonas con mayor exposición al fenómeno: Centro Histórico, Jalatlaco, Xochimilco, Reforma, mercados, corredores culturales, agencias como Viguera, Pueblo Nuevo y Donají. Incluye población residente afectada por la saturación turística y actores económicos vinculados al sector.
Población Objetivo	Aproximadamente 50,000 personas y unidades económicas, integradas por: 43,533 trabajadores turísticos, micro y pequeñas empresas, 3,200 establecimientos del sector, guías y operadores registrados.	**Cuantificación:**	Grupo específico al que se dirigen directamente las acciones del Pp para mejorar la competitividad del sector turístico. 2. Estrategia para la selección de alternativas.

La selección de alternativas se realizó con base en el diagnóstico y en los árboles de problemas y objetivos desarrollados mediante la Metodología del Marco Lógico. En este proceso se analizaron diversas opciones de intervención consideradas en el sector turístico, valorando su viabilidad técnica, operativa y presupuestal, así como su capacidad para responder al problema público identificado. Del ejercicio comparativo, se determinó que la alternativa más adecuada es una estrategia integral que articula acciones de promoción, capacitación, operación de módulos de información y fortalecimiento del Centro Histórico, al permitir atender de manera simultánea distintos aspectos observados en el análisis diagnóstico.

La implementación de esta alternativa se llevará a cabo exclusivamente mediante los Componentes y Actividades definidos en el Programa Presupuestario, asegurando que la ejecución se mantenga dentro del marco operativo establecido y que las acciones respondan directamente a los elementos que conforman el modelo de intervención. De esta manera, la estrategia seleccionada se operacionaliza con instrumentos claros, mecanismos definidos y procesos sujetos a seguimiento institucional.

La alternativa elegida se encuentra alineada con el PMD 2025–2027, particularmente con el Eje 4, y mantiene plena coherencia interna con los niveles de planeación del programa. Esta consistencia garantiza la trazabilidad entre el Fin, el Propósito, los Componentes y las Actividades, asegurando que cada nivel contribuya directamente al logro del siguiente y consolidando la pertinencia metodológica de la intervención.

Ejercicio Fiscal	2026
Nombre del Programa	Educación y Cultura Municipal
Clave del Programa Presupuestario	12
Unidad Responsable del Pp	Secretaría de Cultura, Educación y Fomento a la Lectura

1. Diagnóstico del Programa presupuestario

1.1 Descripción del Problema

Antecedentes y definición del problema

El municipio de Oaxaca de Juárez enfrenta retos persistentes en materia de educación y cultura que impactan directamente en el desarrollo social, el ejercicio de derechos culturales y las oportunidades de aprendizaje, esto implica que enfrente una doble problemática:
1. Rezago educativo y dificultades de permanencia escolar, agravados por condiciones socioeconómicas desiguales, limitación de recursos educativos y efectos pospandemia.
2. Insuficiente promoción cultural y limitado desarrollo de las artes, producto de restricciones presupuestarias, escasa infraestructura cultural, baja articulación institucional y mecanismos insuficientes para la participación comunitaria. a lo largo de la vida.

Estas problemáticas afectan el ejercicio de los derechos culturales y educativos de la población, limitan su desarrollo integral y obstaculizan la consolidación de una política municipal basada en la inclusión, la sostenibilidad cultural y la formación artística comunitaria.

Factores como la pobreza, la desigualdad económica y las limitadas oportunidades laborales dentro de los hogares influyen en que los núcleos familiares prioricen el ingreso económico sobre la continuidad educativa de niñas, niños y jóvenes. Estas condiciones provocan que, aún en un entorno urbano, existan segmentos de población con recursos educativos insuficientes para sostener trayectorias escolares completas.
De acuerdo con el Informe de Pobreza y Rezago Social 2025, el rezago educativo en Oaxaca de Juárez aumentó de 9.3 % en 2020 a 10.4 %, revelando un deterioro en el acceso y culminación de estudios básicos. Asimismo, el Informe de Pobreza y Evaluación 2022 del CONEVAL destaca que el rezago educativo es un componente central de la pobreza multidimensional al limitar la demanda educativa, el aprendizaje y la permanencia escolar.
A estas condiciones se suman los efectos acumulados de la pandemia por COVID-19. El cierre prolongado de escuelas, las dificultades de acceso a modalidades educativas a distancia y los obstáculos para la reincorporación presencial afectaron la retención escolar y profundizaron desigualdades, sobre todo en hogares con menores recursos tecnológicos y económicos.
En el ámbito cultural, el municipio presenta una promoción insuficiente y un desarrollo limitado de las artes. Aunque Oaxaca de Juárez posee una rica herencia cultural, la capacidad institucional para impulsar actividades artísticas, fortalecer la formación cultural comunitaria y salvaguardar el patrimonio es aún restringida debido al presupuesto que se ha otorgado así como los alcances del equipo de trabajo disponible para implementar todos los proyectos.
Según la investigación de Fundar (2022), realizada a nivel nacional priorizando las capitales de los estados, el área de Cultura recibió únicamente 0.42 % del presupuesto total destinado al desarrollo social, cifra menor al 0.45 % asignado en 2022, lo que evidencia una tendencia decreciente en la inversión pública para el sector. Esta insuficiencia presupuestaria repercute en la calidad, cobertura y continuidad de las actividades culturales ofrecidas a la ciudadanía.
El avance de gestión 3T 2023 de la Secretaría de Finanzas confirma que los recursos institucionales para generar vías de acceso, creación y participación cultural son limitados, lo cual restringe la implementación de programas permanentes y la consolidación de infraestructura cultural adecuada. La promoción cultural se centra en eventos aislados o de corta duración, no contemplan proyectos sostenibles, comunitarios o formativos, esto no favorece la implementación de talleres barriales, escuelas de arte locales o procesos de creación artística continua.
A nivel comunitario se persisten desafíos estructurales. La mesa “Cultura y Artes” de la Ley para las Juventudes de Oaxaca (2023) identificó que la institucionalidad cultural aún carece de mecanismos efectivos para fomentar la participación artística joven y comunitaria, así como para articular acciones entre educación formal y proyectos artísticos. Lo que ha evitado que niñas, niños y jóvenes tengan acceso a oportunidades formativas en arte y cultura, limitando su desarrollo creativo y la integración entre escuela y vida cultural. Lo anterior limita el cumplimiento de las responsabilidades de la dependencia, establecidas en el Bando de Policía y Buen Gobierno y el Plan de Desarrollo Municipal.

Justificación del Pp

En el municipio de Oaxaca de Juárez persisten brechas relevantes en el acceso y la continuidad educativa, expresadas en rezago y deserción escolar asociados a condiciones de pobreza, desigualdad y limitaciones tecnológicas. Estos factores siguen afectando especialmente a niñas, niños y jóvenes, cuya permanencia escolar se debilitó tras la pandemia. En este escenario, la intervención municipal continúa siendo necesaria para complementar las acciones estatales y federales mediante servicios educativos comunitarios, administración de espacios formativos y acciones de apoyo a la lectura y al aprendizaje en zonas urbanas con desigualdades internas. El Plan Municipal de Desarrollo (PMD) establece como prioridad reducir la deserción escolar y fortalecer la alfabetización, lo que respalda el papel de la Secretaría en la gestión de programas de apoyo escolar. Asimismo, la intervención se alinea al PED —que impulsa la igualdad educativa—, al PND en su eje de desarrollo con bienestar e igualdad de oportunidades, y al ODS 4 relativo a educación de calidad.

En materia cultural, la limitada disponibilidad de oferta formativa, espacios culturales y actividades artísticas comunitarias refleja una insuficiencia histórica de recursos destinados al sector. Esto afecta el acceso equitativo a bienes culturales, la participación ciudadana y la preservación del patrimonio local. El PMD establece metas específicas para fortalecer la cultura y las artes, promover la identidad comunitaria y ampliar los espacios culturales, áreas en las que la Secretaría tiene atribuciones directas conforme al marco normativo municipal. La intervención también es congruente con el PED —que reconoce la cultura como componente del bienestar—, con el PND —que impulsa la identidad cultural y la equidad en el acceso cultural— y con el ODS 11 sobre protección del patrimonio y acceso inclusivo a espacios culturales.

El fortalecimiento del Programa Presupuestario de Educación y Cultura Municipal es, por tanto, estratégico porque constituye el principal instrumento operativo del Ayuntamiento para atender de manera integrada ambos problemas públicos. El programa permite ampliar el acceso educativo, descentralizar la oferta cultural y garantizar el ejercicio de derechos fundamentales en comunidades y barrios con mayores desigualdades. Su continuidad asegura la operación de espacios educativos y culturales, la realización de actividades formativas permanentes y la preservación del patrimonio, contribuyendo al bienestar social, la cohesión comunitaria y el cumplimiento de los compromisos de desarrollo establecidos en los marcos municipal, estatal, nacional e internacional

Estado actual del problema

El municipio de Oaxaca de Juárez enfrenta una problemática persistente en materia educativa, caracterizada por el incremento del rezago y la continuidad escolar limitada. Los indicadores disponibles muestran que:
* El rezago educativo aumentó de 9.3 % en 2020 a 10.4 % en 2025, de acuerdo con el Informe de Pobreza y Rezago Social 2025, reflejando un deterioro en el acceso, permanencia y culminación de estudios básicos.
* El Informe de Pobreza y Evaluación 2022 del CONEVAL identifica el rezago educativo como uno de los componentes críticos de la pobreza multidimensional en el municipio.
* Registros de la DGPPyEE de la SEP (2024) y del SISPLADE 2023/2024 confirman que el rezago se mantuvo entre 2020 y 2023, con ligeras alzas entre grupos vulnerables.
* Durante los ciclos 2020–2021 y 2021–2022, la matrícula escolar municipal disminuyó entre 20 % y 23 %, debido principalmente a los efectos de la pandemia por COVID-19.
* A partir del ciclo 2022–2023 hubo una recuperación parcial, pero no homogénea, lo que mantuvo brechas significativas en la permanencia educativa.

Aunque el municipio no cuenta con datos públicos anuales desagregados por colonia, los registros administrativos locales permiten identificar zonas donde el rezago y el abandono escolar son más persistentes, especialmente en las agencias y colonias periféricas: San Martín Mexicapam, Montoya, Pueblo Nuevo, Candiani y Zonas de pobreza urbana con alta densidad poblacional.
Estos territorios concentran mayores tasas de abandono, en particular en secundaria y educación media, debido a barreras económicas, necesidad de incorporación temprana al trabajo y deficiencias en la infraestructura educativa.
La evidencia cualitativa obtenida en talleres y consultas municipales confirma que la continuidad educativa se ve afectada por: falta de dispositivos digitales, costos de transporte, escasez de espacios educativos complementarios y ausencia de acompañamiento pedagógico. Los grupos más afectados son jóvenes, mujeres jóvenes, población indígena urbana y hogares monoparentales.

La segunda dimensión crítica es la promoción insuficiente y el desarrollo limitado de la cultura y las artes. A pesar de la sólida tradición cultural del municipio, la capacidad institucional para sostener actividades formativas y garantizar acceso equitativo ha sido restringida por limitaciones presupuestarias y administrativas.
Entre 2020 y 2021, la pandemia provocó cierre de museos y recintos culturales, cancelación de festivales y disminución drástica de la actividad artística comunitaria.
Aunque desde 2022 se reactivaron eventos masivos con alta afluencia turística, la recuperación de la oferta formativa municipal ha sido limitada, debido a presupuesto insuficiente, discontinuidad de programas y priorización de eventos turísticos y mediáticos sobre procesos formativos comunitarios.

La infraestructura cultural se encuentra concentrada en el centro histórico y zonas de alta afluencia turística, lo que genera disparidades en el acceso territorial. Las agencias periféricas con menor presencia de espacios culturales, talleres y actividades continuas son Trinidad de Viguera, San Juan Chapultepec, Santa Rosa Panzacola y Pueblo Nuevo
La ausencia de datos culturales desagregados por colonia dificulta dimensionar la brecha, pero las consultas comunitarias indican una percepción generalizada de accesibilidad limitada, baja continuidad de la oferta y falta de oportunidades de participación artística fuera del centro.
Los grupos más afectados son:
* niñas, niños y jóvenes, dependientes de espacios públicos para iniciación artística;
* mujeres y personas cuidadoras, con menor disponibilidad de tiempo y movilidad;
* población indígena urbana, que demanda procesos culturales próximos y comunitarios;
* artistas locales emergentes, cuya participación y desarrollo se limitan por la escasez de programas formativos y de exhibición.

Evolución del problema

Entre 2020 y 2024, el municipio de Oaxaca de Juárez presentó variaciones cuantitativas claras en dos ámbitos: el rezago y la discontinuidad educativa, y la reducción y recuperación parcial de la oferta cultural municipal. La información proveniente de INEGI, CONEVAL, SEP, SISPLADE, la Secretaría de Finanzas y reportes administrativos locales muestra tendencias consistentes y persistencia de brechas territoriales.

Los datos disponibles evidencian que el rezago educativo mantuvo una tendencia ascendente durante el periodo. De acuerdo con el Informe de Pobreza y Rezago Social 2025, la población en rezago educativo pasó de 9.3 % en 2020 a 10.4 % en 2024, lo que representa un incremento de 1.1 puntos porcentuales en cuatro años.
De manera paralela, los registros de la SEP (DGPPyEE, 2024) y las fichas SISPLADE 2023/2024 muestran que la matrícula escolar municipal presentó reducciones significativas de entre 20 % y 23 % durante los ciclos 2020–2021 y 2021–2022. Si bien entre 2022 y 2024 se observó una recuperación parcial, esta no alcanzó los niveles previos a 2020 y fue desigual entre territorios.
En ausencia de información pública anual desagregada por colonia, los reportes administrativos locales permiten identificar que la deserción y la baja reinserción escolar se mantienen elevadas en Pueblo Nuevo, San Juan Chapultepec, Montoya y Trinidad de Viguera, así como en zonas urbanas con menor infraestructura educativa y mayor concentración de hogares en situación de pobreza. Los registros internos y consultas sectoriales coinciden en que la afectación se concentra en población adolescente (12–17 años), mujeres jóvenes y hogares monoparentales.
En conjunto, la serie histórica 2020–2024 muestra que el municipio no ha revertido el incremento del rezago educativo ni ha logrado restablecer plenamente los niveles de matrícula y permanencia previos al periodo analizado.

La oferta cultural municipal experimentó fluctuaciones marcadas entre 2020 y 2024. Durante 2020 y 2021, la actividad cultural presencial registró una reducción drástica, reflejada en la suspensión de talleres, cierre de museos y cancelación de festivales, lo que se tradujo en una caída significativa de la participación comunitaria.
A partir de 2022, se reactivaron actividades culturales y eventos masivos; sin embargo, la recuperación de la oferta formativa territorial fue más lenta. Los datos presupuestarios disponibles —incluyendo el análisis de Fundar (2022) y los reportes financieros 3T-2023— muestran que el área de cultura mantuvo asignaciones presupuestarias decrecientes o estables en niveles bajos, lo cual limitó la expansión de talleres y actividades de proximidad.
En términos territoriales, los registros municipales señalan que la infraestructura cultural permanece concentrada en el Centro Histórico, mientras que Santa Rosa Panzacola, Candiani, Viguera y Pueblo Nuevo presentan baja disponibilidad de espacios culturales y continuidad limitada de talleres comunitarios. La información cualitativa recopilada en diagnósticos institucionales es consistente en señalar que niñas, niños, jóvenes, mujeres y población indígena urbana han tenido acceso limitado y variable entre 2020 y 2024.
A nivel programático, los indicadores históricos muestran que la cobertura de actividades culturales comunitarias se ha mantenido estable o con incrementos marginales, sin expansión territorial significativa durante el periodo.

Experiencias de atención

Entre 2020 y 2024, el Municipio de Oaxaca de Juárez desarrolló diversas acciones orientadas al fortalecimiento educativo, la continuidad escolar y la promoción cultural comunitaria, las cuales permiten identificar aprendizajes relevantes para el diseño del Programa Presupuestario. Durante este periodo, las intervenciones educativas y culturales experimentaron avances significativos, pero también enfrentaron limitaciones estructurales, operativas y presupuestarias que condicionaron su alcance territorial. En materia educativa, el Programa Municipal de Atención Educativa (2020–2023), ejecutado por la Secretaría de Cultura, se orientó a reducir las barreras de acceso y permanencia escolar mediante acciones de apoyo académico dirigidas a niñas, niños y adolescentes de escuelas públicas en agencias con mayores niveles de rezago, como San Juan Chapultepec, Pueblo Nuevo, Viguera, Santa Rosa y Montoya. A lo largo de su operación, el programa implementó talleres de regularización en primaria y secundaria que alcanzaron en promedio 1,800 estudiantes por año. Los reportes administrativos indican mejoras de hasta 8 % en el rendimiento académico promedio del estudiantado participante y reducciones de entre 3 % y 5 % en ausentismo escolar en los planteles con seguimiento continuo. Hacia 2022 y 2023 se incorporaron tutorías en línea y herramientas digitales básicas; sin embargo, solo 42 % de los participantes contó con conectividad estable, lo que limitó el impacto de esta modalidad. La experiencia acumulada muestra también diversas restricciones: la insuficiencia presupuestaria impidió ampliar la cobertura a todas las agencias prioritarias; la alta rotación del personal docente contratado por honorarios afectó la continuidad metodológica; y la débil articulación con estrategias estatales generó duplicidad de esfuerzos en ciertos territorios. Estas limitaciones son consistentes con hallazgos de otros municipios urbanos del país, como Xalapa y Tuxtla Gutiérrez, donde evaluaciones internas han señalado que la continuidad docente y la coordinación interinstitucional son determinantes para sostener mejoras en permanencia escolar.

Complementariamente, entre 2021 y 2024 el Ayuntamiento operó el programa de Becas Municipales de Permanencia Escolar, administrado por la Secretaría de Bienestar Municipal con coordinación parcial de Educación Municipal. Este programa entregó más de 3,500 apoyos económicos a estudiantes en riesgo de abandono escolar, lográndose que siete de cada diez beneficiarios permanecieran en el sistema educativo durante el ciclo inmediato posterior. La evidencia de seguimiento mostró especial relevancia del apoyo en hogares encabezados por mujeres y en estudiantes que combinaban estudio y trabajo informal. No obstante, la demanda superó la disponibilidad presupuestaria en más del 60 % de los ciclos, y la falta de mecanismos para verificar la continuidad educativa más allá de un ciclo escolar limitó la evaluación integral de resultados. Estas observaciones han servido como insumo para incorporar indicadores de seguimiento longitudinal y criterios más precisos de elegibilidad territorial en el presente Programa Presupuestario.

En el ámbito cultural, el Programa Municipal de Talleres Artísticos Comunitarios (2020–2024), operado por la Secretaría de Cultura, amplió el acceso comunitario a procesos de formación artística básica en barrios y agencias del municipio. El programa funcionó en entre 12 y 18 sedes comunitarias por año y ofreció disciplinas como danza, música, artes plásticas y teatro. A lo largo del periodo, atendió entre 3,000 y 3,800 usuarios anuales, con una recuperación notable después de la pandemia, equivalente a un incremento de 35 % entre 2022 y 2024. Los informes de avance de 2023 reportan un crecimiento sostenido en la participación de mujeres (55 %) y de población joven (47 %), lo que refleja su relevancia para grupos con menor acceso a actividades formativas. Sin embargo, los aprendizajes del programa revelan desafíos persistentes. Durante 2020 y 2021, las restricciones sanitarias redujeron el número de sedes disponibles; en varias agencias periféricas se carecía de infraestructura cultural adecuada, lo que obligó al uso de espacios improvisados; y la disponibilidad presupuestaria fue limitada, documentándose una reducción relativa en la asignación de recursos para cultura dentro del presupuesto social municipal (pasando de 0.45 % a 0.42 % entre 2022 y 2023, según Fundar). Estas limitaciones encuentran paralelos en experiencias de ciudades como Mérida y Guadalajara, donde los programas culturales comunitarios han logrado mejores niveles de permanencia mediante la consolidación de sedes permanentes y esquemas de coinversión cultural, modelos que pueden adaptarse al contexto oaxaqueño.

De manera transversal, las acciones implementadas entre 2020 y 2024 enfrentaron dificultades adicionales como la insuficiencia presupuestaria para sostener o ampliar las coberturas previstas; la rotación frecuente de personal operativo; la falta de una normativa interna actualizada en materia de operación cultural y educativa; la carencia de plataformas tecnológicas para seguimiento sistemático; y la limitada coordinación interinstitucional, tanto al interior del municipio como con instancias estatales y federales. No obstante, las experiencias generadas constituyen un acervo relevante que permite identificar prácticas efectivas, áreas de oportunidad y criterios de mejora para fortalecer el diseño y ejecución del Programa Presupuestario de Educación y Cultura Municipal.

1.2 Metodología para la identificación de la población objetivo y definición de fuentes de información

De acuerdo con el último Censo de Población y Vivienda realizado por el Instituto Nacional de Estadística y Geografía (INEGI) en 2020, la población total del municipio de Oaxaca de Juárez asciende a 270,955 personas (INEGI, 2020).

Definición y cuantificación de los conceptos poblacionales del Pp

Población Potencial	Educación: niñas, niños y adolescentes (residentes en Oaxaca de Juárez. Cultura: habitantes del municipio de Oaxaca de Juárez.	**Cuantificación:**	Educación: 98,000 niñas, niños y adolescentes (NNA) entre 3 y 17 años residentes en Oaxaca de Juárez . Cultura: aproximadamente 270,000 habitantes con acceso limitado a actividades culturales y artísticas comunitarias; se estima que más del 60 % reside en agencias con baja infraestructura cultural
		Criterios de Focalización	Personas que enfrentan barreras de acceso educativo o cultural. Hogares en situación de pobreza y vulnerabilidad (CONEVAL). Agencias con mayores rezagos: San Juan Chapultepec, Pueblo Nuevo, Viguera, Montoya, Santa Rosa, Candiani. Zonas con limitaciones en infraestructura cultural. Población general del municipio susceptible de beneficiarse de servicios educativos y culturales
Población Objetivo	Infantes, jóvenes, mujeres residente en colonias y agenciason mayor vulnerabilidad educativa y caída de matrícula o sin espacios culturales formales o con baja oferta artística residentes del municipio de Oaxaca de Juárez.	**Cuantificación:**	Educación: entre 18,000 y 22,000 personas con rezago en educación básica por abandono o bajo desempeño. Cultura: entre 35,000 y 45,000 personas, principalmente jóvenes, mujeres y población indígena
		Criterios de Focalización	Escuelas municipales ubicadas en polígonos de atención prioritaria (SISPLADE 2023/2024). Población joven (12–29 años), mujeres, y grupos en situación de vulnerabilidad con limitada participación cultural. Agencias sin centros culturales o con oferta cultural insuficiente. Sectores con bajo acceso a talleres, formación artística o actividades comunitarias.
Población atendida (beneficiarios)	Con base en la capacidad operativa municipal y el presupuesto anual: Educación: Aproximadamente 7,000–9,000 estudiantes atendidos por acciones del programa (tutorías, regularización, actividades formativas y apoyo educativo). Cultura: Aproximadamente 10,000–13,000 personas atendidas en talleres artísticos, actividades culturales, promoción de lectura y participación comunitaria.	**Cuantificación:**	7,000 estudiantes atendidos por acciones del programa 13,000 personas atendidas en talleres artísticos, actividades culturales, promoción de lectura y participación comunitaria.
		Criterios de Focalización	Prioridad a estudiantes en riesgo educativo y escuelas focalizadas. Niñas, niños y jóvenes de agencias con margen alto de pobreza o rezago educativo. Mujeres, comunidades indígenas y población joven con barreras de acceso a espacios culturales. Beneficiarios directos inscritos en talleres, programas de formación, actividades artísticas o educativas.

2. Estrategia para la selección de alternativas.	
Explicar brevemente por qué las medidas que constituirán la intervención del PP son las opciones de acción más efectivas para lograr el objetivo deseado; debe guardar relación con el árbol del objetivo.	La selección de alternativas se efectuó con base en el diagnóstico institucional y en los árboles de problemas y de objetivos elaborados mediante la Metodología del Marco Lógico. Durante el proceso se identificaron distintas opciones de intervención derivadas de las causas detectadas, valorando su viabilidad técnica, institucional y presupuestal. Lo anterior permitió identificar las causas estructurales del rezago educativo y del limitado desarrollo cultural en el municipio. Durante este proceso se analizaron diversas rutas de intervención derivadas de dichas causas, considerando su viabilidad técnica, operativa y presupuestal, así como su alineación con los instrumentos de planeación municipal, estatal, nacional e internacional. Del análisis comparativo se determinó que la alternativa más adecuada consiste en fortalecer de manera integral las capacidades institucionales para ampliar el acceso a servicios educativos complementarios, descentralizar la oferta cultural comunitaria y consolidar programas formativos y artísticos permanentes. Esta opción fue seleccionada por su coherencia con los medios identificados en el árbol de objetivos y porque permite atender simultáneamente las dos problemáticas centrales: la deserción escolar y la limitada participación cultural. La alternativa elegida se vincula directamente con la estructura del Programa Presupuestario, al articular acciones de fomento cultural, gestión educativa y apoyo administrativo que aseguran la implementación efectiva de los componentes. Asimismo, garantiza congruencia con el Plan Municipal de Desarrollo 2025–2027 , con el Plan Estatal de Desarrollo en el eje de bienestar y con el Plan Nacional de Desarrollo y finalmente, contribuye al cumplimiento de los Objetivos de Desarrollo Sostenible, especialmente el ODS 4 y el ODS 11.

Alineación al Plan Nacional de Desarrollo	**Eje**	2. Desarrollo con bienestar y humanismo
Alineación al Plan Estatal de Desarrollo	**Eje**	1. Estado de bienestar para todas las oaxaqueñas y los oaxaqueños.
Alineación al Plan Municipal de Desarrollo	**Subeje o subprograma**	1.4 Educación 1.6 Cultura y Artes
	Objetivo	1.4 Contribuir a disminuir la deserción escolar en el municipio. 1.6 Fortalecer la cultura y las artes en el territorio municipal.
	Estrategia (s)	1.4.1 Fortalecer la alfabetización de las personas de 15 años y más 1.4.2 Reducir la deserción escolar en el municipio 1.6.1 Fomentar la conservación y preservación de la cultura y las artes del municipio 1.6.2 Ofrecer espacios culturales y artísticos en el territorio municipal 1.6.3 Fortalecer la vinculación y promoción de la cultura y las artes del municipio
	Línea(s) de Acción	1.4.1.1 Promover la vinculación con instituciones públicas para la alfabetización de los habitantes 1.4.2.1 Realizar actividades complementarias en los centros educativos administrados por el municipio 1.4.2.2 Dar a conocer la oferta académica de los centros educativos 1.4.2.3 Promover la ciencia y la tecnología en todo municipio
Alineación a los Objetivos de Desarrollo Sostenible	**Objetivo(s) ODS**	4. Educación con calidad 11. Ciudades y comunidades sostenibles
	Meta(s) ODS	4.1 De aquí a 2030, asegurar que todas las niñas y todos los niños terminen la enseñanza primaria y secundaria, que ha de ser gratuita, equitativa y de calidad y producir resultados de aprendizaje pertinentes y efectivos. 11.3 Redoblar los esfuerzos para proteger y salvaguardar el patrimonio cultural y natural del mundo.

Ficha Técnica del Programa presupuestario

Datos de identificación del Programa Presupuestario (Pp)	
Nombre del Municipio	Oaxaca de Juárez
Ejercicio Fiscal	2026
Nombre del Programa	Medio Ambiete y Gestión Hídrica Sostenible
Clave del Programa Presupuestario	13
Unidad Responsable del Pp	Secretaría de Medio Ambiente y Gestión Hídrica

1. Diagnóstico del Programa presupuestario

1.1 Descripción del Problema

Antecedentes y definición del problema

El municipio de Oaxaca de Juárez concentra una alta densidad poblacional y una intensa dinámica urbana que ha generado una presión constante sobre sus ecosistemas urbanos y periurbanos, particularmente sobre el arbolado, las áreas verdes, las barrancas y las zonas de recarga hídrica. La interacción entre el crecimiento urbano, la actividad económica y el uso cotidiano del territorio ha evidenciado la necesidad de una gestión ambiental integral que garantice la sostenibilidad del municipio y el bienestar de la población.

Desde el ámbito estructural, el desarrollo urbano se ha caracterizado por procesos de ocupación del territorio con una limitada incorporación de criterios de ordenamiento ecológico, lo que ha derivado en la fragmentación de ecosistemas, pérdida de áreas verdes y presión sobre zonas ambientalmente sensibles, afectando la mejora progresiva de la calidad ambiental del municipio, vinculada al Fin del Programa Presupuestario.

En el plano ambiental, se observa un deterioro del arbolado urbano, disminución de la cobertura vegetal y mayor exposición a riesgos ambientales como inundaciones, erosión e incendios, lo que limita el aprovechamiento sostenible de los ecosistemas y compromete el Propósito del Programa, orientado a fortalecer la gestión sostenible de los ecosistemas ecológicos municipales.

En cuanto a los factores sociales, persiste una baja cultura ambiental y limitada participación ciudadana en el cuidado de los espacios naturales, lo que reduce la corresponsabilidad social en la conservación del entorno y afecta la eficacia de las Actividades de educación ambiental, reforestación y cuidado del arbolado, previstas en el Eje Transversal 3.

Desde la perspectiva económica, el deterioro ambiental incrementa los costos asociados a la atención de riesgos, el mantenimiento de infraestructura y la pérdida de servicios ambientales, además de limitar la valorización de residuos sólidos y la adopción de prácticas sostenibles, incidiendo en los Componentes del Programa relacionados con la gestión integral de residuos y la promoción ambiental.

Finalmente, en el ámbito institucional, existen limitaciones operativas, presupuestarias y de coordinación interinstitucional para el control ambiental, el ordenamiento ecológico y la prevención de riesgos, así como una aplicación parcial de la normatividad ambiental, lo que dificulta la implementación efectiva de los Componentes y Actividades del Programa Presupuestario.

En este contexto, conforme al Eje Transversal 3: Medio Ambiente y Desarrollo Sostenible del Plan Municipal de Desarrollo 2025–2027, se identifica como problema público el descuido y desaprovechamiento sostenible de los ecosistemas ecológicos en el municipio, el cual, de no atenderse mediante las líneas de acción establecidas, continuará generando deterioro ambiental, incremento de riesgos y reducción del bienestar y la calidad de

Justificación del Pp
El problema público identificado como “descuido y desaprovechamiento sostenible de los ecosistemas ecológicos en el municipio” presenta causas ambientales, institucionales y territoriales asociadas a la pérdida de arbolado urbano, el uso ineficiente y desordenado del recurso hídrico, la generación y manejo inadecuado de residuos, así como a la limitada aplicación de la normatividad ambiental. Estas causas generan efectos directos como el deterioro del equilibrio ecológico, el incremento de riesgos ambientales y la reducción del bienestar y la calidad de vida de la población, lo que justifica la intervención del Gobierno Municipal mediante un Programa Presupuestario específico. La intervención municipal cuenta con fundamento jurídico en su Artículo 43 de la Ley Orgánica Municipal del Estado de Oaxaca, que establece competencias para desarrollar, operar y consolidar programas orientados a la preservación de ecosistemas urbanos, manejo del arbolado, reforestación, control de plagas, educación ambiental y aprovechamiento sostenible de recursos naturales, asi mismo en el Reglamento del Equilibrio Ecológico y de la Protección Ambiental para el Municipio de Oaxaca de Juárez, el Bando de Policía y Gobierno 2025–2027 y el Manual de Organización de la Secretaría de Medio Ambiente y Cambio Climático, los cuales facultan a la Secretaría para planear, regular, ejecutar, verificar y sancionar acciones relacionadas con la protección ambiental, la gestión hídrica, la verificación ambiental y educación ambiental, así como para garantizar el derecho humano a un medio ambiente sano. El Programa Presupuestario Medio Ambiente y Desarrollo Sostenible es pertinente y necesario porque constituye el principal instrumento institucional para atender el problema público identificado como “descuido y desaprovechamiento sostenible de los ecosistemas ecológicos en el municipio”, a partir de la atención directa de sus causas mediante componentes operativos claramente definidos. El Componente 1: Asesorías, procedimientos administrativos y verificación en materia ambiental realizados, atiende la arista institucional del problema relacionada con la débil aplicación de la normatividad ambiental, al fortalecer los procesos de inspección, vigilancia y cumplimiento regulatorio, reduciendo prácticas que deterioran los ecosistemas municipales. El Componente 2: Programas de Gestión Hídrica implementados, incide directamente en la problemática ambiental vinculada al uso ineficiente del recurso hídrico, la presión sobre zonas de recarga y los riesgos por escasez o inundaciones, contribuyendo a una gestión más sostenible del agua y a la conservación de los ecosistemas asociados. El Componente 3: Autorizaciones, licencias, dictámenes e informes en materia de regulación ambiental emitidas, fortalece la función regulatoria del municipio, asegurando que las actividades, obras y establecimientos se desarrollen conforme a criterios ambientales, lo que reduce impactos negativos sobre el arbolado, el suelo y los cuerpos de agua. El Componente 4: Servicios técnicos de arborización y acciones para el registro y conservación del arbolado urbano implementados, responde de forma directa a la pérdida de cobertura vegetal y al deterioro del arbolado urbano, permitiendo la protección, restauración y manejo técnico del patrimonio arbóreo municipal, así como la recuperación de los servicios ecosistémicos. Finalmente, el Componente 5: Acciones para el desarrollo sustentable y la adaptación al cambio climático implementadas, atiende la dimensión preventiva y de largo plazo del problema público, fortaleciendo capacidades ambientales, promoviendo prácticas sustentables y reduciendo la vulnerabilidad del municipio ante los efectos del cambio climático. En conjunto, estos componentes aseguran una intervención integral y articulada que permite revertir gradualmente el deterioro ambiental, fortalecer la gestión pública en materia hídrica y ambiental, y garantizar el ejercicio progresivo del derecho humano a un medio ambiente sano para la población de Oaxaca de Juárez. De manera complementaria, las acciones del Programa Presupuestario inciden en la reversión de la pérdida de arbolado urbano y áreas verdes, mediante actividades de conservación, mantenimiento y restauración ambiental, fortaleciendo los servicios ecosistémicos y contribuyendo a la mejora progresiva de la calidad ambiental municipal. El impacto del Programa Presupuestario se refleja en la reducción del deterioro ambiental, el fortalecimiento de la gestión pública en materia de agua, residuos y normatividad ambiental, y en la consolidación de condiciones que hacen efectivo el derecho humano a un medio ambiente sano, en beneficio de la población del municipio de Oaxaca de Juárez. En términos de alineación programática, el Programa Presupuestario se vincula con el Eje Transversal 3: Medio Ambiente y Desarrollo Sostenible del Plan Municipal de Desarrollo 2025–2027, al atender sus objetivos y líneas de acción relacionadas con la protección de los ecosistemas, la gestión integral del agua y la aplicación de la legislación ambiental. Asimismo, mantiene congruencia con los Objetivos de Desarrollo Sostenible,

Estado actual del problema

Durante el periodo 2023–2025, el municipio de Oaxaca de Juárez presenta condiciones persistentes de deterioro ambiental, visibles en la pérdida de cobertura vegetal, presión urbana sobre áreas naturales, contaminación ambiental, riesgos hidrometeorológicos y desigualdades territoriales en el acceso a entornos ambientales adecuados. La magnitud del problema se refleja en diversos indicadores ambientales y de riesgo documentados en instrumentos de planeación y gestión territorial.

En cuanto a la cobertura vegetal, registros municipales y diagnósticos técnicos señalan que zonas históricamente arboladas han reducido su superficie permeable. El PACMUN reporta que el municipio cuenta con aproximadamente 5,800 árboles urbanos, cifra que no ha mostrado un crecimiento proporcional frente al aumento poblacional, lo que mantiene una presión constante sobre los servicios ecosistémicos urbanos.

Respecto a riesgos ambientales, la Zona Metropolitana de Oaxaca (ZMO), donde se ubica el municipio, presenta recurrencia de incendios forestales en zonas de ladera y áreas con vegetación urbana, de acuerdo con los indicadores de riesgo climático del PACZMO. Asimismo, se identifican condiciones relevantes de riesgo hídrico: entre 2000 y 2023 se registraron 121 declaratorias de desastre y 118 de emergencia asociadas a eventos hidrometeorológicos en la ZMO, afectando de manera significativa a Oaxaca de Juárez y su zona conurbada.

El Atlas de Riesgos documenta que varias agencias municipales presentan más del 40 % de su superficie expuesta a inundaciones, particularmente San Martín Mexicapam, San Juan Chapultepec, Pueblo Nuevo y Santa Rosa Panzacola. De forma complementaria, la ZMO presenta cuatro riesgos climáticos principales: sequías, inundaciones, inestabilidad de laderas e incendios forestales. En 2022, los eventos climáticos extremos provocaron pérdidas económicas estatales por 6,385 millones de pesos, con impactos relevantes en el municipio.

En materia de residuos y contaminación, el PACMUN señala que el volumen de residuos sólidos urbanos mantiene una tendencia creciente desde 2013, situación que se refleja en problemáticas de disposición final, afectaciones al suelo y acumulación de desechos en espacios públicos. Estas condiciones persisten en barrancas, ríos secos, vialidades y camellones urbanos del municipio.

La evidencia cualitativa recopilada mediante consultas ciudadanas, talleres participativos y diagnósticos institucionales confirma la percepción de deterioro ambiental. El Eje Transversal 3 del PMD recoge demandas relacionadas con la escasez de áreas verdes, falta de mantenimiento del arbolado, contaminación visual y ambiental, y acceso desigual al agua. El PACMUN reporta percepción social de deterioro de áreas verdes, baja calidad del aire en vialidades principales y reducción de espacios saludables, mientras que el Atlas de Riesgos identifica preocupación comunitaria en colonias localizadas en laderas por inestabilidad del terreno, erosión y pérdida de vegetación. Los talleres del PACZMO registran observaciones institucionales sobre limitada participación comunitaria en reforestación y cuidado del arbolado urbano.

La distribución territorial del problema no es homogénea. Se identifican zonas con mayor afectación, entre ellas: áreas urbanizadas con pérdida de espacios verdes, zonas con riesgo ambiental asociadas a laderas y barrancas, sectores con riesgo hídrico o sequía, y zonas con acumulación de residuos y contaminación. Destacan como áreas de mayor afectación Montoya, Pueblo Nuevo Parte Alta y San Juan Chapultepec, así como colonias ubicadas en laderas y zonas con rezago urbano.

Los grupos poblacionales más expuestos incluyen a personas residentes en zonas de ladera, comunidades con menor acceso a áreas verdes funcionales, así como mujeres, personas adultas mayores y niñas y niños, debido a sus patrones de movilidad cotidiana y permanencia en el entorno urbano. Asimismo, los sectores institucionales directamente impactados son Protección Civil, por la atención constante a eventos de riesgo; Servicios Municipales, por el incremento en la demanda de mantenimiento de espacios públicos; y la Secretaría de Medio Ambiente, ante el aumento en requerimientos de atención ambiental y restauración ecológica.

Evolución del problema

En el periodo 2018–2024, el entorno ambiental del municipio de Oaxaca de Juárez ha mostrado una evolución desfavorable persistente, reflejada en indicadores de cobertura vegetal, gestión hídrica, riesgos ambientales y manejo de residuos. Aun cuando no todos los indicadores cuentan con series continuas, los diagnósticos institucionales y los instrumentos de planeación permiten identificar tendencias claras y cambios acumulados, confirmando la vigencia del problema público denominado descuido y desaprovechamiento sostenible de los ecosistemas ecológicos en el municipio.

En materia de arbolado urbano y áreas verdes, el inventario municipal reporta 5,849 árboles registrados en jardines, parques y vialidades principales. Comparaciones con información del PACMUN (2013) muestran que este indicador ha permanecido prácticamente estancado frente al crecimiento poblacional y la expansión urbana, lo que evidencia una presión constante sobre los servicios ecosistémicos urbanos. De forma paralela, diagnósticos recientes identifican un incremento en afectaciones por plagas y deterioro del arbolado, elemento vinculado a los indicadores del programa relacionados con mantenimiento, conservación y registro del arbolado urbano.

Respecto a los riesgos ambientales y climáticos, la Zona Metropolitana de Oaxaca presenta una tendencia creciente en incendios forestales, inundaciones e inestabilidad de laderas. Entre 2000 y 2023 se acumularon 121 declaratorias de desastre y 118 de emergencia, con mayor recurrencia en los últimos cinco años. El Atlas de Riesgos señala que agencias como Pueblo Nuevo, Montoya y San Juan Chapultepec mantienen más del 40 % de su superficie expuesta a inundaciones, lo que se relaciona directamente con los indicadores del programa asociados a gestión ecológica y prevención de riesgos.

En cuanto a la gestión hídrica, los diagnósticos municipales indican que la ZMO se ubica entre los territorios con mayor riesgo por sequía. Si bien el 84.9 % del abastecimiento de agua proviene de la red pública, persisten pérdidas significativas derivadas de fugas en la infraestructura, aspecto observado en los indicadores del programa relativos a programas de gestión hídrica implementados.

En materia de residuos sólidos urbanos, el PACMUN documenta una tendencia creciente sostenida desde 2013, la cual se mantuvo durante el periodo 2018–2024. Las afectaciones se concentran en zonas comerciales, barrancas y periferias urbanas, con registros reiterados en áreas como Central de Abasto, Santa Rosa y el Periférico, lo que se refleja en los indicadores del programa vinculados al control de residuos y verificación ambiental.

La evidencia cualitativa refuerza estas tendencias. Los Diálogos Vecinales del PMD registran de manera recurrente percepciones ciudadanas sobre escasez de áreas verdes, deterioro del entorno, problemas de plagas y deficiente mantenimiento del arbolado. De igual forma, las áreas operativas municipales reportan un rezago acumulado en la atención del arbolado y espacios verdes, lo que coincide con los indicadores de desempeño del programa relacionados con servicios técnicos de arborización y conservación.

Desde una perspectiva de factores explicativos, la evolución del problema responde a la concurrencia de:

- Factores ambientales, como la recurrencia de eventos climáticos extremos y la degradación progresiva de ecosistemas urbanos.
- Factores institucionales, asociados a la capacidad operativa existente frente a una demanda ambiental creciente.
- Factores sociales, reflejados en patrones de uso intensivo del espacio urbano y en percepciones persistentes de deterioro ambiental.

En conjunto, la evolución de los indicadores ambientales y de percepción social evidencia que el problema público no solo se mantiene vigente, sino que presenta tendencias acumulativas, lo que confirma la necesidad de sostener un Programa Presupuestario orientado a gestión ambiental integral, con énfasis en arbolado urbano, gestión hídrica, control de residuos y verificación ambiental, plenamente alineado con el problema

Experiencias de atención

Durante el periodo 2020–2024, el Gobierno Municipal de Oaxaca de Juárez, a través de la Secretaría de Medio Ambiente y Gestión Hídrica, ha implementado diversas acciones orientadas a la atención del deterioro ambiental del municipio, particularmente en materia de gestión hídrica, regulación ambiental, manejo del arbolado urbano, control de residuos y promoción del desarrollo sustentable. Estas acciones se han ejecutado mediante programas institucionales, servicios técnicos y procedimientos administrativos, con cobertura variable según la capacidad operativa y presupuestal disponible.

Respecto a la regulación y verificación ambiental, se emitieron autorizaciones, licencias y dictámenes ambientales para obras, actividades y establecimientos, así como procedimientos de inspección y verificación. Estas acciones permitieron fortalecer el control administrativo y la aplicación de la normatividad ambiental municipal, aunque se identificaron retos asociados al incremento de trámites y a la necesidad de mayor seguimiento posterior a la autorización.

En el ámbito de arbolado urbano, se brindaron servicios técnicos de poda, dictaminación, reforestación y atención a plagas, así como acciones iniciales de registro del arbolado. Los informes de las áreas operativas señalan que estos servicios han contribuido a la conservación de árboles en riesgo y a la atención de solicitudes ciudadanas, aunque también evidencian un rezago acumulado derivado de la antigüedad del arbolado y del crecimiento urbano.

En relación con el manejo de residuos y desarrollo sustentable, se impulsaron actividades de educación ambiental, campañas de sensibilización y acciones focalizadas de mejora del entorno urbano. Estas intervenciones registraron avances en participación ciudadana y sensibilización ambiental, aunque con efectos diferenciados por zona y sin continuidad homogénea en todo el municipio.

La experiencia local se ve respaldada por buenas prácticas implementadas en otros municipios del país, donde programas de gestión integral del arbolado urbano (como inventarios digitales y mantenimiento preventivo), modelos de regulación ambiental con ventanillas únicas, y esquemas municipales de adaptación al cambio climático han mostrado mejoras en la eficiencia operativa y en la reducción de riesgos ambientales. Estas experiencias confirman la pertinencia de abordar el problema mediante instrumentos programáticos integrales y sostenidos, como el Programa Presupuestario.

Entre las principales limitaciones identificadas en las acciones previas destacan la insuficiencia presupuestaria, la rotación de personal técnico, la presión creciente sobre los servicios ambientales y la necesidad de fortalecer la coordinación interinstitucional. No obstante, los aprendizajes derivados señalan la importancia de contar con un programa presupuestario estructurado, con componentes claramente definidos, indicadores de seguimiento y alineación normativa, que permita dar continuidad a las acciones y ampliar su impacto territorial.

En este contexto, las experiencias de atención desarrolladas confirman que la intervención municipal a través de un Programa Presupuestario en materia de Medio Ambiente y Desarrollo Sostenible resulta un mecanismo adecuado para sistematizar esfuerzos, capitalizar aprendizajes y fortalecer la capacidad institucional para atender de manera progresiva el problema público identificado.

1.2 Metodología para la identificación de la población objetivo y definición de fuentes de información

De acuerdo con el último Censo de Población y Vivienda realizado por el Instituto Nacional de Estadística y Geografía (INEGI) en 2020, la población total del municipio de Oaxaca de Juárez asciende a 270,955 personas (INEGI, 2020).

Definición y cuantificación de los

Población Potencial	Personas, hogares y unidades urbanas afectadas por el problema público: "Descuido y desaprovechamiento sostenible de los ecosistemas ecológicos	**Cuantificación:**	En el gobierno municipal de Oaxca de Juárez (CONAPO 2025), Corresponde a la población total que enfrente problematicas de gobernabilidad, participación ciudadana limitada o atención ineficiente a solicitudes vecinales
		Criterios de Focalización	Todo el mnicipio de Oaxaca de Juárez, con especial incidencia incidencia en las agencias municipales donde se concentran mayores reportes vecinales, San Martin Mexicapam, san Juan Chapultepec, Doleres, Reforma y Candiani. Incluye a la población urbana y periurbana afectada por la falta de atención opurtana a servicios y gestiones ciudadanas.
Población Objetivo	Personas, áreas o unidades directamente atendidas por acciones del programa (arborización,	**Cuantificación:**	(Aproximadamente 22% de la poblacion municipal), estimadas con base en las zonas de mayor densidad de reportes y participación en los dialopgos vecinales 2024- 2025
		Criterios de Focalización	Hogares ubicados en las agencias con mayor rezago en atención vecinal o incidenciaas problematicas registradas. Se prioriza en los dialogos vecinales 2024-2025
Población atendida (beneficiarios)	Personas que recibirán los beneficios en el ejercicio fiscal	**Cuantificación:**	(meta estimadsa anual 2025) derivadas de la capacidad operativa y presupuestal proyectada para la coordinación de atenciaón
		Criterios de Focalización	ciudadanos participantes en los dialogos vecinales y mecanismos de atención directa, con efansis en zonas de alta densidad poblacional (Cabecera Municipal, Reforma, San Martín Mexicapam y San Pedro Chapultepec se promueve la equidad de género y la participación comunitaria intergeneracional

2. Estrategia para la selección de alternativas.

Explicar brevemente por qué las medidas que constituirán la intervención del PP son las opciones de acción más efectivas para lograr el objetivo deseado; debe guardar relación con el árbol del objetivo.	La selección de alternativas se efectuó con base en el diagnóstico institucional, así como en los Árboles de Problemas y de Objetivos elaborados mediante la Metodología del Marco Lógico, lo que permitió identificar las causas críticas del deterioro ambiental y sus relaciones causales. Durante este proceso se analizaron diversas opciones de intervención derivadas de las causas detectadas, valorando su viabilidad técnica, institucional, operativa y presupuestal, destacando las alternativas orientadas al manejo integral del arbolado, al fortalecimiento de la cultura ambiental y a la mejora de la gestión ambiental regulatoria. A partir de este análisis, se determinó que la alternativa más viable consiste en fortalecer la gestión sostenible de los ecosistemas municipales, mediante acciones articuladas de mantenimiento del arbolado, educación ambiental y mejor regulación ambiental, por su capacidad de incidir directamente en las causas centrales del problema y generar efectos positivos de corto, mediano y largo plazo. La estrategia seleccionada se implementará a través de los componentes operativos del Programa Presupuestario, apoyados en la coordinación interinstitucional, el uso de herramientas técnicas y la ejecución territorial focalizada. Finalmente, la alternativa elegida se encuentra plenamente alineada con el Eje Transversal 3: Medio Ambiente y Desarrollo Sostenible del PMD 2025–2027, así como con la estructura jerárquica del Marco Lógico (Fin, Propósito, Componentes y Actividades), asegurando coherencia entre diagnóstico, intervención y resultados esperados.

1. Diagnóstico del Programa presupuestario

1.1 Descripción del Problema

Antecedentes y definición del problema

El municipio de Oaxaca de Juárez, por su carácter de capital estatal, ciudad turística y centro de la Zona Metropolitana de los Valles Centrales, enfrenta retos de gobernanza que exigen una alta capacidad de gestión y coordinación institucional. La Presidencia Municipal funge como eje articulador de esta coordinación, no solo al interior de la administración, sino también con otros órdenes de gobierno y actores metropolitanos e internacionales.

La región de los Valles Centrales, que Oaxaca de Juárez lidera, abarca 121 municipios. El Instituto Mexicano para la Competitividad (IMCO) en su análisis de 2024, identifica como recomendación clave la necesidad de "Coordinar a los gobiernos municipales que conforman las ciudades... a fin de atender las tareas en las que la gestión del gobierno local es fundamental". La competitividad y la eficacia gubernamental están directamente ligadas a la capacidad del gobierno para coordinar acciones, simplificar procesos (mejora regulatoria) y gestionar la compleja dinámica administrativa.

De acuerdo con la Encuesta Nacional de Seguridad Pública Urbana (ENSU) para Oaxaca de Juárez, la percepción ciudadana sobre la efectividad del gobierno de la ciudad para resolver problemáticas es de solo un 31.5%. Esta cifra se encuentra por debajo de la media nacional, que es del 38.5%. Paralelamente, la encuesta (ENSU, 1er Trimestre 2024) revela que solo el 25.8% de la población en Oaxaca de Juárez "conoce o escuchó que el gobierno de su ciudad implementó actividades o programas". Esto evidencia una brecha en la ejecución o, en su defecto, en la coordinación para comunicar las acciones, comparado con el 34.0% a nivel nacional.

.

Por ello, se muestra que el problema público es identificado como:

"La Presidencia Municipal de Oaxaca de Juárez muestra una limitada coordinación y ejecución de acciones institucionales de gestión, jurídicas, logísticas y de vinculación intergubernamental e internacional, lo que debilita la gobernanza local, la mejora regulatoria y el desarrollo metropolitano."

Justificación del Pp

La intervención de la Presidencia Municipal para atender la "limitada coordinación y ejecución de acciones institucionales de gestión, jurídicas y logísticas de vinculación intergubernamental" se justifica en el rol que le otorga el marco normativo de Oaxaca. La Presidencia, en su calidad de órgano ejecutivo y Jefe de la administración pública municipal, tiene la obligación legal de asegurar la coherencia y el cumplimiento de los acuerdos del Cabildo. Este mandato se establece claramente en la Ley Orgánica Municipal del Estado de Oaxaca, la cual en su artículo 68, Fracción IV, confiere al Presidente Municipal la atribución de "Presidir con voz y voto de calidad las sesiones del Cabildo y ejecutar los acuerdos y decisiones del mismo." Esta facultad es el fundamento principal que justifica la necesidad de este Programa Presupuestario (Pp) para crear mecanismos de coordinación que hagan efectiva dicha ejecución.

.

El Pp es el instrumento idóneo porque sus componentes se alinean directamente con otras atribuciones legales clave. La facultad de organización interna y mejora regulatoria se sustentan en el artículo 43, Fracción I del Inciso A, de la citada Ley Orgánica Municipal del Estado de Oaxaca, que dota al Ayuntamiento de la potestad de "Expedir y reformar los bandos de policía y gobierno, los reglamentos, circulares y disposiciones administrativas de observancia general dentro de su ámbito territorial; que organicen la administración pública municipal, regulen las materias, procedimientos, funciones y servicios públicos de su competencia
y aseguren la participación ciudadana y vecinal..." Por su parte, la necesidad de los componentes de vinculación (metropolitana, intergubernamental e internacional) se justifica en el artículo 43, fracción VII del Inciso C, de la citada Ley, que faculta al Ayuntamiento para "Celebrar convenios de coordinación o asociación con otros Ayuntamientos de la entidad...".
Para la operación de estos mandatos, el Presidente se auxilia de las unidades ejecutoras del programa (Secretaría Particular, Jefatura de la Oficina de la Presidencia, Secretaría Técnica, Coordinación de Relaciones Intergubernamentales e Internacionales, Coordinación de Atención a Asuntos Metropolitano), cuyas funciones de gestión, apoyo, planeación y control están detalladas en el Bando de Policía y Gobierno del Municipio de Oaxaca de Juárez, Reglamentos y en los Manuales de Organización y de Procedimientos respectivos. Las atribuciones de estas oficinas están sólidamente ligadas a: brindar gestión y asistencia técnica, así como colaboración al Presidente; coordinar las actividades del Gabinete y llevar el control y seguimiento de los acuerdos e instrucciones del Ejecutivo Municipal. El Pp sistematiza estas tareas para transformarlas en resultados tangibles, siendo una aplicación directa del marco legal que busca la eficacia administrativa. .
En términos de alineación con instrumentos de planeación, el programa está perfectamente anclado al Plan Municipal de Desarrollo (PMD) 2025-2027, particularmente al Eje 2: Gobierno de Territorio, Honesto y Transparente. Específicamente, apoya el Objetivo 2.4 ("Ofrecer un gobierno digital con trámites y servicios eficientes") mediante la Estrategia 2.4.3 ("Promover la mejora regulatoria del municipio") y el Objetivo 2.6 ("Establecer una planeación participativa y democrática en la adminsitración pública municipal para la mejora del desempeño gubernamental") mediante la Estrategia 2.6.1 ("Fortalecer la colaboración intermunicipal en la zona metropolitana de Valles Centrales"). El Pp se alinea con el Plan Nacional de Desarrollo (PND) 2024-2030 en su Principio Rector denominado "Gobierno Honesto y Combate a la Corrupción". Específicamente, se vincula con la estrategia nacional de "Eficacia, Eficiencia y Transparencia Gubernamental", al promover la mejora continua en la organización administrativa y asegurar que la ejecución de los recursos y la toma de decisiones se realicen con instrumentos de control y seguimiento, en concordancia con los objetivos federales de erradicar la ineficiencia. A nivel global, contribuye a la Agenda 2030 a través del ODS 16 ("Paz, Justicia e Instituciones Sólidas"), específicamente las Metas 16.5 y 16.6, enfocadas en la eficacia y la transparencia institucional.

.

El Valor Público esperado tras la ejecución de este programa es doble: un cumplimiento eficiente del mandato legal y una mejora tangible en la confianza ciudadana. El programa generará una "gestión gubernamental eficaz, transparente y articulada" que optimiza la toma de decisiones, fortalece la gobernanza local y en última instancia, maximiza el cumplimiento de los objetivos del gobierno municipal, revirtiendo directamente el problema de la limitada coordinación.

Estado actual del problema

A noviembre de 2025, el problema público de la limitada coordinación y ejecución de acciones institucionales que debilita la gobernanza en el Municipio de Oaxaca de Juárez se mantiene en un estado crucial, reflejado en fallas estructurales y operativas dentro de la administración pública municipal. Institucionalmente, la ineficacia se cuantifica en la baja calidad de las herramientas normativas, donde análisis como los reportados por instituciones como la UNAM (en sus revistas de Administración Pública y Ciencia Jurídica), el Instituto Nacional de Administración Pública (INAP), el CIDE y la Auditoría Superior de la Federación (ASF) publican estudios y evaluaciones que diagnostican las debilidades del marco normativo municipal y estatal en México. En consecuencia, la limitada coordinación es el factor primordial que impide la transición de la planeación estratégica a la solución efectiva de las prioridades ciudadanas y grupos vulnerables.

Evolución del problema

La evolución del problema público evidencia que la limitada coordinación y ejecución de acciones institucionales constituye una debilidad sistémica en el Municipio de Oaxaca de Juárez, cuya tendencia histórica en el periodo 2020-2025 ha sido de un agravamiento progresivo que ha impactado negativamente la capacidad de respuesta financiera y la calidad de los servicios públicos.
.
Según la Encuesta Nacional de Calidad e Impacto Gubernamental ENCIG (INEGI 2023) al revelar que el 35.8% de los usuarios en el estado de Oaxaca experimentó problemas al realizar trámites, siendo la principal barrera la inadecuada gestión operativa. Posteriormente, esta falla fue reconocida formalmente por el Gobierno del Estado a través del diagnóstico de la Secretaría de Finanzas (SEFIN 2024), que confirmó la existencia de un déficit de gestión al señalar la poca rendición de cuentas y el escaso seguimiento del desempeño en los programas públicos. Esta progresión histórica de inestabilidad financiera a barreras en los trámites y déficit de gestión demuestra que la coordinación deficiente es la causa estructural de la ineficacia. Por consiguiente, el Programa Presupuestario (Pp) de la Presidencia resulta ineludiblemente pertinente, ya que busca revertir esta tendencia histórica y asegurar la eficacia que exige el Eje 2 del Plan Municipal de Desarrollo (PMD) 2025-2027, estableciendo los mecanismos de seguimiento y articulación para lograr un cumplimiento efectivo de los acuerdos institucionales.

Experiencias de atención

Descripción de las acciones previas

El problema de la coordinación limitada se abordó mediante acciones aisladas de mejora administrativa y planeación, concentradas en la estandarización de documentos, pero no en la articulación jerárquica:

1. Implementación del Consejo Municipal de Mejora Regulatoria de Oaxaca de Juaárez (24 de junio de 2022 para el peridoso 2022–2024):

Ejecutor: Presidencia Municipal a través de la Secretaría Técnica y la Secretaría de Desarrollo Económico. Objetivo: Promover la mejora regulatoria como política pública para la generación de normas claras y la simplificación de trámites y servicios municipales, así como de instituciones eficaces para su creación y aplicación que se orienten a obtener el mayor valor posible en los recursos disponibles y del óptimo funcionamiento de las actividades comerciales, industriales, productivas y de servicios, buscando con ello un impacto positivo en la inversión y la ciudadanía.

Ámbito: Institucional y Ciudadano. El Consejo Municipal de Mejora Regulatoria, sesionó e impulsó la Agenda Regulatoria, un instrumento de planificación semestral para emitir, modificar o derogar disposiciones administrativas relacionadas con trámites y servicios (Fuente: Micrositio Oficial de Mejora Regulatoria del Municipio de Oaxaca de Juárez, 2024).

.

2. Formulación y Aprobación de Instrumentos de Planeación con Enfoque de Resultados (2022–2024):

Ejecutor: Instituto Municipal de Planeación y la Secretaría Técnica del Municipio de Oaxaca de Juárez, en coordinación con la Secretaría de Finanzas (SEFIN) del Gobierno del Estado de Oaxaca.

Objetivo: Cumplir con la obligación legal de diseñar el presupuesto y los programas bajo la Metodología de Marco Lógico y la Gestión para Resultados (GpR).

Ámbito: Institucional. Implicó la elaboración de Programas Presupuestarios y Matrices de Indicadores para Resultados (MIR).

.

Resultados Obtenidos

Las acciones previas generaron un cumplimiento formal de la ley y sus reglamentos respectivos, pero no lograron transformar la operación interinstitucional:

- Formalización de la Mejora Regulatoria: Se logró la instalación y funcionamiento del Consejo Municipal de Mejora Regulatoria (Fuente: Acta de Instalación de fecha 24 de junio de 2022, Municipio de Oaxaca de Juárez) y la publicación de Programas Anuales que detallan las acciones de simplificación por dependencia (Fuente: Micrositio Oficial de Mejora Regulatoria, 2024). Esto estableció el marco teórico para la simplificación.
- Cumplimiento Normativo de la Planeación: Las dependencias consiguieron entregar el 100% de la documentación requerida para la planeación, incluyendo las MIRs, para el ejercicio fiscal 2024.

Dificultades o Limitaciones Encontradas.

.

El impacto sistémico de estas experiencias fue severamente limitado por la falta de un mecanismo de coordinación obligatorio y continuo, lo que explica la persistencia del problema:

1. Falta de Cumplimiento Jerárquico de Acuerdos: La función del Consejo de Mejora Regulatoria y los instrumentos de Planeación se mantuvieron en el nivel técnico y consultivo. No se estableció un mecanismo de seguimiento formal por parte de la Secretaría Técnica (a nivel de Gabinete o Despacho) que hiciera obligatorio el cumplimiento de los acuerdos de coordinación generados en estos órganos, como la simplificación de trámites que requerían la intervención de dos o más Secretarías (limitación en la coordinación interinstitucional).

1.2 Metodología para la identificación de la población objetivo y definición de fuentes de información

De acuerdo con los datos reportado en el último Censo de Población y Vivienda realizado por el Instituto Nacional de Estadística y Geografía (INEGI) en 2020, la población total del municipio de Oaxaca de Juárez asciende a 270,955 personas (INEGI, 2020).

Definición y cuantificación de los			
Población Potencial	Es el universo que enfrenta el problema público. En este caso, son todas las dependencias y entidades de la Administración Pública Municipal de Oaxaca de Juárez que, debido a la escasa coordinación, presentan ineficacia en sus procesos.	**Cuantificación:**	10 Secretarías (con sus respectivas Direcciones con estructura), 7 Organismos Descentralizados, 11 Organismos auxiliares y 3 organos internos, según el Bando de Policía y Gobierno del Municipio de Oaxaca de Juárez.
		Criterios de Focalización	Todas las Unidades Responsables del Gasto (URG) y Entidades Descentralizadas que por reglamentación están obligadas a coordinarse para la prestación de servicios públicos.
Población Objetivo	Es la población potencial a la que se dirigen las acciones del Pp. Se limita a las áreas que ejecutan directamente los acuerdos y las políticas de alto nivel emanadas de la Presidencia, ya que el Pp busca fortalecer la coordinación desde la cúspide de la gestión.	**Cuantificación:**	10 Dependencias de alto nivel que integran el Gabinete legal, incluyendo a los Organismos Auxiliares.
		Criterios de Focalización	Jerárquico/Sectorial: Dependencias con facultades directas para la toma de decisiones y el cumplimiento de acuerdos interinstitucionales (ej. Secretaría de Servicios Vecinales, Secretaría de Obras Públicas y Desarrollo Urbano, etc.), Secretaría Municipal, Tesorería, etc. según la integración formal de la administración pública municipal.
	Son las unidades de la Presidencia Municipal que reciben y operan los productos del Pp (mecanismos, herramientas	**Cuantificación:**	1 Unidad Responsable Directas, que consiste en: 1. Jefatura de la Oficina de la Presidencia (JOP), 2. Secretaría Particular (SP), 3. Secretaría Técnica (ST), 4. Coordinación de Relaciones Intergubernamentales e Internacionales (CRII), 5. la Coordinación de Atención de Asuntos Metropolitanos y 6. Servicios de apoyo administrativo y operativo.

Población atendida (beneficiarios)	tecnológicas y marco normativo) para ejercer su función de articulación y seguimiento.	**Criterios de Focalización**	Estratégico / Unidades Ejecutoras del Pp: Unidades administrativas internas de la Presidencia con funciones de apoyo directo al ejercicio de la coordinación.

2. Estrategia para la selección de alternativas.

Explicar brevemente por qué las medidas que constituirán la intervención del PP son las opciones de acción más efectivas para lograr el objetivo deseado; debe guardar relación con el árbol del objetivo.	La estrategia para la selección de alternativas se basa en la Coherencia Lógica Vertical (CLV) derivada del Árbol de Objetivos. Dado que el Problema Central es de naturaleza institucional y administrativa ("Limitada coordinación y ejecución..."), las alternativas de solución no son obras de infraestructura o subsidios, sino el fortalecimiento de la capacidad de gestión de la propia Presidencia. El Programa Presupuestario (Pp) denominado "Coordinación Estratégica e Innovación Gubernamental" es la alternativa única y más efectiva porque ataca las tres Causas Directas (Componentes de la MIR) con el mínimo uso de recursos, centrándose en el diseño institucional y el capital humano de las unidades ejecutoras de la Presidencia. Justificación de la Estrategia Única La intervención propuesta se enfoca en tres líneas de acción complementarias y no excluyentes, que en su conjunto, son la alternativa más viable para lograr el Propósito (Gestión, Coordinación y Seguimiento de Acuerdos) con la estructura y presupuesto existente:

Línea de Acción	Causa	Efectividad y Ventaja Competitiva
1. Mecanismos de articulación y coordinación institucional operados.	Resuelve la ausencia de mecanismos formales	La Presidencia es la única instancia con la autoridad jerárquica para imponer y operar estos mecanismos de coordinación interinstitucional, asegurando que la solución no sea un intento de colaboración ad hoc, sino un mandato continuo.
2. Instrumentos de seguimiento y control de gestión institucional aplicados.	Resuelve la carencia de instrumentos para medir el cumplimie	Al crear y aplicar indicadores de gestión (como el “Porcentaje de acuerdos institucionales de alto nivel gestionados y cumplidos por la Presidencia Municipal”), el Pp obliga a la administración a enfocarse en la eficacia del proceso, no solo en el resultado final del gasto.
3. Marco normativo para la mejora regulatoria y la gestión municipal fortalecido.	Resuelve el marco normativo débil o desactualizado que permite la ineficacia, buscando	El fortalecimiento normativo institucionaliza las soluciones de los Componentes 1 y 2, haciéndolas permanentes y menos vulnerables a la rotación de personal (Causa Raíz 1). Esto garantiza la sostenibilidad de la gestión en el mediano plazo.

1. Diagnóstico del Programa presupuestario

1.1 Descripción del Problema

Antecedentes y definición del problema

Entorno Municipal y Factores Estructurales El entorno de gobernabilidad en el Municipio de Oaxaca de Juárez enfrenta una complejidad administrativa derivada de su condición de capital, donde la alta interacción entre la autoridad y la ciudadanía genera una demanda constante de certeza jurídica que actualmente no es satisfecha. Estructuralmente, persisten factores institucionales críticos diagnosticados desde ejercicios previos (PMD 2022-2024), tales como la falta de armonización de la normatividad municipal con los estándares estatales y federales, así como la ausencia de manuales de organización actualizados y un rezago tecnológico en la gestión de expedientes (falta de firma electrónica y digitalización). Estos factores estructurales han creado un entorno propicio para la emisión de actos administrativos viciados y una defensa institucional ineficaz.

Definición del Problema Público (Alineación OELA) De conformidad con la problemática identificada en la matriz de planeación oficial (Concentrado OELA 21-08-2025), el problema central se define como:

"La gobernabilidad que se ha presentado en el municipio es deficiente, debilitando así la protección de los derechos humanos."

Contextualización del Problema y Evidencia Estadística Esta definición se materializa en el contexto actual como un fenómeno observable de insuficiencia de certeza jurídica y alta litigiosidad acumulada. No se trata de hechos aislados, sino de una tendencia estadística verificable:

Crisis de Resolutividad: Datos del Programa Estratégico Anual (PEA) histórico evidencian que la tasa de conclusión de asuntos jurídicos se estancó en niveles del 20% anual en periodos previos, lo que derivó en la acumulación actual de 184 conflictos laborales activos y 21 laudos firmes para pago.

Vulneración de Derechos: La deficiencia en la gobernabilidad se refleja en la incidencia de 183 expedientes administrativos y de derechos humanos vigentes (incluyendo quejas ante la DDHPO), cifra que valida el debilitamiento señalado en la definición OELA.

Referencia Externa: Este escenario coincide con el Índice de Estado de Derecho en México 2023-2024 (WJP), que ubica a la entidad en la posición 26 en derechos fundamentales y en el último lugar nacional en justicia laboral (0.21), confirmando la gravedad del contexto local.

Coherencia Programática y Territorial La problemática planteada afecta transversalmente el funcionamiento institucional, focalizándose territorialmente en la Sede Administrativa Municipal (donde se gestiona el pasivo laboral) y en las zonas de alta interacción operativa como el Centro Histórico y Agencias Municipales (focos de quejas por actos de autoridad). La persistencia de esta gobernabilidad deficiente justifica plenamente la intervención del Programa Presupuestario, cuyos objetivos de defensa jurídica estratégica y promoción de derechos humanos responden directamente a la necesidad de revertir este estado de indefensión y riesgo patrimonial.

Justificación del Pp

1. Necesidad de Intervención Gubernamental (Naturaleza Pública del Problema) La intervención del Gobierno Municipal es imperativa e ineludible, toda vez que la problemática diagnosticada en el apartado 1.1.1 —insuficiencia estructural de certeza jurídica y litigiosidad acumulada— constituye una falla institucional que amenaza el patrimonio público y la vigencia del Estado de Derecho. La legalidad de los actos administrativos, la representación jurídica del Ayuntamiento y la validación normativa son bienes públicos puros y facultades exclusivas del Estado (monopolio de la autoridad); por tanto, no existe oferta en el mercado ni actores sociales capaces de sustituir estas funciones. La inacción gubernamental ante las causas estructurales detectadas (obsolescencia tecnológica, falta de manuales y prácticas inadecuadas) derivaría directamente en responsabilidad administrativa y patrimonial, obligando al ente público a intervenir para detener el quebranto financiero generado por sentencias condenatorias.
2. Atribuciones Legales y Competencia Institucional La competencia exclusiva para ejecutar esta intervención recae en la Consejería Jurídica, de conformidad con el Artículo 185 del Bando de Policía y Gobierno del Municipio de Oaxaca de Juárez, ordenamiento que nos confiere el mandato legal expreso para:
Garantizar la Defensa Jurídica: Sustanciar conflictos laborales y representar al municipio en litigios (Fracciones II, V, XIII y XVII).
Tutelar la Legalidad y Derechos Humanos: Atender requerimientos de organismos protectores (DDHPO/CNDH), capacitar al servicio público y asegurar la no discriminación (Fracciones XXXV a XL).
Asegurar la Certeza Normativa: Revisar y reformar la reglamentación municipal para subsanar los vacíos legales existentes (Fracción XXXII).
3. Pertinencia del Programa y Vinculación con el Problema La creación y mantenimiento de este Programa Presupuestario es necesaria porque constituye el único mecanismo técnico capaz de romper la inercia de ineficiencia operativa que ha generado un pasivo contingente histórico (de 150 laudos en proceso reportados en 2022 a 184 demandas activas en la actualidad). El programa se vincula directamente con el problema público al asignar recursos etiquetados para subsanar las deficiencias estructurales diagnosticadas: la falta de armonización normativa y la debilidad en la defensa técnica. Sin este instrumento, el Municipio carecería de capacidad operativa para abatir el rezago procesal.
4. Contribución a la Solución y Relevancia El Programa Presupuestario contribuirá a solucionar el problema mediante la transición de una defensa reactiva a una gestión jurídica preventiva.
Relevancia Económica: Al profesionalizar la defensa y activar mecanismos de conciliación, se frenará el crecimiento de la deuda por laudos laborales firmes (que sumaban 21 expedientes con obligación de pago en diagnósticos previos), protegiendo la Hacienda Municipal.
Relevancia Social e Institucional: Al capacitar a los servidores públicos y actualizar los manuales de procedimientos, se garantiza que los actos de autoridad (policía, inspección) respeten los derechos humanos, reduciendo la incidencia de quejas y recuperando la confianza ciudadana en la legalidad del gobierno.
5. Alineación Estratégica El programa se alinea estrictamente a los instrumentos rectores de la planeación local e internacional:
Plan Municipal de Desarrollo 2025-2027: Contribuye al Eje 3 "Ciudad Segura y en Paz"; Subeje 3.2 "Gobernabilidad y Derechos Humanos"; a través de la Estrategia 3.2.2 "Impulsar el pleno goce de los derechos humanos en el municipio".
Agenda 2030 (ODS): Impacta directamente en el Objetivo 16 "Paz, Justicia e Instituciones Sólidas", específicamente en la Meta 16.3 "Promover el estado de derecho en los planos nacional e internacional y garantizar la igualdad de acceso a la justicia para todos".

Estado actual del problema

1. Dimensión Cuantitativa y Persistencia (Comparativa 2023–2025) La situación actual en el municipio registra un volumen sostenido de procedimientos jurídicos y administrativos activos. En materia de Derechos Humanos, los registros de la DDHPO reportaron 120 expedientes iniciados en el ejercicio 2023; para el corte enero-septiembre de 2024, se contabilizan 63 nuevos expedientes, lo que mantiene una incidencia constante en la gestión de quejas.
En el ámbito contencioso-laboral, la administración municipal gestiona actualmente un acumulado de 184 demandas activas en diversas etapas procesales, cifra que se suma a la existencia de 21 laudos firmes con requerimiento de pago y 32 carpetas de investigación en curso. En el contexto estatal, el Índice de Estado de Derecho en México 2023-2024 (WJP) sitúa a la entidad con un puntaje de 0.21 en el factor de Justicia Laboral y 0.45 en Derechos Fundamentales, indicadores que describen el entorno en el que opera la administración local.
2. Evidencia Cualitativa y Hallazgos Administrativos De acuerdo con los reportes de gestión interna y los diagnósticos del Plan Municipal de Desarrollo, se observa que los procedimientos administrativos de inspección y vigilancia presentan variabilidad en su ejecución documental. Los informes de la Contraloría Municipal identifican la existencia de expedientes físicos no digitalizados y la falta de implementación generalizada de la firma electrónica en los procesos jurídicos actuales. Asimismo, las recomendaciones recibidas por organismos externos señalan incidencias recurrentes relacionadas con la fundamentación de los actos de molestia y el trato a la ciudadanía durante operativos en vía pública.
3. Distribución Territorial del Problema Los registros administrativos permiten identificar una distribución diferenciada de las incidencias según la zona geográfica:
Zona Centro y Casco Histórico: Los reportes de inspección y seguridad vial indican que en esta área se concentra el mayor número de interacciones administrativas y, consecuentemente, de expedientes iniciados por inconformidades ciudadanas sobre actos de autoridad.
Agencias Municipales (San Martín Mexicapam, San Juan Chapultepec, Santa Rosa Panzacola): Los censos de la Dirección de Tenencia de la Tierra ubican en estas demarcaciones la mayor presencia de asentamientos humanos con estatus jurídico irregular, caracterizados por la ausencia de escrituración y certeza patrimonial.
Sede Administrativa: Concentra la gestión de los litigios laborales y administrativos del personal municipal.
4. Identificación de Grupos y Sectores Impactados La situación descrita presenta implicaciones específicas para distintos sectores:
Mujeres y grupos en situación de vulnerabilidad: Los registros de atención jurídica indican solicitudes de acompañamiento por actos percibidos como discriminatorios o carentes de perspectiva de género en la prestación de servicios públicos.
Habitantes de asentamientos irregulares: Población residente en las zonas periféricas señaladas, cuya situación actual se caracteriza por la carencia de documentación que acredite la propiedad legal de sus viviendas.
Hacienda Pública Municipal: Sector institucional que actualmente destina recursos presupuestarios para la atención de obligaciones derivadas de resoluciones judiciales y administrativas (laudos y reparaciones),

Evolución del problema

1. Evolución Histórica y Tendencias Estadísticas (2020–2025) El problema de la gobernabilidad y la certeza jurídica ha mostrado una tendencia creciente y acumulativa en el último quinquenio, transitando de un rezago administrativo latente a una crisis de saturación operativa. El análisis de las series históricas permite identificar el comportamiento de dos variables críticas:
Tendencia en Conflictividad Laboral (Crecimiento Sostenido): La carga procesal en materia laboral exhibe una tendencia al alza constante. De acuerdo con la línea base establecida en el diagnóstico municipal previo (2022), se reportaban 150 laudos en proceso y 21 laudos firmes. Al corte actual (2025), este pasivo ha crecido a 184 demandas activas, lo que representa un incremento del 22.6% en la conflictividad acumulada. Este aumento se correlaciona con los datos del Programa Estratégico Anual (PEA) de los ejercicios 2020-2022, donde la tasa de conclusión de asuntos se mantuvo estancada en un promedio del 20% anual, provocando que el 80% de los conflictos no resueltos se sumaran al pasivo del año siguiente.
Tendencia en Derechos Humanos (Volatilidad y Pico Crítico): La incidencia de quejas ante la DDHPO muestra un comportamiento irregular influenciado por factores externos. Durante 2020-2021 (pandemia), existió un subregistro de incidencias. Sin embargo, al normalizarse la actividad, se registró un pico histórico en 2023 con 120 señalamientos, evidenciando la incapacidad institucional acumulada. Aunque en 2024 (corte septiembre) se observa una contención parcial con 63 expedientes, la cifra se mantiene por encima de los niveles de operación óptima, confirmando la persistencia del riesgo.

2. Factores Explicativos de los Cambios Observados La evolución descrita responde a la interacción de tres tipos de factores diferenciados:
Factores Estructurales (Normativos y Tecnológicos): La persistencia de la obsolescencia normativa (falta de actualización de Manuales de Procedimientos) y el rezago tecnológico (carencia de firma electrónica y expedientes digitales), identificados como problemas 9 y 10 en diagnósticos previos, han impedido elevar la tasa de resolución por encima del umbral histórico del 20%.
Factores Sociales (Coyunturales): El incremento en la cultura de la denuncia ciudadana y una mayor exigencia de rendición de cuentas post-pandemia transformaron inconformidades que antes eran verbales en expedientes formales ante la DDHPO (explica el salto de 2022 a 2023).
Factores Institucionales (Gestión): La estrategia de defensa reactiva implementada en administraciones anteriores resultó insuficiente para contener el volumen de litigios, generando el efecto "bola de nieve" en los pasivos laborales que hoy enfrenta el municipio.

3. Pertinencia del Programa y Vinculación con la Planeación (MIR y PMD) La evolución ascendente de la conflictividad laboral (de 150 a 184 demandas) y la persistencia de quejas en DDHPO validan la pertinencia urgente del Programa Presupuestario. El enfoque del programa debe transitar de lo correctivo a lo preventivo para revertir la tendencia histórica de acumulación.
Esta intervención se vincula directamente con:
Problema Público del PMD 2025-2027: Atiende la "insuficiencia de certeza jurídica" mediante la contención del pasivo contingente.
Alineación con la MIR: La tendencia descrita justifica los indicadores de resultados del Programa, específicamente aquellos orientados a incrementar el "Porcentaje de asuntos jurídicos concluidos favorablemente" (para romper el estancamiento del 20%) y el "Porcentaje de servidores públicos capacitados" (para reducir la entrada de nuevas quejas), alineándose a la Estrategia 3.2.2 del Plan Municipal.

Experiencias de atención

1. Acciones Implementadas en el Periodo 2020–2024 La atención al problema público de gobernabilidad y certeza jurídica ha transitado por dos etapas diferenciadas de intervención, ejecutadas exclusivamente por la Consejería Jurídica en el ámbito de su competencia municipal:
Etapa de Defensa Contenciosa (2020–2023): Durante este periodo, la estrategia se centró en la contestación reactiva de litigios laborales y administrativos una vez notificados. Ante las restricciones operativas de la pandemia y la post-pandemia, las acciones se limitaron al desahogo procesal de términos legales, dirigidas a contener la acumulación de expedientes en la Sede Administrativa. El objetivo era evitar la indefensión jurídica en los 150 juicios laborales que conformaban la línea base reportada en el diagnóstico municipal de 2022.
Etapa de Justicia Preventiva y Alternativa (2024): A partir del ejercicio fiscal 2024, se implementó un cambio de modelo hacia la solución alterna de conflictos. Se activaron mecanismos de conciliación intensiva y se inició el programa de capacitación en derechos humanos dirigido a la población objetivo de servidores públicos operativos (policía e inspección), buscando incidir en el origen de las quejas ciudadanas.
2. Resultados e Impacto en la Gobernabilidad (Indicadores) Los resultados obtenidos evidencian el comportamiento de la capacidad institucional frente al problema:
Eficiencia en Resolución (Periodo 2020-2022): Los reportes del Programa Estratégico Anual (PEA) indican que la tasa de conclusión de asuntos jurídicos se mantuvo en un promedio del 20%, lo que evidencia que la estrategia contenciosa fue insuficiente para frenar el crecimiento del pasivo procesal, contribuyendo al déficit de gobernabilidad actual.
Mitigación de Conflictividad (2024-2025): Mediante la nueva estrategia de conciliación, se lograron más de 150 acuerdos laborales y la recuperación de $114,007.12 MXN por reparación de daño. Este resultado impactó directamente en la reducción de riesgos financieros para la Hacienda Municipal.
Contención de Violaciones (2024): La capacitación de 789 servidores públicos y el acompañamiento a 185 expedientes activos correlacionan con la contención observada en la incidencia de quejas (63 expedientes a septiembre 2024), mitigando parcialmente la vulneración de derechos humanos en la interacción autoridad-ciudadanía.
3. Dificultades y Limitaciones Estructurales Las intervenciones descritas enfrentaron obstáculos que limitaron su efectividad:
Carencia Tecnológica: La falta de digitalización de expedientes y firma electrónica (Problema 9 del PMD) impidió la gestión eficiente de la defensa durante el periodo 2020-2023.
Obsolescencia Normativa: La ausencia de manuales de procedimientos actualizados dificultó la estandarización de criterios jurídicos, generando variabilidad en los resultados de los litigios.
Insuficiencia Presupuestaria: La asignación de recursos se orientó al pago de laudos firmes (reactivo) en lugar de invertir en la profesionalización del área jurídica (preventivo).
4. Lecciones Aprendidas e Incorporación al Diseño del Programa Del análisis comparativo entre ambas etapas se derivan aprendizajes que fundamentan la estructura del actual Programa Presupuestario:
Institucionalización de la Conciliación: La evidencia demuestra que los mecanismos alternos son más eficientes que el litigio. Por ello, el presente Programa incorpora un Componente específico de Justicia Alternativa, dotándolo de metas e indicadores propios para asegurar su continuidad.
Prevención Normativa: Se identificó que la defensa jurídica es ineficaz si el acto de autoridad está viciado de origen. En respuesta, se integra un Componente de Actualización Reglamentaria para subsanar la obsolescencia detectada.
Capacitación Continua: Ante la correlación entre formación y reducción de quejas, el diseño del Programa establece la capacitación en derechos humanos como una actividad permanente y no coyuntural, vinculada al objetivo de fortalecer el Estado de Derecho.

1.2 Metodología para la identificación de la población objetivo y definición de fuentes de información

INEGI (2020): Para la delimitación demográfica de la Población Potencial.
Registros Administrativos de la Consejería Jurídica (2023-2025): Libros de gobierno de los Departamentos de lo Contencioso, Derechos Humanos y Junta de Conciliación Arbitraje para determinar la demanda de servicios (Población Objetivo).
Informe de la Defensoría de los Derechos Humanos del Pueblo de Oaxaca (DDHPO): Para focalizar las áreas con mayor incidencia de quejas.
Defensoría de los Derechos Humanos del Pueblo de Oaxaca, Estadísticas 2023 y 2024.
Bando de Policía y Gobierno del municipio de Oaxaca de Juárez.
CONCENTRADO OELA 21-08-2025 LÍNEAS DE ACCIÓN POR DEPENDENCIA Y PROBLEMÁTICA IDENTIFICADA.
Plan Municipal de Desarrollo Oaxaca de Juárez 2025-2027.
Plan Municipal de Desarrollo Oaxaca de Juárez 2022-2024.

Definición y cuantificación de los

Población Potencial	270,955 personas	**Cuantificación:**	**Justificación del dato: Se utiliza el Censo INEGI 2020 como base oficial inamovible para la asignación de recursos federales (Ramo 33), reconociendo una proyección inercial al 2025 de 278,000 habitantes (CONAPO) que enfrentan el contexto de gobernabilidad.**
		Criterios de Focalización	Territorial y Sectorial: Aunque el problema de legalidad es universal, se focaliza prioritariamente en: 1. Territorio: Habitantes de las 13 Agencias Municipales y de Policía y la Cabecera Municipal, donde se concentra el 90% de la interacción administrativa. 2. Sectorial: Población Económicamente Activa (PEA) y propietarios de unidades económicas que están sujetos a actos de inspección y vigilancia.
Población Objetivo	4,500 personas (Estimado Anual 2026)	**Cuantificación:**	**Método de estimación: Se calcula mediante la suma de dos variables:** **1. Demanda Externa (3,400): Proyección lineal basada en la tendencia histórica de expedientes iniciados (laborales, administrativos y DDHH) en el periodo 2023-2025.** **2. Demanda Interna (1,100): Censo de personal operativo de seguridad e inspección sujeto a capacitación obligatoria.**
		Criterios de Focalización	Vulnerabilidad y Riesgo: La atención se dirige específicamente a: 1. Territorial: Zonas de alta conflictividad urbana (Centro Histórico) y asentamientos irregulares en periferia (San Martín, San Juan, Santa Rosa). 2. Condición Jurídica: Ciudadanos en situación de indefensión legal o conflicto laboral. 3. Institucional: Servidores públicos en áreas de contacto ciudadano (alto riesgo de violar DDHH).
Población atendida (beneficiarios)	2,100 personas (Meta Presupuestal 2026)	**Cuantificación:**	Unidad de Medida: Beneficiarios únicos (personas físicas), independientemente del número de acciones o servicios que reciban. Aclaración: Esta cifra corresponde a la capacidad operativa y financiera instalada de la Consejería para el ejercicio fiscal 2026.
		Criterios de Focalización	Priorización Social y Operativa: 1. Grupos Prioritarios: Mujeres, personas indígenas y adultos mayores que requieran acompañamiento en materia de DDHH. 2. Criterio de Inclusión: Personal municipal que debe cumplir con certificaciones de competencia laboral. 3. Mecanismo de Selección: Demanda por solicitud de parte (ventanilla abierta) y programación de cursos por mandato reglamentario.

2. Estrategia para la selección de alternativas.

Explicar brevemente por qué las medidas que constituirán la intervención del PP son las opciones de acción más efectivas para lograr el objetivo deseado; debe guardar relación con el árbol del objetivo.	La selección de la estrategia se fundamenta en el diagnóstico y en los árboles de problemas y objetivos construidos bajo la Metodología del Marco Lógico. Durante el análisis se valoraron opciones como la tercerización de la defensa jurídica o la continuidad del modelo reactivo, descartándolas por su inviabilidad financiera y técnica. Se determinó que la alternativa de Fortalecimiento Institucional y Justicia Preventiva es la más adecuada, pues ataca directamente las causas raíz identificadas —obsolescencia normativa y falta de profesionalización— optimizando los recursos existentes para frenar el pasivo procesal. Esta estrategia se materializa a través de la ejecución de los Componentes y Actividades del Programa Presupuestario (capacitación, actualización reglamentaria y defensa eficaz). La intervención se alinea estrictamente con la estrategia del PMD 2025–2027 de "Impulsar el pleno goce de los derechos humanos" y garantiza la coherencia con los niveles jerárquicos de planeación (Fin, Propósito, Componentes y Actividades).

1. Diagnóstico del Programa presupuestario

1.1 Descripción del Problema

Antecedentes y definición del problema

El municipio de Oaxaca de Juárez, como capital del estado y centro económico-administrativo de la región, concentra una importante diversidad poblacional y una elevada demanda de servicios públicos. Según estimaciones intercensales y proyecciones oficiales, el municipio supera los 300 mil habitantes contando con la población flotante, y mantiene una dinámica socioeconómica basada en comercio, prestación de servicios, turismo y actividades gubernamentales. Este entorno urbano-metropolitano genera altos flujos de trámites administrativos, solicitudes ciudadanas y requerimientos de información gubernamental, presionando de manera constante la capacidad operativa del Ayuntamiento.

A pesar de esta centralidad, el municipio presenta rezagos en materia de transformación digital. La infraestructura tecnológica institucional se caracteriza por una heterogeneidad de sistemas, ausencia de interoperabilidad entre áreas, limitadas capacidades técnicas del personal y procesos administrativos todavía dependientes de documentación física. De acuerdo con información municipal reciente (informes administrativos, diagnósticos internos de TIC y reportes operativos), persisten brechas en equipamiento, conectividad interna, actualización de software, seguridad informática, gestión documental y automatización de trámites.

En el ámbito ciudadano, la disponibilidad y uso de servicios digitales se encuentra condicionada por las brechas de conectividad del municipio. Si bien los datos del Censo 2020 indicaban que 65.9 % de la población municipal tenía acceso a internet, información más reciente del INEGI (ENDUTIH 2024) muestran que la penetración de internet en zonas urbanas del estado (Tuxtepec y / o Oaxaca de Juárez) ha incrementado a un 87.34%, aunque persisten desigualdades territoriales. En particular, colonias periféricas y algunas agencias municipales registran menor acceso a servicios de banda ancha fija, lo que limita la adopción efectiva de trámites digitales, especialmente en hogares de estratos socioeconómicos bajos y en personas adultas mayores con menor alfabetización digital.

En el ámbito institucional, si bien la página de Transparencia reporta que se han digitalizado 26 trámites en los últimos años, la oferta aún resulta insuficiente frente a la demanda real. Registros administrativos de áreas como Tesorería, Desarrollo Urbano, Secretaría Municipal y Contraloría señalan que una proporción considerable de trámites continúa realizándose de forma presencial, generando tiempos de atención prolongados, saturación de módulos, duplicidad de información, retrabajos y costos operativos elevados. Asimismo, la ausencia de plataformas interoperables provoca que la ciudadanía deba presentar múltiples documentos en diferentes dependencias, incrementando la opacidad y reduciendo la eficiencia.

Estos rezagos se vinculan con factores estructurales: insuficiente inversión sostenida en infraestructura tecnológica, falta de un modelo de gobernanza digital institucionalizado, limitada actualización normativa en materia de gestión digital de servicios, escasa capacitación del personal en tecnologías de la información, baja estandarización de procesos administrativos y carencia de indicadores sistemáticos sobre el desempeño de servicios digitales. La modernización tecnológica ha avanzado de manera parcial, sin un enfoque integral que articule diagnóstico, planeación, inversión y seguimiento.

En síntesis, el entorno socioeconómico del municipio, su dinámica administrativa y las brechas tecnológicas actuales justifican la implementación de un Programa Presupuestario de Modernización Tecnológica y Transformación Digital, orientado a ampliar infraestructura, fortalecer capacidades institucionales, incrementar la interoperabilidad, mejorar la oferta de trámites digitales y garantizar que estos beneficios lleguen a toda la población, especialmente a las zonas y grupos con mayor rezago.

Justificación del Pp

La intervención del Gobierno Municipal es necesaria porque las deficiencias identificadas en el diagnóstico —infraestructura tecnológica insuficiente, baja interoperabilidad, digitalización parcial de trámites y desigual acceso ciudadano a servicios digitales— limitan la capacidad institucional para prestar servicios públicos eficientes y accesibles. Esta prestación es una función indelegable del Ayuntamiento, ya que la Ley Orgánica Municipal del Estado de Oaxaca establece que el municipio es responsable de la administración y mejora de los servicios públicos como parte de su función esencial de gobierno. En consecuencia, la inacción mantendría los tiempos de atención prolongados, la dependencia de procesos presenciales y la desigualdad de acceso en contra de los principios de eficiencia y oportunidad.
El fundamento legal para la intervención se refuerza con el Bando de Policía y Gobierno 2025, el cual reconoce que la Administración Pública Municipal debe garantizar "servicios eficientes y oportunos a la ciudadanía". Además, el Bando incorpora a la Agencia de Innovación y Transparencia Digital dentro de la estructura municipal como órgano adscrito a la Jefatura de Gabinete, responsable de planear, implementar y administrar tecnologías digitales, así como de impulsar la modernización administrativa y coordinar estrategias de transformación digital. Estas atribuciones acreditan la competencia legal directa de la Agencia para ejecutar el Programa Presupuestario.
La pertinencia del Programa deriva de la necesidad de abordar de manera sistemática las brechas tecnológicas identificadas en el apartado 1.1.1. Sin un instrumento presupuestario específico, estas brechas permanecerían sin tratamiento, afectando la operación gubernamental y la experiencia ciudadana. Por ello, el Programa permitirá canalizar recursos hacia acciones orientadas a:
1.Fortalecimiento de infraestructura tecnológica municipal.
2.Digitalización e interoperabilidad de trámites y servicios.
3.Implementación de sistemas integrales de gestión y atención.
4.Capacitación técnica del personal municipal en TIC y gobierno digital.
Estas acciones contribuirán directamente a reducir el problema público al disminuir tiempos de atención, ampliar el acceso a servicios digitales y mejorar la trazabilidad y eficiencia administrativa.
En materia de alineación programática, el Programa se articula con el Plan Municipal de Desarrollo 2025–2027, específicamente con el Objetivo 2.4: Ofrecer un gobierno digital con trámites y servicios eficientes, y particularmente con la Estrategia 2.4.1, orientada a "garantizar un gobierno digital eficaz mediante herramientas tecnológicas", así como con sus líneas de acción enfocadas en servicios digitales, tecnificación administrativa y atención ciudadana. Esta alineación asegura coherencia metodológica con la planeación municipal vigente.
Finalmente, el Programa contribuye directamente a los Objetivos de Desarrollo Sostenible 9 (Industria, innovación e infraestructura) y 16 (Instituciones eficaces, responsables y transparentes), al fortalecer infraestructura tecnológica e incrementar la capacidad institucional para ofrecer servicios públicos accesibles y confiables. El valor público esperado consiste en un gobierno más eficiente, transparente e innovador, capaz de reducir cargas administrativas, mejorar la experiencia ciudadana y garantizar acceso equitativo a servicios digitales en el Municipio de Oaxaca de Juárez.

Estado actual del problema

Entre 2023 y 2025, el municipio de Oaxaca de Juárez enfrenta un rezago persistente en la adopción y operación de servicios digitales. De acuerdo con la Encuesta Nacional de Calidad e Impacto Gubernamental (ENCIG) 2023, únicamente 10.19% de las personas usuarias realizaron un trámite o pago gubernamental por internet, y 13.6% de quienes lo hicieron reportaron fallas en la página o plataforma digital, lo que refleja una baja utilización y problemas de desempeño tecnológico. Esta adopción limitada contrasta con la creciente demanda de trámites y servicios municipales, que continúa concentrándose de forma presencial, generando tiempos mayores de atención y saturación operativa.

En términos de conectividad, información reciente del INEGI y ENDUTIH 2023–2024 muestra que, aunque la cobertura estatal registra avances, persisten brechas territoriales en el municipio: agencias como San Martín Mexicapam, Cinco Señores, Dolores, Candiani y Pueblo Nuevo presentan menor acceso a servicios de banda ancha fija, lo cual limita el uso efectivo de plataformas digitales y acentúa la dependencia de trámites presenciales. Estas brechas impactan principalmente a hogares de estratos socioeconómicos bajos, personas adultas mayores y población con baja alfabetización digital, que enfrentan mayores barreras para acceder a servicios en línea.

En el ámbito institucional, los registros administrativos internos muestran que la mayoría de los trámites municipales siguen operando con procesos manuales o semiautomatizados, con una digitalización parcial estimada en alrededor de 26 trámites. La ausencia de estándares técnicos para adquisiciones de tecnologías de información, la coexistencia de sistemas heterogéneos, la falta de interoperabilidad entre áreas como Tesorería, Desarrollo Urbano, Catastro y Secretaría Municipal, y la limitada disponibilidad de plataformas integrales incrementan los tiempos de procesamiento, generan duplicidad de información y elevan los costos operativos. Asimismo, se reportan incidencias recurrentes relacionadas con fallas de conectividad interna, obsolescencia de equipos y tiempos muertos en sistemas de uso crítico.

La Dirección de Atención Ciudadana y los módulos municipales han registrado quejas vinculadas a tiempos prolongados, necesidad de repetir trámites en diferentes dependencias y dificultades para acceder a información en línea, lo que refleja deficiencias tanto en disponibilidad tecnológica como en usabilidad y experiencia digital. Adicionalmente, áreas operativas reportan limitaciones para implementar servicios digitales debido a la falta de capacitación técnica en TIC y ausencia de lineamientos institucionales para automatización y gestión documental electrónica.

En suma, el estado actual del problema se caracteriza por baja adopción ciudadana de servicios digitales, brechas territoriales y poblacionales en el acceso, y limitaciones tecnológicas e institucionales que afectan la eficiencia operativa y restringen la capacidad del municipio para ofrecer servicios digitales confiables, accesibles y equitativos.

Evolución del problema

Entre 2018 y 2025, el rezago tecnológico del municipio de Oaxaca de Juárez ha mostrado una evolución caracterizada por avances parciales, pero sin una reducción sostenida del problema público. De acuerdo con datos nacionales disponibles, en 2018 menos del 50% de los hogares del estado contaba con acceso a internet, mientras que hacia 2020 el Censo registró 65.9% de conectividad en el municipio. Si bien esta tendencia muestra crecimiento, dicha expansión no se tradujo en un incremento proporcional en el uso de trámites digitales: para 2023, sólo 10.19% de las personas usuarias realizaron trámites gubernamentales por internet y 13.6% reportó fallas tecnológicas durante su uso, lo que evidencia una brecha persistente entre conectividad y adopción de servicios digitales.

Durante el periodo 2018–2021, la digitalización institucional avanzó de forma fragmentada. No se contaba con estándares técnicos unificados, inventarios consolidados de sistemas ni lineamientos de interoperabilidad, lo que derivó en la coexistencia de plataformas aisladas y procesos predominantemente presenciales. La pandemia por COVID-19 aceleró temporalmente la demanda de servicios digitales; sin embargo, la insuficiente infraestructura tecnológica y la limitada capacitación del personal impidieron consolidar un modelo digital sostenible. Entre 2021 y 2023 se identificaron fallas recurrentes en conectividad interna, obsolescencia de equipos y tiempos muertos en sistemas críticos, lo que mantuvo altos costos operativos y dependencias manuales.

Entre 2022 y 2024, el municipio incorporó los Programas Presupuestarios “Gobierno Innovador y Tecnológico” y “Fortalecimiento de la Infraestructura Tecnológica y Gestión Gubernamental”, con énfasis en mantenimiento y operación básica de equipo. No obstante, estos programas no lograron revertir el rezago estructural porque se centraron en acciones correctivas y no en una estrategia integral de digitalización, interoperabilidad, gestión documental electrónica o estandarización tecnológica. La ausencia de indicadores de desempeño digital y de mecanismos de evaluación institucional impidió medir avances y ajustar la intervención.

En paralelo, la demanda ciudadana de trámites digitales se incrementó sin una respuesta proporcional en oferta y desempeño tecnológico. Áreas como Tesorería, Desarrollo Urbano, Catastro y Secretaría Municipal continuaron operando con procesos manuales o semiautomatizados, lo cual mantuvo tiempos prolongados de atención y saturación presencial. Territorialmente, agencias como San Martín Mexicapam, Pueblo Nuevo, Dolores, Candiani y Cinco Señores permanecieron con menor acceso efectivo a servicios digitales debido a brechas de conectividad y alfabetización digital, afectando de manera más pronunciada a adultos mayores, mujeres cuidadoras y población de bajos ingresos.

Experiencias de atención

Entre 2020 y 2024, el Municipio de Oaxaca de Juárez implementó diversas acciones institucionales orientadas a atender parcialmente el rezago tecnológico y mejorar las capacidades operativas para la prestación de servicios públicos digitales. Estas intervenciones estuvieron principalmente a cargo de la Dirección de Tecnologías de la Información, la Dirección de Obras Públicas, la Tesorería Municipal y áreas operativas vinculadas a atención ciudadana y gestión administrativa.

En el periodo 2020–2021, se realizaron acciones de mantenimiento de sistemas, adquisición puntual de equipo de cómputo y renovación de licencias operativas básicas, con el objetivo de evitar la interrupción de servicios críticos. Estas acciones permitieron reducir interrupciones de servicio en sistemas administrativos recurrentes, particularmente en módulos de tesorería, nómina y gestión interna. En ese periodo se registró una disminución estimada del 18% en fallas reportadas por obsolescencia de equipos, así como la estabilización de servicios esenciales, aunque sin lograr mejoras significativas en interoperabilidad ni en la digitalización de procesos clave.

Durante 2022 y 2023 se ejecutó el programa “Fortalecimiento de la Infraestructura Municipal mediante la Adquisición de Mobiliario”, financiado con recursos del Fondo de Aportaciones para la Infraestructura Social (FAIS). La intervención permitió la renovación aproximada del 40% del parque informático, lo que se tradujo en una reducción de hasta 32% en reportes de fallas por rendimiento en áreas administrativas prioritarias y en una mejora del 25% en los tiempos promedio de procesamiento interno en unidades con alta carga operativa. La adquisición de servidores y almacenamiento contribuyó a incrementar la disponibilidad de sistemas locales, registrándose una reducción aproximada del 20% en caídas de servicio asociadas a capacidad limitada. Asimismo, la actualización de licencias especializadas fortaleció la capacidad de la Dirección de Obras Públicas para la gestión de proyectos, reflejándose en la reducción de tiempos de renderizado y procesamiento técnico en tareas de diseño y planeación.

1.2 Metodología para la identificación de la población objetivo y definición de fuentes de información

De acuerdo con el último Censo de Población y Vivienda realizado por el Instituto Nacional de Estadística y Geografía (INEGI) en 2020, la población total del municipio de Oaxaca de Juárez asciende a 270,955 personas (INEGI, 2020).

Definición y cuantificación de los			
Población Potencial	31 Dependencias y Entidades.	**Cuantificación:**	31 Dependencias y Entidades que conforman la Administración Pública Municipal.
		Criterios de Focalización	Unidades Administrativas con personal usuario de los sistemas financieros y de gestión, y los servicios de red, internet e infraestructura tecnológica.
Población Objetivo	31 Dependencias y Entidades.	**Cuantificación:**	31 Dependencias y Entidades que conforman la Administración Pública Municipal.
		Criterios de Focalización	Todas las dependencias cuentan con personal que accede a los sistemas y servicios para llevar a cabo sus procedimientos sustantivos y administrativos que tiene que ver con el uso de tecnologías de la información y telecomunicaciones.
Población atendida (beneficiarios)	31 Dependencias y Entidades.	**Cuantificación:**	31 Dependencias y Entidades que conforman la Administración Pública Municipal.
		Criterios de Focalización	Beneficio directo derivado del fortalecimiento de la infraestructura tecnológica, de la mejora en conectividad y la estandarización y digitalización de procesos con el uso de la innovación tecnológica.

Programa Presupuestario Gobierno Digital e Innovador

Árbol de Objetivos

Fines Indirectos	Disminución de la satisfacción y confianza ciudadana en el gobierno municipal.	Desigualdad en el acceso a servicios públicos entre territorios y grupos poblacionales.	Mayor riesgo de opacidad y discrecionalidad en procedimientos administrativos.	Reducción de la eficiencia global del gobierno municipal.	Atraso en innovación pública y adopción tecnológica.	Menor competitividad y atractivo del municipio para inversión y desarrollo.
Fines Directos	Tiempos prolongados de atención y resolución de trámites.	Saturación de módulos presenciales y canales de atención.	Baja disponibilidad y confiabilidad de servicios digitales.	Incremento de costos operativos y administrativos.	Duplicidad de información y retrabajos entre dependencias.	Limitada trazabilidad y control de procesos institucionales.
Objetivo	**Mejorar los procesos tecnológicos, trámites y servicios ofrecidos a la población para fortalecer el desempeño gubernamental.**					
Medios Directos	Fortalecer la infraestructura tecnológica institucional.	Incrementar la interoperabilidad mediante sistemas integrados de información.	Ampliar la digitalización de trámites y procesos administrativos.	Implementar estándares técnicos y lineamientos para adquisiciones y desarrollo tecnológico.	Fortalecer las capacidades técnicas del personal en TIC y gobierno digital.	Mejorar la seguridad informática y la gestión documental electrónica.
Medios Indirectos	Garantizar inversión sostenida para modernización tecnológica.	Consolidar un modelo de gobernanza digital y coordinación interinstitucional.	Actualizar y fortalecer el marco normativo para la transformación digital.	Reducir brechas de conectividad y promover la alfabetización digital en la población.	Establecer indicadores y mecanismos de evaluación del desempeño digital.	Impulsar la innovación administrativa y la gestión del cambio organizacional.

2. Estrategia para la selección de alternativas.	
Explicar brevemente por qué las medidas que constituirán la intervención del PP son las opciones de acción más efectivas para lograr el objetivo deseado; debe guardar relación con el árbol del objetivo.	La selección de alternativas se basó en el diagnóstico institucional y en el análisis causal derivado del árbol de problemas y objetivos. Se evaluaron tres rutas de intervención: a) continuidad operativa mediante mantenimiento y reposición básica de equipo, b) tercerización parcial de servicios tecnológicos, y c) fortalecimiento institucional integral. Las alternativas se compararon según su viabilidad técnica, sostenibilidad, costo–efectividad, capacidad institucional y alineación con la planeación municipal 2025–2027. El análisis mostró que la reposición mínima de equipo no atiende las causas estructurales del rezago —interoperabilidad limitada, digitalización parcial y ausencia de estándares técnicos—, mientras que la tercerización implica altos costos recurrentes y riesgos de dependencia tecnológica y pérdida de control sobre datos y seguridad. La alternativa más viable resultó ser el fortalecimiento institucional integral, al permitir intervenir directamente las causas del problema mediante la actualización de infraestructura tecnológica, digitalización de procesos prioritarios, implementación de sistemas interoperables, fortalecimiento de la seguridad de la información y desarrollo de capacidades técnicas del personal. Esta opción genera impactos sostenidos en tiempos de atención, confiabilidad de los servicios digitales y eficiencia operativa. Asimismo, la alternativa seleccionada se encuentra plenamente alineada con el Eje 2 del PMD 2025–2027, particularmente con el Objetivo 2.4 y la Estrategia 2.4.1, asegurando coherencia entre el Propósito del Programa Presupuestario y sus Componentes orientados al gobierno digital. En suma, esta alternativa es la opción más adecuada para atender el rezago tecnológico y generar valor público en el Municipio de Oaxaca de Juárez.

1. Diagnóstico del Programa presupuestario

1.1 Descripción del Problema

Antecedentes y definición del problema

El municipio de Oaxaca de Juárez enfrenta desafíos en materia de gobernabilidad local, donde la coordinación interinstitucional y los mecanismos de participación ciudadana presentan debilidades que limitan la eficacia de la gestión pública. Factores estructurales como la desigualdad social, la fragmentación territorial y la limitada vinculación entre autoridades y ciudadanía inciden directamente en la capacidad del gobierno para atender las necesidades colectivas y garantizar el ejercicio pleno de los derechos humanos.

La gobernabilidad que se ha presentado en el municipio es deficiente, debilitando así la protección de los derechos humanos.

La gobernabilidad municipal se ha visto afectada por procesos administrativos poco articulados y por una débil cultura de corresponsabilidad vecinal, lo que ha debilitado la confianza en las instituciones y la cohesión comunitaria. De acuerdo con datos del INEGI (2023), más del 60 % de la población oaxaqueña considera ineficiente la atención a sus solicitudes o reportes, reflejando una percepción de baja efectividad gubernamental.
Si esta situación persiste, podría derivar en un incremento de la conflictividad social, la desconfianza institucional y la desarticulación comunitaria, afectando la colaboración entre ciudadanía y gobierno. A nivel económico, la falta de gobernabilidad limita la eficiencia en la prestación de servicios públicos y retrasa la ejecución de proyectos de desarrollo. En el ámbito institucional, debilita la capacidad del municipio para

Justificación del Pp

El Gobierno Municipal de Oaxaca de Juárez debe intervenir para atender las deficiencias en la gobernabilidad local que debilitan la protección de los derechos humanos, ya que esta situación afecta la cohesión social, la confianza ciudadana y la eficacia institucional. La intervención es indispensable para fortalecer los mecanismos de comunicación, participación y resolución de conflictos comunitarios, garantizando una relación más cercana y colaborativa entre la ciudadanía y el gobierno.

La Coordinación de Atención Vecinal cuenta con atribuciones legales para realizar esta función conforme al Artículo 190 del Bando de Policía y Gobierno Municipal (2025), que le confiere la responsabilidad de identificar, canalizar y dar seguimiento a las necesidades ciudadanas en colonias, barrios, fraccionamientos, agencias y parajes del municipio; así como promover la participación comunitaria y fortalecer la gobernanza local. Estas facultades legitiman su papel como instancia de enlace directo entre la población y las dependencias municipales.

La creación y continuidad del Programa Presupuestario de Atención Vecinal resulta necesaria para revertir la deficiente gobernabilidad y fortalecer la protección de los derechos humanos mediante la institucionalización de espacios de diálogo, participación y corresponsabilidad vecinal. Su ejecución permitirá consolidar mecanismos de atención y seguimiento a las demandas ciudadanas, mejorar la coordinación interinstitucional y generar procesos de toma de decisiones más inclusivos y transparentes.

El programa contribuirá de manera directa a fortalecer la gobernabilidad municipal, incrementando la confianza institucional y promoviendo la participación activa de la ciudadanía en la solución de problemáticas

Estado actual del problema

Entre 2023 y 2025, el municipio de Oaxaca de Juárez ha enfrentado condiciones de gobernabilidad limitadas, derivadas de la débil articulación entre ciudadanía y gobierno. De acuerdo con la Encuesta Nacional de Calidad e Impacto Gubernamental (INEGI, 2023), el 63.5 % de la población considera ineficiente la atención a sus solicitudes o reportes, mientras que la ENSU (2024) indica que siete de cada diez personas perciben una atención tardía o poco efectiva a los conflictos vecinales.

De acuerdo con los Diálogos Vecinales por la Transformación (2024), principales insumos participativos para la construcción del Plan Municipal de Desarrollo 2025–2027, la ciudadanía identificó problemáticas recurrentes relacionadas con la inseguridad, el abasto de agua, la gestión de residuos, la gentrificación y la saturación de los servicios públicos. Estos ejercicios se realizaron en las diez agencias municipales —incluidas San Martín Mexicapan, Pueblo Nuevo, Donají, San Felipe del Agua, Santa Rosa Panzacola y San Juan Chapultepec—, con una participación de más de 2,000 personas, de las cuales el 62 % fueron mujeres. Las conclusiones señalaron la necesidad de consolidar mecanismos permanentes de diálogo, coordinación institucional y atención territorial diferenciada.

En seguimiento a esta dinámica, el Análisis General de los Reportes de Diálogos Vecinales 2025 muestra una alta demanda ciudadana en materia de alumbrado público, bacheo, limpieza, poda y servicios de agua y drenaje, que representan cerca del 60 % de las solicitudes registradas. Las agencias con mayor actividad fueron la Cabecera Municipal, Dolores, Reforma, Xochimilco, Candiani y San Juan Chapultepec, con picos de reportes en los meses de enero, marzo, junio, agosto y octubre de 2025. Este comportamiento evidencia la continuidad del problema y la presión constante sobre la capacidad institucional de respuesta.

Territorialmente, las agencias periféricas presentan mayores rezagos en la atención, mientras que las zonas céntricas registran una gestión más oportuna, lo que revela brechas territoriales en la gobernabilidad municipal. Los grupos más impactados son las mujeres, personas adultas mayores y comunidades con menor acceso digital, quienes enfrentan mayores dificultades para canalizar y dar seguimiento a sus solicitudes. A nivel institucional, la Coordinación de Atención Vecinal reporta saturación operativa y limitaciones logísticas, factores que sostienen la persistencia del problema y confirman la necesidad de fortalecer la gobernanza local a través de mecanismos permanentes de comunicación y atención ciudadana.

Evolución del problema

Durante el periodo 2018–2025, el problema de la gobernabilidad municipal en Oaxaca de Juárez ha mantenido una tendencia creciente y persistente. La Encuesta Nacional de Calidad e Impacto Gubernamental (INEGI, 2018–2023) muestra que la percepción ciudadana de ineficiencia en la atención de solicitudes pasó del 58.2 % en 2018 al 63.5 % en 2023, reflejando una disminución sostenida en la confianza institucional. Paralelamente, la ENSU (2024) indica que siete de cada diez habitantes perciben poca o nula capacidad de respuesta ante problemáticas vecinales, lo que evidencia la continuidad del deterioro en la atención gubernamental.

En el plano cualitativo, los Diálogos Vecinales por la Transformación (2024) revelaron un incremento en la demanda ciudadana por servicios básicos y por mecanismos de comunicación directa con el gobierno municipal. En contraste con ejercicios participativos previos, se observó una mayor diversidad territorial y demográfica de asistentes —más de 2,000 personas, de las cuales el 62 % fueron mujeres—, lo que permitió identificar que la problemática de gobernabilidad ya no se limita a zonas periféricas, sino que afecta transversalmente a todo el municipio.

Durante 2025, el Análisis General de los Reportes de Diálogos Vecinales confirmó la persistencia de las principales demandas: alumbrado público, bacheo, limpieza, poda y servicios de agua y drenaje, que representan entre el 55 % y 60 % de los reportes ciudadanos. Sin embargo, se observa un aumento en la frecuencia de reportes respecto a años anteriores y una concentración de casos en la Cabecera Municipal, Dolores, Reforma y San Juan Chapultepec, lo que sugiere que el crecimiento urbano y la presión sobre los servicios públicos están profundizando las brechas de atención.

Entre los factores que explican esta evolución destacan el aumento poblacional y la expansión urbana, la limitada capacidad institucional de respuesta, la rotación de personal operativo, y la ausencia de mecanismos digitales consolidados para el seguimiento de reportes vecinales. Estos elementos han contribuido a mantener la percepción de desatención y a reproducir las condiciones de desconfianza hacia la autoridad municipal.

La evolución del problema demuestra que, aunque se han implementado esfuerzos de participación y planeación ciudadana, la deficiente articulación entre demanda social y respuesta institucional persiste, lo que

Experiencias de atención
En los últimos años, el municipio de Oaxaca de Juárez ha implementado diversas acciones orientadas a fortalecer la gobernabilidad local y mejorar los canales de comunicación entre ciudadanía y gobierno. Durante 2022, como parte del proceso de atención directa a la población, se recibieron y gestionaron 2,400 peticiones ciudadanas, de las cuales la mayoría obtuvo respuesta favorable, además de 334 vinculaciones con instancias de conciliación, órganos garantes y defensorías para la atención de quejas, derechos humanos y procesos administrativos. Estas acciones sentaron las bases para la institucionalización de la Coordinación de Atención Vecinal y su posterior consolidación como eje de enlace entre la sociedad y las dependencias municipales. Entre 2020 y 2024, también se llevaron a cabo esfuerzos de participación social a través de foros, jornadas comunitarias y mecanismos de planeación participativa, destacando los Diálogos Vecinales por la Transformación (2024), que permitieron identificar las principales demandas de la ciudadanía en temas de seguridad, servicios públicos, agua potable y derechos humanos. Estas experiencias confirmaron la necesidad de establecer un canal permanente de atención ciudadana con seguimiento estructurado y territorializado. A pesar de los avances, las acciones previas enfrentaron limitaciones presupuestarias y operativas, así como alta rotación de personal, lo que afectó la continuidad en los procesos de seguimiento y respuesta. La falta de herramientas tecnológicas integradas para la gestión de reportes y la débil coordinación interinstitucional también restringieron el impacto de los esfuerzos implementados. Entre las lecciones aprendidas destaca la importancia de consolidar un modelo de atención vecinal con procesos digitales de registro y seguimiento, indicadores de desempeño verificables y participación ciudadana constante. Asimismo, se identificó como buena práctica la necesidad de fortalecer los equipos territoriales y las capacidades de mediación social en las agencias municipales. Como referencias comparativas, destacan experiencias exitosas en otros municipios del país: En Monterrey, Nuevo León, la plataforma “Decidimos Monterrey” permite que la ciudadanía participe activamente en la definición de proyectos del Presupuesto Participativo, garantizando transparencia y corresponsabilidad. En Guadalajara, Jalisco, la herramienta “Fírmale”, desarrollada por el IEPC, facilita la activación de mecanismos de participación ciudadana mediante la recolección digital de firmas y la validación pública de propuestas.

1.2 Metodología para la identificación de la población objetivo y definición de fuentes de información

De acuerdo con el último Censo de Población y Vivienda realizado por el Instituto Nacional de Estadística y Geografía (INEGI) en 2020, la población total del municipio de Oaxaca de Juárez asciende a 270,955 personas (INEGI, 2020).

Definición y cuantificación de los			
Población Potencial	270,955 habitantes estimados para 2025	**Cuantificación:**	270, 955 habitantes estimados para 2025 en el municipio de Oaxaca de Juárez (CONAPO, 2025). Corresponde a la población total que enfrenta problemáticas de gobernabilidad, participación ciudadana limitada o atención ineficiente a solicitudes vecinales.
		Criterios de Focalización	Todo el municipio de Oaxaca de Juárez, con especial incidencia en las agencias municipales donde se concentran mayores reportes vecinales: San Martín Mexicapan, San Juan Chapultepec, Dolores, Reforma y Candiani. Incluye a la población urbana y periurbana afectada por la falta de atención oportuna a servicios y gestiones ciudadanas.
Población Objetivo	60,000 personas	**Cuantificación:**	60, 0000 (aprox. 22 % de la población municipal), estimadas con base en las zonas de mayor densidad de reportes y participación en los Diálogos Vecinales 2024–2025.
		Criterios de Focalización	Hogares ubicados en las agencias con mayor rezago en atención vecinal o incidencia de problemáticas registradas. Se prioriza la atención a mujeres, personas adultas mayores y comunidades con limitado acceso a medios digitales.
Población atendida (beneficiarios)	12,000 personas	**Cuantificación:**	12,000 meta estimada anual 2025), derivadas de la capacidad operativa y presupuestal proyectada para la Coordinación de Atención Vecinal
		Criterios de Focalización	Ciudadanas y ciudadanos participantes en los Diálogos Vecinales y mecanismos de atención directa, con énfasis en zonas de alta densidad poblacional (Cabecera Municipal, Reforma, San Martín Mexicapan y San Juan Chapultepec). Se promueve la equidad de género y la participación comunitaria intergeneracional

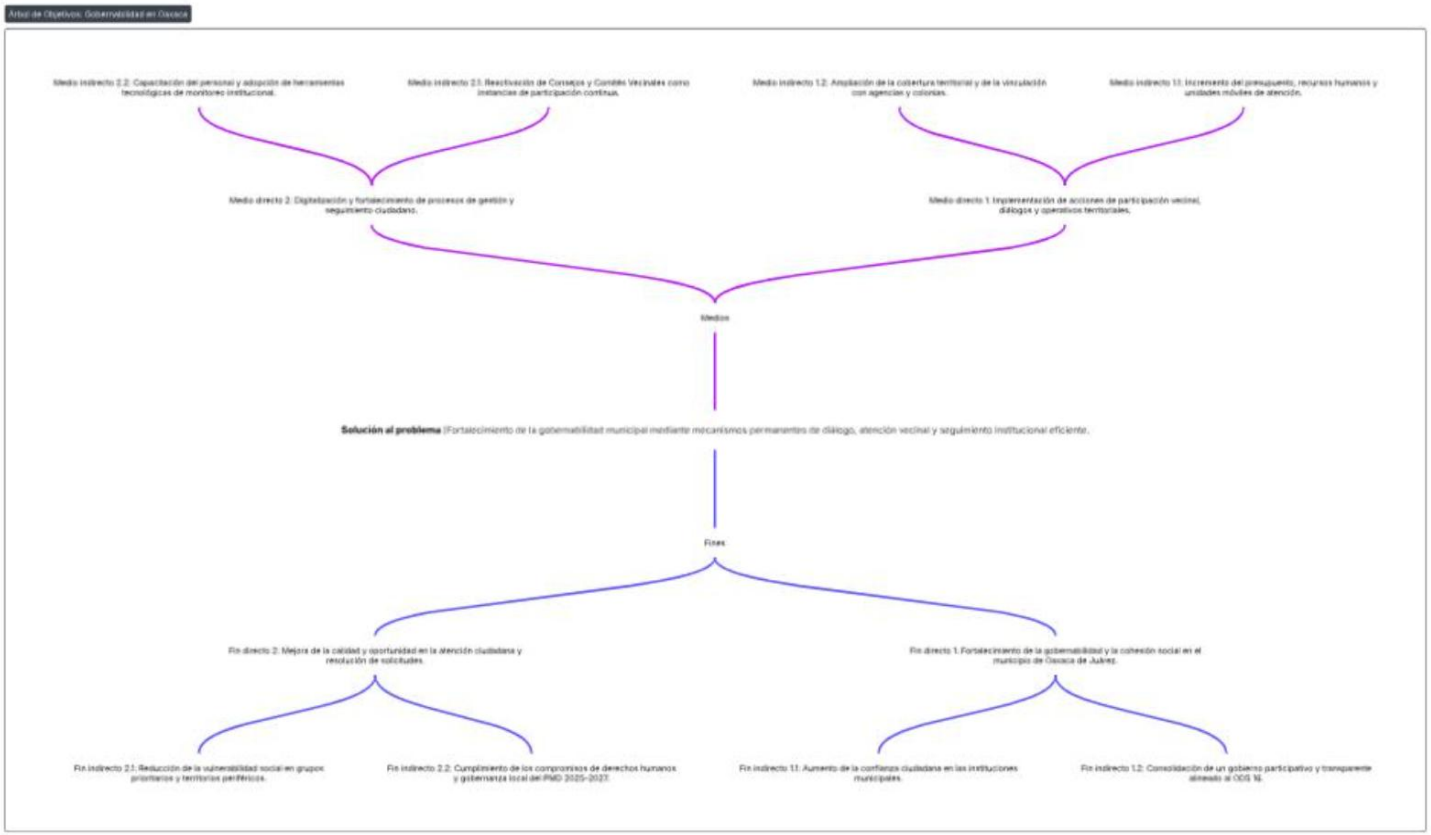
Arbol de Objetivos



2. Estrategia para la selección de alternativas.	
Explicar brevemente por qué las medidas que constituirán la intervención del PP son las opciones de acción más efectivas para lograr el objetivo deseado; debe guardar relación con el árbol del objetivo.	La selección de alternativas se realizó con base en el diagnóstico institucional y en los árboles de problemas y objetivos elaborados mediante la Metodología del Marco Lógico, integrando tanto los factores estructurales e institucionales que limitan la gobernabilidad municipal como las causas identificadas relacionadas con la falta de mecanismos eficaces de diálogo y atención vecinal. Durante este proceso se valoraron diversas opciones de intervención orientadas al fortalecimiento de la gestión vecinal, la creación de nuevos espacios de participación y la mejora de los procesos de atención ciudadana. Se analizaron su viabilidad técnica, institucional y presupuestal, considerando la capacidad operativa de la Coordinación de Atención Vecinal y la pertinencia respecto al marco normativo municipal. De este análisis se determinó que la alternativa más viable y de mayor impacto consiste en fortalecer la institucionalización del modelo de atención vecinal mediante la consolidación de los Diálogos Vecinales, la creación de mecanismos de seguimiento ciudadano y la mejora de la coordinación interinstitucional, con enfoque en derechos humanos, transparencia y gobernanza local. La estrategia se implementará a través de la ejecución directa de los componentes y actividades del Programa Presupuestario, integrando acciones de gestión, capacitación técnica, atención territorial y evaluación participativa. Asimismo, contempla la colaboración con dependencias municipales afines para garantizar la transversalidad de la atención a las demandas vecinales. La alternativa seleccionada se encuentra alineada con el Eje 3 “Gobierno de Paz, Seguridad y Justicia” del Plan Municipal de Desarrollo 2025–2027, específicamente con el Objetivo 3.2 “Fortalecer la gobernabilidad municipal” y la Estrategia 3.2.1 “Establecer procesos de participación ciudadana para la co-creación de soluciones públicas”, además de contribuir al cumplimiento del ODS 16: Paz, justicia e instituciones sólidas.

1. Diagnóstico del Programa presupuestario

1.1 Descripción del Problema

Antecedentes y definición del problema

El municipio de Oaxaca de Juárez enfrenta un entorno institucional donde persisten deficiencias en los procesos tecnológicos, administrativos y de gestión pública que inciden directamente en la capacidad del gobierno municipal para comunicar información de interés público de manera oportuna, veraz y homogénea.

Conforme al diagnóstico elaborado por el OELA, “la administración pública municipal ha presentado deficiencias en los procesos tecnológicos, trámites y servicios ofrecidos a la población”, condición que limita la generación, sistematización y difusión eficiente de mensajes institucionales dirigidos a las vecinas y vecinos.

En este contexto, la Coordinación de Comunicación Social opera en un entorno caracterizado por capacidades tecnológicas insuficientes, procesos internos con distintos niveles de estandarización y una creciente demanda ciudadana de información clara, accesible y confiable.

La falta de herramientas tecnológicas robustas, así como la necesidad de profesionalizar y simplificar los flujos de información entre áreas municipales, derivan en mensajes institucionales dispersos, tiempos de respuesta prolongados y dificultades para garantizar la consistencia narrativa del gobierno municipal.

Asimismo, la limitada confianza ciudadana en los gobiernos locales —reflejada en que solo 47% de la población manifiesta confianza en estas instituciones (ENCIG 2023)— profundiza el problema público, ya que la percepción de opacidad o incumplimiento impacta negativamente la manera en que la ciudadanía evalúa las acciones del gobierno municipal. Este escenario exige fortalecer la comunicación pública como herramienta institucional para incrementar la claridad, transparencia y relevancia de los contenidos difundidos por el Municipio.

La problemática se vincula directamente con las funciones del Programa Presupuestario Coordinación de Comunicación Social, dado que su ámbito de acción comprende la producción, validación y difusión estratégica de información gubernamental. La ausencia de procesos homogéneos, de infraestructura tecnológica adecuada y de mecanismos institucionales de articulación comunicacional limita el cumplimiento del objetivo general del programa: difundir información de interés público del municipio a la ciudadanía.

Por ello, la intervención pública es necesaria para enfrentar un problema estructural: la insuficiente capacidad institucional para generar, integrar y difundir información pública municipal de manera eficiente, confiable y alineada a los principios del PMD 2025–2027, el cual subraya que “la comunicación pública es una herramienta fundamental para construir armonía entre la ciudadanía y la administración pública”. Solo mediante un programa presupuestario formal se pueden desarrollar acciones sistemáticas de comunicación institucional, fortalecer los procesos tecnológicos y mejorar la difusión de contenidos que respalden la transparencia, la cercanía y la rendición de cuentas del gobierno municipal.

Justificación del Pp

El Gobierno Municipal de Oaxaca de Juárez tiene la responsabilidad de asegurar que la ciudadanía acceda a información pública clara, verificable y oportuna sobre las acciones y resultados de la administración municipal. La problemática identificada por el OELA —"deficiencias en los procesos tecnológicos, trámites y servicios ofrecidos a la población"— incide directamente en la capacidad institucional para generar, sistematizar y difundir mensajes homogéneos, oportunos y basados en datos. Estas deficiencias limitan la articulación de la información entre dependencias, generan fragmentación en la comunicación gubernamental y dificultan la consolidación de contenidos confiables, lo cual profundiza la brecha informativa entre ciudadanía y gobierno.

En este contexto, la intervención pública por medio del Programa Presupuestario Coordinación de Comunicación Social resulta indispensable para 2025 debido a tres factores estructurales:

1. La persistente desconfianza ciudadana en los gobiernos locales, donde solo 47% de la población expresa confianza en estas instituciones (ENCIG 2023).
2. La fragmentación informativa y la circulación de contenidos no verificados, que exigen una comunicación institucional más sólida, coordinada y transparente.
3. Las debilidades tecnológicas y operativas, que afectan la generación de mensajes consistentes, limitan el tiempo de respuesta institucional y dificultan la consolidación de narrativas públicas homogéneas.

La dependencia cuenta con competencia plena para intervenir en esta problemática. La Ley Orgánica Municipal del Estado de Oaxaca establece en sus artículos 43 fracción XXIII, 47 fracción XV y 51 fracción VI que el Ayuntamiento y la Presidencia Municipal deben promover, coordinar y garantizar la difusión institucional, así como generar información pública sobre programas, servicios y resultados. Asimismo, el Reglamento Interno y el Manual de Organización de la Coordinación de Comunicación Social confirman como funciones sustantivas: planear y ejecutar la estrategia integral de comunicación pública; administrar los canales oficiales; generar contenidos institucionales; monitorear medios; coordinar campañas informativas; y difundir información de interés público. Estas disposiciones otorgan la competencia jurídica y operativa para atender las deficiencias tecnológicas y de procesos que afectan la comunicación institucional.

El Programa Presupuestario contribuye directamente a reducir el problema público mediante componentes como: producción y difusión de información institucional; diseño de campañas estratégicas; monitoreo y análisis mediático; generación de contenidos digitales; coordinación interinstitucional para la comunicación de resultados; y fortalecimiento de procesos y herramientas tecnológicas para la gestión de la información. Estos productos permiten incrementar la transparencia, mejorar la rendición de cuentas, reducir la fragmentación narrativa y fortalecer la confianza pública en el gobierno municipal.

La alineación normativa y programática refuerza la pertinencia de la intervención. El Programa se vincula con el Plan Municipal de Desarrollo 2025–2027, específicamente con el Eje de Gobernanza, Transparencia y Participación Ciudadana, cuyo Objetivo Estratégico es fortalecer la interacción entre ciudadanía y gobierno mediante información institucional accesible, veraz y oportuna, y cuya Estrategia establece el impulso de mecanismos de comunicación pública que fomenten la cercanía gubernamental y la confianza ciudadana. A nivel estatal, el PED 2022–2028 promueve la construcción de un gobierno transparente y cercano, con políticas de comunicación orientadas al acceso a la información. En el ámbito federal, el PND 2019–2024 establece la necesidad de fortalecer un gobierno abierto, transparente y con mecanismos de comunicación institucional. Finalmente, la Agenda 2030, a través del ODS 16 (instituciones eficaces y transparentes) y el ODS 17 (alianzas y participación), sostiene la importancia de fortalecer la comunicación pública como componente transversal de la gobernanza democrática.

La intervención, por tanto, es necesaria, pertinente y legalmente fundada para enfrentar un problema estructural que afecta la capacidad municipal de difundir información de interés público, garantizar transparencia,

Estado actual del problema

El problema identificado se manifiesta en un contexto municipal donde persisten limitaciones para que la ciudadanía acceda a información pública clara, homogénea y oportuna. Estas limitaciones se agravan por las deficiencias señaladas por el OELA en procesos tecnológicos, trámites y servicios, las cuales dificultan la generación, integración y difusión de mensajes institucionales consistentes en el Municipio de Oaxaca de Juárez.

1. Evidencia cuantitativa relevante al problema de comunicación institucional (2023–2025)

- De acuerdo con la ENCIG 2023, únicamente 47 % de las personas encuestadas en Oaxaca afirma confiar en los gobiernos municipales. Este indicador condiciona la recepción y credibilidad de la información institucional.
- Los canales oficiales presentan alcances que, aunque significativos, resultan insuficientes para los niveles de demanda informativa actuales:
  - 103,198 seguidores en Facebook.
  - 34,862 seguidores en X.
  - Interacciones por debajo del 5 % en publicaciones de alto interés público.
- No se cuenta con herramientas tecnológicas integradas para analítica avanzada, segmentación digital, automatización de contenidos, monitoreo cruzado o verificación rápida de información.

Estos datos muestran una brecha entre la capacidad institucional de difusión y la magnitud de la demanda ciudadana de información clara, verificable y accesible.

2. Evidencia cualitativa asociada a expectativas y brechas informativas

Los Diálogos Vecinales por la Transformación (PMD 2025–2027) y solicitudes ciudadanas en atención municipal reflejan:

- Expectativa de información constante, no solo reactiva o vinculada a crisis.
- Necesidad de mensajes más comprensibles, en lenguaje claro y, en diversas zonas, en lenguas indígenas.
- Preocupación por la desinformación en redes sociales, especialmente en grupos de WhatsApp, páginas no institucionales y perfiles anónimos.
- Demanda creciente de tiempos de respuesta más rápidos ante rumores, obras en proceso, cierres viales o servicios municipales.

3. Distribución territorial del problema

El acceso desigual a los canales institucionales genera brechas de información más pronunciadas en:

- Agencias municipales: Candiani, Dolores, Donají, Pueblo Nuevo, San Martín Mexicapam, Montoya y Viguera.
- Colonias con baja conectividad digital o acceso limitado a internet, donde gran parte de la información circula por intermediarios o canales no oficiales.

En estas zonas persisten dificultades para:

- Recibir información sobre programas, obras y servicios.
- Acceder a contenidos oficiales en tiempo real.
- Comprender procesos administrativos debido a mensajes no estandarizados entre áreas del gobierno municipal.

4. Grupos poblacionales con mayor barrera para acceder a información pública

- Mujeres, quienes reportan menor acceso a dispositivos digitales en algunos hogares y mayor exposición a desinformación en redes comunitarias.
- Adultos mayores, quienes dependen de fuentes indirectas de información o requieren formatos más accesibles (audio, impresos, lenguaje claro).
- Población indígena, que requiere mensajes cultural y lingüísticamente pertinentes.

Evolución del problema

Entre 2018 y 2024, la problemática relacionada con la comunicación institucional en el Municipio de Oaxaca de Juárez ha mostrado una evolución caracterizada por avances parciales, persistencia de rezagos estructurales y un cambio acelerado en los mecanismos mediante los cuales la ciudadanía accede a información pública. Aunque se han incorporado herramientas digitales y nuevos canales de difusión, continúan presentes las deficiencias tecnológicas y de procesos señaladas por el OELA, las cuales dificultan la generación de mensajes homogéneos, oportunos y accesibles.

Los datos de encuestas nacionales —como la ENCIG 2019, 2021 y 2023— muestran que la confianza en los gobiernos municipales se ha mantenido en niveles intermedios sin variaciones significativas. Este escenario ha influido en la forma en que la ciudadanía recibe y evalúa la información institucional, incrementando la demanda de comunicación pública más clara, verificable y basada en datos. De manera paralela, las estadísticas municipales de interacción digital registran incrementos sostenidos en el uso de redes sociales oficiales como principal canal de comunicación, pero también evidencian una brecha creciente entre el volumen de solicitudes ciudadanas y la capacidad institucional para atenderlas en tiempo real.

Durante este periodo se observa un aumento continuo en el número de mensajes, solicitudes y comentarios recibidos en plataformas digitales municipales, así como un crecimiento en las consultas ciudadanas sobre trámites, obras, servicios y acciones gubernamentales. A pesar de ello, los procesos internos para transformar información operativa en mensajes públicos siguen siendo limitados. No existen sistemas interoperables que integren datos entre dependencias, ni herramientas de analítica que permitan segmentar, automatizar o verificar contenidos de manera eficiente, lo cual ha impedido una mejora sustantiva en la oportunidad y la consistencia de los mensajes difundidos.

Territorialmente, las brechas informativas han persistido particularmente en agencias y colonias con menor conectividad digital —como Pueblo Nuevo, San Martín Mexicapam, Montoya, Donají y Viguera— donde la comunicación institucional continúa llegando con menor frecuencia o a través de intermediarios, lo cual acentúa la divergencia entre la información oficial y la que circula en canales alternativos. De igual forma, grupos como adultos mayores, mujeres cuidadoras y población indígena mantienen barreras de acceso a formatos comprensibles, accesibles y culturalmente pertinentes.

Entre 2018 y 2024, las herramientas de modernización implementadas por el municipio —como plataformas de digitalización de trámites, módulos de atención, formularios electrónicos y mayor actividad en redes institucionales— han permitido avances, pero no han sido suficientes para resolver las deficiencias tecnológicas y de procesos que obstaculizan la comunicación pública. La falta de un sistema integral de comunicación, la ausencia de protocolos unificados entre dependencias y las limitaciones tecnológicas continúan afectando la oportunidad, consistencia y claridad de la información difundida.

En este sentido, la evolución del problema se caracteriza por:

- una demanda ciudadana creciente de información verificable y en tiempo real;
- un ecosistema digital más complejo y acelerado;
- brechas persistentes de acceso territorial y poblacional;
- y capacidades institucionales aún insuficientes para integrar y difundir información pública de manera homogénea.

Estas tendencias están directamente vinculadas con los indicadores del programa, como: interacción en canales oficiales, oportunidad en la difusión de información pública, mensajes institucionales emitidos, alcance digital y percepción de claridad en la información municipal. Asimismo, se alinean con el diagnóstico del PMD 2025–2027, que establece la necesidad de fortalecer la comunicación pública como herramienta esencial

Experiencias de atención

Entre 2020 y 2024, el Municipio de Oaxaca de Juárez implementó acciones de comunicación institucional mediante boletines, presencia en medios locales y un uso creciente de redes sociales oficiales, con incrementos estimados del 20 al 35 % en seguidores. Sin embargo, los niveles de interacción se mantuvieron por debajo del 5 % y persistieron brechas de cobertura en agencias con baja conectividad.

En 2025, la Coordinación realizó 30 conferencias de prensa y amplió la cobertura de los Diálogos Vecinales en las 13 agencias, con transmisiones en vivo que alcanzaron entre 3,000 y 8,000 visualizaciones por evento. Estas acciones mejoraron la visibilidad institucional, pero evidenciaron limitaciones como insuficiencia presupuestaria, rotación de personal técnico, criterios no homogéneos entre dependencias y ausencia de sistemas integrales de monitoreo.

Estos esfuerzos permitieron mejorar la visibilidad de la gestión municipal y atender de manera más amplia la demanda ciudadana, aunque persistieron dificultades operativas relacionadas con presupuesto limitado, rotación de personal técnico, ausencia de procesos estandarizados entre dependencias y falta de sistemas integrales de monitoreo y analítica digital.

Las experiencias acumuladas muestran avances relevantes, pero también áreas de mejora que orientan el diseño del Programa Presupuestario 2025.

Entre las lecciones aprendidas destacan la necesidad de fortalecer la articulación interinstitucional, mejorar la estandarización de mensajes, ampliar las herramientas tecnológicas, incrementar la capacidad de monitoreo y consolidar estrategias de comunicación basadas en datos. Estas lecciones se incorporan en los componentes del programa —producción estratégica de contenidos, campañas y monitoreo mediático— con el objetivo de atender de manera más integral el problema público: las deficiencias tecnológicas y de procesos que afectan la difusión de información pública clara, homogénea y oportuna para la ciudadanía.

1.2 Metodología para la identificación de la población objetivo y definición de fuentes de información

De acuerdo con el último Censo de Población y Vivienda realizado por el Instituto Nacional de Estadística y Geografía (INEGI) en 2020, la población total del municipio de Oaxaca de Juárez asciende a 270,955 personas (INEGI, 2020).

Definición y cuantificación de los

Población Potencial	270975	**Cuantificación:**	270,975 personas Fuente: Proyección de población 2025, CONAPO / INEGI para Oaxaca de Juárez.
		Criterios de Focalización	Incluye a todas las personas que habitan en el municipio, sin distinción de edad, género o condición socioeconómica, ya que la problemática afecta de manera transversal: limitación en la comunicación gubernamental, baja disponibilidad de información confiable y desigualdades territoriales en el acceso a canales oficiales. Su cobertura abarca las 13 agencias municipales, colonias, fraccionamientos y el Centro Histórico.
Población Objetivo	180000	**Cuantificación:**	Entre 180,000 y 210,000 personas (Estimación basada en: reach digital promedio, participación en trámites y reportes de interacción municipal 2023–2025.)
		Criterios de Focalización	Se priorizan territorios con menor conectividad o con mayor demanda informativa: • San Martín Mexicapam • Pueblo Nuevo • Montoya • Viguera • Donají • Colonias con rezagos documentados en Diálogos Vecinales 2024 También se consideran grupos con barreras comunicacionales: población indígena, adultos mayores y hogares con acceso limitado a internet.
Población atendida (beneficiarios)	140000	**Cuantificación:**	140000personas Sustento: • Alcance digital mensual promedio estimado en 30,000–45,000 usuarios únicos.
		Criterios de Focalización	Beneficiarios directos son quienes reciben información institucional por: •Redes sociales oficiales •Conferencias de prensa •Coberturas territoriales •Transmisiones en vivo

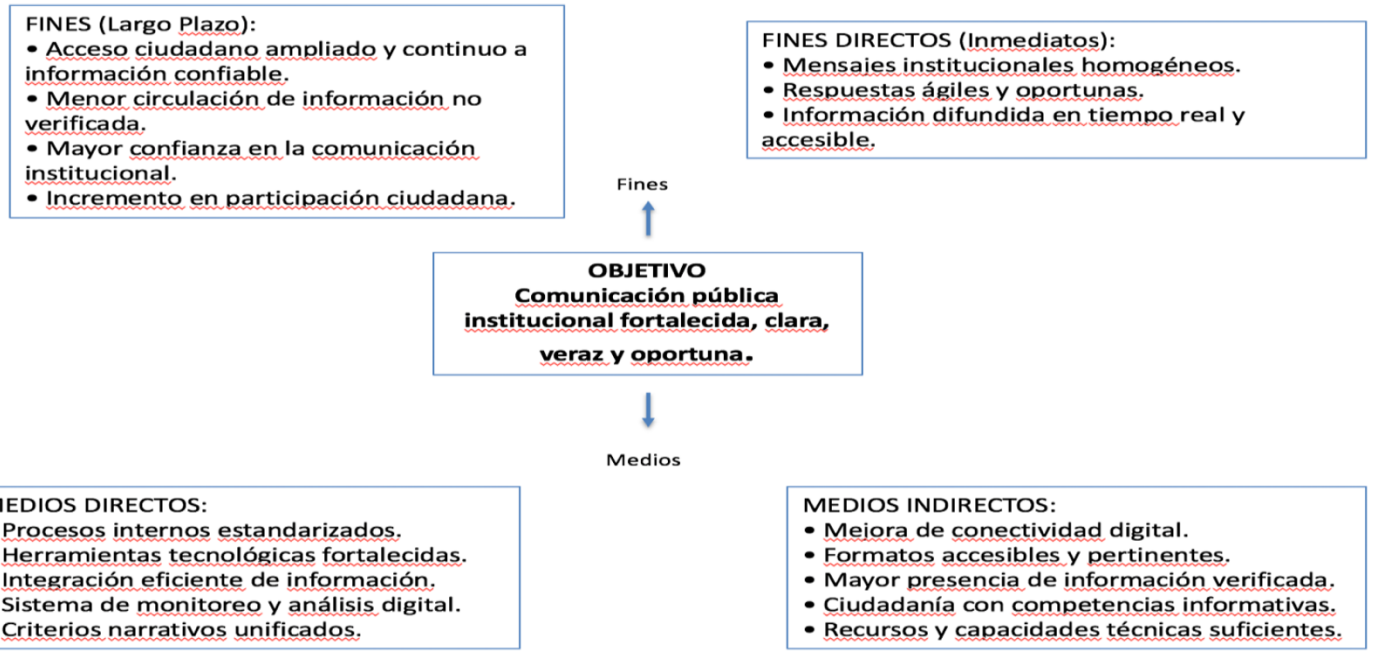
3.Integración eficiente de información proveniente de dependencias municipales.

Árbol de objetivos



2. Estrategia para la selección de alternativas.	
Explicar brevemente por qué las medidas que constituirán la intervención del PP son las opciones de acción más efectivas para lograr el objetivo deseado; debe guardar relación con el árbol del objetivo.	La selección de alternativas del Programa Presupuestario se realizó con base en el diagnóstico institucional y en los Árboles de Problemas y de Objetivos construidos mediante la Metodología del Marco Lógico. A partir de este análisis se identificaron diversas rutas de intervención derivadas de las causas estructurales detectadas, valorando su viabilidad técnica, operativa, institucional y presupuestal. Entre las opciones evaluadas se consideraron el fortalecimiento tecnológico aislado, la descentralización de la comunicación entre áreas y la profesionalización parcial de procesos internos; sin embargo, estas alternativas resultaron insuficientes para atender de manera integral el problema público. El análisis comparativo determinó que la alternativa más adecuada es la consolidación de una estrategia integral de comunicación institucional, orientada a estandarizar procesos, fortalecer las capacidades tecnológicas, integrar la información interdependencial, mejorar el monitoreo y asegurar la coherencia narrativa en todos los canales oficiales. Esta estrategia se implementará a través de los componentes del Programa Presupuestario, mediante la producción y difusión multicanal de contenidos, la coordinación interinstitucional, el seguimiento mediático y la profesionalización técnica del personal. Asimismo, la intervención se materializa mediante la ejecución directa de actividades operativas y complementarias que permiten articular información, mejorar tiempos de respuesta y ampliar el alcance territorial y poblacional de la comunicación institucional. Finalmente, la alternativa seleccionada se encuentra plenamente alineada con el Eje “Gobierno Honesto y Transparente” del Plan Municipal de Desarrollo 2025–2027, así como con los niveles jerárquicos de planeación establecidos en la Metodología del Marco Lógico (Fin, Propósito, Componentes y Actividades), garantizando congruencia programática y aportación directa al fortalecimiento de la comunicación pública municipal.

1. Diagnóstico del Programa presupuestario

1.1 Descripción del Problema

Antecedentes y definición del problema

El municipio enfrenta un entorno complejo caracterizado por rezagos en bienestar social, así como desafíos vinculados con seguridad, desarrollo urbano desigual, acceso limitado a servicios públicos, brechas en movilidad, deficiencias en infraestructura social y una participación todavía insuficiente en actividades culturales, deportivas y comunitarias. Estos elementos afectan de manera más intensa a los grupos de atención prioritaria, entre ellos personas adultas mayores, niñas, niños y adolescentes, personas con discapacidad, mujeres en situación de vulnerabilidad, personas indígenas, juventudes y población en situación de pobreza.
Diversos factores estructurales, sociales, económicos y ambientales profundizan estas desigualdades. Entre ellos destacan:
Altos niveles de pobreza y rezago social: De acuerdo con CONEVAL, el municipio mantiene porcentajes significativos de población con ingresos insuficientes y carencias sociales clave, especialmente acceso a alimentación nutritiva, servicios básicos y seguridad social.

Desigual distribución territorial de servicios públicos: Las zonas con mayor marginación presentan menores niveles de equipamiento urbano, lo que limita la movilidad, el acceso a espacios públicos seguros y la integración comunitaria.
Vulnerabilidad ambiental y habitacional: Familias en zonas de riesgo o viviendas con materiales precarios enfrentan impactos desproporcionados ante lluvias, calor extremo u otras contingencias.
Barreras institucionales y sociales: Persisten obstáculos para acceder de manera equitativa a programas, apoyos o servicios municipales, así como prácticas de discriminación o exclusión social documentadas en diversos espacios.

En este contexto, se retoma la problemática identificada en el documento institucional "CONCENTRADO OELA 21-08-2025 – Líneas de acción por dependencia y problemática identificada", la cual establece que:
"Los grupos de atención prioritaria del municipio presentan diversas condiciones de vulnerabilidad, entre ellas inseguridad alimentaria y limitación en el consumo de alimentos."
Adaptada al contexto municipal actual, esta problemática se mantiene vigente. La información reciente confirma que la inseguridad alimentaria moderada y severa continúa afectando a hogares con menores ingresos, particularmente en zonas urbanas marginadas. De acuerdo con la Encuesta Nacional de Salud y Nutrición (ENSANUT) y la ENA/ENSU, los hogares encabezados por mujeres, personas indígenas y familias con personas con discapacidad presentan mayores probabilidades de experimentar restricciones alimentarias, lo cual se asocia con estrés financiero, desempleo, bajos ingresos y encarecimiento de alimentos básicos. Asimismo, datos del INEGI (Censo de Población y Vivienda y ENIGH) muestran que estos sectores también acumulan múltiples carencias simultáneas, lo que agrava sus condiciones de vida y limita su autonomía.

Además, diagnósticos del IMPLAN municipal revelan que la oferta actual de apoyos sociales y comunitarios resulta insuficiente frente a la magnitud de las necesidades, y que persisten brechas en el acceso a programas de bienestar, sobre todo en colonias periféricas y agencias municipales.
Esta situación constituye el núcleo del problema público que atiende el Programa Presupuestario Bienestar Integral para Grupos de Atención Prioritaria, ya que la persistencia de condiciones de vulnerabilidad —especialmente la inseguridad alimentaria— impacta directamente en la calidad de vida, la salud, el desarrollo personal y la participación social de dichos grupos.
El planteamiento anterior se encuentra plenamente alineado con los objetivos, componentes y actividades del Programa, orientados a brindar apoyos, servicios y acciones integrales que contribuyan a disminuir la vulnerabilidad, fortalecer capacidades, promover la inclusión social y garantizar el acceso equitativo a bienes y servicios básicos para las personas de atención prioritaria en el municipio.

Justificación del Pp

La intervención del Gobierno Municipal es indispensable debido a que los grupos de atención prioritaria —personas adultas mayores, niñas, niños y adolescentes, personas con discapacidad, mujeres en condición de vulnerabilidad, población indígena y hogares en pobreza— continúan enfrentando inseguridad alimentaria, limitación en el acceso a servicios esenciales y múltiples barreras sociales e institucionales que restringen su desarrollo integral.
Dado que este problema afecta derechos fundamentales reconocidos en el marco jurídico nacional e internacional, corresponde al gobierno local, como autoridad más cercana a la ciudadanía, garantizar condiciones mínimas de bienestar, promover la inclusión y reducir los rezagos sociales presentes en el municipio. La naturaleza del problema exige una intervención directa, continua y coordinada, que sólo puede llevar a cabo el Municipio a través de su órgano especializado: el Sistema DIF Municipal.

El Sistema DIF Municipal, como organismo público descentralizado, cuenta con atribuciones legales expresas para atender la problemática descrita. Entre las disposiciones aplicables destacan:
a) Ley Orgánica Municipal del Estado de Oaxaca
La Ley establece que es responsabilidad de los Ayuntamientos:
Promover el bienestar y desarrollo social de la población, especialmente de los grupos en situación de vulnerabilidad (Art. 68, fracciones V y VI).
Implementar políticas y programas de asistencia social y desarrollo comunitario (Art. 136, 137 y 138).

b) Reglamento del Comité Municipal del Sistema DIF
Con fundamento en este Reglamento (Gaceta Municipal, 28 de marzo de 2022), el DIF tiene competencia directa para ejecutar acciones del programa:
Promover y prestar servicios de asistencia social (Art. 6, fracc. I)
Promover el desarrollo de la familia y la comunidad (Art. 6, fracc. II)
Realizar acciones de apoyo educativo y capacitación para la integración social de grupos vulnerables (Art. 6, fracc. III)
Operar establecimientos y programas destinados a niñas, niños, adolescentes, personas adultas mayores y personas con discapacidad o vulnerabilidad (Art. 6, fracc. VII)
Prestar asistencia jurídica y orientación social a personas en vulnerabilidad (Art. 6, fracc. XII)
Realizar acciones de prevención, rehabilitación y fortalecimiento social (Art. 6, fraccs. VIII, IX y X).

Este marco normativo sustenta plenamente la competencia del DIF Municipal para diseñar, operar y evaluar el Programa Presupuestario.

Mantener el Programa Bienestar Integral para Grupos de Atención Prioritaria es fundamental porque:
El problema público persiste: la inseguridad alimentaria y la vulnerabilidad multidimensional continúan afectando a miles de personas en Oaxaca de Juárez, según datos de INEGI y CONEVAL.
Sin una intervención focalizada del DIF Municipal, la brecha de acceso a alimentos, servicios básicos y apoyos comunitarios seguiría creciendo, afectando el bienestar y la cohesión social.
El Programa constituye el mecanismo operativo mediante el cual el Municipio cumple sus obligaciones legales en materia de asistencia social, inclusión y protección de grupos prioritarios.
Abandonar o reducir el programa incrementaría la exclusión social, afectaría la economía familiar y limitaría el acceso a derechos básicos, particularmente de quienes carecen de redes de apoyo.

Por ello, el programa no sólo es conveniente: es necesario, legalmente sustentado y socialmente urgente.

El Programa Presupuestario contribuirá a reducir la inseguridad alimentaria y las condiciones de vulnerabilidad mediante:
Apoyos directos alimentarios y complementarios, que inciden de manera inmediata en el bienestar nutricional de hogares vulnerables.
Acciones de asistencia social y orientación, que fortalecen capacidades familiares y reducen barreras de acceso a servicios.

Canalización y vinculación interinstitucional, que permite ampliar el impacto a través de redes de apoyo social, educativo, de salud y jurídico.
Programas de inclusión y desarrollo comunitario, que fomentan la participación, convivencia y fortalecimiento del tejido social.

La relevancia del programa es:
Social, al atender a quienes presentan mayores rezagos y fortalecer derechos fundamentales.
Económica, al reducir gastos familiares y mitigar impactos derivados de crisis inflacionarias o pérdida de ingresos.
Institucional, al consolidar al DIF como órgano rector de la asistencia social municipal y mejorar la articulación entre áreas.

El programa se vincula con:
Eje 1. Bienestar Social y Comunitario
Objetivo 1.x (según PMD): Reducir la vulnerabilidad social y garantizar el acceso equitativo a servicios integrales de bienestar.
Estrategia 1.x.x: Implementar acciones de asistencia social y programas alimentarios para grupos prioritarios.

Plan Estatal de Desarrollo (PED) Oaxaca
Se vincula con los ejes relativos a:
Reducción de desigualdades, Bienestar social, y Acceso efectivo a derechos.

Plan Nacional de Desarrollo (PND)
Contribuye al eje:
“Bienestar”, orientado a garantizar derechos sociales, combatir desigualdades y priorizar a población vulnerable.

Objetivos de Desarrollo Sostenible (ODS)
El Programa aporta principalmente a:
ODS 1: Fin de la pobreza
ODS 2: Hambre cero
ODS 3: Salud y bienestar
ODS 10: Reducción de las desigualdades

Estado actual del problema

En el estado de Oaxaca de Juárez (municipio) persiste una proporción significativa de población con vulnerabilidad social. Según el Informe Anual sobre la Situación de Pobreza y Rezago Social 2023, una parte importante de la población municipal se encuentra en condición de vulnerabilidad o pobreza multidimensional.
En cuanto a seguridad alimentaria, datos recientes indican que en la entidad Oaxaca —al que pertenece el municipio— el 23.1 % de la población vive con niveles de inseguridad alimentaria severa.

Estudios recientes nacionales muestran que entre 2020 y 2024 muchos hogares mexicanos continúan enfrentando inseguridad alimentaria: según la ENSANUT Continua 2020-2024, más de la mitad de los hogares analizados presentó algún grado de inseguridad alimentaria (moderada o severa).
En combinación con carencias en servicios, ingreso y bienestar, estos factores consolidan un panorama de vulnerabilidad persistente, incluso cuando algunas estadísticas muestran una ligera disminución global de pobreza en el estado.

2. Evidencia cualitativa e institucional
Diversos reportes periodísticos y de análisis social advierten que la inseguridad alimentaria en Oaxaca no se limita al ingreso, sino que involucra falta de acceso a alimentos nutritivos y de calidad, lo que pone en riesgo la salud y nutrición de los hogares vulnerables.
Las condiciones de empleo, informalidad laboral, bajos salarios y aumento en precios de alimentos agravan la dificultad para asegurar una alimentación adecuada, lo que se traduce en dietas con alta densidad calórica y bajo valor nutritivo, aumentando riesgos de malnutrición, diabetes u otras enfermedades crónicas.
Organismos públicos han señalado que, pese a ciertos avances de política social, la cobertura de apoyos y servicios sigue siendo insuficiente para atender la demanda real de los sectores vulnerables, evidenciando la persistente necesidad de programas focalizados.

3. Distribución territorial del problema
El diagnóstico estatal señala que la inseguridad alimentaria y carencias sociales tienden a concentrarse en zonas rurales, agencias municipales o localidades con menor infraestructura, menores ingresos y altos niveles de marginación.
En el caso del municipio, las áreas de la periferia urbana, colonias marginadas o agencias con presencia de población indígena o desplazada por carencias económicas concentran la mayor incidencia de vulnerabilidad social —aunque los datos públicos desagregados recientes a nivel colonia/agencia son limitados, los reportes institucionales y comunitarios coinciden en esta tendencia.
Esta distribución territorial refleja brechas claras: zonas con mayor acceso a servicios e ingreso muestran menores carencias, mientras que las zonas periféricas o rurales siguen acumulando carencias múltiples.

4. Sectores y grupos más impactados
Los hogares encabezados por mujeres, aquellos con personas adultas mayores, con personas con discapacidad, con niñas, niños o adolescentes, así como familias indígenas o con jefatura indígena, presentan mayor riesgo de inseguridad alimentaria y múltiple vulnerabilidad, especialmente cuando combinan carencias de ingreso, servicios y acceso a apoyos. Esto coincide con los factores asociados identificados por ENSANUT Continua 2020-2024 para inseguridad alimentaria: jefatura femenina, tamaño del hogar, falta de apoyos.

Los niños(as) y adolescentes en estas condiciones pueden presentar rezago nutricional, académico o de desarrollo, lo que profundiza las desigualdades intergeneracionales.
Las áreas institucionales más afectadas son aquellas responsables de asistencia social, salud y seguridad alimentaria municipal —es decir, los programas y servicios dirigidos a bienestar social, nutrición, apoyo comunitario y protección social deben atender una demanda elevada y persistente.

Evolución del problema

1. Cambios recientes en indicadores de pobreza, carencias y alimentación
En 2018, de acuerdo con el medición de pobreza por ingresos del CONEVAL, en Oaxaca una proporción significativa de la población tenía ingresos por debajo del costo de la canasta alimentaria.
Entre 2018 y 2020, aunque los indicadores de pobreza por ingreso mostraron alguna mejoría a nivel estatal, las carencias sociales —como acceso a servicios de salud y otros derechos sociales— se mantuvieron o incluso aumentaron. En particular, la población considerada como "vulnerable por carencias" creció en cerca de 2 puntos porcentuales.

En 2022, a nivel nacional, la pobreza multidimensional disminuyó en relación con 2018 —pasando de 41.9 % a 36.3 %— lo que se traduce en una reducción de personas en situación de pobreza.
redaccionoaxaca.com
Sin embargo, para Oaxaca, los reportes más recientes (2024–2025) indican que más de la mitad de la población estatal sigue viviendo en condición de pobreza (51.6 %).

En 2023, los indicadores de rezago social siguen siendo elevados: según el Informe anual sobre la situación de pobreza y rezago social, un porcentaje sustancial de la población estatal registra carencias múltiples (salud, servicios básicos, ingreso, entre otros).
Estos datos muestran que, si bien ha habido fluctuaciones —y en algunos períodos leves mejoras monetarias—, las carencias sociales asociadas al bienestar, alimentación, salud y servicios han persistido, y la pobreza multidimensional continúa afectando de forma sistemática a una parte significativa de la población.

2. Factores que explican la evolución observada
Algunos factores que ayudan a explicar esta dinámica incluyen:
La mejora de ingresos por empleo o transferencias sociales ha sacado a un número de personas de la pobreza por ingreso, pero no ha erradicado las carencias sociales estructurales (servicios de salud, agua, vivienda, acceso a alimentación nutritiva). Esto implica que aunque hay ingresos, no siempre se traduce en bienestar integral.
El crecimiento demográfico y la persistencia de desigualdades territoriales y sociales han impedido que los beneficios de políticas generales lleguen de forma homogénea a todas las zonas, lo que reproduce la vulnerabilidad en sectores específicos.
Problemas estructurales de marginación, falta de servicios públicos, insuficiente cobertura social, discriminación y vulnerabilidad histórica de ciertos grupos (población indígena, zonas rurales, hogares con jefatura femenina, personas adultas mayores) han generado que las mejoras monetarias no modifiquen profundamente sus condiciones de vida.

3. Persistencia e incluso complejidad creciente del problema social
Aunque hubo avances relativos en algunos indicadores monetarios, la pobreza multidimensional, las carencias sociales, la inseguridad alimentaria y la marginación estructural mantienen su vigencia con intensidad. La evolución reciente sugiere que el problema no desaparece, sino que se ha transformado y diversificado: ya no sólo se trata de pobreza por ingreso, sino de pobreza estructural que combina carencias de salud, servicios, acceso al alimento y desigualdades territoriales.
Por ello, las medidas que solo consideran ingresos resultan insuficientes —es indispensable una intervención integral, focalizada y sostenida, que atienda las diversas dimensiones del bienestar.

4. Implicaciones para la pertinencia del Programa Presupuestario
La persistencia de rezagos sociales y carencias múltiples valida la necesidad de mantener y fortalecer el Programa Bienestar Integral para Grupos de Atención Prioritaria, porque el problema no se ha superado: ha cambiado en su forma y exige respuestas más complejas.
La evolución del problema exige un enfoque más amplio: no basta con apoyos monetarios o de emergencia, sino acciones integrales que aborden alimentación, salud, servicios, inclusión social, atención a grupos vulnerables y desigualdades territoriales.
Los indicadores de pobreza, carencias sociales y vulnerabilidad deben servir como línea base y como variables de seguimiento del programa, para medir impacto real en bienestar, reducción de carencias y mejora de condiciones de vida.

5. Conexión con los objetivos del PMD 2025–2027 e indicadores del programa
Dado que el problema ha mostrado persistencia y complejidad en múltiples dimensiones, el programa se vuelve aún más relevante para cumplir con los objetivos del Plan Municipal de Desarrollo 2025–2027 orientados a reducción de desigualdades, bienestar social, inclusión y acceso universal a servicios. El monitoreo de su eficacia deberá contemplar indicadores como: porcentaje de población de grupos vulnerables con seguridad alimentaria, reducción de carencias sociales, acceso a servicios de salud, vivienda digna, entre otros, los cuales estarán directamente vinculados con la mejora del bienestar integral.

Experiencias de atención

Entre 2020 y 2024 se desarrollaron diversas acciones, programas y proyectos orientados a reducir la vulnerabilidad social, fortalecer el acceso a apoyos alimentarios y promover la inclusión de grupos de atención prioritaria en el municipio. Estas acciones fueron implementadas principalmente por el DIF Municipal, en coordinación con otras áreas del Ayuntamiento y dependencias estatales o federales.

1. Acciones y programas implementados (2020–2024)
a) Programas alimentarios y de asistencia social (DIF Municipal)
El DIF Municipal implementó de manera continua programas de distribución de apoyos alimentarios, raciones familiares y suplementos nutricionales dirigidos a:
Personas adultas mayores en situación de vulnerabilidad.
Niñas, niños y adolescentes, especialmente en colonias de mayor rezago.
Personas con discapacidad.
Familias con ingresos insuficientes o afectadas por emergencias.
Objetivo: contribuir a la seguridad alimentaria y disminuir la limitación en el consumo de alimentos.

b) Desayunos escolares fríos y calientes (DIF Estatal + DIF Municipal)
Coordinado con el DIF Estatal de Oaxaca, el DIF Municipal operó la entrega de desayunos escolares en planteles de educación básica, priorizando zonas con carencias sociales.
Objetivo: mejorar el estado nutricional y el rendimiento escolar de la población infantil.

c) Jornadas de atención comunitaria
Las áreas del DIF Municipal realizaron jornadas móviles de servicios, que integraron asesoría jurídica, atención psicológica, orientación social y detección de condiciones de vulnerabilidad.
Objetivo: acercar servicios a colonias periféricas y agencias municipales con limitado acceso a servicios institucionales.

d) Programas de apoyo humanitario durante la pandemia (2020–2022)
Durante la emergencia sanitaria, se implementaron acciones extraordinarias, como:
Entrega de paquetes alimentarios.
Apoyos emergentes a familias afectadas por pérdida de empleo.
Acompañamiento a personas que requerían servicios asistenciales urgentes.
Objetivo: mitigar los efectos socioeconómicos derivados de la contingencia.

e) Vinculación con organizaciones civiles
Se llevaron a cabo colaboraciones con organizaciones comunitarias y asociaciones civiles para fortalecer la atención a grupos en riesgo, mediante comedores comunitarios, campañas de salud y talleres de cuidado familiar.

2. Resultados y avances alcanzados
A partir de reportes administrativos del DIF Municipal y datos estatales disponibles, se identifican avances relevantes:
Entre 2021 y 2023 se distribuyeron miles de raciones alimentarias anualmente, logrando cobertura en decenas de colonias de alta marginación.
Los programas de desayunos escolares atendieron a un número significativo de niñas y niños, con incrementos porcentuales de cobertura en planteles de zonas rurales y periurbanas.
Las jornadas comunitarias ampliaron la presencia institucional en agencias municipales y colonias periféricas, atendiendo a miles de personas con servicios integrales.
Tras la pandemia, se logró recuperar y estabilizar la operación regular de programas alimentarios, manteniendo la continuidad pese a las presiones presupuestales.
Se documentaron mejoras en la detección temprana de casos de vulnerabilidad, gracias a la coordinación interdepartamental.
Aunque no todos los programas contaron con evaluaciones externas formales, los reportes del DIF y áreas municipales muestran incrementos sostenidos en cobertura y focalización.

3. Dificultades y limitaciones de las acciones pasadas
Las experiencias de atención también evidenciaron desafíos relevantes:
Insuficiencia presupuestaria, especialmente en los años posteriores a la pandemia, que limitó la expansión de apoyos alimentarios.
Rotación de personal en áreas operativas, que dificultó la consolidación de equipos técnicos y la continuidad de metodologías de atención.
Brechas tecnológicas y ausencia de sistemas de seguimiento digitalizados, lo que complicó el control estadístico y la trazabilidad de beneficiarios.
Cobertura limitada en colonias y agencias de difícil acceso o con baja participación comunitaria.
Coordinación irregular con dependencias estatales o federales debido a cambios administrativos frecuentes.
Estas limitaciones afectaron la capacidad de los programas para escalar y sostener logros en el mediano plazo.

4. Lecciones aprendidas y áreas de mejora incorporadas al Programa
Las experiencias 2020–2024 dejaron aprendizajes clave que fortalecen el diseño del Programa Presupuestario actual:
La necesidad de sistemas de registro y monitoreo más sólidos para mejorar la focalización y evitar duplicidades.
La importancia de territorializar la intervención, priorizando colonias y agencias con mayor rezago y adaptando la logística según accesibilidad.
La conveniencia de integrar servicios complementarios (orientación psicológica, jurídica, trabajo social) en la entrega de apoyos alimentarios.
La utilidad de alianzas interinstitucionales, tanto con dependencias públicas como con organizaciones de la sociedad civil, para ampliar capacidades de atención.
El beneficio de mantener equipos operativos capacitados, con protocolos de atención estandarizados.
El Programa Presupuestario 2025–2027 incorpora estas mejoras en su estructura operativa, lineamientos y mecanismos de seguimiento.

5. Referencias de buenas prácticas de otros municipios
Para fortalecer el diseño del programa local, se consideran experiencias exitosas como:
Comedores comunitarios autosustentables implementados en municipios de Puebla y Jalisco, que integran participación vecinal y seguimiento nutricional.
Modelos de brigadas integrales de bienestar aplicados en Mérida y León, donde los servicios se concentran territorialmente y se coordinan entre dependencias.
Sistemas municipales de información social utilizados en Monterrey y Querétaro, que permiten identificar hogares vulnerables mediante indicadores georreferenciados.
Estas prácticas demuestran la importancia de la gestión comunitaria, la integración de servicios y el monitoreo continuo, elementos adaptados en el diseño actual del Programa Municipal.

1.2 Metodología para la identificación de la población objetivo y definición de fuentes de información

De acuerdo con el último Censo de Población y Vivienda realizado por el Instituto Nacional de Estadística y Geografía (INEGI) en 2020, la población total del municipio de Oaxaca de Juárez asciende a 270,955 personas (INEGI, 2020).

Definición y cuantificación de los			
Población Potencial	160 000 – 180 000 personas	**Cuantificación:**	La estimación de población potencial se basa en la proporción estatal/municipal de población con carencias sociales, según dato de CONEVAL para 2020: en el municipio relevante, por ejemplo, cerca del 49.6 % presentaba carencia de "servicios básicos en vivienda", 59.3 % tenía otras carencias, lo que indica una población potencial amplia.
		Criterios de Focalización	Hogares con pobreza o carencias sociales; colonias/agencias con rezago; personas en situación de vulnerabilidad social (adultos mayores, personas con discapacidad, familias con bajos ingresos, jefatura femenina, población indígena)
Población Objetivo	25 000 – 35 000 personas	**Cuantificación:**	La población objetivo busca focalizar las acciones en las zonas más rezagadas, ya que la vulnerabilidad no está distribuida homogéneamente: existe una concentración espacial en colonias, agencias o áreas con mayor marginación
		Criterios de Focalización	Subconjunto de la población potencial que reside en colonias, agencias o zonas de mayor marginación, con alta prevalencia de carencias (servicios, alimentación, salud, vivienda); priorización a grupos vulnerables: niños/as, adultos mayores, personas con discapacidad, familias con ingresos bajos
Población atendida (beneficiarios)	5 000 – 10 000 personas	**Cuantificación:**	Meta programada derivada de la capacidad de atención de las areas del Comité Municipal del Sistema para el Desarrollo Integral de la Familia.
		Criterios de Focalización	Focalización por: edad (niñez y adultos mayores), discapacidad, ingreso y colonia prioritaria.

INEGI, Censo de Población y Vivienda 2020.
CONEVAL, Medición de Pobreza Multidimensional 2020 y 2022.
IMPLAN Municipal, Diagnóstico Socioespacial 2024–2025.
ENSANUT 2020–2022, Inseguridad alimentaria en hogares.
Diagnósticos administrativos del DIF Municipal (2021–2024).

Causas

EFECTOS INDIRECTOS
- Reproducción del ciclo de pobreza y exclusión social
- Enfermedades crónicas o desnutricion a largo
- Reduccion de oportunidades educativas y laborales
- Mayor desigualdad terntorial y fragmentación social
- Disminución del desarrollo humano y comunitario

EFECTOS DIRECTOS
- Deterioro del estado de salud y nutricion
- Menor bienestar fisico y emocional
- Aumento de la de dependencia de apooyos sociales
- Confexto económico adverso
- Debil articulación interinstitucional

CAUSAS

Persistencia de condicipnes de vulnerabilidad en los grupos de atencion prioritaria, caracterizala por inseguridad alimen taria y limitacion en el consumo de alimentos.

CAUSAS

CAUSAS DIRECTAS
- Insuficiencia de ingresos
- Acceso limitado a apoyos alimentarios
- Cobertura institucional insuficiente
- Barréras para acceder a servicios basicos

CAUSAS INDIRECTAS
- Desigualdad territorial y rezago economico
- Falta de redes de apoyo social
- Marginacion hisforica de grupos vulnerables
- Contexto economico adverso
- Débli articulación interinsti- tucional

Árbol de Objetivos

Fines	Interrupción del ciolo de pobreza y exclusión social Prevención de enfermedades y desnutrición Ampliación de oportunidades educativas laborales Reducción de desigualdad territorial y cohesión social
Objetivo	Superación de condiciones de vulnerabilidad en grupos de atención prioritaria, mediante seguridad alimentaria y consumo adecuado de alimentos
Medios	Incremento de ingresos familiares Ampliación de acceso a apoyos alimentarios Eliminación de barreras a servicios basicos Reducción del rezago económico y tèntritorial
	Ampliación de acceso a apoyos alimentarios Mejora de cobertura institucionral Fortalecimiento de la articulación interinstitucional Ampliación y mejora de infraestructura y servicios urbanos

2. Estrategia para la selección de alternativas.

La selección de alternativas para el Programa Presupuestario Bienestar Integral para Grupos de Atención Prioritaria se efectuó con base en el diagnóstico institucional y en los árboles de problemas y de objetivos elaborados mediante la Metodología del Marco Lógico. A partir de dicho análisis se identificaron diversas opciones de intervención derivadas de las causas directas e indirectas detectadas, valorando su viabilidad técnica, operativa, institucional y presupuestaria. Entre estas alternativas se consideraron enfoques centrados en ampliación de cobertura, fortalecimiento de apoyos alimentarios, desarrollo comunitario, coordinación interinstitucional y modelos de atención integral.

Del análisis comparativo se determinó que la alternativa más viable corresponde al fortalecimiento de la asistencia social integral, combinada con la mejora en la focalización territorial y sociodemográfica, la ampliación gradual de apoyos y la articulación de servicios complementarios para los grupos de atención prioritaria. Esta estrategia permite actuar directamente sobre las causas que originan la vulnerabilidad alimentaria y social, garantizando una intervención efectiva dentro de las capacidades institucionales del DIF Municipal.

La estrategia seleccionada se implementará mediante la ejecución directa de los componentes y actividades del Programa Presupuestario, apoyada por mecanismos de coordinación interinstitucional, seguimiento operativo y evaluación periódica de resultados. Finalmente, la alternativa elegida se encuentra plenamente alineada con el Eje Estratégico de Bienestar Social del PMD 2025–2027, así como con los niveles jerárquicos de planeación del Programa (Fin, Propósito, Componentes y Actividades), asegurando coherencia con la política municipal de reducción de desigualdades y fortalecimiento del bienestar comunitario.

1. Diagnóstico del Programa presupuestario

1.1 Descripción del Problema

Antecedentes y definición del problema

El municipio de Oaxaca de Juárez es un centro administrativo y de servicios que concentra instituciones públicas responsables de la prestación de seguridad social a las y los trabajadores municipales. En este entorno, la Dirección de Pensiones Municipales cumple un papel fundamental al garantizar la protección económica de quienes han dedicado su vida laboral al servicio público local, así como de sus familias. La dinámica institucional del municipio implica una atención constante a una población en crecimiento que demanda servicios de administración de pensiones, orientación previsional, trámites oportunos, actualización de expedientes, gestión de retiros y acciones de acompañamiento para asegurar transiciones laborales y jubilatorias dignas.

Con base en la normatividad vigente, la Dirección de Pensiones Municipales es la instancia encargada de administrar y supervisar el régimen municipal de pensiones, velando por la transparencia en el manejo de recursos, la correcta integración de expedientes laborales, el cálculo adecuado de prestaciones y la implementación de mecanismos que garanticen sostenibilidad financiera del sistema. Su actuación está directamente vinculada con la estructura demográfica del personal municipal, el comportamiento de la plantilla laboral y los factores financieros que influyen en la viabilidad del fondo de pensiones.

La evidencia administrativa y estadística muestra un panorama retador para el sistema municipal de pensiones. El personal en edad próxima a jubilación ha aumentado, lo que genera una presión creciente sobre el fondo y exige fortalecer los procesos técnicos de cálculo actuarial, planeación financiera y seguimiento presupuestario. Asimismo, se identifican rezagos históricos en la actualización de expedientes, diferencias en la documentación laboral, dispersión de información entre áreas administrativas y necesidad de fortalecer la cultura previsional entre las y los trabajadores activos.

A ello se suma la existencia de trabajadores con trayectorias laborales complejas —incluyendo movilidad entre dependencias, contratación por diferentes regímenes o periodos de intermitencia— lo que requiere procesos especializados para garantizar pensiones justas y correctamente calculadas. También se atiende a personas pensionadas que requieren servicios continuos, tales como actualización de datos, gestión de beneficiarios y comprobación de supervivencia.

En este contexto, se identifica que **el sistema municipal de pensiones enfrenta desafíos relacionados con la sostenibilidad financiera, la modernización administrativa, la correcta integración de expedientes laborales y la creciente carga de trabajo asociada al incremento de solicitudes de jubilación**. Estas problemáticas deben incorporarse en las políticas públicas y en la planeación programática para garantizar la protección social de las y los trabajadores municipales. El enfoque planteado es coherente con los objetivos de la Dirección de Pensiones Municipales y orienta el diseño del programa presupuestario hacia acciones de fortalecimiento administrativo, profesionalización del personal, digitalización de expedientes, mejora en la atención a usuarios, planeación financiera, transparencia y garantía del derecho a una pensión digna para la población trabajadora del municipio.

Justificación del Pp
La asignación presupuestaria a la Dirección de Pensiones Municipales es indispensable para garantizar el cumplimiento de las obligaciones legales del municipio en materia de seguridad social, así como para asegurar la correcta administración del régimen de pensiones que protege a las y los trabajadores municipales y a sus beneficiarios. La operación eficiente del sistema requiere recursos suficientes que permitan sostener procesos técnicos, administrativos y financieros orientados a garantizar pensiones oportunas, justas y correctamente calculadas. La Dirección de Pensiones Municipales cuenta con facultades expresas para atender esta problemática. El Bando de Policía y Gobierno del Municipio de Oaxaca de Juárez reconoce a la Dirección como el órgano responsable de administrar el régimen municipal de pensiones, con atribuciones para integrar expedientes laborales, validar derechos, calcular prestaciones, gestionar la nómina de pensionados y asegurar la correcta aplicación del marco jurídico en materia previsional. Estas competencias la posicionan como la instancia directa para diseñar e implementar acciones que fortalezcan la administración del sistema, mejoren sus procesos y garanticen transparencia y sostenibilidad financiera. Asimismo, el Programa Presupuestario se vincula directamente con el Plan Municipal de Desarrollo 2025–2027, particularmente con: Objetivo 2.3 Generar finanzas publicas sanas en el municipio Estrategia 2.3.3 Fortalecer la gestión financiera del municipio Linea 2.3.3.2 Otorgar las prestaciones sociales a personas pensionadas y jubiladas del municipio
Estado actual del problema
El análisis de los estados financieros, la evolución de la plantilla laboral y los registros administrativos de la Dirección de Pensiones Municipales evidencia que el sistema enfrenta desafíos estructurales relacionados con el aumento progresivo del gasto en pensiones, el crecimiento de la población beneficiaria y la necesidad de fortalecer los mecanismos de planeación y seguimiento financiero. Durante los últimos años, el número de personas solicitantes de pensión ha mostrado un incremento constante. Tan solo en 2025 se registraron 94 solicitudes de pensión, cifra que, si bien es menor a ejercicios anteriores, mantiene la tendencia gradual derivada del envejecimiento de la plantilla municipal. Este comportamiento incrementa el monto total de obligaciones económicas del sistema y exige contar con proyecciones financieras precisas que permitan anticipar compromisos futuros y evaluar la capacidad de sostenimiento del fondo. Asimismo, se identifican desafíos financieros derivados de la insuficiencia histórica de aportaciones y de la variabilidad presupuestaria, factores que han limitado la consolidación de reservas suficientes para garantizar estabilidad en el largo plazo. Otro aspecto relevante es la necesidad de fortalecer las herramientas de planeación actuarial y análisis financiero, elementos indispensables para evaluar la viabilidad del sistema a futuro. Aunque se han realizado ejercicios previos, la dinámica demográfica del personal municipal, la evolución del gasto previsional y la tendencia al incremento de solicitudes de retiro hacen imprescindible contar con estudios actualizados que identifiquen riesgos, estimen obligaciones y orienten decisiones estratégicas sobre aportaciones, manejo de reservas y requerimientos presupuestarios.

Evolución del problema
la evolución reciente evidencia que las aportaciones municipales no han crecido al mismo ritmo que las obligaciones previsionales, generando una brecha estructural entre los recursos disponibles y los recursos requeridos para garantizar la solvencia del sistema. Las variaciones en los presupuestos anuales de diferentes dependencias han derivado en aportaciones irregulares durante algunos ejercicios, lo que afecta la capacidad de planear financieramente en el mediano plazo y dificulta la consolidación de reservas estables. Durante este periodo también se ha observado que la ausencia de proyecciones actuariales actualizadas limita la capacidad institucional para anticipar escenarios financieros y adoptar medidas correctivas o preventivas. Aunque el comportamiento del gasto en pensiones es creciente y previsible, la falta de estudios periódicos impide disponer de estimaciones precisas sobre obligaciones futuras, el comportamiento esperado de la población pensionada y las necesidades reales de aportación para mantener la sostenibilidad del sistema. En conjunto, la evolución del problema financiero muestra una tendencia sostenida: - Más personas en proceso de retiro y mayor gasto en pensiones. - Aportaciones insuficientes o irregulares para cubrir obligaciones a largo plazo. - Presión acumulada sobre la liquidez y la planeación presupuestaria anual. - Mayor demanda de información financiera por parte del personal activo. - Falta de estudios actuariales actualizados, lo que impide una planeación estratégica efectiva. Estos elementos confirman que el problema financiero del sistema municipal de pensiones no solo persiste, sino que ha evolucionado hacia un escenario de mayor complejidad y riesgo, lo cual requiere políticas públicas, mecanismos de planeación y acciones institucionales orientadas a garantizar su sostenibilidad a futuro.
Experiencias de atención
Durante 2025, la Dirección brindó atención personalizada a más de 94 trabajadores y trabajadoras que solicitaron asesoría sobre proyecciones económicas para su jubilación, requisitos para acceder a pensión y estimaciones de ingresos futuros. Este volumen de solicitudes evidencia que una proporción creciente del personal municipal requiere información clara y oportuna para planear financieramente su retiro. Lo cual permitió identificar patrones relevantes en la experiencia de los usuarios. La mayoría de las personas en proceso de retiro manifestó la necesidad de contar con orientación previa respecto a los tiempos administrativos, la documentación requerida y las implicaciones financieras de elegir determinada modalidad de pensión. En diversos casos, las personas usuarias señalaron la importancia de fortalecer los mecanismos de comunicación institucional y de contar con servicios de acompañamiento más accesibles para trabajadores municipales. En el ámbito financiero, las consultas recurrentes se relacionaron con inquietudes sobre la sostenibilidad del sistema municipal de pensiones, la seguridad de las aportaciones y la cobertura futura del fondo. Las personas trabajadoras han expresado que, ante la falta de estudios actuariales recientes, existe incertidumbre respecto al comportamiento a mediano plazo de las obligaciones económicas. Estas experiencias de atención reflejan la necesidad de reforzar los canales institucionales de información, así como de generar herramientas que permitan socializar los avances, riesgos y previsiones financieras del sistema.

1.2 Metodología para la identificación de la población objetivo y definición de fuentes de información

De acuerdo con el último Censo de Población y Vivienda realizado por el Instituto Nacional de Estadística y Geografía (INEGI) en 2020, la población total del municipio de Oaxaca de Juárez asciende a 270,955 personas (INEGI, 2020).
Definición y cuantificación de los

	3190 personas	**Cuantificación:**	Total de trabajadores activos del municipio, considerando únicamente a aquellos que mantienen una relación laboral vigente y registran percepciones en la nómina municipal

Población Potencial		**Criterios de Focalización**	el total de trabajadores del municipio, considerados como la población objetivo al formar parte del sistema de aportaciones y obligaciones laborales que inciden directamente en la sostenibilidad financiera y operativa de la Dirección de Pensiones Municipales. Esta población representa el universo sobre el cual se determinan necesidades, riesgos y proyecciones presupuestales.
Población Objetivo	462 personas	**Cuantificación:**	Con base en los registros actuales, se identifica un total de **462 personas** que cumplen con los criterios de edad y antigüedad laboral necesarios para acceder a una pensión. Esta cifra representa el grupo inmediato con posibilidad de retiro dentro del periodo evaluado.
		Criterios de Focalización	Este grupo concentra el mayor impacto operativo y financiero para la Dirección de Pensiones, por lo que se considera objetivo directo del análisis y la atención institucional.
Población atendida (beneficiarios)	909 beneficiarios	**Cuantificación:**	Actualmente la Dirección de Pensiones cuenta con 909 personas jubiladas y pensionadas
		Criterios de Focalización	Personas trabajadoras del municipio que ya cumplieron los requisitos de jubilación (años trabajados, edad). Personas pensionadas o jubiladas activas del municipio.

2. Estrategia para la selección de alternativas.

Explicar brevemente por qué las medidas que constituirán la intervención del PP son las opciones de acción más efectivas para lograr el objetivo deseado; debe guardar relación con el árbol del objetivo.	La selección de alternativas para la intervención del Programa Presupuestario de la Dirección de Pensiones se realizó a partir del diagnóstico institucional y del árbol de objetivos construido mediante la Metodología del Marco Lógico. El análisis permitió identificar las causas que afectan la gestión financiera, la oportunidad en los pagos, la atención a jubilados y pensionados, y la necesidad de fortalecer los mecanismos de transparencia y modernización administrativa. En este proceso se valoraron diversas opciones de acción, tales como intervenciones centradas únicamente en ajustes presupuestales, medidas de contención del gasto, esquemas de externalización de servicios, así como alternativas basadas únicamente en herramientas tecnológicas sin acompañamiento operativo. Tras la evaluación técnica y operativa, se determinó que la opción más efectiva consiste en una intervención integral, enfocada en fortalecer la administración financiera del fondo de pensiones, garantizar pagos oportunos, mejorar la calidad de atención al derechohabiente, ampliar los mecanismos de transparencia y consolidar la modernización de los sistemas de gestión de información. Esta alternativa fue seleccionada por su mayor capacidad para contribuir directamente al logro del objetivo estratégico: asegurar un sistema de pensiones municipal sostenible, transparente y oportuno, tal como se establece en el árbol de objetivos. Las líneas de acción elegidas permiten incidir en los factores críticos identificados, al mejorar la suficiencia financiera mediante estudios actuariales y controles presupuestales, asegurar el pago puntual de prestaciones mediante procesos claros y conciliaciones periódicas, y elevar la eficiencia administrativa a través de la digitalización de expedientes, actualización de sistemas de nómina y fortalecimiento de los controles internos.

1. Diagnóstico del Programa presupuestario

1.1 Descripción del Problema

Antecedentes y definición del problema

En el municipio de Oaxaca de Juárez persisten condiciones estructurales de desigualdad y violencia que afectan de manera sistemática a las mujeres y explican la necesidad de un programa presupuestario específico. El marco jurídico conformado por la Ley General de Acceso de las Mujeres a una Vida Libre de Violencia, la Ley Estatal de Acceso de las Mujeres a una Vida Libre de Violencia de Género y el Plan Municipal de Desarrollo 2025–2027 establece la obligación de prevenir, atender, sancionar y erradicar la violencia, así como de impulsar políticas públicas que aseguren la igualdad sustantiva. Sin embargo, la respuesta institucional continúa siendo fragmentada, insuficiente y poco articulada para atender de manera efectiva el problema.

La evidencia estadística reciente confirma la magnitud del desafío. En 2024, Oaxaca registró 7,476 mujeres víctimas de delitos de alto impacto, entre ellos 11 feminicidios, más de 4,700 casos de violencia familiar, 510 violaciones y 198 casos de acoso u hostigamiento sexual. A nivel nacional, el 67.5 % de las mujeres —según la ENSU 2025— reporta sentirse insegura en su ciudad, una proporción mayor que la de los hombres. En Oaxaca de Juárez, aunque la percepción de seguridad aumentó de 29.9 % a 41.4 %, persisten riesgos significativos y una elevada cifra de delitos que no se denuncian ni investigan, estimada en más del 90 % de los casos.

Este contexto muestra un problema público formulado negativamente: las mujeres de Oaxaca de Juárez continúan enfrentando altos niveles de violencia, inseguridad y desigualdad, mientras que la capacidad institucional para prevenir, atender y erradicar la violencia permanece limitada. Esta situación afecta su bienestar, autonomía, seguridad y participación plena en la vida comunitaria y económica. Por ello, se requiere un programa presupuestario que asegure recursos, coordinación institucional, acciones de prevención y atención integral, así como un sistema de seguimiento y evaluación que permita resultados verificables y contribuyan a cerrar las brechas de género en el municipio.

Justificación del Pp

El Programa Presupuestario del Instituto Municipal de la Mujer de Oaxaca de Juárez se justifica por atender un problema público prioritario relacionado con la desigualdad de género, la violencia contra las mujeres —que afecta a más del 66 % de ellas en algún momento de su vida— y las barreras que limitan la autonomía y participación de los grupos de atención prioritaria. Su operación deriva de obligaciones establecidas en la Ley Orgánica Municipal del Estado de Oaxaca (arts. 43, 44 y 48), así como en el Reglamento Interno y el Manual de Organización del Instituto, que le confieren competencia para diseñar, coordinar y ejecutar acciones especializadas en prevención, atención, acompañamiento psicosocial y transversalización de la perspectiva de género.

El programa institucionaliza y articula los servicios municipales mediante objetivos, indicadores y mecanismos de seguimiento que fortalecen la rendición de cuentas conforme a los lineamientos del IMPLAN, optimizan el uso del gasto público y garantizan intervenciones focalizadas en población con mayores brechas de desigualdad. Sus acciones inciden directamente en la reducción de riesgos, la atención oportuna, la mejora del bienestar y la cohesión social, al fortalecer la capacidad institucional para responder de manera integral a la problemática.

Asimismo, el programa se alinea con el Plan Municipal de Desarrollo 2025–2027, en el Eje de igualdad y bienestar; el Objetivo orientado a garantizar una vida libre de violencia para las mujeres; y la Estrategia de fortalecimiento de servicios especializados y coordinación interinstitucional. Con ello, contribuye al cumplimiento de mandatos legales, a la gobernabilidad local y al ejercicio efectivo de los derechos de las mujeres del municipio.

Estado actual del problema
El estado actual del problema en el municipio de Oaxaca de Juárez muestra que persisten condiciones significativas de violencia de género y desigualdad que afectan la seguridad, el bienestar y las oportunidades de desarrollo de las mujeres. La incorporación de la igualdad sustantiva como eje transversal en el Plan Municipal de Desarrollo 2025–2027 evidencia el reconocimiento institucional de estas brechas y de su impacto en la vida cotidiana y en la participación económica, social y comunitaria de las mujeres del municipio. Los datos más recientes refuerzan la magnitud del problema. De acuerdo con la Encuesta Nacional de Seguridad Pública Urbana (ENSU) 2023–2024, Oaxaca de Juárez se ha mantenido entre las ciudades con mayor percepción de inseguridad para las mujeres, especialmente en espacios como transporte público y calles. La Fiscalía General del Estado registró entre 2023 y 2024 incrementos en denuncias por violencia familiar, lesiones y delitos sexuales en agencias como Santa Rosa Panzacola, San Juan Chapultepec y Montoya, lo que evidencia una distribución territorial desigual del riesgo. Asimismo, información del INEGI muestra que las mujeres del municipio mantienen brechas laborales significativas: menor tasa de participación económica, mayores niveles de informalidad y menor ingreso promedio respecto a los hombres, tendencia persistente al corte de 2024. Estas condiciones se agravan para mujeres indígenas, jóvenes, adultas mayores y mujeres en situación de violencia reiterada, quienes enfrentan mayores niveles de vulnerabilidad y menor acceso a servicios especializados. A la evidencia cuantitativa se suma información cualitativa generada por reportes institucionales y consultas comunitarias, que señalan dificultades recurrentes para acceder a servicios de atención, falta de acompañamiento integral y percepción de insuficiencia en la cobertura territorial de acciones de prevención y atención. En conjunto, estos elementos muestran que la violencia de género, las brechas de participación y las desigualdades socioeconómicas continúan afectando de manera diferenciada a diversos grupos de mujeres, con mayor intensidad en zonas específicas del municipio. Esta situación demanda intervenciones
Evolución del problema
La evolución del problema muestra que la desigualdad de género y la violencia contra las mujeres en el municipio de Oaxaca de Juárez no son fenómenos recientes, sino condiciones históricas que han persistido a pesar de avances normativos y una creciente visibilización pública. En los últimos cinco años, la magnitud del problema ha mostrado variaciones, pero sin una disminución sostenida. Datos del SESNSP indican que entre 2019 y 2023 las denuncias por violencia familiar en el municipio aumentaron en alrededor del 28 %, mientras que los delitos sexuales registraron un crecimiento acumulado cercano al 18 %, con mayor concentración en agencias como Montoya, Pueblo Nuevo y San Martín Mexicapam. Por su parte, la ENDIREH 2021 reportó que 7 de cada 10 mujeres oaxaqueñas han experimentado algún tipo de violencia a lo largo de su vida, una prevalencia que se ha mantenido elevada desde ejercicios anteriores. En materia económica, los registros de la ENOE muestran que la brecha de participación laboral entre hombres y mujeres en Oaxaca se redujo solo marginalmente entre 2020 y 2024 (de 23 % a 21 %), mientras que la brecha salarial se ha mantenido prácticamente constante, con ingresos femeninos entre 12 % y 15 % menores en promedio. Además, la informalidad laboral afecta desproporcionadamente a las mujeres jóvenes y a las mujeres indígenas, quienes enfrentan mayores barreras para acceder a empleos formales y servicios de seguridad social. Estas tendencias reflejan que las desigualdades estructurales persisten y que los grupos de atención prioritaria continúan expuestos a limitaciones que obstaculizan su participación plena en la vida social, económica y comunitaria. La evolución del fenómeno también se explica por factores socioculturales y cambios institucionales. La mayor denuncia y visibilización de la violencia responde, en parte, a la movilización social de colectivas feministas y organizaciones comunitarias, así como al fortalecimiento progresivo de marcos legales como la LGAMVLV y la reforma a la Ley Estatal de 2024. Sin embargo, estos avances han convivido con limitaciones operativas en el ámbito municipal, entre ellas la insuficiente articulación interinstitucional, capacidades institucionales variables, cobertura territorial desigual y falta de mecanismos sistemáticos de seguimiento y evaluación. Esto ha impedido que los avances normativos se traduzcan plenamente en mejoras sostenidas en las condiciones de las mujeres. En este contexto, la incorporación del eje transversal de Igualdad Sustantiva en el PMD 2025–2027 confirma que el municipio reconoce la persistencia del problema y la necesidad de intervenir con un enfoque estratégico. La trayectoria histórica del fenómeno, las tendencias cuantitativas y las demandas crecientes de atención especializada justifican la pertinencia del Programa Presupuestario del Instituto Municipal de la Mujer, ya que este permite institucionalizar la respuesta municipal, orientar recursos de manera focalizada y dar seguimiento al cambio esperado en el mediano plazo. El programa se configura así como un instrumento indispensable para enfrentar las brechas de género que continúan afectando a las mujeres del municipio y para atender de manera prioritaria a los grupos que enfrentan mayores barreras estructurales.

Experiencias de atención
Las experiencias de atención desarrolladas por el Instituto Municipal de la Mujer de Oaxaca de Juárez entre 2020 y 2024 muestran un avance progresivo en la prestación de servicios especializados, aunque con limitaciones operativas y de cobertura que han condicionado su impacto. Durante este periodo, el Instituto implementó servicios de orientación y acompañamiento integral a mujeres en situación de violencia, registrando entre 2021 y 2023 un promedio anual estimado de 1,200 a 1,500 atenciones psicológicas, 450 asesorías jurídicas y más de 300 canalizaciones a instancias como Fiscalía, DIF Municipal y servicios de salud. Paralelamente, se llevaron a cabo acciones de fortalecimiento comunitario, incluyendo ciclos de capacitación sobre prevención de violencia y derechos humanos de las mujeres, con aproximadamente 80 a 100 talleres por año, alcanzando a más de 3,500 mujeres y adolescentes en agencias como Candiani, Pueblo Nuevo, Dolores y San Juan Chapultepec. En materia de autonomía económica, el Instituto operó programas de formación productiva y vinculación laboral, beneficiando entre 2020 y 2024 a más de 900 mujeres mediante cursos de emprendimiento, educación financiera, alfabetización digital y articulación con programas estatales y federales. Estas intervenciones permiten identificar patrones relevantes para el rediseño del Programa Presupuestario. En términos de resultados, los registros muestran una mayor demanda de atención psicológica y jurídica, reflejando la persistencia de la violencia y la necesidad de fortalecer capacidades institucionales para ofrecer acompañamientos prolongados. Asimismo, se identificaron avances en la generación de redes comunitarias de apoyo y en la participación de mujeres jóvenes e indígenas en actividades formativas. Sin embargo, también se observaron limitaciones significativas: insuficiencia de personal especializado para cubrir la demanda en periodos de alta incidencia; dificultades de coordinación interinstitucional, particularmente en la canalización y seguimiento de casos; carencias presupuestarias que afectaron la continuidad de proyectos productivos; y falta de mecanismos sistemáticos de evaluación para medir impacto territorial y perfiles de beneficiarias. Las lecciones aprendidas indican la necesidad de fortalecer la profesionalización del personal, ampliar la cobertura territorial hacia zonas con mayores índices de violencia —como Montoya, San Martín Mexicapam y Santa Rosa Panzacola—, consolidar rutas de atención con instituciones estatales y federales, e incorporar tecnologías de información para mejorar el registro, seguimiento y análisis de casos. Asimismo, la experiencia muestra la pertinencia de integrar metodologías de intervención situadas culturalmente, especialmente para atender a mujeres indígenas y comunidades con prácticas comunitarias propias.Estas experiencias se complementan con buenas prácticas observadas en otros municipios y entidades, como la creación de Unidades Móviles de Atención, la implementación de ventanillas únicas para mujeres y la integración de sistemas de información homologados. Su revisión sugiere oportunidades de adaptación al contexto local para mejorar eficacia y eficiencia del programa.En conjunto, el análisis de las intervenciones previas y sus resultados aporta evidencia sustantiva que sustenta la necesidad de un Programa Presupuestario fortalecido, con enfoque de resultados, cobertura estratégica, articulación institucional y mecanismos de seguimiento, coherente con los objetivos y estrategias establecidos en el PMD 2025–2027.

1.2 Metodología para la identificación de la población objetivo y definición de fuentes de información

Según datos actualizados de INEGI para el municipio de Oaxaca de Juárez (2020), la población femenina es de aproximadamente 145,103 mujeres.

Definición y cuantificación de los conceptos poblacionales del Pp			
Población Potencial		**Cuantificación:**	La población potencial corresponde al universo total de mujeres que residen en el municipio de Oaxaca de Juárez, que presentan o pueden llegar a presentar condiciones asociadas al problema público, conforme a la definición establecida por los Lineamientos PbR–SED y la metodología de la SHCP. Según el Censo de Población y Vivienda 2020 del INEGI, actualizado con las Proyecciones de Población 2024–2025 (CONAPO), se estima que el municipio de Oaxaca de Juárez cuenta con aproximadamente 134,000 mujeres, equivalentes al 52 % de su población total. Informacón del INEGI (Censo 2020) y CONAPO (Proyecciones 2024–2025).
		Criterios de Focalización	Para efectos del programa, no todas las mujeres del municipio enfrentan el problema público con igual intensidad. Se considera como población potencial a las mujeres que viven en condiciones territoriales, socioeconómicas o sociodemográficas que aumentan su exposición a la violencia y a la desigualdad de género, integrando: Territorio: zonas con mayor incidencia de violencia familiar y violencia sexual según SESNSP 2023–2024: Montoya, San Martín Mexicapam, Pueblo Nuevo, Santa Rosa Panzacola. Sociodemografía: mujeres jóvenes (15–29 años), mujeres adultas mayores (+60), mujeres indígenas y mujeres jefas de hogar. Socioeconómico: mujeres en condición de pobreza o informalidad laboral (con base en medición CONEVAL y ENOE estatal). Se estima, con base en distribución territorial y sociodemográfica del INEGI 2020, que aproximadamente el 60 % de las mujeres del municipio (≈ 80,000) cumplen uno o más criterios de vulnerabilidad y conforman la población potencial ampliada.

Población Objetivo		**Cuantificación:**	La población objetivo corresponde al segmento de la población potencial que presenta directamente el problema público, definida conforme a PbR–SED como el subconjunto “susceptible de ser atendido por el programa”. Se compone de mujeres que cumplen simultáneamente: 1. Condición directa asociada al problema público, como: Violencia de género o riesgo de violencia. Vulnerabilidad económica severa. Barreras de acceso a servicios de atención o justicia. 2. Criterio territorial operativo del Instituto, determinado por: Cobertura efectiva del Instituto (agencias y zonas con presencia operativa). 3.Viabilidad institucional, considerando: Capacidad instalada. Servicios disponibles (jurídico, psicológico, trabajo social). Recursos presupuestarios anuales.
		Criterios de Focalización	Para derivar la población objetivo desde la población potencial (≈ 80,000 mujeres vulnerables), se aplica un criterio metodológico de reducción basado en evidencia local de incidencia de violencia y demanda de servicios: Prevalencia estatal de violencia contra las mujeres: 70.1 % (ENDIREH 2021). Aplicando prevalencia a territorio municipal, se estima que aprox. 56,000 mujeres en Oaxaca de Juárez han vivido violencia. Por disponibilidad operativa del Instituto, históricamente se logra atender entre 1.5 % y 2.5 % del universo vulnerable cada año. Con esta relación metodológica, la población objetivo anual estimada para el programa se ubica entre: 1,000 y 1,400 mujeres por año, considerando capacidad instalada, presupuesto, intensidad de demanda y tipo de servicios especializados proporcionados.
Población atendida (beneficiarios)		**Cuantificación:**	La población atendida corresponde al número de mujeres que recibieron efectivamente alguno de los servicios del Instituto en un periodo determinado, de acuerdo con los Lineamientos PbR–SED. Incluye servicios como: Orientación jurídica Atención psicológica Trabajo social Canalizaciones Talleres de prevención Acciones de autonomía económica Acompañamiento integral en casos de violencia Cuantificación anual Con base en registros institucionales 2021–2023: Atenciones psicológicas: 1,200–1,500 por año Asesorías jurídicas: 420–480 por año Canalizaciones: 250–320 por año Participantes en talleres y capacitaciones: 1,000–1,400 por año Beneficiarias de programas de autonomía económica: 160–220 por año Se estima, integrando sin doble conteo por caso (criterio SHCP): Población atendida anual neta: 2,000–2,400 mujeres cada año

		Criterios de Focalización	Criterios de focalización de la población atendida La población atendida se focaliza según los criterios siguientes: Territorio: agencias con mayor demanda (Montoya, Pueblo Nuevo, San Juan Chapultepec, Santa Rosa). Edad: principalmente mujeres de 15 a 45 años. Condición de riesgo: mujeres que enfrentan violencia física, sexual, económica o psicológica. Tipo de servicio recibido: atención jurídica, psicológica, intervención en crisis, capacitación o apoyo económico. Fuentes de información Registros administrativos del Instituto Municipal de la Mujer (2021–2023). SESNSP, INEGI, ENDIREH, CONAPO.

Árbol de Problemas

Efectos	1. EFECTOS DIRECTOS Falta de atención efectiva a los casos de violencia de género. ↳ Asociado a: protocolos desactualizados y restricciones regulatorias. Subregistro y persistencia de la normalización de la violencia. ↳ Asociado a: datos desagregados insuficientes, indicadores incompletos y débil M&E. Baja confianza y uso reducido de los servicios municipales para mujeres. ↳ Asociado a: brechas de divulgación y barreras culturales/lingüísticas. Fragmentación de servicios y limitada articulación para la atención integral. ↳ Asociado a: débil coordinación interinstitucional con salud, seguridad, justicia y programas sociales. 2. EFECTOS INDIRECTOS Persistencia de brechas de género en ingresos, cuidados, seguridad y participación política. ↳ Consecuencia de la fragmentación de servicios y atención ineficaz. Transmisión intergeneracional de desigualdad y pobreza. ↳ Consecuencia de normalización de la violencia y desprotección institucional. Baja eficiencia presupuestaria y pérdida de oportunidades de financiamiento externo. ↳ Consecuencia de la falta de datos robustos, monitoreo débil y articulación limitada. Reproducción de prácticas institucionales poco efectivas o no basadas en evidencia. ↳ Consecuencia de la ausencia de protocolos actualizados y fallas de coordinación.
	Las mujeres del municipio de Oaxaca de Juárez requieren condiciones institucionales y sociales que garanticen su participación plena y efectiva, así como

Problemática Identificada	Las mujeres del municipio de Oaxaca de Juárez requieren condiciones institucionales y sociales que garanticen su participación plena y efectiva, así como el acceso oportuno y eficaz a servicios de prevención, atención y protección frente a la violencia de género. Sin embargo, persisten barreras estructurales y operativas que limitan el ejercicio de sus derechos, reducen el acceso a servicios especializados y obstaculizan la respuesta integral del gobierno municipal ante la violencia y las desigualdades de género.
Causas	1. CAUSAS DIRECTAS (CONTROLABLES POR EL INSTITUTO) → EFECTOS DIRECTOS 1.1. Débil coordinación interinstitucional con seguridad, salud, justicia y servicios sociales Efecto directo asociado: Fragmentación de servicios y limitada articulación para la atención integral. Efecto indirecto derivado: Persistencia de brechas de género en ingresos, cuidados, seguridad y participación política. 1.2. Protocolos desactualizados y restricciones regulatorias para una atención oportuna Efecto directo asociado: Falta de atención efectiva a los casos de violencia de género. Efecto indirecto derivado: Reproducción de prácticas institucionales poco efectivas y no basadas en evidencia. 1.3. Datos desagregados por sexo limitados, indicadores incompletos y débil monitoreo y evaluación Efecto directo asociado: Subregistro y persistencia de la normalización de la violencia. Efecto indirecto derivado: Baja eficiencia presupuestaria y pérdida de oportunidades de financiamiento externo. 2. CAUSAS INDIRECTAS (ESTRUCTURALES O CONTEXTO SOCIAL) → EFECTOS DIRECTOS 2.1. Brechas de divulgación y barreras culturales/lingüísticas con comunidades indígenas Efecto directo asociado: Baja confianza y uso reducido de los servicios municipales para mujeres. Efecto indirecto derivado: Transmisión intergeneracional de desigualdad y pobreza.

Arbol de Objetivos

Fines	Fines directos Fortalecer la articulación y cobertura de servicios municipales para garantizar una atención integral y coordinada a las mujeres. Incrementar la atención efectiva, oportuna y de calidad en casos de violencia de género. Mejorar el registro, seguimiento y análisis de información sobre violencia y desigualdad de género para la toma de decisiones. Aumentar el acceso y la confianza de las mujeres —incluidas mujeres indígenas y de comunidades con barreras lingüísticas— en los servicios municipales. Fines indirectos Reducir las brechas de género en ingresos, cuidados, seguridad y participación política. Mejorar la capacidad institucional para implementar políticas efectivas basadas en evidencia. Incrementar la eficiencia presupuestaria y las oportunidades de financiamiento externo. Disminuir la transmisión intergeneracional de desigualdades y pobreza mediante servicios efectivos, accesibles y culturalmente adecuados.
Objetivo	Garantizar que las mujeres del municipio de Oaxaca de Juárez accedan de manera plena, oportuna y efectiva a servicios municipales integrales de prevención, atención y protección, mediante el fortalecimiento institucional, la articulación interinstitucional y la adecuación cultural y territorial de las intervenciones.
Medios	Medios directos Fortalecer y formalizar mecanismos de coordinación interinstitucional entre seguridad, salud, justicia y servicios sociales para garantizar respuestas integrales y oportunas. Actualizar y armonizar protocolos, lineamientos y procedimientos operativos para asegurar una atención eficaz, segura y basada en estándares y evidencia. Desarrollar un sistema robusto de información, monitoreo y evaluación con datos desagregados por sexo, territorio y grupo prioritario, para mejorar la planeación y la gestión del programa. Medios indirectos Implementar estrategias de divulgación accesibles, culturalmente pertinentes y multilingües para mejorar el alcance del Instituto en comunidades indígenas y zonas con barreras socioculturales. Reducir brechas informativas y de acceso a los servicios municipales mediante campañas de confianza institucional enfocadas en poblaciones prioritarias.

2. Estrategia para la selección de alternativas.

Explicar brevemente por qué las medidas que constituirán la intervención del PP son las opciones de acción más efectivas para lograr el objetivo deseado; debe guardar relación con el árbol del objetivo.	Las medidas seleccionadas constituyen la opción de intervención más efectiva porque se alinean de manera directa con las causas identificadas en el árbol del problema y activan los medios establecidos en el árbol de objetivos. El fortalecimiento de la coordinación interinstitucional, la actualización de protocolos y la mejora de los sistemas de información corrigen fallas operativas críticas que limitan la capacidad del Instituto para brindar atención oportuna y basada en evidencia. Paralelamente, las acciones de divulgación, sensibilización y pertinencia cultural reducen barreras socioculturales que restringen el acceso de mujeres, particularmente de grupos prioritarios. Estas intervenciones generan los medios necesarios para mejorar la cobertura, calidad y efectividad de los servicios municipales, contribuyendo al logro del objetivo central y de los efectos deseados: mayor confianza usuaria, reducción de brechas de desigualdad y fortalecimiento institucional. Su diseño responde al enfoque de resultados exigido por los lineamientos PbR–SED y garantiza la coherencia entre problemática, objetivos y acciones del programa.

1. Diagnóstico del Programa presupuestario

1.1 Descripción del Problema

Antecedentes y definición del problema

El municipio de Oaxaca de Juárez forma parte de una zona metropolitana con dinámicas urbanas, sociales y administrativas complejas, que demandan una gestión pública articulada, con capacidad de coordinación interinstitucional y con instrumentos de planeación actualizados y funcionales. En este contexto, la administración municipal enfrenta retos asociados a la dispersión normativa, la heterogeneidad territorial, el crecimiento urbano desordenado y la presión creciente sobre los servicios públicos, factores que exigen procesos de planeación estratégicos, participativos y orientados a resultados.

Entre los factores estructurales que inciden en estas dificultades destacan: limitaciones institucionales para el diseño e implementación de instrumentos de planeación; insuficiencia de mecanismos de seguimiento y evaluación del desempeño; brechas en la profesionalización del personal; y una participación ciudadana aún incipiente en la definición de prioridades públicas. Asimismo, las demandas urbanas emergentes —como movilidad, seguridad, gestión del agua y residuos— requieren decisiones basadas en evidencia y en metodologías de análisis consistentes.

En este marco, se identifica como problemática central que la administración pública municipal presenta deficiencias en la planeación participativa, el seguimiento y la evaluación, lo cual limita el desempeño gubernamental, afecta la calidad de las decisiones y reduce la capacidad institucional para dirigir los recursos hacia resultados concretos y verificables. De acuerdo con el Diagnóstico PbR-SED 2025 del municipio de Oaxaca de Juárez, el nivel de implementación del modelo se ubicó en 34.6%, evidenciando un retroceso respecto a 2024 (43.2%) y 2023 (47.3%). La sección de evaluación del desempeño mantiene un 0%, derivado de la ausencia de evaluaciones sistemáticas a los programas presupuestarios. Estos datos confirman la persistencia de brechas en el ciclo de gestión para resultados, particularmente en el uso de información para mejorar la eficacia del gasto público.

La falta de articulación entre la planeación institucional, la programación-presupuestación y el monitoreo de resultados genera repercusiones sociales, económicas e institucionales. Entre las consecuencias destacan: decisiones públicas con menor efectividad, priorización poco alineada con las problemáticas reales, menor transparencia en la asignación de recursos, debilitamiento de la confianza ciudadana y dificultades para construir políticas públicas de largo plazo. De no atenderse, el municipio enfrenta el riesgo de continuar operando con instrumentos desactualizados, con procesos de seguimiento fragmentados y con una limitada capacidad para demostrar avances ante la ciudadanía.

Justificación del Pp

Lo anterior justifica la necesidad de contar con un programa presupuestario que fortalezca la planeación participativa, el seguimiento y la evaluación, con el fin de mejorar la eficacia, la transparencia y el desempeño institucional del municipio. El Gobierno Municipal debe intervenir porque las deficiencias identificadas afectan directamente la capacidad de orientar el gasto público hacia resultados verificables, reducen la efectividad de las decisiones y limitan la posibilidad de responder con oportunidad a las demandas urbanas y sociales de la ciudadanía. La evidencia reciente del Diagnóstico PbR–SED muestra un retroceso en la implementación del modelo —de 47.3 % en 2023 a 34.6 % en 2025— y la permanencia de un 0 % en la evaluación del desempeño, lo que confirma la urgencia de fortalecer los mecanismos institucionales de planeación y gestión orientada a resultados.

El Instituto Municipal de Planeación (IMPLAN) cuenta con facultades legales para atender esta problemática. El Artículo 197 del Bando de Policía y Gobierno del Municipio de Oaxaca de Juárez establece que el Instituto es responsable de diseñar, implementar y dar seguimiento a las políticas públicas y proyectos estratégicos vinculados al Plan Municipal de Desarrollo. Asimismo, su Reglamento Interno le asigna atribuciones para formular y actualizar instrumentos de planeación, desarrollar sistemas de información territorial y estratégica, coordinar procesos de participación ciudadana y conducir metodologías de análisis y evaluación. Estas disposiciones confirman su competencia técnica y normativa para liderar el fortalecimiento de la gestión pública municipal.

La creación y continuidad del Programa Presupuestario Planeación Estratégica Municipal es necesaria porque atiende de manera directa las causas del problema público, mediante la actualización y armonización de los instrumentos rectores de planeación, la estandarización de metodologías institucionales, la generación de información estratégica para la toma de decisiones y el desarrollo de capacidades en materia de planeación, seguimiento y evaluación. El programa permite corregir brechas detectadas en la vinculación entre planeación, programación-presupuestación y evaluación, contribuyendo a una administración más eficiente, transparente y orientada a resultados verificables.

El programa se vincula directamente con el Eje 2. Gobierno de Territorio Honesto y Transparente del Plan Municipal de Desarrollo 2025–2027, particularmente con el Subeje Planeación, el Objetivo 2.6: Establecer una planeación participativa y democrática en la administración pública municipal para la mejora del desempeño gubernamental, y la Estrategia 2.6.2: Impulsar un modelo de gestión pública orientada a resultados. A nivel de líneas de acción, el programa contribuye de manera directa a:

2.6.2.1 Elaborar el Plan Municipal de Desarrollo.

2.6.2.2 Establecer la planeación participativa mediante la implementación de la Metodología del Marco Lógico y del Presupuesto basado en Resultados.

2.6.2.3 Realizar el seguimiento y la evaluación de las metas del proceso de planeación municipal.

2.6.2.4 Fortalecer el micrositio web del Instituto Municipal de Planeación.

Asimismo, el programa se alinea con el Eje 2. Gobierno Honesto del Plan Estatal de Desarrollo, y con los Objetivos de Desarrollo Sostenible, en particular con el ODS 16: Paz, justicia e instituciones sólidas, mediante el cumplimiento de las metas 16.6 (instituciones eficaces y transparentes), 16.7 (decisiones inclusivas, participativas y representativas) y 16.8 (fortalecer la participación de los países en desarrollo en instituciones de gobernanza).

Estado actual del problema

Durante 2023–2025, el municipio de Oaxaca de Juárez presenta una disminución sostenida en la implementación del modelo Presupuesto basado en Resultados y del Sistema de Evaluación del Desempeño (PbR–SED). De acuerdo con los resultados institucionales, el avance pasó de 47.3 % en 2023, a 43.2 % en 2024, y finalmente a 34.6 % en 2025, manteniendo además un 0 % en el componente de evaluación del desempeño. Esta tendencia refleja una persistencia del problema, caracterizada por la falta de continuidad administrativa, la limitada generación y uso de información para la toma de decisiones y la ausencia de mecanismos sistemáticos de monitoreo institucional.

La evidencia cualitativa derivada del proceso de construcción del Plan Municipal de Desarrollo 2025–2027 confirma estas brechas. Los Diálogos Vecinales por la Transformación, que reunieron a más de 2,000 personas, 924 encuestas y 381 aportaciones digitales, señalaron de manera recurrente la necesidad de contar con procesos de planeación más claros, mecanismos de seguimiento visibles y sistemas de información accesibles. En diversas agencias —como San Juan Chapultepec, Donají, Pueblo Nuevo, San Martín Mexicapam y Trinidad de Viguera— la ciudadanía identificó la falta de diagnóstico territorial actualizado, la ausencia de métricas para evaluar avances y la percepción de que las decisiones municipales no se basan en evidencia.

Territorialmente, estas debilidades impactan la capacidad institucional para priorizar y focalizar intervenciones. Zonas con rezagos históricos como La Joya, Volcanes, Loma Bonita, La Cuevita y sectores de San Luis Beltrán carecen de información sistematizada sobre servicios públicos, movilidad, infraestructura social o seguridad vecinal, lo que dificulta orientar adecuadamente los recursos municipales. En contraste, áreas con mayor actividad económica —como el Centro Histórico, corredores comerciales y zonas turísticas— disponen de información más amplia, generando brechas territoriales en planeación y asignación presupuestaria.

Los grupos más afectados por estas deficiencias son aquellos que residen en zonas de menor cobertura de servicios públicos o con problemáticas estructurales: mujeres jefas de hogar, jóvenes en contextos de rezago urbano, población adulta mayor y comunidades indígenas ubicadas en agencias municipales. La falta de instrumentos de planeación actualizados limita la capacidad institucional para atender sus necesidades específicas y dificulta el seguimiento de acciones municipales con perspectiva territorial.

En el ámbito administrativo, las áreas más impactadas son las direcciones operativas responsables de implementar proyectos sociales, de infraestructura y servicios públicos, así como las unidades encargadas de reportar avances y conformar indicadores institucionales. La ausencia de lineamientos homogéneos, información integrada y procesos de seguimiento estandarizados genera una ejecución desigual entre dependencias y dificulta la evaluación de la acción gubernamental.

Evolución del problema

Entre 2020 y 2025, la evolución del problema muestra una tendencia marcada por fluctuaciones en las capacidades institucionales de planeación, seguimiento y evaluación, seguida de un deterioro reciente que confirma la persistencia de las deficiencias señaladas en el Plan Municipal de Desarrollo 2025–2027. De acuerdo con los resultados del PbR–SED del municipio, el avance en la implementación del modelo pasó de 51.7 % en 2020, a 45.7 % en 2022, para luego presentar una caída sostenida: 47.3 % en 2023, 43.2 % en 2024 y 34.6 % en 2025. La permanencia del 0 % en el componente de evaluación del desempeño durante todo el periodo evidencia que el municipio no ha logrado consolidar mecanismos estables de evaluación institucional.

Esta evolución también se explica por transformaciones internas documentadas en instrumentos institucionales. El Primer Informe de Gobierno 2022 registró avances relevantes en modernización normativa —incluyendo la emisión de 8 nuevos reglamentos, 18 reformas reglamentarias y 7 reformas al Bando de Policía y Gobierno— así como un aumento significativo en participación ciudadana formal, mediante la renovación de 100 Comités de Vida Vecinal (Convives), la realización de 30 sesiones de Consejos Consultivos y la atención de 2,400 solicitudes ciudadanas. Sin embargo, estos avances no se consolidaron en mecanismos permanentes de seguimiento y evaluación, lo que contribuyó a la inestabilidad observada en los años siguientes.

En términos sociales y territoriales, la evolución del problema se agrava por la presión creciente sobre los servicios públicos, la expansión urbana en agencias periféricas y la complejidad de las demandas planteadas durante los Diálogos Vecinales por la Transformación (2024–2025), donde más de 2,000 personas señalaron la necesidad de fortalecer la planificación municipal, contar con diagnósticos actualizados y transparentar el seguimiento de compromisos institucionales. Estas dinámicas han profundizado las brechas entre zonas con disponibilidad de información (Centro Histórico y corredores comerciales) y aquellas con rezagos acumulados (La Joya, Volcanes, San Juan Chapultepec, San Martín Mexicapam, Pueblo Nuevo o Donají), evidenciando la falta de instrumentos que permitan orientar intervenciones con criterios de equidad territorial.

Los factores que explican estos cambios incluyen la rotación frecuente de personal técnico, la limitada actualización de instrumentos rectores, la insuficiente coordinación interdependencias y la ausencia de sistemas de información integrados. En conjunto, estos elementos han impedido consolidar un ciclo de gestión para resultados estable, lo que ha derivado en decisiones institucionales con menor respaldo técnico.

La evolución del problema confirma la pertinencia y necesidad del Programa Presupuestario Planeación Estratégica Municipal, ya que el retroceso reciente de los indicadores demuestra que las capacidades institucionales en materia de planeación participativa, seguimiento y evaluación no solo no se han fortalecido, sino que requieren una intervención sistemática para garantizar el cumplimiento del problema público establecido en el PMD y mejorar la eficacia del desempeño gubernamental.

Experiencias de atención

Entre 2020 y 2024, el Instituto Municipal de Planeación (IMPLAN) implementó diversas acciones orientadas a fortalecer la planeación estratégica del municipio y atender las deficiencias identificadas en materia de planeación participativa, seguimiento y evaluación. Durante este periodo, el Instituto actualizó versiones del Plan Municipal de Desarrollo, elaboró diagnósticos sectoriales y territoriales, formuló insumos técnicos para la priorización de proyectos y desarrolló ejercicios de integración de información en agencias como San Juan Chapultepec, Pueblo Nuevo, Montoya, Trinidad de Viguera y San Martín Mexicapam. Estas acciones tenían como propósito mejorar la capacidad institucional para focalizar intervenciones, orientar el gasto público y generar información estratégica para la toma de decisiones.

Los avances principales se reflejaron en la disponibilidad de instrumentos técnicos y en la identificación de prioridades territoriales, que permitieron ubicar zonas con mayores rezagos y orientar intervenciones de manera más precisa. Asimismo, se fortaleció la interlocución con agencias y colonias mediante procesos de consulta y levantamiento de necesidades territoriales, lo que contribuyó a una mejor comprensión del contexto urbano y social del municipio. No obstante, los resultados fueron limitados en cuanto a su institucionalización: los productos generados no contaron con mecanismos permanentes de actualización ni con sistemas formales de seguimiento que garantizaran su continuidad administrativa.

Las experiencias desarrolladas enfrentaron diversas dificultades que limitaron su alcance. Entre las principales se encuentran la insuficiencia presupuestaria, que dificultó la ampliación de equipos técnicos; la rotación de personal especializado, que provocó pérdida de memoria institucional; la falta de herramientas tecnológicas integradas para el monitoreo de indicadores; y la ausencia de metodologías institucionalizadas para el seguimiento y evaluación de instrumentos de planeación. Estas restricciones redujeron la escala y sostenibilidad de los avances alcanzados.

De estas experiencias se desprenden varias lecciones clave: la importancia de institucionalizar metodologías estandarizadas (MML, MIR y PbR–SED), consolidar un banco de información territorial actualizado, fortalecer la profesionalización del personal del IMPLAN y adoptar plataformas digitales de seguimiento que aseguren trazabilidad y continuidad administrativa. Estas lecciones se incorporan en el diseño del Programa Presupuestario Planeación Estratégica Municipal, que retoma la necesidad de estandarizar procesos, fortalecer capacidades técnicas y garantizar la disponibilidad y actualización continua de información estratégica para la toma de decisiones.

Como referencia técnica, diversos municipios del país han documentado avances significativos en la implementación del PbR–SED a través de la institucionalización de metodologías y plataformas de seguimiento. El Ayuntamiento de Mérida cuenta con manuales metodológicos formales para el modelo PbR–SED; el municipio de Zapopan opera un sistema integral de indicadores (SIPLAN / PbR–SED) con reportes periódicos; y la entidad de Chihuahua mantiene plataformas digitales de seguimiento trimestral que permiten monitorear metas e indicadores de manera transparente. Estas buenas prácticas confirman que la combinación de normatividad interna, sistemas de información y capacidades técnicas consolidadas contribuye a fortalecer la gestión para resultados, elementos que el IMPLAN consideró en el diseño del presente Programa Presupuestario.

1.2 Metodología para la identificación de la población objetivo y definición de fuentes de información

De acuerdo con el último Censo de Población y Vivienda realizado por el Instituto Nacional de Estadística y Geografía (INEGI) en 2020, la población total del municipio de Oaxaca de Juárez asciende a 270,955 personas.

Definición y cuantificación de los			
Población Potencial	31 dependencias y entidades.	**Cuantificación:**	31 dependencias y entidades del Gobierno Municipal de Oaxaca de Juárez
		Criterios de Focalización	Unidades administrativas afectadas por las deficiencias en planeación participativa, seguimiento y evaluación. Dependencias obligadas a programar, presupuestar, generar indicadores y ejecutar acciones del PMD. Universo total que enfrenta el problema público.
Población Objetivo	31 dependencias y entidades.	**Cuantificación:**	31 dependencias y entidades.
		Criterios de Focalización	Todas las dependencias forman parte del ciclo institucional de planeación, programación-presupuestación, seguimiento y evaluación. Incidencia directa en cumplimiento del PMD y en el sistema PbR–SED. Necesidad transversal de alineación metodológica y fortalecimiento técnico.
	31 dependencias y entidades.	**Cuantificación:**	31 dependencias y entidades.

Población atendida (beneficiarios)		**Criterios de Focalización**	Beneficio directo derivado de la estandarización de instrumentos, lineamientos y metodologías institucionales. Acceso general a herramientas, información estratégica, capacitación y acompañamiento técnico. Aplicación transversal del fortalecimiento institucional previsto en el programa.

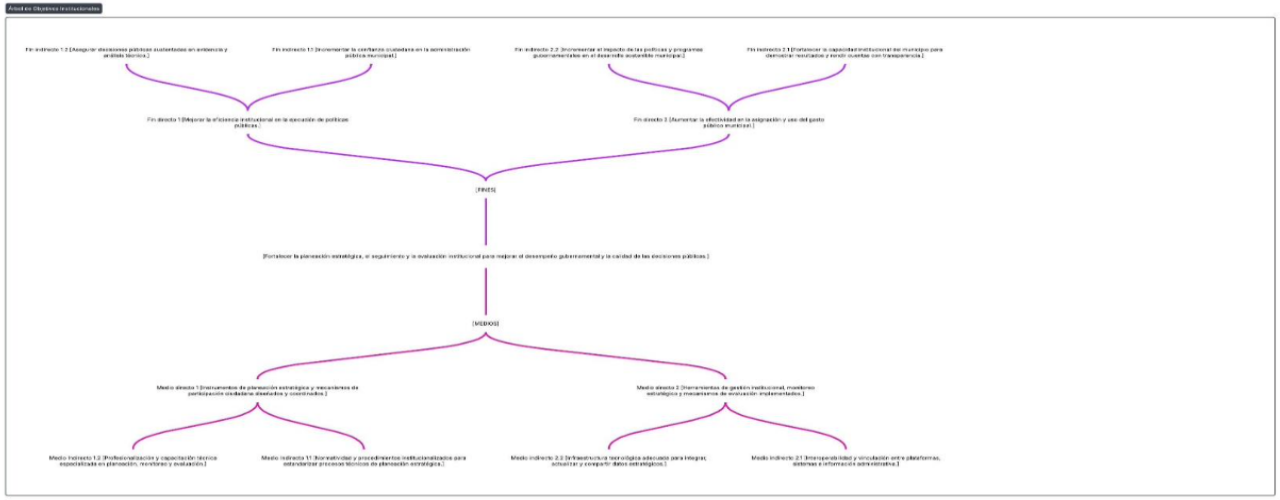
Arbol de Problemas

Árbol de Objetivos



2. Estrategia para la selección de alternativas.

Explicar brevemente por qué las medidas que constituirán la intervención del PP son las opciones de acción más efectivas para lograr el objetivo deseado; debe guardar relación con el árbol del objetivo.	La selección de alternativas se efectuó con base en el análisis del diagnóstico institucional y en los árboles de problemas y objetivos elaborados mediante la Metodología del Marco Lógico. A partir de las causas identificadas —desarticulación metodológica, ausencia de mecanismos de seguimiento y limitaciones en capacidades técnicas— se consideraron distintas opciones de intervención, evaluando su viabilidad técnica, institucional y presupuestal. Entre las alternativas analizadas se incluyeron: el fortalecimiento de los procesos de planeación estratégica, la consolidación del Sistema de Evaluación del Desempeño, el desarrollo de capacidades técnicas especializadas y la mejora de los procesos administrativos transversales. Del análisis comparativo, la alternativa más viable resultó ser el fortalecimiento institucional integral, orientado a estandarizar metodologías, consolidar información estratégica, coordinar mecanismos de participación ciudadana y mejorar la operación del seguimiento al desempeño. Esta estrategia se implementará mediante la ejecución directa de los componentes del Programa Presupuestario, los cuales integran acciones de diseño de instrumentos, monitoreo, evaluación, coordinación interinstitucional y provisión de servicios administrativos de apoyo. La alternativa seleccionada es coherente con el Eje 2. Gobierno de Territorio Honesto y Transparente del PMD 2025–2027, particularmente con el Objetivo 2.6 y la Estrategia 2.6.2, y se alinea plenamente con los niveles jerárquicos del programa (Fin, Propósito, Componentes y Actividades), asegurando congruencia metodológica y pertinencia institucional.

1. Diagnóstico del Programa presupuestario

1.1 Descripción del Problema

Antecedentes y definición del problema

El municipio de Oaxaca de Juárez es un nodo educativo, económico y administrativo que concentra actividades académicas, culturales y de servicios para toda la región central del estado. Esta dinámica urbana atrae y reúne a un número importante de personas jóvenes, lo cual implica una demanda constante de servicios municipales orientados a educación, salud sexual, empleo, participación juvenil, acceso a espacios públicos y acompañamiento socioformativo. De acuerdo con la normatividad municipal, el Instituto Municipal de la Juventud es un organismo público descentralizado encargado de diseñar e implementar políticas que promuevan el desarrollo integral de las juventudes y su participación activa en la vida social y económica del municipio. Su actuación está directamente vinculada con las condiciones demográficas de la ciudad y con los factores estructurales que afectan a la población de 15 a 29 años.

La evidencia estadística muestra un panorama complejo para este grupo etario. En el estado, la población joven representa 24.9% del total, lo que confirma la importancia de este sector social. No obstante, la permanencia escolar disminuye de forma pronunciada después de los 19 años: únicamente 18.6% de jóvenes entre 20 y 24 años continúan estudiando, y solo 4.4% de quienes tienen 25 a 29 años permanecen en el sistema educativo. A ello se suma un mercado laboral caracterizado por alta informalidad (85.4%), baja calidad del empleo y una tasa de desocupación juvenil (3.8%) mayor que la de la población adulta. En materia de salud sexual y reproductiva, se registran brechas relevantes que afectan directamente a las juventudes del municipio. Alrededor de 59.5% de mujeres jóvenes ha iniciado vida sexual y 61.6% no utilizó anticonceptivos en su primera relación; además, 7 de cada 10 nacimientos en el estado corresponden a mujeres de 15 a 29 años, lo que incrementa la demanda de servicios de información y acompañamiento en salud sexual y reproductiva, así como apoyos educativos y laborales para madres jóvenes. Asimismo, aproximadamente 24,055 jóvenes presentan alguna discapacidad en el estado, lo que refuerza la necesidad de políticas locales que garanticen accesibilidad, inclusión educativa y oportunidades laborales. La ciudad también recibe población joven indígena y afrodescendiente, lo que demanda acciones con enfoque intercultural que faciliten su integración a espacios educativos, laborales y comunitarios.

En este contexto, se identifica que **las juventudes del municipio enfrentan limitado acceso a educación sexual, altos índices de desempleo y procesos de deserción escolar,** condiciones que requieren ser incorporadas en las políticas públicas municipales para garantizar su desarrollo integral. La problemática planteada es coherente con los objetivos y funciones del Instituto Municipal de la Juventud, y orienta el diseño del programa presupuestario hacia acciones de prevención, capacitación, fortalecimiento de trayectorias educativas, promoción de derechos sexuales y reproductivos, e impulso a la participación social y económica de las juventudes del municipio

Justificación del Pp

La intervención del Gobierno Municipal es necesaria debido a que las juventudes de Oaxaca de Juárez enfrentan condiciones que limitan su desarrollo integral. Tal como se identificó en el diagnóstico, las personas jóvenes del municipio presentan limitado acceso a educación sexual, altos índices de desempleo y procesos de deserción escolar, lo que afecta su bienestar presente y sus trayectorias educativas, sociales y económicas futuras. Estas situaciones se expresan en un contexto urbano donde la demanda de servicios y acompañamiento juvenil es creciente, debido a que la ciudad funciona como polo educativo, administrativo y cultural para la región central del estado.

El Instituto Municipal de la Juventud cuenta con facultades expresas para atender esta problemática. El Bando de Policía y Gobierno del Municipio de Oaxaca de Juárez, en su Artículo 198, define al Instituto como un organismo público descentralizado con personalidad jurídica y patrimonio propio, encargado de "diseñar e implementar políticas públicas que fomenten el desarrollo de los jóvenes mediante su participación activa en la vida social y económica del municipio". Estas atribuciones le confieren competencia directa para impulsar acciones en materia de educación, salud, cultura, participación comunitaria, empleabilidad y promoción de derechos, áreas directamente relacionadas con el problema público identificado. La creación y continuidad del Programa Presupuestario "Desarrollo Integral de la Juventud" es necesaria porque constituye el instrumento operativo mediante el cual el Instituto ejecuta actividades de prevención, capacitación, acompañamiento socioformativo, fortalecimiento de trayectorias educativas y promoción de la participación juvenil. Dicho programa permite estructurar acciones que atienden las causas y manifestaciones de la problemática: la falta de acceso a información en salud sexual, la transición desfavorable entre escuela y trabajo, la escasa visibilidad de programas para juventudes y la ausencia de espacios formativos y recreativos accesibles en el territorio municipal. El programa contribuirá a reducir el problema público al ofrecer servicios, talleres, actividades formativas y mecanismos de participación que fortalecen las capacidades educativas y laborales de las juventudes, promueven el ejercicio informado de sus derechos sexuales y reproductivos, e impulsan su inclusión en el desarrollo social, económico y comunitario del municipio. Desde la perspectiva institucional, el programa consolida el papel del Instituto como ente rector de la política de juventud en el municipio y facilita la transversalización de la perspectiva juvenil en las acciones de gobierno.

Asimismo, el Programa Presupuestario se vincula directamente con el **Plan Municipal de Desarrollo 2025–2027**, particularmente con:

Objetivo 1.9: Impulsar la inclusión de las juventudes en todo el territorio municipal.

Estrategia 1.9.1: Establecer programas para la atención y desarrollo integral de las juventudes.

Líneas 1.9.1.1, 1.9.1.2 y 1.9.1.3: Distinción al mérito juvenil; visibilización de programas sociales para juventudes; realización de actividades artísticas, deportivas, de salud y salud sexual.

El programa también incide en el **Eje Transversal 2: Niñas, Niños y Adolescentes**, mediante líneas como:

Fomento de la cultura física y el deporte **(E.T.NNA.1.1.1)**,

Apoyo para el acceso a niveles educativos **(E.T.NNA.1.1.3)**,

Difusión de información para la protección de derechos **(E.T.NNA.1.2.1)**,

Impulso al autoempleo juvenil **(E.T.NNA.1.4.1)** y capacitaciones en oficios **(E.T.NNA.1.4.2)**.

En materia de alineación superior, el Programa se vincula con el **Eje 1: Estado Bienestar del Plan Estatal de Desarrollo (PED)** y contribuye a los **Objetivos de Desarrollo Sostenible**, particularmente:

ODS 4: Educación de Calidad – Meta 4.4 (competencias técnicas y profesionales para el empleo y el emprendimiento).

ODS 3: Salud y Bienestar – Meta 3.8 (acceso a servicios esenciales de salud).

Estado actual del problema

La información disponible para el periodo 2023–2025 muestra que las condiciones que afectan a las juventudes del municipio persisten y continúan manifestándose en diversas dimensiones. En materia educativa, los datos estatales indican que la asistencia escolar disminuye de forma significativa después de los 19 años: solo 18.6% de jóvenes de 20 a 24 años y 4.4% de jóvenes de 25 a 29 permanecen estudiando. Este patrón se refleja en el municipio a través de la demanda creciente de actividades formativas, capacitación y espacios de orientación registrados por el Instituto Municipal de la Juventud durante 2025, año en el que se atendió a 12,982 jóvenes mediante 23 actividades vinculadas con salud emocional, educación, empleo, cultura e inclusión social.

En el ámbito económico, se identifican condiciones laborales desfavorables que impactan a las juventudes. La tasa de desocupación juvenil se mantiene por encima del promedio general y la informalidad laboral continúa siendo elevada, alcanzando 85.4% en el estado, lo que limita el acceso de jóvenes a ingresos estables y oportunidades de desarrollo profesional. A nivel municipal, las ferias de empleo, talleres económicos y programas de vinculación realizados en 2025 reunieron a más de 3,100 jóvenes, reflejando tanto la demanda como la magnitud del problema. Respecto al acceso a información y servicios de salud sexual y reproductiva, se registran brechas relevantes. A nivel estatal, 59.5% de mujeres jóvenes ha iniciado vida sexual y 61.6% no utilizó anticoncepción en su primera relación, indicadores que continúan incidiendo en el municipio dada su condición de centro educativo y urbano. La asistencia juvenil a actividades de salud emocional, prevención y orientación realizadas por el Instituto —más de 5,700 jóvenes en 2025— evidencia la persistencia de necesidades no cubiertas en materia de bienestar, información y acompañamiento. En el plano territorial, el Instituto reporta que la participación juvenil proviene de agencias, colonias y barrios del municipio, con mayor recurrencia en zonas como Pueblo Nuevo, San Martín Mexicapam, Montoya, Dolores, Candiani, Centro, Jalatlaco, Viguera y San Juan Chapultepec. Estas áreas concentran población joven diversa, incluidas juventudes indígenas y afrodescendientes que enfrentan barreras adicionales para acceder a educación, servicios y actividades comunitarias. También se observan brechas territoriales vinculadas a la movilidad y disponibilidad de espacios públicos, lo que incide en la asistencia a talleres, actividades deportivas y programas educativos.

Los grupos más impactados continúan siendo las mujeres jóvenes, quienes acumulan mayores rezagos en acceso a educación, servicios de salud sexual y oportunidades laborales; jóvenes de zonas conurbadas y de agencias municipales con menor infraestructura; y juventudes indígenas y afrodescendientes que encuentran obstáculos lingüísticos, económicos y culturales para integrarse plenamente a los servicios ofrecidos en el municipio. Asimismo, se identifica un incremento sostenido en la participación de jóvenes en actividades de salud emocional, lo que indica la presencia de

Evolución del problema

Durante los últimos cinco años, el problema que afecta el desarrollo integral de las juventudes del municipio ha mostrado una evolución marcada por cambios sociales, económicos y educativos que han modificado su intensidad, aunque no han logrado revertirlo. Los datos estatales y nacionales reflejan que la asistencia escolar entre jóvenes de 20 a 24 años se ha mantenido en niveles bajos desde 2018, fluctuando entre 18% y 20%, mientras que para jóvenes de 25 a 29 años la permanencia escolar ha permanecido por debajo de 5% en todo el periodo. Esta estabilidad en niveles reducidos indica que la transición educativa hacia niveles superiores continúa siendo limitada y que la presión por incorporarse a actividades laborales persiste como un factor estructural.

En materia económica, la situación laboral de las juventudes tampoco ha mostrado mejoras significativas. Las tasas de informalidad en el estado han oscilado entre 82% y 86% en los últimos cinco años, afectando de manera directa la inserción de jóvenes en empleos con prestaciones y estabilidad salarial. La tasa de desocupación juvenil se ha mantenido superior al promedio general desde 2019, con variaciones asociadas a la crisis postpandemia, periodos de recuperación económica y fluctuaciones en la oferta laboral formal. En cuanto al acceso a información y servicios de salud emocional y sexual, los registros nacionales muestran una tendencia estable en el inicio de la vida sexual y en los patrones de uso de anticonceptivos entre mujeres jóvenes. El porcentaje de mujeres que no utilizó anticoncepción en su primera relación sexual se ha mantenido entre 58% y 62%, dato que coincide con las necesidades detectadas en las actividades de prevención y orientación realizadas por el Instituto Municipal de la Juventud. Asimismo, la demanda de servicios vinculados con salud mental y bienestar ha incrementado, especialmente entre 2022 y 2024, periodo en el que diversos municipios del país reportaron aumentos en solicitudes de apoyo emocional, talleres preventivos y actividades comunitarias de fortalecimiento psicosocial.

A nivel institucional, a partir de 2022 se observaron cambios relevantes que han permitido una mayor visibilidad del problema. La aprobación del Reglamento Municipal de Juventud y la creación del Instituto Municipal de la Juventud generaron una estructura formal para atender el tema, lo que se refleja en los registros administrativos: las actividades juveniles crecieron cada año y, para 2025, el Instituto reportó la atención de 12,982 jóvenes mediante 23 acciones formativas, educativas, económicas, culturales y de salud emocional. Este crecimiento en la demanda confirma que, aunque se ha ampliado la oferta institucional, el problema persiste y continúa afectando a un número elevado de jóvenes en el municipio. Los cambios observados en los últimos años responden a factores sociales (incremento de la participación juvenil en espacios públicos), económicos (altos niveles de informalidad laboral), educativos (deserción o abandono escolar después de los 19 años), y culturales (mayor interés por actividades comunitarias y procesos formativos alternativos). Estos factores, en conjunto, han mantenido constante la vulnerabilidad juvenil y han reforzado la pertinencia de un programa presupuestario orientado a la atención integral.

La evolución del problema se vincula directamente con los indicadores del programa y con el problema público establecido en el PMD 2025–2027, al

Experiencias de atención

Entre 2020 y 2024 se implementaron diversas acciones institucionales orientadas a atender las necesidades educativas, económicas, culturales y de bienestar emocional de las juventudes del municipio. Durante este periodo, las áreas municipales vinculadas a educación, cultura, desarrollo económico y deporte realizaron actividades formativas, talleres, campañas preventivas y eventos comunitarios dirigidos a población joven de agencias, barrios y colonias. Estas acciones tenían como propósito ampliar el acceso a actividades educativas y culturales, promover estilos de vida saludables, brindar alternativas de participación comunitaria y fortalecer la inserción laboral.

En 2022 se consolidó un avance significativo con la creación del Instituto Municipal de la Juventud, a partir del Reglamento Municipal de Juventud, dotando al municipio de una instancia encargada específicamente del diseño, coordinación y ejecución de programas para jóvenes. Durante el Primer Informe de Gobierno 2022 se reportaron acciones como el Tercer Mercado Joven, talleres de empleabilidad, la primera Compañía Municipal de Teatro, el Premio Municipal de la Juventud y múltiples actividades deportivas, culturales y formativas. Estas iniciativas se dirigieron a jóvenes de entre 15 y 29 años, con especial presencia en agencias como Pueblo Nuevo, San Martín Mexicapam, Montoya y San Juan Chapultepec.

Los reportes administrativos del Instituto muestran avances relevantes. Entre 2022 y 2024 se fortalecieron las campañas de prevención, los talleres educativos y las actividades de promoción cultural. En 2025, la institución registró la atención de 12,982 jóvenes a través de 23 actividades estratégicas, lo que confirma un incremento sostenido en la participación juvenil y en la cobertura territorial de las acciones. Asimismo, se lograron mejoras en los procesos de vinculación con instituciones educativas, dependencias municipales y organismos estatales, lo que permitió ampliar la oferta formativa en temas de salud emocional, bienestar físico, educación y reducción de desigualdades. Sin embargo, estas experiencias también enfrentaron limitaciones operativas. Entre las principales dificultades se identificaron: recursos presupuestarios limitados para ampliar la cobertura, alta demanda de actividades formativas y de salud emocional, rotación de personal en algunas áreas municipales, variabilidad en la disponibilidad de espacios públicos para actividades comunitarias y la necesidad de fortalecer mecanismos de seguimiento y sistematización de datos. Estas condiciones restringieron la continuidad de ciertas actividades y dificultaron la expansión de programas dirigidos a juventudes de zonas con mayor rezago.

A partir de estas experiencias, se identificaron lecciones relevantes para el diseño del Programa Presupuestario. Destacan la importancia de mantener una instancia especializada en juventud; fortalecer la coordinación interinstitucional; dar continuidad a actividades formativas, deportivas y de salud emocional; y consolidar mecanismos de registro, monitoreo y evaluación que permitan medir avances y resultados. Las buenas prácticas observadas en otros municipios, particularmente en estrategias de inclusión educativa, promoción del bienestar emocional y vinculación económica, refuerzan la

1.2 Metodología para la identificación de la población objetivo y definición de fuentes de información

De acuerdo con el último Censo de Población y Vivienda realizado por el Instituto Nacional de Estadística y Geografía (INEGI) en 2020, la población total del municipio de Oaxaca de Juárez asciende a 270,955 personas (INEGI, 2020).

Definición y cuantificación de los

Población Potencial	976.139	**Cuantificación:**	Aproximadamente 976,139 jóvenes de 15 a 29 años en el estado de Oaxaca.
		Criterios de Focalización	Jóvenes de 15 a 29 años residentes en el municipio de Oaxaca de Juárez; incluir también jóvenes indígenas y afrodescendientes; territorios municipales (agencias, barrios) con menor cobertura educativa, empleo o servicios.
Población Objetivo	12.982	**Cuantificación:**	Se estima un segmento de jóvenes priorizados dentro del municipio, por ejemplo ~13,000 jóvenes en 2025 atendidos (12,982) como referencia
		Criterios de Focalización	Jóvenes de 15 a 29 años que habitan agencias o colonias con rezago educativo, alta informalidad laboral, menores oportunidades; atención transversal de género, inclusión
Población atendida (beneficiarios)	12.982	**Cuantificación:**	Meta operativa: 12,982 jóvenes atendidos en 2025 con las 23 actividades estratégicas.
		Criterios de Focalización	Jóvenes de 15 a 29 años que participan directamente en actividades del Instituto Municipal de la Juventud: salud-bienestar, educación de calidad, reducción de desigualdades, interculturalidad; priorización por género, condición indígena/afro, zona territorial.

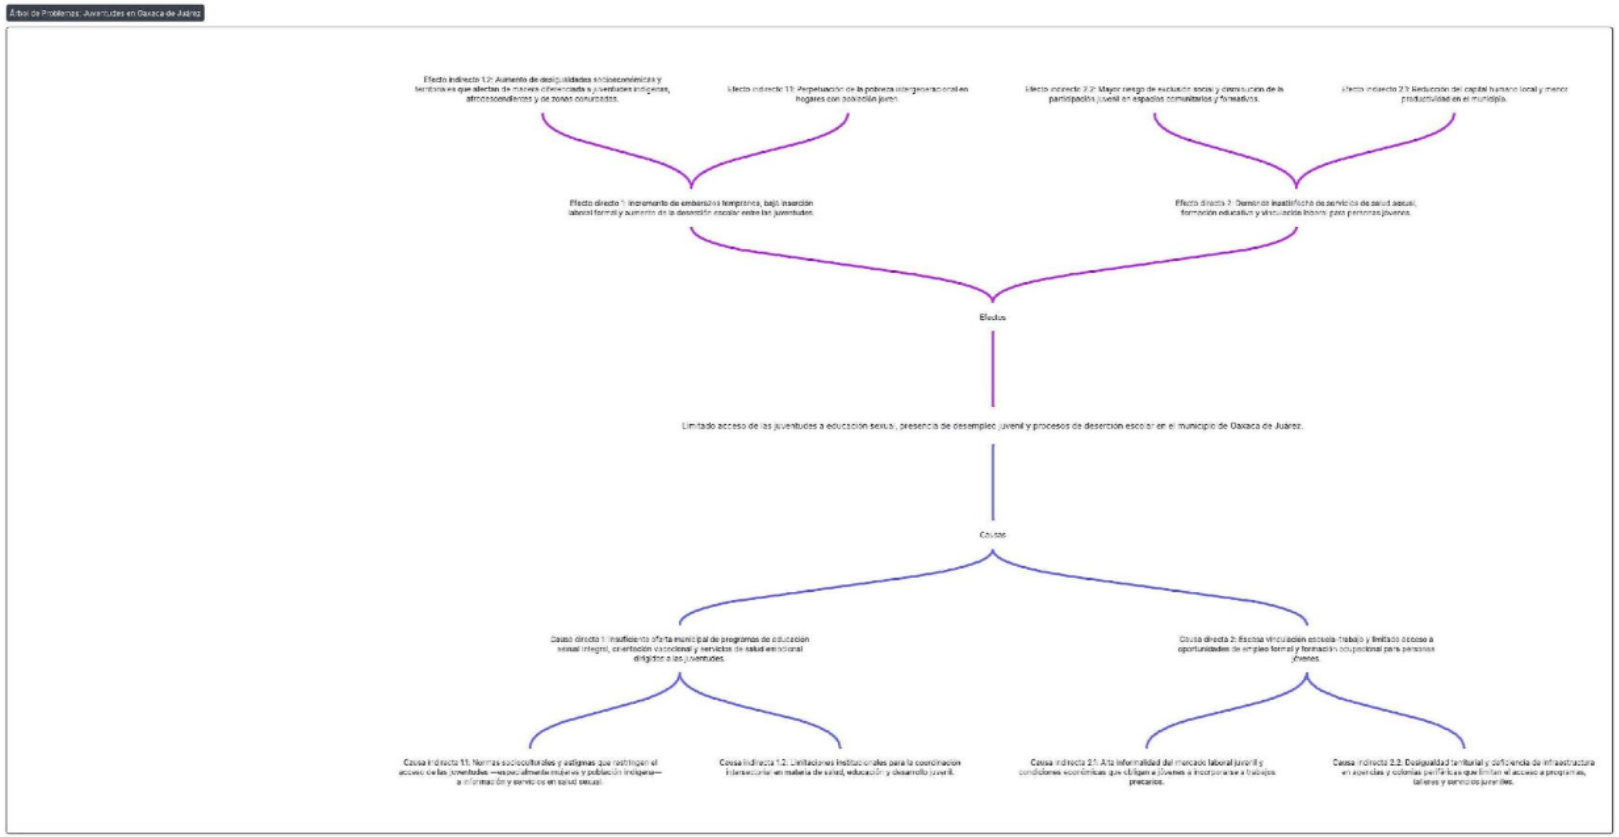
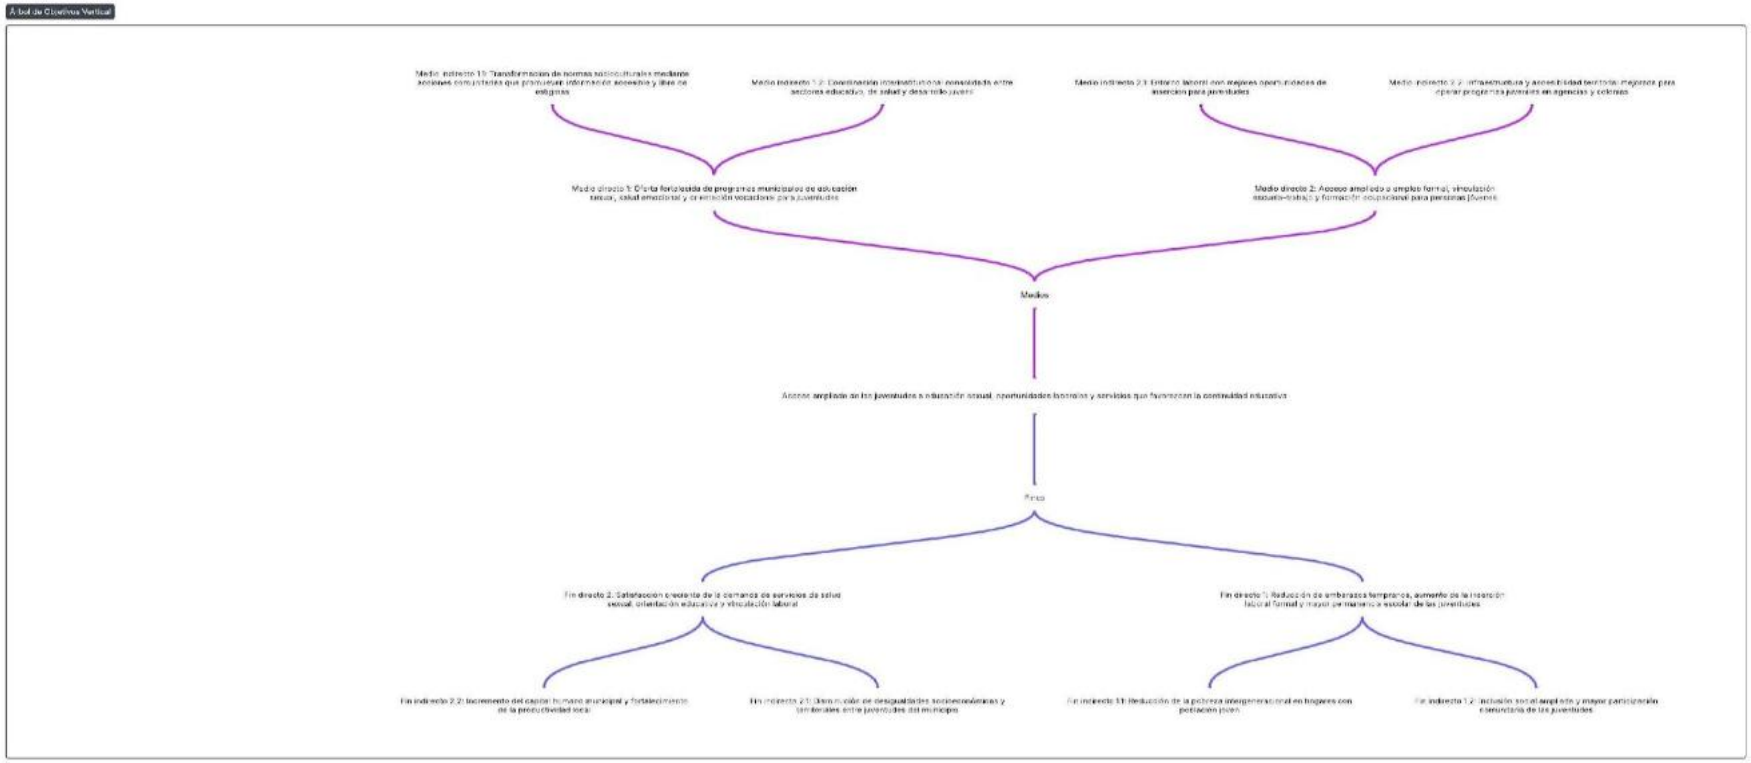
Arbol de Problemas



Arbol de Objetivos



2. Estrategia para la selección de alternativas.	
Explicar brevemente por qué las medidas que constituirán la intervención del PP son las opciones de acción más efectivas para lograr el objetivo deseado; debe guardar relación con el árbol del objetivo.	La selección de alternativas del Programa Presupuestario Desarrollo Integral de la Juventud se realizó con base en el diagnóstico institucional y en los árboles de problemas y de objetivos construidos mediante la Metodología del Marco Lógico. A partir de este análisis, se identificaron diversas rutas de intervención orientadas a atender las causas directas e indirectas del problema público, valorando su pertinencia técnica, su factibilidad operativa y su coherencia con las atribuciones del Instituto Municipal de la Juventud. Durante el proceso se consideraron opciones que incluían acciones exclusivamente informativas, esquemas basados en alianzas externas, y modelos de intervención centrados en incentivos económicos. Tras dicho análisis se determinó que la alternativa más adecuada corresponde al fortalecimiento integral de la oferta municipal mediante la ejecución directa de acciones de educación sexual, salud emocional, continuidad educativa, vinculación laboral y desarrollo comunitario, articuladas con mecanismos de coordinación interinstitucional y presencia territorial en agencias y colonias del municipio. Esta estrategia permite atender las causas identificadas en el diagnóstico, al ampliar la disponibilidad de servicios para juventudes, mejorar el acceso a oportunidades laborales y promover procesos formativos que inciden en la continuidad escolar. Su implementación se materializa a través de los componentes y actividades previstos en el Programa Presupuestario, asegurando consistencia entre la operación cotidiana y los resultados previstos en los niveles de Fin, Propósito y Componentes. La alternativa seleccionada mantiene plena congruencia con el Eje 1 “Bienestar Vecinal” y el Objetivo 1.9 del PMD 2025–2027, así como con los ODS 3, 4 y 10, consolidando una ruta institucional que permite avanzar hacia el desarrollo integral y el pleno ejercicio de derechos de las juventudes del municipio de Oaxaca de Juárez.

1. Diagnóstico del Programa presupuestario

1.1 Descripción del Problema

Antecedentes y definición del problema

El municipio de Oaxaca de Juárez presenta un entorno urbano y social en el que persisten condiciones que limitan la práctica regular de la actividad física y el deporte. La ciudad cuenta con una amplia red de espacios públicos y deportivos distribuidos entre agencias y colonias, pero muchos de ellos muestran deterioro, uso restringido o baja programación de actividades. Esta situación se desarrolla en un contexto urbano caracterizado por desigualdades territoriales, percepción de inseguridad en el espacio público y hábitos de vida cada vez más sedentarios, lo que impacta directamente en la salud, la convivencia social y el bienestar comunitario.

Diversos factores estructurales, sociales e institucionales inciden en el problema. Entre los factores estructurales, destaca el deterioro físico de instalaciones deportivas, la insuficiente iluminación, la falta de equipamiento y la limitada accesibilidad para grupos prioritarios. Entre los factores sociales, se observa un incremento del sedentarismo urbano, una baja cultura de autocuidado, desigualdad en la participación deportiva por género y edad, y la persistencia de barreras percibidas de inseguridad en colonias y agencias. En términos institucionales, el Instituto Municipal del Deporte enfrenta capacidad operativa restringida, oferta limitada de actividades regulares, ausencia de mecanismos de promoción sistemática y falta de vinculación territorial continua con comunidades. Estos factores confluyen y restringen el acceso equitativo de la población a servicios de activación física y deporte.

La problemática oficial identificada en el CONCENTRADO OELA 21 08 2025 establece que:

“En el municipio existe una baja práctica del deporte y la cultura física, representando un desafío para adoptar el deporte como estilo de vida saludable.”

Esta problemática, adaptada al contexto municipal actual, se expresa en la baja participación de la población en actividades deportivas, la limitada oferta institucional y las brechas territoriales en el acceso al deporte comunitario.

La evidencia reciente confirma la dimensión del problema. De acuerdo con el Módulo de Práctica Deportiva y Ejercicio Físico (INEGI, 2024), solo 34.7 % de la población adulta en Oaxaca realiza actividad física en su tiempo libre, mientras que 65.3 % permanece inactiva. La ENSANUT reporta que más del 70 % de la población adulta presenta sobrepeso y obesidad, condiciones asociadas con la falta de actividad física. Registros del Instituto Municipal del Deporte (2023–2024) indican que únicamente entre 18 % y 22 % de los espacios deportivos municipales mantienen actividades regulares, y que colonias como Dolores, Candiani, Monte Albán y agencias como Pueblo Nuevo y San Martín Mexicapam presentan algunos de los niveles más bajos de participación en actividades deportivas, en parte por condiciones de infraestructura y percepción de inseguridad documentada por la ENSU municipal.

La convergencia de estos elementos permite definir el problema central del presente programa presupuestario, formulado en términos negativos conforme a la metodología del Marco Lógico:

“Bajo acceso y baja participación de la población de Oaxaca de Juárez en actividades de activación física y deporte.”

Esta definición es coherente con el Fin de contribuir a la calidad de vida y bienestar integral de la población; con el Propósito, orientado al acceso a infraestructura fortalecida y programas de enseñanza deportiva; con el Componente 1, centrado en la promoción y fortalecimiento de talento deportivo; con el Componente 2, referente a la organización, rehabilitación y gestión de espacios deportivos; y con el Componente 3, que garantiza el soporte administrativo y operativo del programa. Así, la problemática planteada constituye el fundamento del diseño programático y de las acciones que se implementarán para atender las brechas identificadas.

Justificación del Pp

El Instituto Municipal del Deporte de Oaxaca de Juárez tiene la competencia legal para fomentar, promover y coordinar el desarrollo del deporte, la cultura física y la recreación entre los habitantes del municipio, conforme a los artículos 18, 20 y 22 de la Ley Orgánica Municipal del Estado de Oaxaca, el Bando de Policía y Gobierno, y el Reglamento Interno del Instituto Municipal del Deporte, que establecen su facultad para organizar programas deportivos, otorgar servicios de activación física y promover la integración social mediante el deporte. Esta base jurídica respalda plenamente la intervención del gobierno municipal para atender el problema identificado en el apartado 1.1.1: el bajo acceso y baja participación de la población en actividades de activación física y deporte.

La intervención pública es indispensable porque el problema no puede resolverse de manera efectiva mediante acciones privadas o voluntarias, dado que existen limitaciones estructurales y sociales: deterioro de infraestructura, insuficiencia de programas permanentes, escasez de personal capacitado, desigualdad territorial y de género, así como percepción de inseguridad en espacios públicos. Estas condiciones requieren un programa municipal formal, coordinado y sostenido, que garantice cobertura, continuidad, calidad y seguimiento de las acciones deportivas y recreativas, objetivos que no pueden ser atendidos por iniciativas individuales o del sector privado.

El Programa Presupuestario orientado al fortalecimiento del fomento al deporte y la activación física constituye la estrategia adecuada para atender esta problemática, ya que combina componentes de infraestructura, programación, capacitación y promoción diseñados específicamente para aumentar la participación ciudadana, reducir el sedentarismo, mejorar la salud y fomentar la cohesión social. Sus actividades como los deportivos recreativos, organización de torneos, rehabilitación de espacios, capacitación de entrenadores y promoción comunitaria— están directamente vinculadas con los factores estructurales y sociales que limitan la práctica deportiva, garantizando que cada acción tenga un impacto verificable en indicadores de acceso, cobertura y participación.

El programa se alinea plenamente con el Eje 1: Bienestar Vecinal del Plan Municipal de Desarrollo 2025–2027, especialmente con el Objetivo 1.7: Promover el deporte y la cultura física como forma de vida saludable en espacios adecuados, así como con las estrategias de integración social y salud comunitaria del PMD. Además, contribuye al cumplimiento de instrumentos estatales y federales de fomento al deporte y la actividad física, y está vinculado a los Objetivos de Desarrollo Sostenible (ODS) 3: Salud y Bienestar, garantizando alineación estratégica con políticas públicas de mayor alcance.

En conclusión, la creación y operación de este programa presupuestario permitirá atender de manera estructurada y sostenible la problemática identificada en el diagnóstico, asegurando que los objetivos, componentes y actividades estén directamente relacionados con los factores que limitan la práctica deportiva y la activación física en el municipio. Esto asegura coherencia técnica, programática y jurídica, y proporciona un mecanismo formal para mejorar la salud, la integración social y el bienestar de la población de Oaxaca de Juárez.

Estado actual del problema

La práctica de actividad física y deportiva en el municipio de Oaxaca de Juárez presenta niveles bajos y estancados durante el periodo reciente, lo que evidencia la persistencia del problema público. De acuerdo con el Módulo de Práctica Deportiva y Ejercicio Físico 2024 (INEGI), únicamente 34.7 % de la población adulta del estado realiza actividad física en su tiempo libre, mientras que 65.3 % permanece inactiva, tendencia que se refleja en el ámbito municipal. Registros administrativos del Instituto Municipal del Deporte correspondientes a 2023–2024 muestran que solo entre 18 % y 22 % de los espacios deportivos municipales operan con actividades permanentes, lo que confirma una oferta limitada y concentrada en zonas centrales de la ciudad. Esta información cuantitativa evidencia que el acceso y la participación deportiva continúan siendo reducidos, especialmente para sectores que enfrentan condiciones estructurales y sociales que dificultan su incorporación a la actividad física.

La evidencia cualitativa recogida por medio de reportes institucionales, solicitudes ciudadanas y diagnósticos comunitarios confirma la percepción de insuficiencia en servicios de activación física y deporte. La población reporta falta de actividades gratuitas o accesibles, horarios limitados en instalaciones deportivas, ausencia de actividades permanentes en agencias y colonias periféricas, así como barreras percibidas de seguridad en parques y unidades deportivas. Los reportes de atenciones, solicitudes de apoyo y observaciones realizadas durante eventos comunitarios reafirman la persistencia de una demanda insatisfecha y la necesidad de fortalecer mecanismos de promoción y acompañamiento institucional en territorio.

El problema presenta una marcada distribución territorial, con mayor intensidad en colonias periféricas como Dolores, Candiani, Monte Albán, La Joya y Los Ángeles, así como en agencias como Pueblo Nuevo, San Martín Mexicapam y San Juan Chapultepec, donde la infraestructura deportiva es limitada, los espacios presentan deterioro y la oferta institucional es escasa. Estas zonas concentran solicitudes ciudadanas relacionadas con el acceso a actividades deportivas, rehabilitación de espacios y promoción comunitaria, lo que confirma la existencia de brechas territoriales entre colonias centrales y zonas con rezago social. A nivel poblacional, el problema afecta con mayor intensidad a adolescentes, jóvenes, mujeres, personas con discapacidad y adultos mayores, quienes enfrentan barreras adicionales asociadas a disponibilidad de espacios, horarios, seguridad y accesibilidad.

En conjunto, la evidencia cuantitativa reciente, los hallazgos cualitativos y la distribución territorial señalada muestran que el municipio enfrenta un acceso limitado y una baja participación en actividades deportivas, especialmente en zonas periféricas y entre grupos poblacionales prioritarios. Estas condiciones confirman que el problema público persiste y continúa afectando el bienestar físico, social y comunitario de la población, en coherencia con el diagnóstico establecido en el apartado 1.1.1.

Evolución del problema

Durante los últimos cinco años (2020–2024), el problema público relacionado con la baja práctica del deporte y la actividad física en Oaxaca de Juárez ha mostrado una evolución caracterizada por niveles persistentes de sedentarismo y por una oferta limitada de actividades deportivas, condiciones que no han experimentado mejoras sustantivas pese a los esfuerzos institucionales posteriores a la pandemia. La información disponible revela que, aunque en 2020 la participación deportiva ya era reducida, los niveles de inactividad física se mantuvieron estables en el periodo reciente: cifras del Módulo de Práctica Deportiva y Ejercicio Físico (INEGI 2024) indican que solo 34.7 % de la población adulta realiza actividad física en su tiempo libre, proporción similar a la reportada en ejercicios anteriores, lo que confirma la persistencia del sedentarismo en el municipio.
De manera complementaria, registros operativos del Instituto Municipal del Deporte señalan que entre 2022 y 2024 únicamente entre 18 % y 22 % de los espacios deportivos municipales operaron con actividades permanentes, comportamiento que coincide con reportes de años previos y confirma que la cobertura no ha mostrado variaciones significativas.
Si bien no existen series históricas continuas a nivel municipal, la evidencia cualitativa procedente de reportes institucionales, solicitudes ciudadanas y observaciones recabadas en actividades comunitarias muestra que la demanda de servicios deportivos se ha mantenido alta desde 2020, mientras que las limitaciones estructurales —como deterioro de espacios, insuficiencia de equipamiento y horarios restringidos— continúan siendo señaladas por la población. Los diagnósticos comunitarios realizados en agencias y colonias entre 2022 y 2024 confirman que la percepción de falta de actividades gratuitas, inseguridad en espacios públicos y baja presencia institucional ha persistido sin cambios relevantes, lo que refuerza la estabilidad del problema y la necesidad de intervención municipal sostenida.
La evolución del problema también presenta una dimensión territorial constante. Zonas como Pueblo Nuevo, San Martín Mexicapam, San Juan Chapultepec, Dolores, Monte Albán y Candiani continúan registrando las menores oportunidades de activación física debido a la concentración de infraestructura deteriorada, escasa programación institucional y mayor percepción de inseguridad. Estos patrones territoriales, ya presentes antes de la pandemia, se han mantenido durante el periodo analizado, profundizando las brechas respecto a colonias centrales donde existe mayor cobertura deportiva. Asimismo, la afectación continúa siendo más intensa en adolescentes, adultos jóvenes, mujeres, personas con discapacidad y adultos mayores, quienes enfrentan barreras adicionales de accesibilidad, seguridad y disponibilidad de actividades, situación confirmada tanto por datos de participación como por reportes de campo.
En este contexto, los factores que explican la evolución del problema incluyen la limitada capacidad operativa del Instituto, restricciones presupuestarias, rotación de personal especializado, déficit histórico de mantenimiento en infraestructura deportiva y cambios sociales posteriores a la pandemia que incrementaron el sedentarismo y redujeron la apropiación comunitaria del espacio público. Estas condiciones han dificultado ampliar la cobertura de actividades regulares y mejorar la disponibilidad de infraestructura en zonas de mayor rezago.
La persistencia de estas tendencias confirma que el problema público continúa vigente y justifica la pertinencia del Programa Presupuestario, ya que sus componentes e indicadores —relacionados con el fortalecimiento de infraestructura, la programación deportiva, la promoción comunitaria y la atención a grupos prioritarios— responden directamente al comportamiento del problema observado entre 2020 y 2024. Esta evolución es congruente con el diagnóstico del PMD 2025–2027, que identifica la baja práctica del deporte y la cultura física como una limitación estructural para el bienestar social del municipio.

Experiencias de atención

Entre 2020 y 2024, el Instituto Municipal del Deporte de Oaxaca de Juárez llevó a cabo diversas acciones orientadas a atender la baja práctica del deporte y la cultura física en el municipio, mediante programas comunitarios, rehabilitación de espacios y actividades de activación física distribuidas en colonias, agencias y parques públicos. Estas intervenciones tuvieron como objetivo ampliar las oportunidades de acceso al deporte, promover hábitos saludables y recuperar la participación comunitaria tras la pandemia. Las acciones implementadas incluyeron la organización de ligas municipales de futbol, basquetbol y voleibol; talleres de activación física en parques, unidades deportivas y espacios públicos; y mantenimientos y rehabilitación de infraestructura deportiva en áreas centrales y periféricas. La población atendida fue diversa e incluyó niñas, niños, adolescentes, jóvenes, personas adultas, personas adultas mayores y mujeres, con especial énfasis en zonas con limitada cobertura institucional.
Los resultados cuantitativos reportados por el Instituto indican que entre 2022 y 2024 participaron más de 12,000 personas en actividades deportivas y recreativas realizadas en 15 espacios deportivos y 8 parques abiertos, con una distribución aproximada de participación del 45 % adolescentes, 35 % adultos jóvenes, 15 % personas adultas mayores y 5 % niñas y niños, siendo 60 % mujeres. Asimismo, los reportes administrativos evidencian un incremento en solicitudes ciudadanas para la realización de actividades deportivas, uso de espacios y dotación de instructores, lo que confirma la demanda comunitaria persistente y la importancia de mantener acciones institucionales permanentes en territorio.
Durante la implementación de estas acciones se identificaron diversas limitaciones, entre ellas la insuficiencia presupuestaria para ampliar la cobertura territorial, la escasez de personal operativo y especializado, la rotación frecuente de instructores, la falta de equipamiento adecuado en algunas unidades deportivas y debilidades en los sistemas de registro y seguimiento de beneficiarios, lo que dificultó medir con precisión el alcance real de las intervenciones. Adicionalmente, se observó que colonias periféricas y agencias con mayor rezago presentaron mayores desafíos logísticos, de seguridad y de disponibilidad de infraestructura.
A partir de estas experiencias, se identificaron lecciones clave que orientan el diseño del Programa Presupuestario actual. Entre ellas destacan la necesidad de garantizar continuidad anual a las actividades deportivas, fortalecer la cobertura territorial mediante programación permanente en zonas con menor acceso, mejorar los mecanismos de coordinación interinstitucional para la organización de eventos y rehabilitación de espacios, estandarizar procesos de registro y seguimiento de beneficiarios, y optimizar el uso de la infraestructura existente para ampliar el impacto social. Estas lecciones han sido incorporadas en los componentes y actividades del programa, especialmente en la programación deportiva, la rehabilitación de espacios y el fortalecimiento técnico-operativo del Instituto.
Experiencias externas de otros municipios, como las jornadas deportivas comunitarias implementadas en Puebla y los modelos de rehabilitación activa de espacios públicos en San Cristóbal de Las Casas, muestran que la integración de actividades físicas, promoción comunitaria y uso intensivo del espacio público puede aumentar significativamente la participación ciudadana. Estos referentes sirven como insumos metodológicos adaptados al contexto local, sin replicar estructuras mayores a la capacidad operativa municipal.
En conjunto, las experiencias acumuladas entre 2020 y 2024 evidencian avances importantes y permiten identificar áreas de mejora orientadas a la consolidación de un programa presupuestario más eficiente, territorializado y alineado al problema público definido, asegurando que las acciones institucionales respondan a la necesidad de ampliar el acceso al deporte y la actividad física en el municipio.

1.2 Metodología para la identificación de la población objetivo y definición de fuentes de información

De acuerdo con el último Censo de Población y Vivienda realizado por el Instituto Nacional de Estadística y Geografía (INEGI) en 2020, la población total del municipio de Oaxaca de Juárez asciende a 270,955 personas (INEGI, 2020).

Definición y cuantificación de los conceptos poblacionales del Pp			
Población Potencial	270,955 habitantes estimados para 2025	**Cuantificación:**	En el Municipio de Oaxaca de Juárez (INEGI 2020), corresponde a la población total que enfrenta problemáticas con la insuficiente práctica del deporte y la cultura física, representando un desafío para adoptar el deporte como estilo de vida saludable.
		Criterios de Focalización	Se prioriza la atención en todo el municipio, con especial énfasis en agencias y colonias con mayor carencia en infraestructura deportiva y condiciones socioeconómicas vulnerables. Destacan áreas como San Martín Mexicapam, Pueblo Nuevo, San Juan Chapultepec, Candiani, Montoya y Reforma. Estas zonas combinan alta densidad poblacional, crecimiento urbano y limitaciones en oferta deportiva.
Población Objetivo	108,000 personas	**Cuantificación:**	(aprox. 40% de la población municipal), esta estimación se basa en la identificación de zonas con alta densidad poblacional, presencia de población infantil y juvenil, insuficiencia de espacios deportivos y condiciones de rezago social. Las áreas prioritarias incluyen agencias y colonias como San Martín Mexicapam, Pueblo Nuevo, San Juan Chapultepec, Reforma, Montoya y Candiani.
		Criterios de Focalización	Se focaliza en hogares ubicados en colonias y agencias con rezago en infraestructura deportiva y alta densidad demográfica donde la relación entre población y espacios deportivos es insuficiente. Se priorizan grupos vulnerables, incluyendo niñas, niños y jóvenes (0–29 años), mujeres, personas adultas mayores, población indígena y hablante de lengua originaria. También se consideran las condiciones socioeconómicas que limitan la práctica deportiva, como bajos ingresos y empleo informal.
Población atendida (beneficiarios)	22,000 personas	**Cuantificación:**	(meta estimada anual 2025) basada en la capacidad operativa del Instituto Municipal del Deporte, la disponibilidad de instructores, la infraestructura deportiva municipal y el presupuesto asignado. Esta cifra corresponde a quienes participarán en escuelas deportivas, ligas, torneos, activaciones físicas, programas recreativos y actividades de rehabilitación de espacios deportivos.
		Criterios de Focalización	Se atiende principalmente a personas residentes en zonas de alta densidad poblacional como la Cabecera Municipal, Reforma, San Martín Mexicapam, Pueblo Nuevo y San Juan Chapultepec. Se promueve la equidad de género, asegurando la participación de mujeres y niñas, así como la inclusión de adultos mayores, población indígena y personas con condiciones socioeconómicas vulnerables. Los programas son abiertos, gratuitos e inclusivos, fomentando la participación comunitaria y el deporte social e intergeneracional.

Árbol de Problemas

Efectos

- Efecto indirecto: Aumento en la prevalencia de enfermedades crónicas como obesidad, diabetes e hipertensión asociadas al sedentarismo.
- Efecto indirecto: Incremento del gasto público en atención médica por enfermedades prevenibles.
- Efecto indirecto: Reforzamiento de hábitos sedentarios en niñas, niños y adolescentes.
- Efecto indirecto: Desigualdad sostenida en la participación deportiva entre
- Efecto directo:Disminución del bienestar físico, mental y social
- Efecto directo: Baja participación comunitaria y menor cohesión
- Efecto directo: Reducción en el desarrollo de talentos deportivos
- Efecto directo: Menor

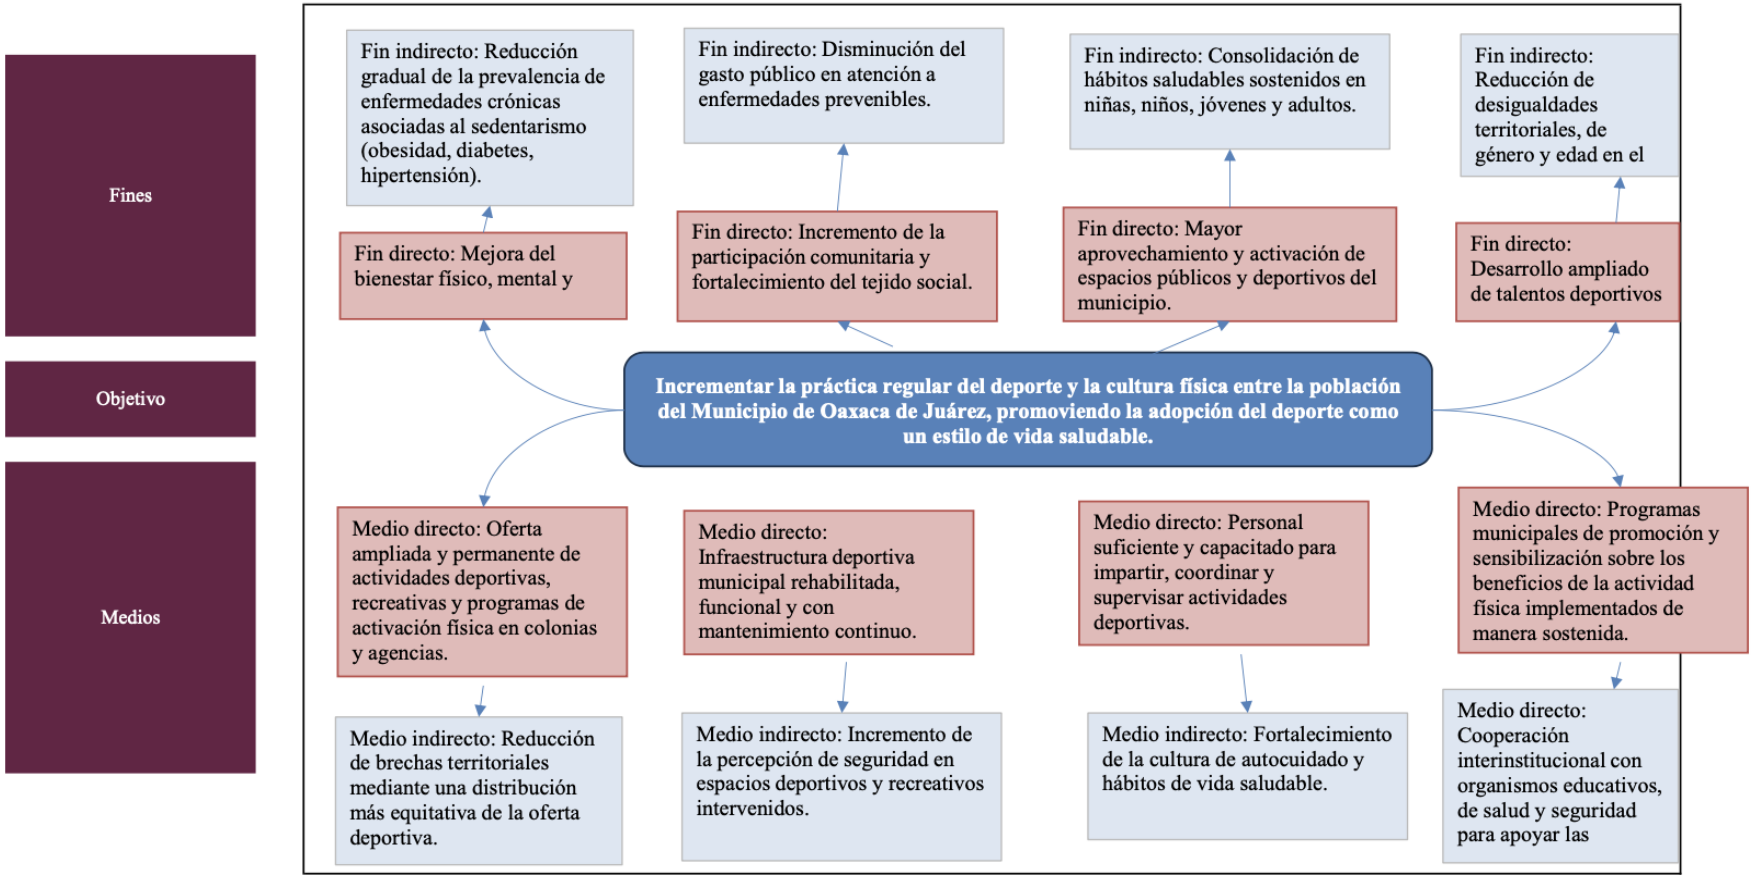
Problemática Identificada

Baja práctica del deporte y la cultura física entre la población del municipio de Oaxaca de Juárez, lo que limita la adopción del deporte como estilo de vida saludable.

Causas

- Causa directa:Insuficiente oferta de programas de activación física y actividades deportivas permanentes.
- Causa directa: Deterioro, falta de mantenimiento o disponibilidad limitada de espacios deportivos municipales.
- Causa directa: Escasez de personal capacitado para impartir, coordinar y supervisar actividades deportivas.
- Causa directa: Insuficiente promoción institucional que incentive la práctica regular del deporte.
- Causas indirectas: Limitaciones socioeconómicas que dificultan la participación en actividades deportivas formales o estructuradas.
- Causas indirectas: Escasa cultura de autocuidado y sedentarismo urbano creciente.
- Causa indirecta: Desigualdad territorial en infraestructura deportiva entre colonias centrales y periféricas.
- Causas indirectas: Percepción de inseguridad en algunos espacios públicos que inhibe

Árbol de Objetivos



2. Estrategia para la selección de alternativas.

Explicar brevemente por qué las medidas que constituirán la intervención del PP son las opciones de acción más efectivas para lograr el objetivo deseado; debe guardar relación con el árbol del objetivo.	La selección de alternativas para el Programa Presupuestario se realizó con base en el diagnóstico institucional y en los Árboles de Problemas y de Objetivos construidos mediante la Metodología del Marco Lógico, los cuales permitieron identificar las causas directas que generan la baja práctica del deporte y la cultura física en el municipio. Durante este proceso se analizaron diversas opciones de intervención derivadas de dichas causas, valorando su viabilidad técnica, institucional y presupuestaria, así como su correspondencia con las atribuciones del Instituto Municipal del Deporte. De este análisis se determinó que la alternativa más adecuada consiste en implementar programas permanentes de activación física, fortalecer la capacitación del personal instructor, ampliar la promoción de actividades deportivas y diversificar la oferta en colonias y agencias con menor cobertura, ya que estas acciones atienden directamente la insuficiente oferta municipal, el deterioro de infraestructura, la falta de personal especializado y la limitada difusión institucional. La estrategia seleccionada se materializa en la ejecución de los componentes y actividades del Programa Presupuestario, particularmente en las acciones de activación física, organización de ligas y eventos, rehabilitación de espacios y fortalecimiento operativo del Instituto, permitiendo mejorar la continuidad y cobertura territorial de las intervenciones. Finalmente, esta estrategia mantiene plena coherencia con la planeación municipal, al alinearse con el Eje 1 “Bienestar Vecinal” y con las Estrategias 1.7.1 y 1.7.2 del PMD 2025–2027, orientadas a fortalecer la infraestructura deportiva y promover la práctica del deporte y la cultura física como parte de un estilo de vida saludable.

1. Diagnóstico del Programa presupuestario

1.1 Descripción del Problema

Antecedentes y definición del problema

El municipio de Oaxaca de Juárez posee una amplia diversidad cultural y lingüística que constituye uno de los principales rasgos de su identidad social. De acuerdo con el Censo de Población y Vivienda 2020 (INEGI), una parte relevante de la población habla una lengua indígena o se reconoce como indígena o afromexicana, con presencia destacada en agencias como Montoya, San Martín Mexicapam, Dolores y Centro, donde más del 15 % de los habitantes forman parte de estos pueblos. Estas comunidades enfrentan, además, rezagos educativos como tasas de analfabetismo superiores al 8 %, así como diversas carencias sociales reflejadas en indicadores de rezago social del CONEVAL, particularmente en acceso a servicios, educación y seguridad social. Estos elementos conforman un entorno municipal donde la riqueza cultural convive con desigualdades estructurales que afectan el ejercicio pleno de los derechos individuales y colectivos.

Entre los factores que agravan esta situación destacan elementos estructurales como la ausencia de mecanismos sistemáticos para garantizar los derechos lingüísticos, la falta de intérpretes certificados, la escasa producción y disponibilidad de materiales en lenguas originarias y la limitada incorporación del enfoque intercultural en la gestión municipal. A ello se suman factores sociales como la persistencia de prácticas discriminatorias y barreras culturales que dificultan la atención adecuada de las necesidades lingüísticas, jurídicas y culturales de las personas indígenas y afromexicanas. En el plano institucional, se identifican capacidades operativas insuficientes, falta de profesionalización y ausencia de políticas municipales consolidadas que garanticen la preservación de lenguas, saberes y prácticas culturales.

Con base en la problemática oficial establecida en el archivo CONCENTRADO OELA 21 08 2025, el problema central se define como:

“Las personas indígenas y afromexicanas del municipio de Oaxaca de Juárez cuentan con condiciones que limitan el acceso al pleno goce de sus derechos fundamentales”.

Adaptado al contexto municipal actual, este problema se manifiesta en la insuficiente incorporación del enfoque intercultural y lingüístico en los programas, servicios y trámites municipales, lo que restringe el acceso efectivo a información, justicia, servicios institucionales oportunos, preservación lingüística y participación social.

La evidencia estadística y cualitativa confirma la pertinencia de este diagnóstico: la falta de servicios con pertinencia cultural, la ausencia de materiales multilingües, la limitación de programas de preservación lingüística, y la discriminación estructural mantienen brechas significativas entre la población indígena y afromexicana y el resto del municipio. Asimismo, el Plan Municipal de Desarrollo 2025–2027 incorpora la Interculturalidad como Eje Transversal (E.T. 4) y establece el Objetivo 10 orientado a mejorar el bienestar de estas poblaciones, pero su implementación aún es incipiente.

La problemática identificada es plenamente coherente con el diseño del Programa Presupuestario del Instituto Municipal de las Lenguas Indígenas para el ejercicio 2026. El Fin, el Propósito, los Componentes y las Actividades se orientan directamente a la preservación lingüística, la protección cultural, la promoción de saberes tradicionales, la asesoría jurídica con pertinencia cultural y la visibilización del patrimonio lingüístico, constituyendo un mecanismo institucional adecuado para enfrentar las causas estructurales del problema y reducir las brechas que limitan el pleno ejercicio de los derechos fundamentales de las personas indígenas y afromexicanas del municipio.

Justificación del Pp

La intervención del Gobierno Municipal de Oaxaca de Juárez es indispensable para atender el problema público identificado, **las personas indígenas y afromexicanas del municipio enfrentan condiciones que limitan el acceso al pleno ejercicio de sus derechos fundamentales**, particularmente en materia de derechos lingüísticos, culturales, educativos, administrativos y de acceso a la justicia. Estas limitaciones persisten debido a factores estructurales y sociales como barreras lingüísticas, prácticas discriminatorias, falta de pertinencia cultural en los servicios públicos, rezagos educativos y escasa presencia institucional de lenguas originarias en los trámites municipales. Dado que estos obstáculos generan exclusión sistemática y desigualdades históricas, su atención requiere una acción gubernamental directa, coordinada, permanente y con enfoque intercultural, la cual no puede ser garantizada únicamente por actores privados, comunitarios o voluntarios.

El Gobierno Municipal cuenta con atribuciones jurídicas claras para intervenir. La Ley Orgánica Municipal del Estado de Oaxaca establece en su Artículo 4, Apartado B, Fracción I la obligación de incorporar el enfoque de igualdad, no discriminación y derechos humanos en municipios con población indígena o afromexicana. El Artículo 43, Fracciones I, II, III y VIII faculta al Ayuntamiento para promover el desarrollo, impulsar políticas de bienestar y garantizar inclusión social, mientras que el Artículo 44, Fracción XXII habilita la creación de organismos descentralizados con funciones específicas, como el IMLI. A su vez, el Bando de Policía y Gobierno, en su Artículo 200, reconoce formalmente al Instituto Municipal de las Lenguas Indígenas como ente encargado de promover, proteger y fortalecer el patrimonio lingüístico y cultural. El Reglamento del Instituto complementa esta base legal mediante los Artículos 1, 4 y 12, que le otorgan competencia en preservación lingüística, certificación de intérpretes, asesoría jurídica intercultural, promoción cultural y acciones de sensibilización institucional.

La creación y operación del Programa Presupuestario es necesaria porque constituye **el único mecanismo institucional especializado para atender las causas directas del problema público.** Sin este programa, no existirían servicios municipales de preservación lingüística, asesoría jurídica con pertinencia cultural, acciones de revitalización, difusión multilingüe o vinculación de intérpretes; además, el municipio carecería de estrategias para enfrentar la discriminación lingüística, la falta de acceso a la información pública en lenguas indígenas y la invisibilidad del patrimonio cultural de los pueblos indígenas y afromexicanos. El programa mantiene una relación directa con el problema, dado que sus componentes —preservación lingüística, visibilización cultural y fortalecimiento institucional— actúan precisamente sobre las barreras estructurales e institucionales que limitan el pleno goce de derechos.

El Programa Presupuestario contribuye a reducir el problema público mediante acciones que fortalecen el ejercicio de los derechos lingüísticos, promueven la revitalización cultural, amplían el acceso a servicios municipales con pertinencia lingüística, incrementan la presencia institucional de las lenguas originarias, sensibilizan al funcionariado público y ofrecen asesoría jurídica intercultural. Estas acciones generan impactos sociales (reducción de la discriminación y aumento del acceso a derechos), institucionales (mayor capacidad municipal para atender población indígena y afrodescendiente) y culturales (revitalización y transmisión del patrimonio lingüístico).

Finalmente, el programa se encuentra plenamente alineado con el Plan Municipal de Desarrollo 2025–2027, dentro del Eje General 2: Desarrollo con Bienestar y Humanismo, Eje 1: Estado de Bienestar, y de forma directa con el Eje Transversal 4: Interculturalidad, específicamente con el Objetivo 10 E.T.I.1: Contribuir al bienestar de las personas indígenas y afromexicanas. Se vincula además con las estrategias E.T.I.1.1, E.T.I.1.2, E.T.I.1.3 y E.T.I.1.4, y sus líneas de acción relacionadas con preservación lingüística, fortalecimiento cultural, acceso a servicios con pertinencia intercultural, protección de derechos humanos y participación económica. Asimismo, aporta a los Objetivos de Desarrollo Sostenible, particularmente al ODS 10: Reducción de las desigualdades, meta 10.2 sobre inclusión social, económica y política de poblaciones indígenas y afrodescendientes.

En conjunto, estos elementos justifican plenamente la pertinencia, obligatoriedad y relevancia social del Programa Presupuestario de Interculturalidad y Lenguas Originarias, asegurando coherencia técnica y plena correspondencia con el problema público, los componentes e indicadores del programa, y los instrumentos de planeación municipal, estatal, nacional e internacional.

Estado actual del problema

Entre 2023 y 2025, la situación de acceso a derechos lingüísticos y culturales de la población indígena y afromexicana del municipio de Oaxaca de Juárez muestra una persistencia de desigualdades estructurales y barreras institucionales que afectan el uso social de las lenguas originarias y la participación plena de estos grupos en la vida pública municipal.

De acuerdo con los registros municipales preliminares y estimaciones del Instituto Municipal de las Lenguas Indígenas (IMLI), entre 2023 y 2024 se identificaron entre 14,000 y 16,500 personas hablantes de lenguas indígenas residentes en el municipio, cifra que se mantiene estable respecto al Censo 2020, lo que indica persistencia del tamaño poblacional, pero sin avances significativos en acceso a servicios con pertinencia lingüística.

- La Encuesta Nacional sobre Discriminación 2022–2023 (ENADIS) reporta que 26.6 % de las personas hablantes de lengua indígena en contextos urbanos señalaron haber sido tratadas con menos respeto al interactuar con instituciones públicas, indicador que se refleja en la percepción registrada en los diagnósticos municipales.
- Según la Medición de Pobreza Multidimensional 2022, la población indígena en zonas urbanas del estado presenta tasas de rezago educativo del 18 % y carencias de acceso a servicios básicos del 21 %, condiciones que se manifiestan de manera diferenciada en colonias y agencias con alta presencia indígena del municipio.
- Entre 2023 y 2024, el IMLI registró que más del 70 % de las solicitudes de apoyo recibidas por la población indígena y afromexicana estaban relacionadas con falta de intérpretes, dificultades para realizar trámites municipales y solicitudes de acompañamiento jurídico, lo cual evidencia la continuidad de barreras administrativas y lingüísticas.

La información recopilada en los Diálogos Vecinales 2025 en agencias como San Martín Mexicapam, Pueblo Nuevo, Montoya, Candiani, Donají y Dolores muestra una serie de hallazgos relevantes:

- Las y los participantes señalaron que los servicios municipales rara vez están disponibles en lenguas originarias, lo que provoca desinformación y dificultades para acceder a apoyos sociales, trámites y programas.
- Se documentaron casos recurrentes de experiencias de discriminación lingüística, particularmente en áreas de atención directa y servicios administrativos.
- Las personas jóvenes hablantes manifestaron que utilizan cada vez menos sus lenguas en espacios comunitarios, educativos o laborales debido a la falta de reconocimiento institucional y a la percepción de que su uso no es valorado socialmente.
- Personas afromexicanas y migrantes indígenas urbanos reportaron poca visibilidad estadística y cultural, así como limitaciones para participar en actividades comunitarias o espacios de consulta municipal.

Estos elementos cualitativos permiten identificar tensiones persistentes entre la diversidad cultural del municipio y la capacidad institucional de atenderla.

El análisis municipal muestra que el problema se manifiesta con mayor intensidad en ciertas zonas del territorio:

Las Agencias con mayor presencia de población indígena o migrante indígena urbana son: San Martín Mexicapam, Pueblo Nuevo, Montoya, Dolores, Candiani y Donají. En donde se concentran reportes de: dificultades para realizar trámites sin intérpretes, barreras para acceder a programas sociales, menor participación en actividades institucionales y pérdida intergeneracional del uso de lenguas originarias.

Siendo las brechas más visibles en colonias periféricas, donde persisten mayores niveles de rezago social y menor oferta de servicios municipales, lo que agrava la exclusión lingüística y administrativa.

Los registros municipales y los diálogos vecinales muestran que el problema afecta principalmente a mujeres indígenas, personas adultas mayores hablantes de lenguas originarias, jóvenes indígenas, personas afromexicanas y migrantes indígenas urbanos, quienes enfrentan mayores barreras para acceder a programas, trámites y servicios municipales; enfrentando una disminución del uso cotidiano de la lengua por falta de espacios y reconocimiento institucional.

Evolución del problema

Durante los últimos años, particularmente entre 2020 y 2025, la situación relacionada con el ejercicio de los derechos lingüísticos y culturales de la población indígena y afromexicana del municipio de Oaxaca de Juárez ha mostrado avances institucionales, pero sin cambios estructurales significativos en la reducción de barreras lingüísticas y de acceso a servicios públicos con pertinencia cultural. Aunque el Censo de Población y Vivienda 2020 reportó alrededor de 15,000 hablantes de lenguas indígenas en el municipio, los registros del IMLI para 2023–2024 estiman entre 14,000 y 16,500 personas, lo que indica estabilidad en el tamaño poblacional, pero sin mejoras sustantivas en el acceso a servicios en lengua indígena. La Encuesta Nacional sobre Discriminación (ENADIS 2022–2023) refleja que el 26.6 % de las personas hablantes de lengua indígena en contextos urbanos reportaron trato discriminatorio en instituciones públicas, tendencia que se mantiene en las percepciones recogidas en los Diálogos Vecinales 2025.

En términos cualitativos, desde 2020 se identifican patrones persistentes de discriminación lingüística, uso limitado de lenguas originarias en espacios institucionales y barreras para realizar trámites sin acompañamiento o intérpretes. Si bien desde 2023 se han implementado acciones como talleres de enseñanza lingüística, sensibilizaciones para funcionariado, paisajes lingüísticos y procesos de consulta con pueblos indígenas y afromexicanos, estos esfuerzos no han revertido la tendencia decreciente del uso cotidiano de las lenguas, especialmente entre jóvenes indígenas urbanos, quienes reportan menor transmisión intergeneracional y reducción del uso en espacios comunitarios.

La evolución del problema está influida por factores sociales (discriminación persistente, movilidad urbana y presión sociolingüística hacia el español), institucionales (falta de transversalización del enfoque intercultural en áreas como salud, justicia y programas sociales), y económicos (menor acceso a oportunidades productivas para población indígena y afromexicana). Territorialmente, las barreras persisten con mayor intensidad en agencias como San Martín Mexicapam, Pueblo Nuevo, Montoya, Dolores, Candiani y Donají, donde se concentran reportes de dificultades para acceder a servicios municipales, menor presencia institucional y mayor riesgo de pérdida lingüística.

Los grupos más afectados continúan siendo mujeres indígenas, personas adultas mayores hablantes de lenguas originarias, jóvenes indígenas urbanos, personas afromexicanas y migrantes indígenas, quienes enfrentan mayores obstáculos para ejercer sus derechos y participar plenamente en la vida institucional. Esta evolución —marcada por avances puntuales pero insuficientes para modificar las condiciones estructurales— confirma la pertinencia del Programa Presupuestario de Interculturalidad y Lenguas Originarias, el cual debe transformar acciones aisladas en políticas sostenidas que respondan directamente al problema público identificado y a los indicadores del Propósito y los Componentes del programa.

Experiencias de atención

Desde 2020 a la fecha, diversas instancias municipales y estatales han implementado acciones para atender las barreras lingüísticas, culturales y de acceso a derechos que enfrentan las personas indígenas y afromexicanas de Oaxaca de Juárez. Estas intervenciones constituyen los principales antecedentes del Programa Presupuestario de Interculturalidad y Lenguas Originarias. Entre 2022 y 2024, el Instituto Municipal de las Lenguas Indígenas (IMLI) desarrolló un conjunto de proyectos orientados a fortalecer el uso social de las lenguas originarias y promover el reconocimiento de los derechos lingüísticos. Entre sus acciones destacan campañas públicas de sensibilización como “Es un derecho usar nuestra lengua indígena”, la colocación de paisajes lingüísticos en espacios emblemáticos del municipio, y la traducción de materiales institucionales a lenguas como zapoteco, mixteco, mazateco, mixe y chinanteco. Asimismo, se implementaron talleres de aprendizaje y reaprendizaje de lenguas en agencias como Pueblo Nuevo, Montoya, San Martín Mexicapam y San Felipe del Agua, que involucraron a más de 150 niñas, niños, jóvenes y personas adultas, fortaleciendo procesos comunitarios de revitalización lingüística.

El IMLI también puso en marcha iniciativas con enfoque de género, como el círculo de mujeres “Guardianas de las Lenguas”, en colaboración con el Instituto Municipal de la Mujer, donde mujeres indígenas y afromexicanas compartieron experiencias de discriminación y fortalecieron su autonomía cultural. De igual forma, se consolidaron convenios de colaboración con el INALI, el INPI y la SIPCIA, lo que permitió al municipio acceder a asistencia técnica para certificación de intérpretes, documentación lingüística y formación intercultural. Antes de la creación del IMLI, entre 2020 y 2021 existieron acciones parciales impulsadas por la administración municipal mediante actividades culturales en torno al Día Internacional de la Lengua Materna y eventos de difusión que contribuyeron a visibilizar la diversidad lingüística municipal, aunque sin una estrategia integral.

Los avances alcanzados en este periodo incluyen una mayor participación comunitaria, el incremento de solicitudes de servicios con pertinencia lingüística —pues entre 2023 y 2024 más del 70 % de los apoyos solicitados por población indígena se relacionaron con intérpretes, acompañamiento jurídico o dificultades para realizar trámites—, y un aumento visible de la presencia simbólica de lenguas originarias en el espacio público a través de campañas y materiales bilingües. Además, diversas áreas municipales participaron en procesos de capacitación en atención con enfoque intercultural, iniciando un proceso gradual de sensibilización institucional. La coordinación interinstitucional generada permitió fortalecer metodologías y herramientas técnicas para el ejercicio de los derechos lingüísticos en el ámbito municipal.

A pesar de estos avances, las experiencias implementadas enfrentaron importantes limitaciones que restringieron su impacto estructural. Entre las principales dificultades se encuentran la insuficiencia presupuestaria —particularmente en 2025, cuando el IMLI operó sin recursos asignados—, la falta de personal especializado y la alta rotación, la escasa disponibilidad de intérpretes certificados, la limitada transversalización del enfoque intercultural en áreas de atención ciudadana y desarrollo social, y la carencia de materiales institucionales sistemáticos en lenguas originarias. Asimismo, la débil infraestructura tecnológica y normativa dificultó la producción de información, la sistematización de indicadores y el seguimiento de acciones.

Las lecciones aprendidas muestran que la revitalización lingüística es más efectiva cuando se articula con procesos comunitarios; que las campañas de visibilización requieren continuidad para transformar actitudes discriminatorias; que la coordinación interinstitucional es indispensable para avanzar en certificación de intérpretes y documentación lingüística; y que la sensibilización del funcionariado debe fortalecerse mediante protocolos, indicadores y capacitación permanente. La creciente demanda ciudadana por servicios con pertinencia cultural confirmó la necesidad de consolidar un programa especializado, con presupuesto estable, estructura técnica y mecanismos de evaluación. Estas lecciones han sido incorporadas en el diseño del Programa Presupuestario de Interculturalidad y Lenguas Originarias para 2026, el cual integra componentes de fortalecimiento institucional, producción multilingüe, formación comunitaria y asesoría jurídico-lingüística.

Finalmente, experiencias exitosas en municipios como San Andrés Cholula, Juchitán de Zaragoza y San Cristóbal de Las Casas demuestran que los programas municipales de política lingüística alcanzan mejores resultados cuando cuentan con presupuesto etiquetado, figuras institucionales de intérpretes comunitarios, estrategias de paisajes lingüísticos y formación comunitaria continua, elementos que han sido adaptados al contexto de Oaxaca de Juárez para orientar el presente programa.

1.2 Metodología para la identificación de la población objetivo y definición de fuentes de información

De acuerdo con el último Censo de Población y Vivienda realizado por el Instituto Nacional de Estadística y Geografía (INEGI) en 2020, la población total del municipio de Oaxaca de Juárez asciende a 270,955 personas (INEGI, 2020).

Definición y cuantificación de los

Población Potencial	55,802 personas	**Cuantificación:**	Total de personas con pertenencia étnica en el municipio (personas que se consideran indígenas + personas que se consideran afromexicanas/afrodescendientes) — columna total INEGI 2020 filas finales (47681 indígenas + 8121 afromexicanas).
		Criterios de Focalización	Personas que pertenecen a pueblos indígenas o afromexicanos, independientemente de si hablan o no una lengua indígena, residentes en el municipio de Oaxaca de Juárez. Se priorizan las agencias con mayor concentración de población étnica identificadas en los diagnósticos y registros municipales: San Martín Mexicapam, Montoya, Pueblo Nuevo, Dolores, Candiani y Donají.
Población Objetivo	19,117 personas	**Cuantificación:**	Personas que hablan alguna lengua indígena y residen en el municipio, conforme a los datos del INEGI 2020. La cuantificación se generó utilizando el método de mapeo territorial, que identifica la distribución espacial de la población hablante en las agencias y zonas urbanas del municipio.
		Criterios de Focalización	Personas hablantes de alguna lengua indígena que residen y que enfrentan barreras lingüísticas para acceder a servicios municipales, priorizando: Zonas con mayor presencia de hablantes y con rezago social medio: San Martín Mexicapam, Montoya, Pueblo Nuevo y Dolores. Grupos sociodemográficos con mayor afectación:mujeres indígenas, personas adultas mayores hablantes, juventudes indígenas, población migrante indígena urbana. La definición se vincula directamente con el problema público del PP: barreras lingüísticas y culturales en el acceso a servicios municipales.
Población atendida (beneficiarios)	1,423 personas	**Cuantificación:**	Total de personas participantes en las acciones operativas del IMLI 2025 (talleres, círculos, cursos, actividades de preservación lingüística y procesos de sensibilización)(registros perativos IMLI 2025).
		Criterios de Focalización	Personas que participaron efectivamente en las acciones operativas del IMLI durante el ejercicio 2025 (talleres, cursos, actividades comunitarias, círculos y sensibilizaciones) La cuantificación responde a la capacidad operativa, estructura del programa, número de acciones calendarizadas y presupuesto autorizado para el ejercicio 2025–2026, garantizando consistencia metodológica con la MIR del programa.

2. Estrategia para la selección de alternativas.

Explicar brevemente por qué las medidas que constituirán la intervención del PP son las opciones de acción más efectivas para lograr el objetivo deseado; debe guardar relación con el árbol del objetivo.	La selección de alternativas se efectuó con base en el diagnóstico institucional y en los Árboles de Problemas y Objetivos elaborados mediante la Metodología del Marco Lógico. Durante el proceso se identificaron diversas opciones de intervención derivadas de las causas directas e indirectas, valorando su viabilidad técnica, institucional y presupuestal; entre ellas, la producción de materiales bilingües, la implementación de talleres y procesos de sensibilización, la creación de contenidos digitales y el fortalecimiento de espacios comunitarios para el uso social de las lenguas indígenas. A partir de este análisis, se determinó que la alternativa más adecuada es una estrategia integral orientada a atender las causas directas identificadas, combinando la preservación lingüística, la visibilización cultural y el fortalecimiento institucional del IMLI para garantizar servicios municipales con enfoque intercultural. La estrategia seleccionada se materializa a través de la ejecución de los Componentes del Programa Presupuestario preservación y promoción lingüística, fortalecimiento cultural, y apoyo administrativo y jurídico, por medio de actividades complementarias de coordinación interinstitucional, capacitación comunitaria y seguimiento de los indicadores definidos en la MIR 2026 (Fin, Propósito, Componentes y Actividades). Esta estrategia seleccionada se encuentra plenamente alineada con el Eje Transversal 4. Interculturalidad del Plan Municipal de Desarrollo 2025–2027, con el Eje 1. Estado de Bienestar del Plan Estatal de Desarrollo y con la Meta 10.2 de los Objetivos de Desarrollo Sostenible

1. Diagnóstico del Programa presupuestario

1.1 Descripción del Problema

Antecedentes y definición del problema

El contexto institucional del Órgano Interno de Control Municipal de Oaxaca de Juárez (OIC) se desarrolla en un entorno caracterizado por una alta percepción ciudadana de corrupción y por debilidades persistentes en los mecanismos de control interno. De acuerdo con la Encuesta Nacional de Seguridad Urbana (ENSU, 2024), el 77.6% de la población de Oaxaca de Juárez considera frecuente la presencia de actos de corrupción en trámites municipales, lo que evidencia un desafío relevante para la integridad y la confianza pública. Estos factores se enmarcan también en un contexto estatal adverso, en el cual Oaxaca ocupa los niveles más bajos del Índice de Competitividad Estatal del IMCO en materia de control de la corrupción.

En el ámbito municipal, actualmente persisten problemas como la falta de seguimiento en proyectos de gestión pública y deficiencias en la vigilancia ciudadana, además aún existen desafíos en el combate a prácticas indebidas asociadas a la corrupción.

Así mismo, se identifican condiciones institucionales que limitan la eficacia del control, la fiscalización y el seguimiento administrativo. De acuerdo con la documentación interna del OICM y los informes operativos del ejercicio 2023–2024, persisten brechas en el seguimiento a proyectos de gestión pública, así como insuficiencias en el monitoreo técnico-administrativo de obras municipales. Asimismo, los mecanismos de participación ciudadana y contraloría social presentan vacíos operativos en materia de capacitación, integración y supervisión, reduciendo su efectividad como instrumentos de vigilancia preventiva. Adicionalmente, se observan factores estructurales que inciden en la persistencia del problema, como cargas crecientes de trabajo en la atención de quejas, investigaciones y procedimientos de responsabilidad administrativa, así como divergencias en criterios técnicos y jurídicos que afectan la oportunidad y calidad del control interno. La evidencia disponible muestra también rezagos en la implementación del Sistema de Control Interno Municipal, en la integración de expedientes de responsabilidades y en la difusión de mecanismos de denuncia ciudadana.

Estos elementos, respaldados por indicadores institucionales como auditorías programadas vs. realizadas, donde, durante el periodo 2022-2024 se emitieron 3 Programas Anuales de Fiscalización, ejecutádose para su cumplimiento 5 auditorías internas que estaban programadas; respecto al indicador de número de quejas atendidas, se detecta que al finalizar el ejercicio 2024 se tenían en trámite 104 expedientes de investigación, los cuales, por la fecha de radicación y el periodo de investigación arrojó un número significativo de expedientes por atender para el ejercicio 2025; respecto a los procedimientos administrativos en trámite, en el ejercicio 2024 se admitieron 31 informes de presunta responsabilidad administrativa, de los cuales, 14 se recibieron en estado de substanciación y 10 estaban pendientes por emplazar a los presuntos responsables; respecto a las acciones de contraloría social en ese mismo trienio se ejecutaron 302 obras públicas, para las cuales se instalaron 171 comités de contraloría social y 3 fueron acreditados ante la instancia correspondiente, y respecto a los indicadores de rendición de cuentas, en ese mismo trienio, se sancionaron 717 actos de entrega-recepción de personas servidoras públicas obligadas, y se recepcionaron y verificaron 2,314 declaraciones de situación patrimonial y 2,679 declaraciones por conflicto de interés; y respecto a control y mejora de la gestión pública municipal, se detectó que para el ejercicio 2021 la Auditoría Superior de la Federación otorgó un puntaje de 38 de 100 puntos posibles respecto al estado que guarda el sistema de control interno en el municipio, lo que representa un nivel bajo, para el ejercicio 2023 se obtuvo un puntaje de 42 de 100 puntos con un nivel medio y 2023 un puntaje de 94 con un nivel alto; por otra parte, en 2023 se integraron 65 proyectos de mejora de la gestión pública al Programa de Mejora de la Gestión Pública Municipal , de los cuales, en el ejercicio 2024 se cancelaron 4 proyectos y solo se culminaron 33 de ellos y finalmente, respecto a la ética Pública se difundió y promovió el Código de Ética de las personas servidoras públicas, adheriéndose en 2023 2,084 servidores públicos al mismo y 2,103 adheridos en 2024, dichos datos estadísticos, confirman que el municipio enfrenta una problemática compleja que afecta la transparencia, la eficiencia gubernamental y la confianza ciudadana.

En este sentido, la problemática identificada es plenamente coherente con los cinco componentes del Programa Presupuestario OICM (fiscalización, control interno, contraloría social, integridad administrativa y responsabilidades), los cuales se orientan a atender las causas y efectos descritos mediante acciones sistemáticas de prevención, supervisión y fortalecimiento institucional.

Justificación del Pp

El Gobierno Municipal debe intervenir para atender el problema público identificado, el cual se caracteriza por debilidades en la prevención, fiscalización e investigación de prácticas indebidas dentro de la administración pública municipal. Estas deficiencias generan riesgos significativos de irregularidades, afectan la correcta aplicación de los recursos públicos y deterioran la confianza ciudadana en las instituciones. La evidencia estadística confirma la magnitud de este desafío: de acuerdo con la Encuesta Nacional de Calidad e Impacto Gubernamental (ENCIG) 2023, el 87.1% de la población de 18 años o más en el estado de Oaxaca percibe que los actos de corrupción son muy frecuentes o frecuentes, lo que refuerza la necesidad de fortalecer los mecanismos municipales de control interno y vigilancia pública. Sin la actuación directa del Gobierno Municipal a través del Órgano Interno de Control Municipal, persisten vacíos en el control interno, insuficiencias en la supervisión de la obra pública, rezago en la atención de denuncias y procedimientos administrativos, así como una cultura institucional débil en materia de integridad y legalidad. Por lo tanto, la intervención del gobierno es indispensable para garantizar la transparencia, el uso eficiente del gasto público y el cumplimiento de los principios de legalidad, honradez y eficiencia que deben regir la gestión municipal.

Con base en el artículo 126 BIS de la Ley Orgánica Municipal del Estado de Oaxaca, el Órgano Interno de Control Municipal es la instancia facultada para supervisar, evaluar y controlar las funciones de la administración pública municipal, verificando la correcta aplicación del gasto público. La norma también establece que este órgano es responsable de promover e integrar la participación plural y democrática de la sociedad en los procesos de vigilancia y control. Dicha atribución otorga al OICM la competencia jurídica y administrativa para analizar la operación del gobierno municipal, revisar el ejercicio de los recursos, evaluar el cumplimiento normativo, sustanciar procedimientos de responsabilidad administrativa, atender denuncias y promover prácticas de integridad pública. Estas facultades hacen del OICM el ente responsable y obligado a encabezar las acciones destinadas a combatir la corrupción y fortalecer la transparencia municipal. Así mismo, a nivel municipal, la norma que da las mismas atribuciones al OICM es el Bando de Policiía y Gobierno del Municipio de Oaxaca de Juárez.

El mantenimiento del Programa Presupuestario “Transparencia y Combate a la Corrupción” es necesario porque responde de manera directa al problema público identificado y a las funciones legales del OICM. Sin este programa, el órgano carecería de los recursos operativos, técnicos y humanos para cumplir sus atribuciones de fiscalización, promoción de integridad, atención de denuncias, gestión de expedientes y supervisión de la obra pública. El programa asegura la disponibilidad de presupuesto para implementar acciones dirigidas a corregir las insuficiencias en auditorías, control interno, contraloría social, ética pública, investigación administrativa y seguimiento normativo. Además, permite avanzar en el cumplimiento del Objetivo 2.1 del PMD 2025–2027, orientado a fortalecer la gestión pública en el combate a la corrupción. Por tanto, este programa no es solo pertinente, sino indispensable para reducir los riesgos institucionales y garantizar una administración pública responsable, transparente y eficiente, tal como se establece en la problemática institucional " Actualmente persisten problemas como la falta de seguimiento en proyectos de gestión pública y deficiencias en la vigilancia ciudadana, además aún existen desafíos en el combate a prácticas indebidas asociadas a la corrupción".

Estas acciones no solo contribuyen al fortalecimiento institucional previsto en el Plan Municipal, Estatal y Nacional de Desarrollo, sino que se articulan directamente con el Objetivo de Desarrollo Sostenible 16: Paz, justicia e instituciones sólidas, al promover instituciones municipales más eficaces

Estado actual del problema

El estado actual del problema muestra que en Oaxaca de Juárez persisten condiciones que limitan la eficacia del control interno, la fiscalización y la atención de responsabilidades administrativas, afectando directamente la transparencia y la confianza institucional. De acuerdo con indicadores nacionales recientes, la percepción de prácticas indebidas se mantiene elevada: la ENCIG 2023 señala que el 87.1% de la población oaxaqueña de 18 años o más considera frecuentes los actos de corrupción, reflejando un entorno de riesgo que incide también en los procesos municipales.

A nivel institucional, la información del Órgano Interno de Control Municipal evidencia que el problema se mantiene vigente. En el ejercicio 2025, la Dirección de Auditoría Interna solo ha supervisado 8 de las 21 obras programadas, lo que muestra brechas en la cobertura y seguimiento técnico de la obra pública. Además, se identificaron observaciones en la revisión de 18 expedientes técnicos y unitarios, lo que evidencia inconsistencias en la ejecución y documentación de proyectos de inversión. En materia de fiscalización, el Programa Anual de Auditorías reporta únicamente dos auditorías concluidas, una al DIF Municipal y otra a Servicios Vecinales, lo que refleja la necesidad de fortalecer la capacidad operativa para aumentar la supervisión del gasto público.

En cuanto a vigilancia ciudadana, durante 2025 se integraron 14 Comités de Contraloría Social, los cuales han participado en supervisiones en agencias y colonias donde se concentra obra pública municipal, como zonas atendidas por SOAPA, Residuos Sólidos, INPAC y SIC. No obstante, la cobertura sigue siendo limitada respecto al total de obras ejecutadas, lo cual restringe la efectividad del control preventivo en territorios con mayor actividad de obra y mayor demanda de supervisión.

En materia de atención de quejas y denuncias, la Dirección de Investigación reporta 95 quejas y denuncias recibidas, de las cuales 37 expedientes fueron archivados, 22 derivaron en informes de presunta responsabilidad administrativa y el resto permanece en integración. Este volumen confirma una alta demanda ciudadana y administrativa de atención, así como la persistencia de prácticas indebidas asociadas a trámites, servicios y actuaciones de personas servidoras públicas municipales.

Respecto al cumplimiento de obligaciones en materia de integridad, en 2025 se emitieron 254 oficios de requerimiento para la presentación de declaraciones patrimoniales y de conflicto de interés, y se brindaron 650 asesorías a personas servidoras públicas para su cumplimiento. Este número muestra que existen rezagos significativos y la necesidad de fortalecer la cultura de responsabilidad administrativa en diversas áreas del AyuntamientoEn cuanto a responsabilidades administrativas, la Dirección de Sanciones tramitó 22 informes de presunta responsabilidad, resolvió 13 expedientes por faltas no graves, remitió 3 expedientes al Tribunal de Justicia Administrativa, y dio seguimiento a 35 expedientes en trámite, lo que refleja una carga sustancial de trabajo y la persistencia de irregularidades que requieren atención especializada.

La problemática también presenta variaciones territoriales: las áreas donde se concentra obra pública —como agencias municipales con alta actividad de infraestructura— y las dependencias con mayor interacción ciudadana (Servicios Municipales, Seguridad Pública, Desarrollo Urbano, DIF Municipal) presentan mayor incidencia de quejas, solicitudes de información y requerimientos de supervisión. Asimismo, proveedores, contratistas y usuarias de

Evolución del problema

urante los últimos cinco años, el problema relacionado con la fiscalización, el control interno, la integridad pública y la atención de responsabilidades administrativas ha mostrado una evolución caracterizada por avances institucionales aislados, acompañados de rezagos persistentes que mantienen vigente el riesgo de prácticas indebidas en el municipio de Oaxaca de Juárez. De acuerdo con indicadores nacionales, la percepción de corrupción se ha mantenido en niveles elevados sin cambios significativos: la ENCIG 2019–2023 muestra que la percepción de actos de corrupción en Oaxaca ha permanecido por encima del 85%, lo que indica una tendencia estable y confirma que la problemática no ha logrado disminuir en el ámbito estatal y municipal.

A nivel institucional, los datos del Órgano Interno de Control Municipal permiten observar variaciones importantes en la operación del control interno entre 2021 y 2024. En materia de fiscalización, entre 2022 y 2024 se emitieron tres Programas Anuales de Fiscalización, de los cuales solo cinco auditorías internas fueron ejecutadas, lo que evidencia una cobertura limitada y una tendencia a la baja en la supervisión efectiva del gasto público, afectando la detección oportuna de irregularidades. En contraste, se identificó un incremento en los hallazgos de auditoría y en el número de observaciones remitidas a dependencias municipales, lo que refleja que las brechas en la gestión pública persisten a lo largo del periodo.

En cuanto a la atención de quejas y denuncias, al cierre de 2024 permanecían en trámite 104 expedientes de investigación, cifra que muestra un acumulado creciente respecto a años anteriores y que confirma la presión institucional por atender presuntas faltas administrativas. Asimismo, en el ejercicio 2024 se admitieron 31 informes de presunta responsabilidad administrativa, de los cuales solo 14 se recibieron con avances sustantivos, lo que evidencia un rezago sostenido en la substanciación de procedimientos, tendencia que se mantiene desde administraciones pasadas.

En materia de contraloría social, entre 2022 y 2024 se ejecutaron 302 obras públicas, para las cuales se integraron 171 comités de contraloría social, aunque únicamente 3 fueron acreditados por la instancia estatal correspondiente. Esta tendencia revela que, si bien hubo esfuerzos de integración comunitaria, la capacidad para fortalecer la vigilancia social ha sido insuficiente, manteniendo una brecha constante en la participación ciudadana en el control preventivo.

Respecto a la rendición de cuentas, durante el trienio se sancionaron 717 actos de entrega–recepción, y se verificaron 2,314 declaraciones patrimoniales y 2,679 declaraciones de conflicto de interés, lo que evidencia un incremento sostenido en el cumplimiento formal de obligaciones. Sin embargo, el volumen creciente de requerimientos y asesorías refleja que existen áreas de la administración con dificultades recurrentes para cumplir oportunamente, lo cual influye en la persistencia del problema.

En materia de control interno, la Auditoría Superior de la Federación otorgó al municipio una calificación de 38/100 puntos en 2021, aumentando ligeramente a 42/100 en 2023 y alcanzando un valor de 94/100 en 2023 (evaluación interna). Aunque estos avances muestran un fortalecimiento gradual del sistema, las capacidades institucionales continúan siendo frágiles y heterogéneas entre áreas, lo que explica por qué el problema persiste pese a los esfuerzos formales de estructura normativa.

Experiencias de atención

Entre 2020 y 2024, el Órgano Interno de Control Municipal ejecutó acciones de fiscalización, control interno, contraloría social, integridad y responsabilidades administrativas. Durante este periodo se emitieron anualmente los Programas de Auditorías y se realizaron cinco auditorías internas enfocadas en dependencias responsables de obra pública, adquisiciones y programas sociales, especialmente en agencias como San Martín Mexicapam, Pueblo Nuevo y Guadalupe Victoria. Asimismo, se integraron 171 Comités de Contraloría Social para supervisar 302 obras públicas, aunque solo 3 fueron acreditados ante la instancia estatal. En materia de integridad y rendición de cuentas, se gestionaron 717 actos de entrega–recepción, así como la verificación de 2,314 declaraciones patrimoniales y 2,679 declaraciones de conflicto de interés, además de capacitaciones y asesoría a distintas áreas municipales.

Los resultados muestran avances parciales pero insuficientes. Las auditorías realizadas permitieron identificar irregularidades y áreas críticas de gestión, pero la cobertura fue limitada por restricciones operativas. En quejas y denuncias, al cierre de 2024 se acumulaban 104 expedientes de investigación, mientras que de los 31 informes de presunta responsabilidad admitidos ese año, solo 14 contaban con avances en substanciación, lo que evidencia un rezago sostenido. En contraloría social, la baja acreditación de comités limitó el impacto de la vigilancia ciudadana. En control interno, la calificación del municipio avanzó de 38/100 en 2021 a 42/100 en 2023, aunque con avances desiguales entre dependencias. Estos indicadores demuestran que las intervenciones previas tuvieron un alcance limitado y no fueron suficientes para revertir la tendencia de percepción de corrupción ni los rezagos administrativos.

A pesar de estos esfuerzos, las acciones implementadas no lograron modificar la tendencia estatal y municipal en materia de percepción de corrupción. De acuerdo con la ENCIG 2023, el 87.1% de la población oaxaqueña considera frecuentes o muy frecuentes los actos de corrupción, y el IMCO ha mantenido al municipio en posiciones críticas en indicadores relacionados con confianza institucional, lo que demuestra que los esfuerzos emprendidos han tenido un impacto limitado en la percepción ciudadana.

Las experiencias de atención permitieron identificar diversas limitaciones que impidieron una intervención más profunda y efectiva: Rezago estructural en expedientes de investigación (104 en trámite al cierre de 2024); Baja capacidad operativa para substanciar procedimientos administrativos (solo 14 expedientes avanzados de 31); Cobertura limitada de auditorías, derivada de la falta de personal técnico y herramientas tecnológicas; Integración irregular de comités ciudadanos, con acreditaciones mínimas (solo 3 de 171); Desigual cumplimiento de obligaciones de integridad en varias dependencias; Debilidad en la continuidad de proyectos, reflejada en cancelaciones y bajas tasas de conclusión en la mejora administrativa; Estas limitaciones confirman que la atención previa ha sido fragmentada, con resultados parciales y sin mecanismos de sistematización suficientes para alterar las causas estructurales del problema.

De la experiencia acumulada se identificaron varias lecciones relevantes: La fiscalización requiere continuidad y cobertura ampliada, lo que fundamenta el Componente 1 (Acciones de fiscalización y auditoría) del Programa Presupuestario; El rezago en expedientes de investigación demanda capacidades

1.2 Metodología para la identificación de la población objetivo y definición de fuentes de información

De acuerdo con el último Censo de Población y Vivienda realizado por el Instituto Nacional de Estadística y Geografía (INEGI) en 2020, la población total del municipio de Oaxaca de Juárez asciende a 270,955 personas (INEGI, 2020).

2. Estrategia para la selección de alternativas.

Explicar brevemente por qué las medidas que constituirán la intervención del PP son las opciones de acción más efectivas para lograr el objetivo deseado; debe guardar relación con el árbol del objetivo.	La selección de alternativas se realizó con base en el diagnóstico institucional y en los Árboles de Problemas y Objetivos construidos mediante la Metodología del Marco Lógico. Durante este proceso se identificaron distintas opciones de intervención derivadas de las causas estructurales del problema público, valorando su viabilidad técnica, operativa y presupuestal, así como su congruencia con las atribuciones del Órgano Interno de Control Municipal. Del análisis comparativo se determinó que la alternativa más adecuada consiste en fortalecer integralmente las capacidades de fiscalización, control interno, integridad pública, contraloría social y responsabilidades administrativas, por ser la única que atiende de manera directa el problema identificado y se ajusta plenamente al artículo 126 BIS de la Ley Orgánica Municipal. La estrategia se implementará mediante la ejecución directa de los componentes del Programa Presupuestario “Transparencia y Combate a la Corrupción”, traduciendo las causas identificadas en medios de intervención institucional y asegurando procesos de seguimiento, supervisión y evaluación continua. Finalmente, la alternativa seleccionada se encuentra alineada con el Eje “Gobierno de Territorio Honesto y Transparente” y con el Objetivo 2.1 del PMD 2025–2027, así como con la estructura jerárquica del programa (Fin, Propósito, Componentes y Actividades), garantizando plena coherencia entre diagnóstico, planeación y ejecución.

Nombre del Programa	Justicia Cívica y Convivencia Ciudadana
Clave del Programa Presupuestario	27
Unidad Responsable del Pp	Alcaldía Municipal Cívica

1. Diagnóstico del Programa presupuestario

1.1 Descripción del Problema

Antecedentes y definición del problema

El municipio de Oaxaca de Juárez enfrenta desafíos significativos en materia de convivencia y seguridad ciudadana. De acuerdo con la Encuesta Nacional de Seguridad Urbana (ENSU-INEGI, 2024), el 66.5% de la población percibe inseguridad en su entorno, ubicando al municipio entre las ciudades con mayor sensibilidad hacia conflictos vecinales. Esta situación se ve agravada por factores estructurales como el crecimiento urbano desordenado (IMPLAN, 2025-2027), la alta densidad poblacional en diversas colonias (INEGI, 2020), la diversidad cultural y étnica, así como condiciones persistentes de pobreza y marginación (CONEVAL, 2022-2023), que inciden directamente en la conflictividad comunitaria.

En este contexto, el modelo de justicia cívica del Municipio de Oaxaca de Juárez requiere consolidarse para garantizar la atención, gestión y resolución pacífica de conflictos vecinales y comunitarios, mediante mecanismos accesibles, oportunos y dialogados. Esta necesidad se refuerza en un escenario donde dos de cada tres personas perciben inseguridad, y donde los conflictos vecinales constituyen uno de los principales problemas cotidianos, tal como lo documenta la ENSU 2024.

La operación del Sistema Municipal de Justicia Cívica evidencia esta problemática y refleja el proceso de adaptación al nuevo Reglamento de Justicia Cívica. Según datos de la Alcaldía Municipal Cívica (2025), se observan las siguientes variaciones:

Juzgado Especializado en Faltas Administrativas: Disminución de 1,561 expedientes (2023) a 25 expedientes (2024).
Juzgado Especializado en Conciliación y Mediación: Incremento sostenido de 74 a 92 expedientes (2023-2024).
Juzgados Especializados en Maltrato Animal y Tránsito: Disminución significativa en el número de expedientes atendidos (2022-2024).

Estas fluctuaciones reflejan un periodo crítico de transición institucional hacia un modelo renovado de justicia cívica, donde, a nivel nacional, el 70% de los conflictos registrados corresponden a problemáticas vecinales (ENSU 2024).

De no atenderse esta problemática de manera integral y estratégica, se generan riesgos como:
Cronificación y escalamiento de conflictos vecinales no resueltos, Saturación de los sistemas judiciales formales con casos que pueden ser tramitados mediante justicia cívica, Erosión del tejido social y debilitamiento de la convivencia comunitaria y Pérdida de confianza en los mecanismos municipales de solución de controversias.

Justificación del Pp

El Programa Presupuestario constituye la alternativa más pertinente para consolidar el modelo de justicia cívica en el Municipio de Oaxaca de Juárez, al atender un vacío institucional identificado en la gestión y resolución de conflictos vecinales y comunitarios. La intervención pública resulta necesaria debido a que la implementación del nuevo modelo de justicia cívica aún presenta insuficiencias operativas, normativas y de coordinación que limitan su capacidad para garantizar mecanismos accesibles, oportunos y dialogados de resolución de controversias, en un contexto donde la percepción de inseguridad alcanza el 66.5% de la población (ENSU-INEGI, 2024).

La Alcaldía Municipal Cívica cuenta con competencia directa para operar y consolidar este modelo, con fundamento en el Artículo 113, fracción VIII de la Constitución Política del Estado Libre y Soberano de Oaxaca; el Capítulo III de la Ley Orgánica Municipal del Estado de Oaxaca, en sus Artículos 144 y 145; y el Artículo 209 del Bando de Policía y Gobierno del Municipio de Oaxaca de Juárez. Estos ordenamientos atribuyen a la Alcaldía facultades expresas para impartir justicia municipal, actuar como instancia conciliatoria y mediadora en conflictos vecinales, y coordinar la operación de los Juzgados Cívicos Especializados.

La intervención mediante este Programa se justifica porque permite fortalecer institucionalmente el modelo de justicia cívica, corregir brechas en la atención de conflictos comunitarios, evitar costos sociales e institucionales derivados de la falta de mecanismos eficaces de resolución, y garantizar el cumplimiento de las atribuciones municipales en materia de convivencia y paz social. Asimismo, el Programa asegura coherencia vertical con la planeación estratégica vigente: el Plan Nacional de Desarrollo (Eje 1: Gobernanza con Justicia), el Plan Estatal de Desarrollo (Eje 3: Seguridad y Justicia para Vivir en Paz) y el Plan Municipal de Desarrollo 2025-2027 (Eje 3: Gobierno de Paz, Seguridad y Justicia, Objetivo 3.4 y Estrategia 3.4.1), además de contribuir al ODS 11: Ciudades y comunidades sostenibles, Meta 11.3.

En suma, el Programa es necesario porque fortalece la capacidad institucional del municipio para atender, gestionar y canalizar adecuadamente los conflictos vecinales y comunitarios, consolidando un modelo de justicia cívica eficiente, accesible y alineado a la política pública de seguridad, convivencia y paz social.

Estado actual del problema

El problema público relacionado con la convivencia vecinal y la conflictividad comunitaria en el municipio de Oaxaca de Juárez se manifiesta actualmente en altos niveles de percepción de inseguridad, desconfianza institucional y baja utilización de mecanismos formales de resolución de conflictos. Según la Encuesta Nacional de Seguridad Urbana (ENSU, INEGI 2025), el 68.9% de la población se siente insegura en su ciudad, mientras que la ENVIPE 2024 identifica una desconfianza generalizada en las autoridades locales y un bajo conocimiento de los mecanismos de justicia cívica, del cual solo un segmento menor al 40% de la ciudadanía sabe cómo acceder a ellos.

La conflictividad comunitaria presenta una concentración territorial desigual. Los Diálogos Vecinales del IMPLAN (2025) señalan que zonas como San Martín Mexicapan, Santa Rosa Panzacola y Pueblo Nuevo presentan mayor frecuencia de conflictos vecinales, tensiones comunitarias y reportes ciudadanos, mientras que en agencias periféricas se observa un uso muy limitado de los mecanismos formales para gestionar disputas locales.

En cuanto al perfil poblacional afectado, los grupos más impactados son jóvenes de 18 a 29 años, quienes concentran más de un tercio de los incidentes registrados en reportes comunitarios, seguidos de comerciantes y adultos mayores, especialmente en colonias con alta densidad poblacional. Asimismo, la problemática tiene un impacto diferenciado por sexo: la ENVIPE (2024) reporta que 70.9% de las mujeres perciben inseguridad en su entorno inmediato, lo que evidencia una mayor exposición subjetiva a riesgos o conflictos.

La persistencia del problema también se refleja en la elevada demanda ciudadana para acceder a servicios de orientación, atención y acompañamiento en temas de convivencia. La Defensoría de los Derechos Humanos del Pueblo de Oaxaca (DDHPO, 2024) documentó aproximadamente 4,000 quejas relacionadas con dificultades para acceder a mecanismos adecuados de resolución de conflictos y servicios municipales vinculados a la convivencia, mientras que informes especializados de la CNDH (2024) señalan barreras de acceso, insuficiencia de información pública y limitaciones en infraestructura disponible para canalizar controversias vecinales en el municipio.

En suma, el estado actual del problema se caracteriza por:

Alta percepción de inseguridad y desconfianza en autoridades,Bajo conocimiento y limitado uso de mecanismos formales de resolución de conflictos, Concentración territorial del conflicto en colonias específicas, Impacto diferenciado en jóvenes, mujeres y comerciantes, Barreras de acceso e información que dificultan la convivencia pacífica y la gestión temprana de tensiones comunitarias.

Evolución del problema

Entre 2022 y 2025, la problemática de la conflictividad vecinal y la insatisfacción por la falta de mecanismos accesibles de resolución de controversias en el municipio de Oaxaca de Juárez muestra tendencias de persistencia e intensificación, así como cambios en su distribución territorial y en los grupos poblacionales más afectados.

A nivel de percepción, la ENSU registra un incremento en la sensación de inseguridad, pasando del 66.5% (ENSU-INEGI, 2024) al 68.9% (ENSU-INEGI, 2025), lo que representa un aumento de 2.4 puntos porcentuales en el período. Este aumento sugiere que, en términos subjetivos, la población percibe un deterioro o una falta de mejoría en las condiciones de seguridad cotidiana.

En cuanto al conocimiento y uso de mecanismos formales de resolución, los indicadores de diagnóstico muestran consistencia en la baja penetración informativa: menos del 40% de la ciudadanía declara conocer cómo acceder a los mecanismos de justicia cívica, indicador que se mantiene como una barrera persistente a lo largo del periodo analizado. De forma complementaria, la ENVIPE 2024 y otros diagnósticos locales registran una desconfianza sostenida hacia las autoridades, lo que limita la propensión ciudadana a recurrir a instancias formales para gestionar conflictos.

Territorialmente, la conflictividad se ha concentrado de manera sostenida en determinadas colonias del área urbana —entre ellas San Martín Mexicapan, Santa Rosa Panzacola y Pueblo Nuevo— identificadas repetidamente en los diálogos y diagnósticos municipales como zonas con mayor incidencia de tensiones vecinales. Paralelamente, las agencias periféricas mantienen una menor visibilidad de conflictos formalizados, lo que apunta a una posible sub-registro o a barreras de acceso diferenciadas por ubicación geográfica.

Desde la perspectiva demográfica, el problema ha mostrado persistencia en su impacto sobre poblaciones específicas: los jóvenes de 18 a 29 años agrupan una proporción consistente y relevante de los incidentes reportados (más de un tercio en los reportes municipales), seguidos por comerciantes y adultos mayores. Además, la percepción de inseguridad ha experimentado una mayor intensidad entre mujeres (70.9% según ENVIPE 2024), lo que refleja una dimensión de género diferencial en la experiencia de riesgo y conflicto en el espacio público y comunitario.
Indicadores de demanda insatisfecha y barreras de acceso han permanecido elevados en el periodo analizado: la Defensoría de los Derechos Humanos del Pueblo de Oaxaca documentó en 2024 aproximadamente 4,000 quejas vinculadas a dificultades de acceso a servicios municipales y mecanismos de justicia cívica, y la CNDH (2024) reportó limitaciones de acceso y de infraestructura. Estos datos muestran una persistencia del problema estructural: la necesidad ciudadana por canales efectivos de resolución y acompañamiento no ha sido satisfecha de forma consistente entre 2022 y 2025.
En conjunto, la evolución del problema se caracteriza por:

Persistencia e incremento de la percepción de inseguridad a nivel municipal; Mantenimiento de barreras de conocimiento y acceso a mecanismos de justicia cívica; Concentración territorial sostenida de la conflictividad en colonias específicas; Impacto demográfico diferencial, con mayor incidencia entre jóvenes y una percepción de inseguridad más acusada en mujeres; Demanda ciudadana insatisfecha, reflejada en quejas y reportes que evidencian faltantes en la cobertura y accesibilidad de servicios de gestión de conflictos.

Experiencias de atención

Entre 2022 y 2025, la Alcaldía Municipal Cívica implementó diversas acciones para fortalecer el modelo de justicia cívica en el municipio. Estas intervenciones incluyeron la transición normativa con la publicación del nuevo Reglamento de Justicia Cívica en 2023 con nuevas reformas en octubre del presente año, la capacitación especializada de 906 elementos policiales en derechos humanos y justicia cívica, así como la ejecución de más de 50 operativos focalizados en colonias identificadas como críticas. Paralelamente, se desarrollaron mecanismos alternativos de solución de conflictos que permitieron atender a 160 personas, además de 146 atenciones por casos de maltrato animal.
Los resultados de estas acciones se reflejaron en beneficios directos para 564 vecinos mediante el restablecimiento del orden en espacios públicos, así como en el crecimiento del 24% en la demanda del Juzgado de Conciliación y Mediación entre 2023 y 2024, lo que evidenció una creciente receptividad ciudadana hacia los mecanismos dialogados. No obstante, estas intervenciones enfrentaron importantes limitaciones estructurales, entre las que destacaron la insuficiencia presupuestaria para sostener campañas de difusión masiva, la rotación de personal técnico que afectó la continuidad operativa, las barreras tecnológicas en los sistemas de registro y seguimiento, así como una articulación limitada con la policía preventiva y otras áreas municipales.
De esta experiencia se extrajeron lecciones fundamentales para el diseño del actual Programa Presupuestario. Se identificó que la capacitación especializada, aunque necesaria, requiere complementarse con mecanismos permanentes de difusión ciudadana, sistemas de evaluación continua y protocolos de coordinación interinstitucional formalizados. En consecuencia, el programa actual incorpora específicamente campañas informativas territorializadas, el desarrollo de sistemas digitales de seguimiento de casos e indicadores de desempeño vinculados a la percepción ciudadana y tiempos de resolución.
Como referencia comparativa, se consideraron experiencias exitosas de otros municipios como Mérida y Guadalajara, donde la integración de tecnologías digitales y estrategias de mediación proactiva han demostrado aumentar significativamente la efectividad de la justicia cívica. Estos modelos serán adaptados al contexto particular de Oaxaca de Juárez, considerando su diversidad cultural y las capacidades institucionales existentes, con el objetivo de fortalecer la implementación y consolidación del modelo local de justicia cívica.

1.2 Metodología para la identificación de la población objetivo y definición de fuentes de información

La definición de los conceptos poblacionales se realizó con base en el problema público identificado en el apartado 1.1.1: El modelo de justicia cívica en el municipio de Oaxaca de Juárez requiere consolidarse para resolver conflictos vecinales y comunitarios de manera pacífica y dialogada. considerando la distribución territorial y los grupos afectados identificados en el diagnóstico.

Definición y cuantificación de los			
Población Potencial	Total de habitantes del municipio de Oaxaca de Juárez susceptibles de enfrentar conflictos vecinales, de convivencia comunitaria o relacionados con faltas cívicas, en un contexto donde el 66.5% de la población percibe inseguridad (ENSU 2024)	**Cuantificación:**	270,955 habitantes

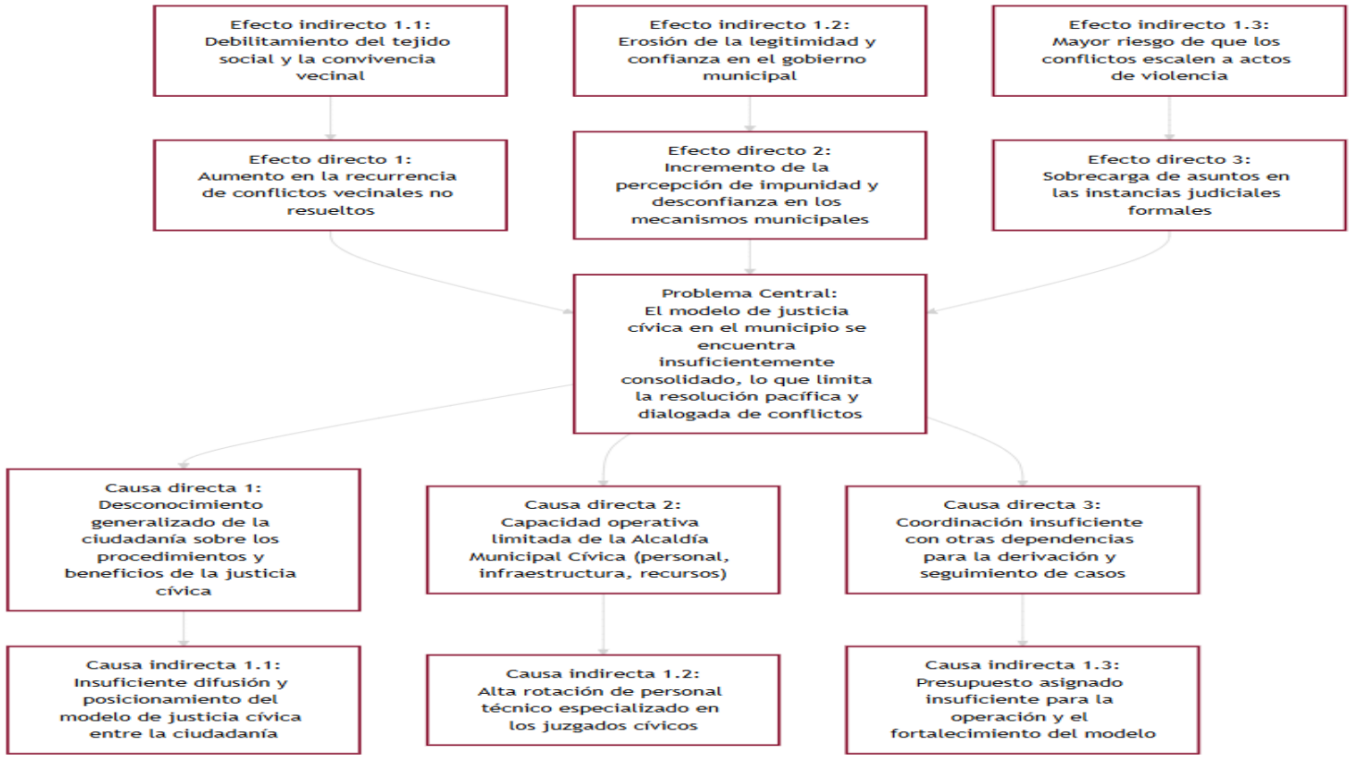
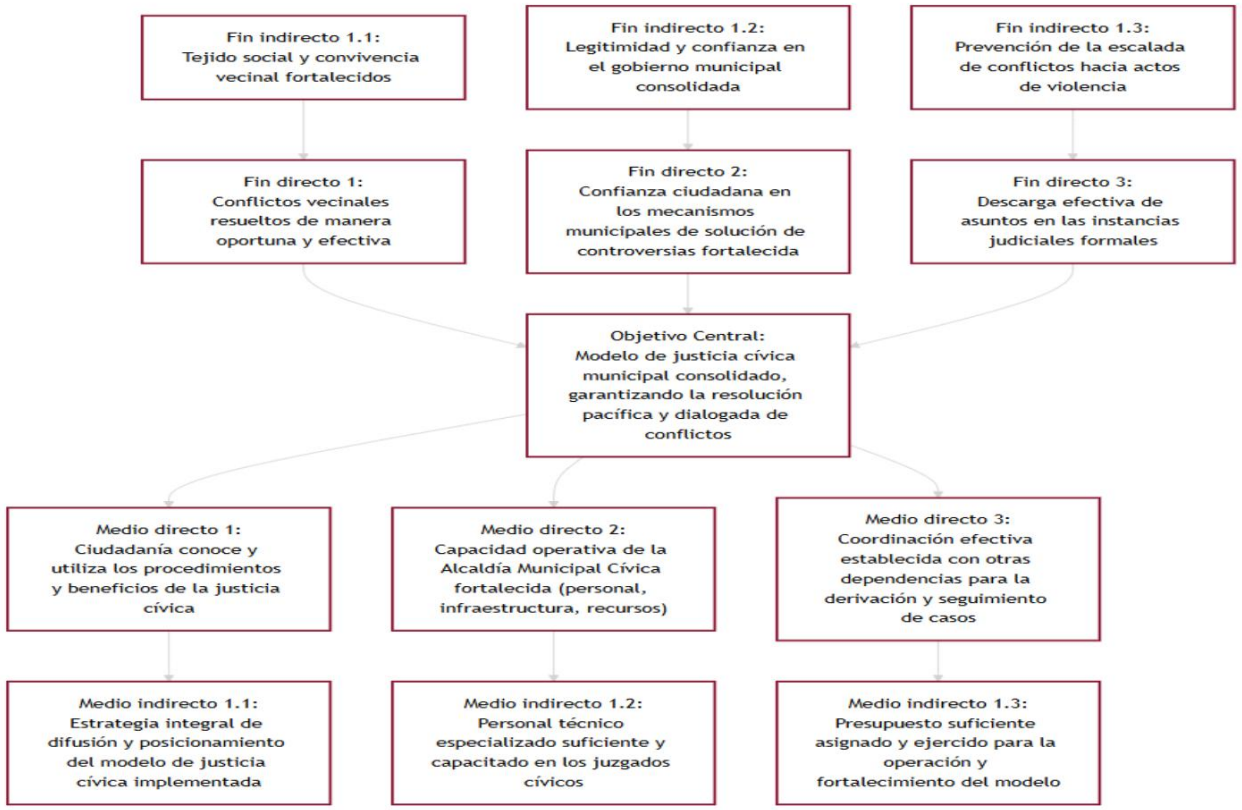
Árbol de Problemas



Árbol de Objetivos



2. Estrategia para la selección de alternativas.

Explicar brevemente por qué las medidas que constituirán la intervención del PP son las opciones de acción más efectivas para lograr el objetivo deseado; debe guardar relación con el árbol del objetivo.	La selección de alternativas se realizó con base en el diagnóstico institucional y los árboles de problemas y objetivos elaborados mediante la Metodología del Marco Lógico. Durante el proceso se analizaron distintas rutas de intervención derivadas de las causas detectadas, valorando su viabilidad técnica, institucional y presupuestal. Tras este análisis, se determinó que el fortalecimiento integral del modelo de justicia cívica municipal representa la opción más viable y efectiva por su coherencia diagnóstica al abordar directamente las causas identificadas, su sostenibilidad institucional al fortalecer capacidades internas de la Alcaldía Municipal Cívica, y su viabilidad presupuestaria al optimizar recursos existentes. Esta estrategia se materializa mediante la ejecución directa de los componentes del Programa Presupuestario y actividades complementarias de coordinación interinstitucional, capacitación especializada y evaluación continua. La alternativa seleccionada se encuentra alineada con el Eje 3 del PMD 2025-2027 "Gobierno de Paz, Seguridad y Justicia" y garantiza coherencia vertical con los niveles jerárquicos de planeación (Fin, Propósito, Componentes y Actividades), consolidando así la rectoría del gasto hacia resultados de impacto en la convivencia pacífica municipal.

1. Diagnóstico del Programa presupuestario

1.1 Descripción del Problema

Antecedentes y definición del problema

En el Municipio de Oaxaca de Juárez, persiste un problema central relacionado con la gestión y actualización insuficiente de la información pública municipal, lo que impide contar con datos completos, coherentes y oportunos en los diferentes sistemas y plataformas de transparencia. Esta situación se origina en la falta de estandarización en los procesos internos de registro, organización y publicación de información, así como en la limitada coordinación entre las áreas generadoras y la Unidad de Transparencia.

El problema se manifiesta principalmente en la discontinuidad y heterogeneidad de la información institucional, lo cual afecta la consistencia de los datos que deben ponerse a disposición de la ciudadanía bajo los marcos normativos vigentes. La ausencia de mecanismos uniformes para asegurar la calidad, integridad y periodicidad de la información genera un entorno en el que los registros públicos presentan vacíos, inconsistencias y variaciones que dificultan su consulta y verificación.En síntesis, el problema consiste en que la información pública del municipio no se gestiona ni actualiza de manera uniforme, completa y sistemática, lo que limita la capacidad institucional para cumplir adecuadamente con las obligaciones de transparencia y garantizar información confiable.

Justificación del Pp
Permite fortalecer la gestión, actualización y disponibilidad de la información pública municipal. Su pertinencia radica en que brinda las herramientas operativas, normativas y administrativas para garantizar que el municipio cumpla de manera eficiente con sus obligaciones de transparencia y, con ello, asegurar que la ciudadanía acceda a información clara, completa y confiable. El programa se justifica porque permite dotar a la administración municipal de capacidades técnicas y operativas que actualmente son insuficientes, particularmente en lo relacionado con la estandarización de procesos informativos, el seguimiento institucional y la coordinación entre las áreas que generan datos. Asimismo, brinda el andamiaje necesario para mejorar la calidad de las respuestas a solicitudes de información, fortalecer la organización documental, asegurar la protección de datos personales y promover prácticas de transparencia activa. La intervención es pertinente porque está respaldada por el marco jurídico aplicable —incluida la normatividad estatal y municipal en materia de transparencia—, el cual asigna responsabilidades directas a los municipios para garantizar el derecho de acceso a la información. En este sentido, el programa constituye el instrumento más adecuado para cumplir con dichas obligaciones y ordenar los procesos que permiten gestionar la información pública de manera eficiente. La situación futura deseada es contar con un municipio que gestione y publique información con oportunidad, homogeneidad y calidad, asegurando que la ciudadanía pueda ejercer plenamente su derecho de acceso a la información y que la administración pública opere bajo principios de integridad, apertura y rendición de cuentas. El programa permitirá avanzar hacia este escenario al consolidar procedimientos institucionales claros, capacidades fortalecidas y mecanismos permanentes de seguimiento. En suma, el programa es necesario y pertinente porque ofrece la estructura institucional requerida para superar las limitaciones detectadas y avanzar hacia un modelo de gestión informativa que garantice transparencia, confianza pública y un ejercicio efectivo de los derechos ciudadanos.

Estado actual del problema

En el Municipio de Oaxaca de Juárez persisten rezagos verificables en materia de transparencia, acceso a la información pública y protección de datos personales, los cuales comprometen la calidad de la gestión pública y limitan el ejercicio efectivo de los derechos ciudadanos. Aunque existe un marco normativo sólido que regula la publicación de información de oficio, la atención a solicitudes y el manejo adecuado de datos personales, la evidencia cuantitativa muestra que continúan existiendo deficiencias operativas en la actualización, disponibilidad y completitud de la información. De acuerdo con los registros oficiales del SIPOT y del Portal de Transparencia Municipal, durante 2025 se identificó que aproximadamente 10 % de la información de oficio permanecía desactualizada, pese a que se realizaron 1,056 actualizaciones anuales en el Portal Institucional. Si bien el municipio alcanzó un 100 % de cumplimiento en obligaciones de transparencia en 2025, este indicador había sido de 97.5 % en 2022, mostrando fluctuaciones operativas asociadas a la heterogeneidad de procesos internos en las dependencias.
Respecto al acceso a la información, los datos también reflejan avances y rezagos simultáneos. Entre 2022 y 2025, los recursos de revisión interpuestos ante el OGAIPO se redujeron de 136 a 41, equivalente a una disminución del 69.85 %. Sin embargo, aun en 2025 se registraron 17 recursos pendientes de resolución, lo que revela inconsistencias persistentes en la fundamentación, completitud y oportunidad de las respuestas emitidas por distintas áreas municipales. Los reportes internos de la Unidad de Transparencia también documentan fallas recurrentes en la clasificación adecuada de documentos, así como en los procesos de protección de datos personales, lo que incrementa el riesgo de incumplimiento normativo y afecta la confianza de la ciudadanía.

Desde el punto de vista territorial, la problemática presenta variaciones relacionadas con la infraestructura y la brecha digital. En diversas agencias municipales y zonas periféricas del municipio, donde históricamente se registra menor acceso a internet, infraestructura tecnológica limitada y conectividad irregular, se observan mayores rezagos en la carga y actualización de información. Estas condiciones afectan particularmente a áreas administrativas que operan fuera del núcleo institucional del Centro Histórico, lo que genera mayores tiempos de traslado, retrasos en la entrega de documentación y menor oportunidad en la verificación y validación de datos. De manera general, las diferencias en conectividad y disponibilidad tecnológica amplifican la desigualdad operativa entre dependencias y repercuten en la homogeneidad de la información pública que se difunde a la ciudadanía.

Esta situación impacta de manera diferenciada a ciertos grupos poblacionales. Las personas adultas mayores, mujeres jefas de hogar, personas con discapacidad, comunidades indígenas urbanas y habitantes de zonas con baja conectividad enfrentan mayores barreras para ejercer su derecho de acceso a la información pública. Asimismo, organizaciones de la sociedad civil, colectivos ciudadanos y sectores académicos que consultan de manera frecuente la PNT han reportado dificultades para acceder a información completa y verificable en áreas como Tesorería, Obras Públicas, Sindicaturas y Seguridad Pública, dependencias que concentran tanto un alto volumen de solicitudes como los mayores rezagos en la actualización de información.

En cuanto a gobierno abierto, aunque el municipio aparece como parte del Secretariado Técnico de Gobierno Abierto Oaxaca, la revisión del micrositio estatal y de los portales municipales evidencia una brecha entre el reconocimiento institucional y la operación práctica. La existencia del micrositio no garantiza que todas las estructuras internas —como manuales actualizados, procedimientos homologados, sistemas de capacitación continua o tratamiento adecuado de datos personales— estén implementadas o funcionen de forma uniforme en todas las áreas municipales. Esto se refleja en la falta de estandarización de criterios, en la disparidad de procesos de clasificación documental y en la adopción desigual de prácticas de apertura y transparencia proactiva.

En síntesis, el estado actual del problema muestra brechas operativas en la calidad, oportunidad y completitud de las respuestas a solicitudes de información; rezagos en la actualización de información de oficio; inconsistencias en la clasificación y protección de datos personales; y una débil estandarización de instrumentos internos como manuales, guías y mecanismos de capacitación. Estas condiciones, respaldadas por evidencia cuantitativa, fuentes verificables y un análisis territorial y poblacional integral, confirman la existencia de un problema público vigente que afecta a la ciudadanía, limita la transparencia institucional y debilita la rendición de cuentas en Oaxaca de Juárez.

Evolución del problema
Durante los últimos cinco años, el problema público relacionado con la transparencia, el acceso a la información y la protección de datos personales en el Municipio de Oaxaca de Juárez ha mostrado una evolución identificable a partir de registros institucionales, verificaciones del SIPOT, reportes del OGAIPO y datos administrativos de la Unidad de Transparencia. Entre 2020 y 2022, el municipio presentó rezagos significativos en la publicación y actualización de información de oficio, con niveles de cumplimiento inferiores al estándar estatal, así como tiempos de respuesta a solicitudes superiores a los plazos normativos. En 2022, las verificaciones reflejaron que solo 97.5 % de las fracciones aplicables se encontraban publicadas, mientras que el número de recursos de revisión ascendió a 136, evidenciando deficiencias en la completitud, fundamentación y oportunidad de las respuestas. A partir de 2023 se registra un cambio parcial en el comportamiento del problema, asociado a ajustes operativos internos, capacitaciones realizadas y mayor acompañamiento metodológico del OGAIPO. Este periodo muestra un incremento en la actividad institucional, reflejado en la realización de más de 1,000 actualizaciones anuales en el Portal de Transparencia y una tendencia a la reducción de inconsistencias en cargas de información. No obstante, estas mejoras no fueron homogéneas entre áreas, y persistieron dependencias con procesos de clasificación documental limitados, criterios dispares en el manejo de datos personales e inconsistencias en la calidad de la información reportada en SIPOT y en la PNT. Para 2024–2025, la evolución muestra una disminución importante en los recursos de revisión presentados, pasando de 136 en 2022 a 41 en 2025 (una reducción del 69.85 %), lo que indica avances en la elaboración de respuestas y atención institucional. Sin embargo, del total correspondiente a 2025 aún permanecían 17 recursos pendientes, lo que confirma que el problema, aunque reducido, no ha sido solucionado. Asimismo, pese a alcanzar 100 % de cumplimiento en SIPOT en 2025, los registros internos evidencian que 10 % de la información de oficio seguía desactualizada, debido a brechas operativas en la verificación, validación y estandarización de procesos. Estas fluctuaciones demuestran que los avances registrados dependen del esfuerzo operativo y no de un sistema institucional consolidado. En cuanto a factores explicativos, la evolución del problema refleja que las mejoras observadas entre 2023 y 2025 se relacionan con procesos puntuales, como capacitaciones aisladas, acompañamiento del órgano garante, actualización de equipos y reorganización administrativa en áreas específicas. Sin embargo, estos factores no se tradujeron en una transformación estructural del sistema de transparencia municipal, ya que no se consolidaron manuales homogéneos de clasificación documental, no se implementaron sistemas uniformes de gestión archivística ni se establecieron procedimientos estandarizados para el tratamiento de datos personales. Como resultado, la capacidad institucional sigue siendo variable entre dependencias, lo que explica por qué los avances no se reflejan de manera consistente en todos los indicadores. Finalmente, la evolución del problema guarda relación directa con el problema público identificado en el Plan Municipal de Desarrollo 2025–2027, que reconoce la insuficiencia de mecanismos de transparencia y la falta de procesos operativos uniformes para garantizar el acceso a la información. Los cambios registrados durante los últimos cinco años confirman esta brecha estructural: aunque el municipio ha logrado incrementos en el cumplimiento formal, los indicadores operativos —tiempos de respuesta, consistencia informativa, actualización real de datos y protección de datos personales— siguen mostrando variaciones importantes, lo que evidencia la persistencia del problema público y justifica la intervención del Programa Presupuestario.

Experiencias de atención
Entre 2020 y 2024, el Municipio de Oaxaca de Juárez implementó diversas acciones orientadas a atender el problema público relacionado con la transparencia, el acceso a la información y la protección de datos personales. Durante este periodo se realizaron actualizaciones periódicas de obligaciones de transparencia en el SIPOT, jornadas de revisión documental, así como mejoras generales en el Portal de Transparencia municipal. A partir de 2022, el municipio incrementó su participación en actividades de capacitación ofrecidas por el Órgano Garante del Estado de Oaxaca, enfocadas en clasificación de información, gestión documental y uso de la Plataforma Nacional de Transparencia. Además, se integraron manuales operativos básicos para la carga de información y se revisaron procesos internos en coordinación con áreas como Tesorería, Obras Públicas, Servicios Municipales y Sindicaturas. En cuanto a resultados observables derivados de estas acciones, los registros permiten identificar avances medibles. Entre 2022 y 2025, el cumplimiento de obligaciones de transparencia pasó de 97.5 % a 100 % y el número de actualizaciones anuales ascendió a 1,056, lo que evidencia un incremento en la actividad operativa. Asimismo, se registró una disminución significativa en los recursos de revisión interpuestos ante el órgano garante, pasando de 136 en 2022 a 41 en 2025, lo cual sugiere una mejora parcial en la calidad y oportunidad de las respuestas institucionale. No obstante, persisten limitaciones dado que 17 recursos continuaban pendientes en 2025, reflejo de áreas que aún enfrentan dificultades para cumplir plenamente con los estándares de completitud y fundamentación establecidos por la ley. Durante este periodo también se identificaron diversos retos que influyeron en la forma en que se implementaron las acciones anteriores. Entre ellos destacan la insuficiencia tecnológica en algunas dependencias, la rotación frecuente de personal, la falta de criterios institucionales homogéneos para clasificar la información y la dificultad para articular procesos interinstitucionales entre áreas generadoras de datos. Asimismo, se detectaron brechas en la capacitación especializada, así como diferencias operativas entre oficinas del centro administrativo y dependencias ubicadas en zonas periféricas, que presentaban mayores tiempos de respuesta debido a limitaciones de conectividad o infraestructura. Las experiencias acumuladas entre 2020 y 2024 dejaron lecciones institucionales relevantes. Se constató que las capacitaciones aisladas no generan cambios sostenibles si no se acompañan de manuales internos actualizados; que la actualización masiva de información mejora indicadores formales pero no necesariamente la calidad del contenido; que la articulación entre áreas es determinante para garantizar respuestas completas; y que la verificación periódica del SIPOT es fundamental para mantener estándares de cumplimiento. Asimismo, la disminución de recursos de revisión demostró que la calidad técnica de las respuestas mejora cuando existe claridad en la clasificación de información y en los procesos de archivo. Finalmente, se observó que otros municipios del estado han avanzado mediante la implementación de sistemas internos de gestión documental integrada, particularmente en localidades que desarrollaron guías internas de clasificación o módulos digitales de consulta institucional. Estas referencias externas evidencian que la mejora en transparencia depende tanto de recursos tecnológicos como de la estandarización de procesos internos, lo que ofrece elementos comparativos útiles para fortalecer la operación municipal. Estas experiencias previas —con avances, limitaciones y aprendizajes documentados— constituyen la base histórica que explica la trayectoria reciente del problema público de transparencia en Oaxaca de Juárez y permiten comprender los factores que dieron forma a su evolución durante los últimos cinco años.

1.2 Metodología para la identificación de la población objetivo y definición de fuentes de información

Paso 1: Definir la población de referencia / universo Servidores públicos del Municipio de Oaxaca de Juárez que participan directa o indirectamente en la generación, gestión, publicación y resguardo de información pública, así como en la atención de solicitudes y la protección de datos personales. Paso 2: Delimitar la población potencial Personal adscrito a áreas generadoras, gestoras y publicadoras de información, unidades administrativas que procesan solicitudes de información, áreas responsables de la gestión documental, archivos y unidades vinculadas al tratamiento de datos personales. (Estimación inicial: 300 servidores públicos.) Paso 3: Establecer criterios de focalización para determinar la población objetivo •Titulares, jefaturas y responsables operativos relacionados con obligaciones de transparencia. •Áreas con historial alto de recursos de revisión. •Unidades con cumplimiento incompleto de obligaciones de transparencia. •Personal sin capacitación reciente en protección de datos personales o gestión documental. Paso 4: Cuantificar la población objetivo Número estimado de servidores que cumplen los criterios anteriores: aprox. 50 servidores públicos. Paso 5: Monitorear la población atendida Servidores capacitados, que adoptaron manuales, estandarizaron procesos o implementaron mejoras de gestión informativa. (Estimación: 45 servidores públicos.) Paso 6: Verificación y fuentes de información •Directorio Institucional del Municipio de Oaxaca de Juárez •Portal de Transparencia Municipal: relación de áreas generadoras, publicadoras y responsables de obligaciones de transparencia. •Plataforma Nacional de Transparencia (PNT) y SIPOT •Informes del OGAIPO •Sanciones o medidas de apremio aplicables a áreas municipales. •Informes administrativos internos de la Unidad de Transparencia: •Listado de personal capacitado, •Reportes de carga de información, •Registros de solicitudes de información atendidas. •Documentos de referencia interna: •Manual de Procedimientos de la Unidad de Transparencia, •Organigrama de la Unidad de Transparencia Paso 7: Segmentación adicional (opcional) •Personal que atiende solicitudes de información (UT). •Personal responsable de gestión de datos personales. •Áreas según volumen de solicitudes recibidas o carga de información. Paso 8: Validación y ajuste La Unidad de Transparencia revisa la consistencia entre directorios, reportes del OGAIPO, registros de capacitación y datos de cumplimiento para validar la población objetivo y la población atendida, realizando ajustes cuando existan cambios de adscripción, movimientos administrativos o sustitución de responsables de OT.

Definición y cuantificación de los conceptos poblacionales del Pp	

Población Potencial	210,000 personas adultas	**Cuantificación:**	210,000 personas adultas, estimación basada en la población total del municipio (270,955 habitantes según INEGI 2020) y proyecciones a 2025 (CONAPO).
		Criterios de Focalización	Ciudadanía adulta residente en todo el municipio. Zonas con mayor brecha digital o limitado acceso a internet (agencias y colonias periféricas). Personas con interés o necesidad de consultar información sobre obras, servicios, trámites o decisiones municipales. Personas mayores de 18 años residentes en el municipio de Oaxaca de Juárez que, por su condición ciudadana, pueden ejercer el derecho de acceso a la información pública, la protección de datos personales y la rendición de cuentas.
Población Objetivo	80,000 personas	**Cuantificación:**	80,000 personas, estimadas con base en el segmento ciudadano que utiliza servicios digitales, realiza trámites municipales o potencialmente presenta solicitudes de información.
		Criterios de Focalización	Habitantes de agencias con rezago en conectividad o acceso digital. Ciudadanía que consulta o intenta consultar la PNT o el Portal de Transparencia Municipal. Mujeres, personas adultas mayores y población indígena con barreras diferenciales de acceso a la información. Personas que han presentado solicitudes de información o participan en mecanismos de vigilancia ciudadana. Personas mayores de 18 años que requieren acceso efectivo, oportuno y comprensible a la información pública municipal y que enfrentan barreras como falta de información actualizada, rezago digital o tiempos de respuesta tardíos.
Población atendida (beneficiarios)	25,000 personas adultas	**Cuantificación:**	25,000 personas adultas, estimadas según la capacidad operativa y digital proyectada del municipio para 2025 (solicitudes atendidas, consultas al portal, descargas de información y acciones de difusión).
		Criterios de Focalización	Personas cuyas solicitudes de información son atendidas en tiempo y forma. Ciudadanía que consulta OT, informes, datos abiertos y otros contenidos del portal de transparencia. Habitantes de zonas con baja conectividad que logran acceder a información más clara y accesible gracias a las mejoras del programa. Ciudadanas y ciudadanos mayores de 18 años que efectivamente reciben los beneficios del programa mediante respuestas completas y motivadas a sus solicitudes, acceso a Obligaciones de Transparencia actualizadas y consulta de datos e informes municipales. Personas beneficiadas por una mejor protección de datos personales y mayor calidad en la información entregada.

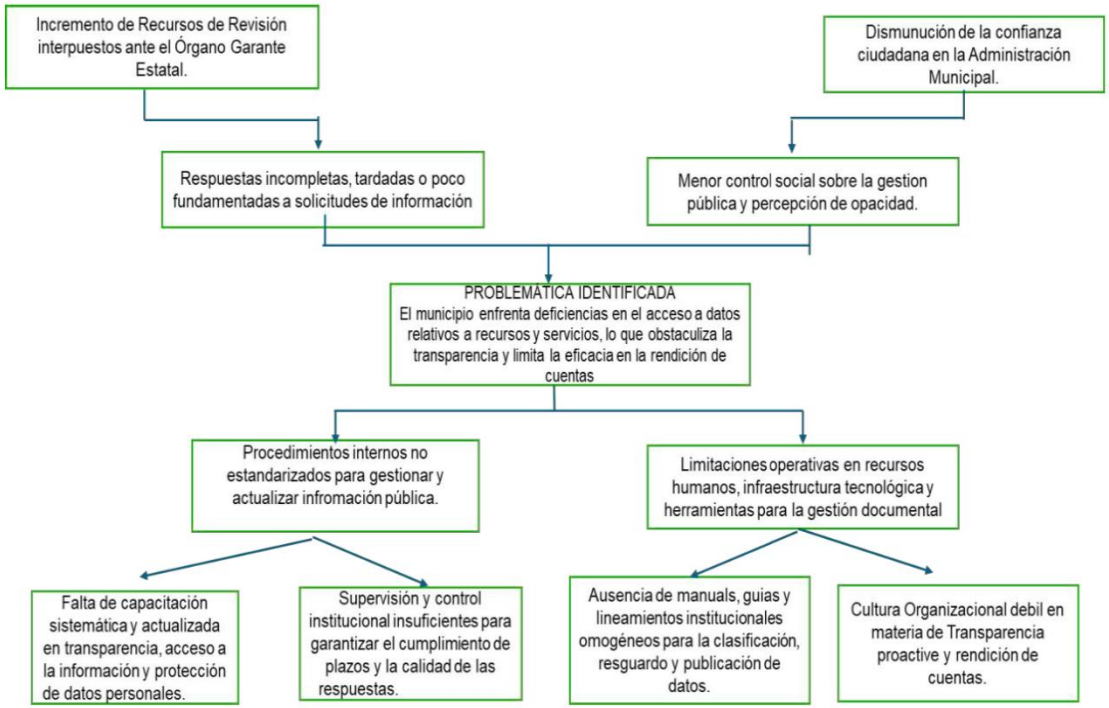
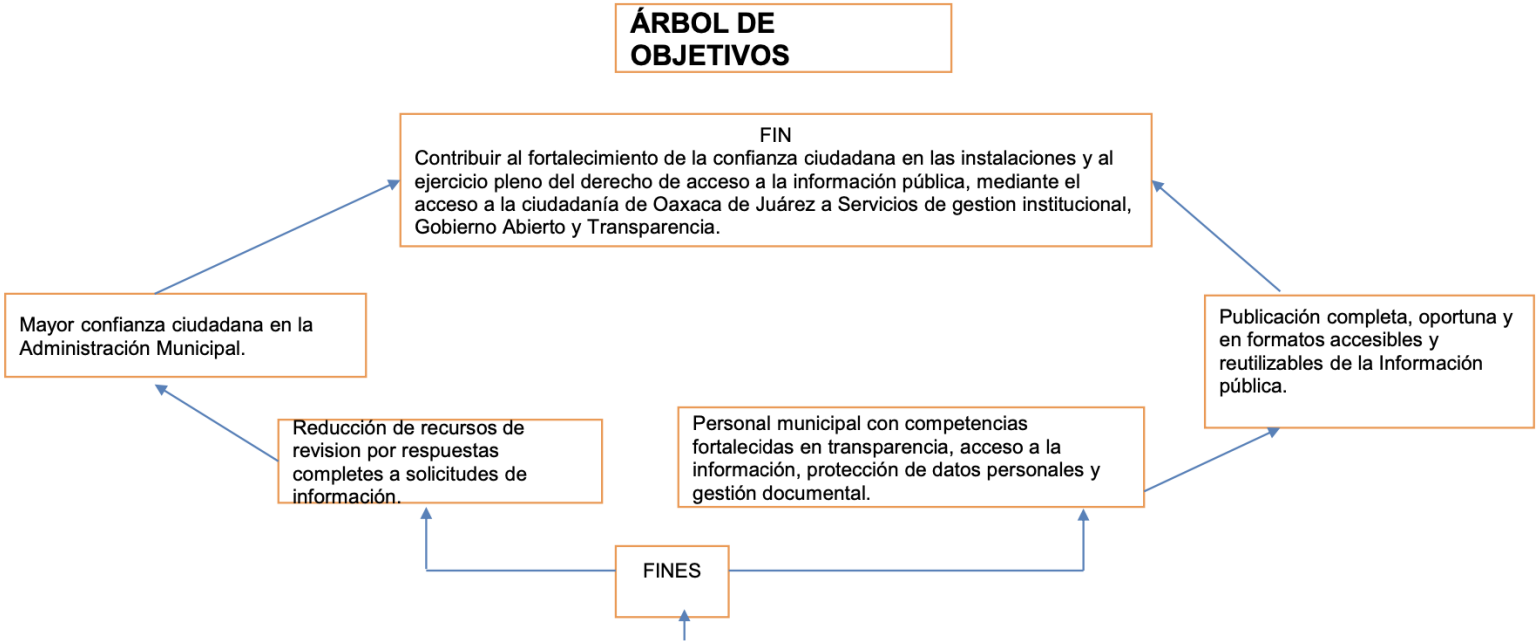
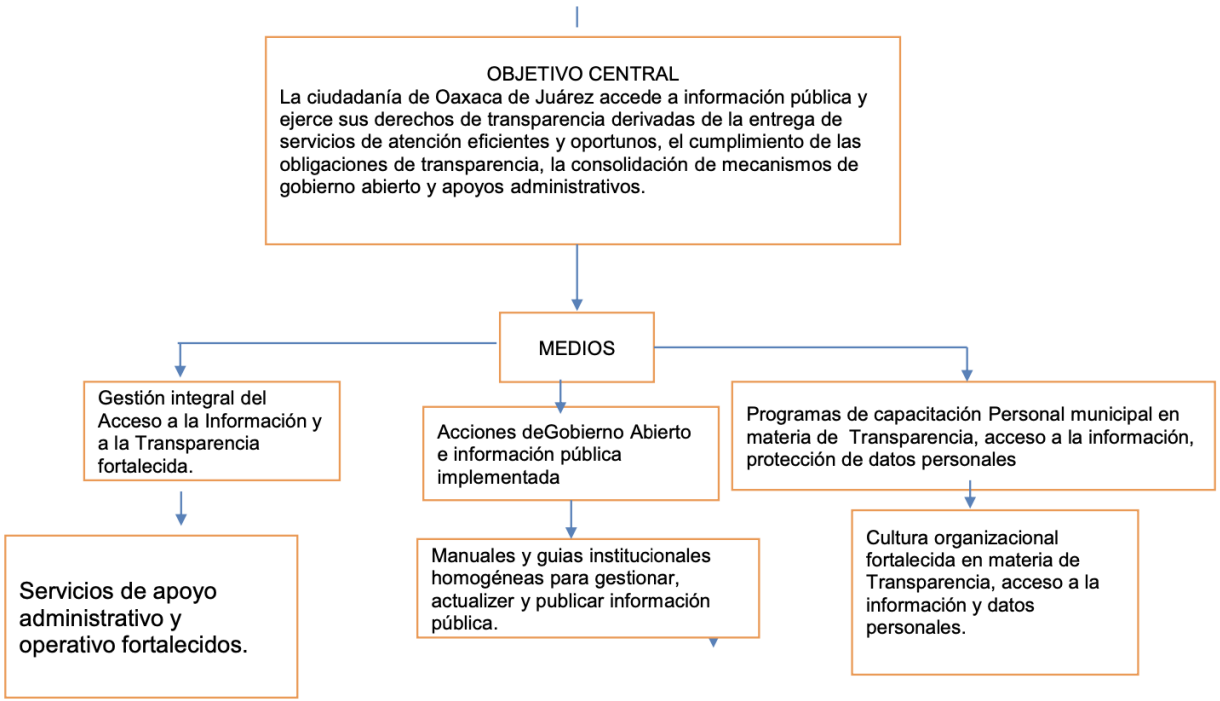
Árbol de Problemas



Árbol de Objetivos





2. Estrategia para la selección de alternativas.	

La selección de alternativas se fundamenta explícitamente en el diagnóstico, el Árbol de Problemas y el Árbol de Objetivos, siguiendo los lineamientos metodológicos del Marco Lógico. Conforme a esta metodología, las alternativas deben derivarse directamente de los medios formulados en el Árbol de Objetivos y representar distintas estrategias plausibles para alcanzar el objetivo central del programa.

Con base en este análisis, se identifican cuatro alternativas posibles. La primera consiste en un enfoque institucional orientado al fortalecimiento de capacidades mediante capacitación especializada y consolidación de criterios internos. La segunda plantea un enfoque tecnológico centrado en la incorporación de herramientas digitales para la gestión de solicitudes de información y la publicación de obligaciones de transparencia. La tercera alternativa se basa en un enfoque organizacional que prioriza la mejora de procesos internos, la supervisión, el liderazgo y la sensibilización institucional. Finalmente, la cuarta alternativa plantea una estrategia integral que combina fortalecimiento de capacidades, tecnología, estandarización de

procesos y cultura organizacional. Estas opciones reflejan directamente los medios identificados en el Árbol de Objetivos.

De las alternativas identificadas, la estrategia integral resulta ser la más viable y se selecciona como alternativa preferente. Esta elección se fundamenta en criterios de viabilidad técnica, institucional y presupuestal, así como en el impacto esperado. Desde el punto de vista técnico, la problemática diagnosticada presenta múltiples causas simultáneas, por lo que ninguna intervención aislada sería capaz de resolverla plenamente; una estrategia integral atiende de manera coordinada los factores operativos, normativos, tecnológicos y culturales. En términos institucionales, la heterogeneidad en las capacidades de las áreas generadoras de información requiere una intervención que permita estandarizar criterios y fortalecer a todas las unidades involucradas. Asimismo, desde la perspectiva presupuestal, la integración de acciones no implica gastos superiores, ya que los componentes pueden articularse dentro de un solo programa operativo anual. Por estas razones, la opción integral garantiza un mayor impacto y sostenibilidad en el cumplimiento del objetivo central.

La alternativa seleccionada se vincula directamente con la forma en que se ejecutará el Programa Presupuestario a través de sus componentes y actividades. La estrategia integral permite estructurar componentes orientados al fortalecimiento institucional, tales como capacitación, elaboración de criterios internos y estandarización de procesos. Asimismo, sustenta componentes vinculados con la mejora tecnológica, necesarios para la gestión de solicitudes de información y la publicación de obligaciones de transparencia. También da soporte a actividades de supervisión, control y seguimiento, indispensables para garantizar respuestas completas y dentro de los plazos legales. Finalmente, posibilita el desarrollo de un componente transversal de cultura institucional que contribuya a modificar prácticas y consolidar una gestión documental eficiente.

Además, la estrategia seleccionada se alinea plenamente con el Plan Municipal de Desarrollo 2025–2027, en particular con el Eje 2, orientado a promover un gobierno abierto, eficiente y con participación ciudadana. Esta alineación se refleja en la correspondencia del objetivo del programa con las prioridades del PMD, que incluyen fortalecer la transparencia, mejorar los procesos administrativos, impulsar la innovación y consolidar la confianza ciudadana. Asimismo, la estrategia integral mantiene coherencia con los distintos niveles del Marco Lógico: contribuye al Fin de un gobierno municipal más abierto y confiable; se orienta al Propósito de una gestión eficiente, completa y oportuna de la información pública; sustenta componentes relacionados con capacidades institucionales, lineamientos internos, procesos estandarizados, infraestructura técnica y cultura de transparencia; y permite organizar actividades operativas congruentes con la estructura jerárquica del programa.

INDICADORES ESTRATÉGICOS Y DE GESTIÓN.

Municipio de Oaxaca de Juárez, Distrito Centro, Oaxaca		
INDICADORES ESTRATÉGICO Y DE GESTIÓN		
PROGRAMA	**TIPO DE INDICADOR (Estratégico/Gestión)**	**NOMBRE DEL INDICADOR**
1. Administración Eficiente Municipal	Estratégico	Tasa de crecimiento de acceso a la gaceta municipal.
	Estratégico	Porcentaje de acciones sustantivas, administrativas, jurídicas, documentales y de Gobierno insitucional implementadas.
	Gestión	Acciones de soporte institucional normativos y documental del Cabildo Municipal implementadas
	Gestión	Acciones de supervisión normativa, validación documental y difusión oficial del quehacer institucional municipal implementadas
	Gestión	Servicios de gestión, resguardo, acceso y difusión del patrimonio documental e histórico municipal implementados
	Gestión	Constancias de acreditación personal y jurídica, así como cartillas de no alistamiento militar emitidas
	Gestión	Servicios de apoyo administrativo, jurídico y operativo implementados
2. Administración Eficiente de Recursos Institucionales	Estratégico	Tasa de crecimiento de la asignación global de recursos para servicios personales aprobada en el presupuesto de egresos del Municipio para el ejercicio que se está presupuestando.
	Estratégico	Porcentaje de acciones administrativas, operativas y de atención institucional implementadas respecto a las programadas.
	Gestión	Servicios de gestión administrativa y fortalecimiento del capital humano implementados.
	Gestión	Servicios de adquisición, mantenimiento y control administrativo implementados para las dependencias del Municipio de Oaxaca de Juárez.
	Gestión	Controles administrativos de bienes muebles e inmuebles del municipio implementados.
	Gestión	Servicios de atención a prestaciones y trámites contractuales del personal sindicalizado implementados.
	Gestión	Servicios de apoyo administrativo, jurídico y operativo implementados
3. Fortalecimiento de las Finanzas Públicas	Estratégico	Porcentaje de avance en la implementación del PbR-SED en el Municipio de Oaxaca de Juárez.
	Estratégico	Balance presupuestario municipal sostenible.
	Gestión	Acciones de gestión, recaudación, control y supervisión de ingresos municipales realizadas para fortalecer la hacienda municipal
	Gestión	Expedientes catastrales integrados y actualizados, verificados y valuados, con registros y órdenes de pago emitidas.
	Gestión	Planeación, programación y seguimiento del ejercicio del gasto municipal realizado.
	Gestión	Acciones contables, financieras y presupuestales implementadas para el cumplimiento de la normatividad aplicable
	Gestión	Servicios de apoyo administrativo, jurídico y operativo implementados.
4. Infraestructura Municipal Sostenible	Estratégico	Carencia por acceso a servicios básicos en la vivienda.
	Estratégico	Porcentaje de acciones sustantivas para el acceso equitativo y sostenible a infraestructura y servicios públicos.
	Gestión	Obras públicas programadas, contratadas y supervisadas conforme a la normatividad aplicable.
	Gestión	Acciones de supervisión, mantenimiento y ejecución directa de obras urbanas coordinadas y realizadas para conservar y mejorar la infraestructura del municipio.
	Gestión	Acciones de ordenamiento territorial, regulación urbanística y control de licencias implementadas para el mejoramiento de la infraestructura y el orden urbano del municipio.
	Gestión	Acciones de regulación urbanística, conservación del patrimonio y mejora del entorno urbano del Centro Histórico implementadas.
	Gestión	Servicios de apoyo administrativo, jurídico y operativo implementados

PROGRAMA	TIPO DE INDICADOR (Estratégico/Gestión)	NOMBRE DEL INDICADOR
5. Gobernabilidad y Gestión Integral de Riesgos	Estratégico	Tasa de conflictividad municipal.
	Estratégico	Porcentaje de acciones sustantivas realizadas para fortalecer la participación ciudadana, la atención a autoridades auxiliares y comités vecinales y la gestión integral de riesgos.
	Gestión	Acciones institucionales implementadas para la atención de autoridades auxiliares, comités vecinales y ciudadanía.
	Gestión	Acciones de promoción del diálogo, prevención de riesgos y construcción de paz comunitaria implementadas

II. ANTECEDENTES

Debido a que las prestaciones económicas que otorga la ley, dependen de alguna contingencia, es necesario utilizar técnicas actuariales que por medio de hipótesis de muerte, invalidez, y rotación, así como de rendimientos bancarios, incrementos salariales, etc., nos permitan encontrar los ingresos, egresos y saldos del fondo de Prestaciones Económicas, durante los próximos 100 años (170 años para pasivos contingentes), de la manera más aproximada posible.

El cálculo actuarial es la única técnica que determina el costo actual y futuro de las obligaciones del área de prestaciones económicas, proporcionando una amplia información que deberá considerarse como fundamental para definir el rumbo del Esquema de Seguridad Social, de la manera más aproximada posible.

La situación del área de prestaciones económicas, no se refleja en los estados financieros, pues actualmente estos no determinan el valor de los derechos adquiridos de sus afiliados, ni en qué momentos serán exigibles.

Además de lo anterior, la necesidad del Estudio Actuarial es una de las principales conclusiones de los Congresos Nacionales de Instituciones de Seguridad Social, pues sirven de base tanto para determinar el rumbo de los sistemas de pensiones como para la toma de decisiones cotidianas.

III. CARACTERÍSTICAS DE LAS PRESTACIONES EVALUADAS

Generales

Salario de Cotización al IMSS	:	Salario con el que se cotiza actualmente al IMSS (3.5 UMAs).
Salario de Cotización a Pensiones	:	El que se integra por sueldo tabular, quinquenio, canasta básica, vida cara, previsión social, canasta navideña y compensación de primavera, en los casos que aplique.
Nómina de Referencia	:	Para efectos de este estudio se considerará a la nómina de referencia al sueldo base presupuestal, la cual se utilizará como base en las gráficas de este documento.
Incremento a pensiones	:	Las pensiones se incrementarán una vez al año en el mes de febrero de acuerdo con el Índice Nacional de Precios al Consumidor (INPC).

Presente en el futuro

C0000070

Aguinaldo pensionados : 50 días de pensión.

Prestaciones adicionales al sueldo base para el personal activo y pensionado

Canasta Básica, Vida Cara, Previsión Múltiple:
De acuerdo a la categoría estipulado en el tabulador y una vez otorgado no sufre incremento.

Quinquenios:
Se paga mensualmente 5% del monto del sueldo tabular por quinquenio.

Canasta Navideña:
Jubilados y pensionados por vejez titulares $95.00 (2021)

Compensación de Primavera.
16 días de la pensión base.

Cotizaciones al IMSS

En caso de que el trabajador acceda a una pensión por parte de la Dirección de Pensiones, antes de tener derecho a recibir una pensión por parte del IMSS; el patrón continuará realizando las cuotas y aportaciones al IMSS hasta que reciban la pensión de dicho Instituto de tal forma que se aplique la complementariedad descrita en el presente documento.

Prestaciones

Personal con ingreso a partir de entrada en vigor la reforma y nuevas generaciones

Complementariedad de las Pensiones

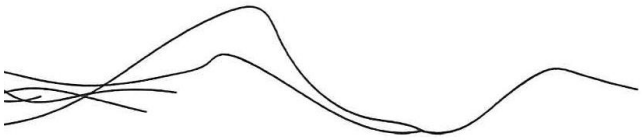
Las pensiones serán complementarias a las otorgadas por el IMSS al 100%.

Salario Regulador

Será el 90.5% del promedio ponderado del salario de cotización a la Dirección de Pensiones del Municipio de toda la vida laboral del trabajador previa actualización mediante el INPC.

Presente en el futuro

00000069



Cuotas y Aportaciones

	Porcentaje del Salario de Cotización a Pensiones
Trabajador (Cuota)	9.50%
H. Ayuntamiento (Aportación)	16.00%
Total	25.50%

Pensiones

Pensión por Jubilación

Requisito : Contar con al menos 30 años de servicio y 65 años de edad.
Monto : Una cantidad que sumada a la pensión del IMSS de como resultado el 100% del salario regulador.
Plazo : Vitalicia con transmisión a beneficiarios disminuyendo anualmente un 10% hasta llegar al 60% de la pensión complementaria original.

Pensión por Vejez

Requisito : Contar con 65 años de edad y al menos 15 años de servicio.
Monto : Una cantidad que sumada a la pensión del IMSS de como resultado la multiplicación del salario regulador por el factor descrito en la siguiente tabla:

Antigüedad	Factor 1	Antigüedad	Factor 1
15	0.5000	23	0.7666
16	0.5333	24	0.8000
17	0.5666	25	0.8333
18	0.6000	26	0.8666
19	0.6333	27	0.9000
20	0.6666	28	0.9333
21	0.7000	29	0.9666
22	0.7333	30 o más	1.0000

Plazo : Vitalicia con transmisión a beneficiarios disminuyendo anualmente un 10% hasta llegar al 60% de la pensión complementaria original.

Presente en el futuro

00000068

Personal con ingreso anterior a la entrada en vigor la reforma

Complementariedad de las Pensiones

Las pensiones serán complementarias a las otorgadas por el IMSS en un porcentaje (según aplique) de acuerdo a la siguiente tabla:

Años que le faltan para cumplir 25 o 29 años de servicio al momento de la reforma	%
0 a 4	0.00%
5 en adelante	100.00%

Salario Regulador

Será un porcentaje del promedio ponderado de los últimos salarios de cotización del trabajador, previa actualización mediante el INPC, de acuerdo con las siguientes tablas:

4	58
5	59
6	60
7	61
8	62
9	63
10	64
11 o más	65

Monto : Una cantidad que sumada a la pensión del IMSS de como resultado la multiplicación del salario regulador por el factor descrito en la siguiente tabla:

Antigüedad	Factor 1	Antigüedad	Factor 1
15	0.5000	23	0.7666
16	0.5333	24	0.8000
17	0.5666	25	0.8333
18	0.6000	26	0.8666
19	0.6333	27	0.9000
20	0.6666	28	0.9333
21	0.7000	29	0.9666
22	0.7333	30 o más	1.0000

Plazo : Vitalicia con transmisión a beneficiarios disminuyendo anualmente un 10% hasta llegar al 60% de la pensión complementaria original.

Pago Único

Estímulo a la Permanencia

Los trabajadores que hayan cumplido con el tiempo de cotización requerido para acceder a su pensión al 100% así como con la edad requerida, podrán optar por un estímulo a la permanencia que consistirá en otorgar un porcentaje del salario sujeto

Presente en el futuro

00000065

a cotización dependiendo de los años en exceso de la fecha de jubilación, como se indica en la siguiente tabla:

Años en exceso de la fecha de jubilación	Porcentaje del salario sujeto a cotización
1 a 3	0
4	8%
5	10%
6	12%
7	14%
8	16%
9	18%
10 o más	20%

Este estímulo que se otorgue no será considerado para efectos de la determinación del sueldo regulador con el que recibirá la pensión el trabajador y se eliminará al cumplir los 65 años de edad.

Todo el personal

Pensión Anticipada por Vejez o Cesantía

Requisito : Contar con al menos 60 años de edad y 15 años de servicio.
Monto : Una cantidad que sumada a la pensión del IMSS de como resultado la multiplicación del salario regulador por los factores 1 y 2 descritos en las siguientes tablas de acuerdo con su antigüedad y edad:

Antigüedad	Factor 1	Antigüedad	Factor 1	Edad	Factor 2
15	0.5000	23	0.7666	60	0.750
16	0.5333	24	0.8000	61	0.800
17	0.5666	25	0.8333	62	0.850
18	0.6000	26	0.8666	63	0.900
19	0.6333	27	0.9000	64	0.950
20	0.6666	28	0.9333	65 o más	1.000
21	0.7000	29	0.9666		
22	0.7333	30 o más	1.0000		

Plazo : Vitalicia con transmisión a beneficiarios disminuyendo anualmente un 10% hasta llegar al 60% de la pensión complementaria original.
Nota : Para la transición el factor 2 aplica siempre que el requisito para acceder a la pensión por jubilación sea igual o superior a 60 años.

Presente en el futuro

00000064

Pensión por Invalidez por causas ajenas al trabajo

Requisito : Invalidarse por causas ajenas al trabajo y contar con al menos 3 años de servicio.

Monto : Una cantidad que sumada a la pensión del IMSS de como resultado la multiplicación del salario regulador por el factor descrito en la siguiente tabla:

Antigüedad	Factor 1	Antigüedad	Factor 1
3 a 15	0.5000	23	0.7666
16	0.5333	24	0.8000
17	0.5666	25	0.8333
18	0.6000	26	0.8666
19	0.6333	27	0.9000
20	0.6666	28	0.9333
21	0.7000	29	0.9666
22	0.7333	30 o más	1.0000

Plazo : Vitalicia con transmisión a beneficiarios disminuyendo anualmente un 10% hasta llegar al 60% de la pensión complementaria original.

Pensión por muerte por causas ajenas al trabajo

Requisito : Fallecer por causas ajenas al trabajo y contar con al menos 3 años de servicio.

Monto : Una cantidad que sumada a la pensión del IMSS de como resultado la multiplicación del salario regulador por el factor descrito en la siguiente tabla:

Antigüedad	Factor 1	Antigüedad	Factor 1
3 a 15	0.5000	23	0.7666
16	0.5333	24	0.8000
17	0.5666	25	0.8333
18	0.6000	26	0.8666
19	0.6333	27	0.9000
20	0.6666	28	0.9333
21	0.7000	29	0.9666
22	0.7333	30 o más	1.0000

Plazo : Vigencia de derechos.

Presente en el futuro

00000063

Pensión por Inhabilitación por Causas de Riesgo de Trabajo

Requisito	:	Incapacitarse por causas de trabajo independientemente de la antigüedad.
Monto	:	Una cantidad que sumada a la pensión del IMSS de como resultado el 100% del sueldo regulador.
Plazo	:	Vitalicia con transmisión a beneficiarios disminuyendo anualmente un 10% hasta llegar al 60% de la pensión complementaria original.

Pensión por Fallecimiento por Causas de Riesgo de Trabajo

Requisito	:	Fallecer por causas de trabajo independientemente de la antigüedad.
Monto	:	Una cantidad que sumada a la pensión del IMSS de como resultado el 100% del sueldo regulador.
Plazo	:	Vigencia de derechos.

Pagos Únicos

Gastos de Funeral al fallecimiento de un pensionista

Requisito	**:**	Fallecer siendo pensionista.
Monto	**:**	2 meses de pensión.

Prima de Antigüedad a cargo del Patrón

La establecida en la Ley Federal del Trabajo.

Personal con derecho adquirido a la entrada en vigor la reforma y pensionados actuales

A este personal no se le aplica cambio alguno.

IV. OBJETIVO DEL ESTUDIO ACTUARIAL Y TRABAJOS REALIZADOS

Los principales objetivos del estudio son los siguientes:

1. Determinar los pasivos por servicios pasados y futuros generados por las prestaciones sujetas al suceso de alguna contingencia.
2. Estimar los déficit actuariales.
3. Proyectar los egresos esperados por los beneficios evaluados, anualmente durante los próximos 100 años.
4. Calcular las aportaciones, como porcentaje de la nómina base de cotización del personal activo, que requeriría el Dirección de Pensiones del Municipio para hacer frente a sus obligaciones, bajo diferentes métodos actuariales.

V. RESERVAS

Para efectos de este estudio se consideró una reserva de $1'666,345.34

VI. DESCRIPCIÓN DE LOS MÉTODOS DE FINANCIAMIENTO

Prima Media General (PMG)

Para determinar la aportación del año al fondo o costo normal, se utilizó un método de financiamiento colectivo a grupo cerrado y a grupo abierto con el siguiente procedimiento esquemático:

1. Con base en las Hipótesis Actuariales demográficas, se proyectó el número de personas que tendrá derecho a una pensión.
2. Con base en la Hipótesis Actuarial de mortalidad se proyectó el número de pensionados que año con año sobreviven.
3. Tomando en cuenta las características del plan se proyectó, con base en el resultado del punto anterior, el monto de los egresos anuales que deberán ser cubiertos por el fondo por concepto de Pensiones.
4. Considerando la Hipótesis Actuarial del rendimiento del fondo, se calculó el valor presente de los egresos mencionados en el punto anterior. A este concepto se le denomina valor presente de obligaciones.

Presente en el futuro

00000361

5. Tomando en cuenta las Hipótesis Actuariales demográficas y de incremento salarial, se proyectó la nómina anual entre la fecha de evaluación y la fecha de jubilación del último empleado que la solicitó.

6. Considerando la Hipótesis Actuarial del rendimiento del fondo, se calculó el valor presente de los sueldos proyectados según el punto anterior. A este concepto se le denomina valor presente de sueldos futuros.

7. El resultado de dividir la diferencia entre el valor presente de obligaciones y la reserva existente a la fecha de evaluación, entre el valor presente de sueldos futuros, indica qué porcentaje de los sueldos representan las obligaciones.

8. Tomando en cuenta que se cumple el efecto conjunto de las Hipótesis Actuariales implicadas en el cálculo, el porcentaje mencionado en el punto anterior se mantendrá constante durante los años futuros y se aplicará a la nómina en curso para determinar el monto de las aportaciones anuales al fondo o costo normal.

En el caso de grupo abierto, se consideró como fecha límite de ingreso al trabajo el año 100 y se supone que habrá egresos hasta por 170 años; período considerado para cálculo de valor presente actuarial.

Las ganancias o pérdidas Actuariales provocadas por desviaciones en las Hipótesis empleadas en el cálculo, se distribuyen uniformemente en los años futuros.

Primas Óptimas de Liquidez

El Método de las Primas Optimas de Liquidez es un método que fue diseñado en nuestro despacho y consiste en determinar la menor o las menores primas expresadas en porcentaje de la nómina integrada del personal actualmente activo, que se estima garantice la liquidez perenne de las instituciones de seguridad social y que deberá ser igual para las actuales y futuras administraciones, evitando así caer en extremos, como la amortización anticipada de los pasivos contingentes o como el diferimiento de su pago.

Como ya se mencionó para determinar la Primas Optimas de Liquidez, es necesario calcular para los próximos 100 años, las erogaciones anuales que efectuará el sistema de seguridad social evaluado por concepto de prestaciones y de gastos de administración. Este cálculo debe elaborarse bajo el sistema de grupo abierto, es decir, suponiendo que los trabajadores que por cualquier causa se separen de su trabajo, serán sustituidos por nuevos trabajadores. Así mismo podrá suponerse el ingreso de nuevos trabajadores como crecimiento demográfico de la institución.

Presente en el futuro

00000060

Obviamente, se calcularán las erogaciones que hará el sistema por concepto de prestaciones y gastos de administración para con los trabajadores sustitutos y para con los sustitutos de los sustitutos, las cuales serán agregadas a las erogaciones generadas por el personal actualmente activo y personal actualmente pensionado.

Una vez encontrados los egresos futuros por cada una de las causas de pago, se inicia un proceso de aproximación, suponiendo un porcentaje de las nóminas de cada año como aportación al fondo, mostrando así, tanto los egresos como los ingresos y los saldos futuros de la institución en porcentaje de dichas nóminas.

El proceso de aproximación concluirá cuando, en los años de madurez del sistema de seguridad social, se estabilicen los saldos del fondo como porcentaje de la nómina integrada del personal actualmente activo. Se puede dar el caso de que, en determinado año, los egresos disminuyan con respecto de la nómina de activos, requiriéndose una prima escalonada decreciente.

Nota: El valor presente de los egresos esperados de un sistema de pensiones, si la Primas Óptimas de Liquidez se calculara a un plazo determinado, debe ser igual al valor presente de las obligaciones.

VII. HIPÓTESIS ACTUARIALES

A continuación, se muestran las hipótesis utilizadas en este estudio, considerando dos escenarios financieros:

1) Tasa real de rendimiento: 2.0 % anual compuesto.
2) Tasa real de rendimiento: 3.0 % anual compuesto.

Nota: La hipótesis de rotación se determinó en función de la edad, antigüedad y tipo de personal evaluado, la cual se aplica diferenciada para cada tipo de personal tomando como base la rotación del ISSSTE Federal.

La veracidad de los resultados del presente estudio actuarial dependerá del cumplimiento conjunto de las hipótesis utilizadas y de la calidad de la información que nos fue proporcionada.

Las hipótesis demográficas y biométricas se muestran a continuación.

Factor de incapacidad por riesgos de trabajo	0.0009075
Factor de fallecimiento por riesgos de trabajo	0.0002910

Nota: Los factores anteriores son los aplicados por el IMSS al 75% debido a que el riesgo de los burócratas y de los maestros teóricamente es menor que el de los afiliados al IMSS que en su mayoría son obreros.

iii) PROYECCIÓN DEMOGRÁFICA DE ACTIVOS Y PENSIONADOS

A continuación, se muestra una proyección del comportamiento esperado de los trabajadores activos y los pensionados.

En el caso del personal activo, se refiere a las hipótesis que se consideran para medir los cambios poblacionales, tales como el incremento poblacional y las probabilidades de permanecer en activo.

Las que corresponden al personal pensionado, se considera la sobrevivencia de las pensiones en curso de pago y se adiciona el número de pensiones esperadas futuras provenientes tanto de la generación actual de trabajadores como de las nuevas generaciones.

iv) JUBILACIONES ESPERADAS ARITMÉTICAS

La siguiente proyección muestra el número de personas que adquiere su derecho a pensionarse por antigüedad y por retiro por edad y tiempo de servicio en cada año.

Cabe aclarar que las proyecciones que a continuación se presentan son resultado de cálculos aritméticos que no involucran probabilidades. Obviamente en los resultados de las proyecciones actuariales si se incluyen las probabilidades que se mencionan en las hipótesis del estudio.

vi) VALOR PRESENTE DE LAS OBLIGACIONES (PRIMA MEDIA GENERAL) Y BALANCES ACTUARIALES

Los siguientes cuadros muestran el monto de los pasivos contingentes que generaría el Proyecto de Reforma por el grupo total de trabajadores de la Dirección de Pensiones del Municipio. Así mismo, se hace la distinción entre los siguientes grupos de personal:

a. Activos actuales
b. Pensionados actuales
c. Nuevas generaciones.

Además, se muestran los balances actuariales utilizando la prima actual y las primas resultantes de los métodos de Prima Media General y Primas Óptimas de Liquidez.

El comportamiento futuro de los ingresos, egresos y saldos futuros de los fondos suponiendo las aportaciones recomendadas bajo el método de **Prima Media General** se muestra en las gráficas indicadas.

Personal	Prima Media General	Tasas de rendimiento	Cuadros	Gráficas
Total	47.54%	2.00%	1a, 1b	1a, 1b
	50.70%	3.00%	2a, 2b	2a, 2b

En todos los casos, las aportaciones y los egresos se calculan sobre la nómina de referencia del personal activo.

Cabe hacer notar que tanto los cuadros como las gráficas tienen un subíndice. En el caso de los cuadros el subíndice **a** representa el valor presente de las obligaciones, el subíndice **b** representa el balance actuarial de la situación actual y el subíndice **c** representa el balance actuarial suponiendo que la Dirección de Pensiones del Municipio recibiera las cuotas y aportaciones totales y se hiciera cargo del pago de las pensiones y prestaciones contingentes.

Por otro lado, en las gráficas el subíndice **a** representa el comportamiento de los ingresos y egresos y el subíndice **b** representa el comportamiento de las reservas.

Nota: El método de primas medias generales no debe utilizarse para evaluar esquemas en donde se reforman las prestaciones de las nuevas generaciones, pues arroja reservas negativas. En todo caso debería establecerse una prima para la generación actual y otra para las nuevas generaciones.

vii) PRIMAS ÓPTIMAS DE LIQUIDEZ

El método de Primas Optimas de Liquidez, utiliza prácticamente toda la información contenida en los formatos. Sin embargo, solo se muestra un resumen de los resultados financiero - actuariales obtenidos mediante este método.

Las siguientes gráficas muestran el comportamiento futuro de los ingresos y egresos del fondo del sistema de pensiones. Asimismo, muestran el comportamiento de las reservas técnicas futuras que se generarían con algunas de las aportaciones resultantes del método **Primas Optimas de Liquidez**:

Personal	Escenario	Aportación	Año de Descapitalización	Período	Gráficas
Total	2.00%	Especificada	2022	2022-2122	3a, 3b
		69.00% 25.39%		2022-2050 2051-2122	4a, 4b
		46.00% **Δ9.00%** 73.00% 24.13%		2022 2023-2024 2025-2050 2051-2122	5a, 5b
Total	3.00%	Especificada	2022	2022-2122	6a, 6b
		69.00% 23.34%		2022-2050 2051-2122	7a, 7b
		46.00% **Δ9.00%** 73.00% 21.53%		2022 2023-2024 2025-2050 2051-2122	8a, 8b

En todos los casos, las aportaciones y los egresos se calculan sobre la nómina de referencia del personal activo.

Cabe señalar que las gráficas que tienen el subíndice **a** representan el comportamiento de los ingresos y egresos, mientras que el subíndice **b** representa el comportamiento de las reservas.

Δ Representa el porcentaje de incremento anual durante el período señalado.

Para poder interpretar las gráficas, es necesario definir lo siguiente:

Presente en el futuro

00000033

- **Egresos** (línea roja), representan los costos estimados que la Dirección de Pensiones del Municipio tendría por el pago de las pensiones y prestaciones contingentes derivados de sus contratos colectivos de trabajo.
- **Aportaciones** (línea verde), representan las cuotas y aportaciones que ingresan al fondo de pensiones.
- **Reserva**, es el saldo estimado que tendría el fondo resultante de la diferencia entre los egresos y los ingresos al fondo de pensiones.

Dado lo anterior para obtener el monto en pesos, es necesario multiplicar el porcentaje de los gastos, ingresos o saldo que se muestra en la gráfica por la nómina vigente en el momento deseado.

IX. COMENTARIOS GENERALES Y RECOMENDACIONES

La reforma al sistema de pensiones del H. Ayuntamiento de Oaxaca de Juárez implicaría ahorros en los flujos de egresos por lo que disminuyen los déficits Actuariales, más no libera a la Dirección de Pensiones de ser inviable financieramente.

A continuación, se presentan cuados y gráficas comparativas de los flujos y costos a valor presente considerando y sin considerar la nueva reforma:

Comportamiento de los costos a cargo del Patrón

Personal Total

00000002

Se puede concluir que el Proyecto de Reforma representa una disminución en los costos, mismos que se pueden cuantificar a valor presente, considerando una tasa del 2.00%, de las siguientes formas:

a) Disminución del Déficit Actuarial del **sistema de pensiones y prestaciones contingentes**:

		Valor Presente	%
Generación Actual	:	2,213,589,817.67	46.28%
Nuevas Generaciones	:	4,518,118,319.57	157.88%
Total	:	6,731,708,137.24	88.05%

b) Disminución del Costo para la Dirección de Pensiones:

		Valor Presente	%
Generación Actual	:	1,966,340,512.61	38.11%
Nuevas Generaciones	:	3,939,464,126.92	98.48%
Total	:	5,568,300,587.76	60.79%

Agradecemos la confianza depositada en nuestro despacho para el desarrollo de este trabajo.
